CONTENTS.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 25th August 1913.

Summary.—During the week under review moderate rain fell all over the province. Further reports of damage to standing crops from the effects of the recent floods have been received. Transplantation of winter rice and harvesting of autumn rice are nearing completion. The winter rice in parts of flooded areas will have to be re-planted. The harvesting of jute is progressing briskly. The prospects of the standing crops are not good in West Bengal, but fair in East Bengal. Condition of cattle is bad in flood-affected areas, where there is also a dearth of fodder and drinking water. The condition of the agricultural population of Contai has been reported to be bad on account of the flood. Cattle-disease has been reported from four districts. Damage to standing crops by insect pests has been reported from Khulna only. The price of rice has risen by about 1·3 per cent. as compared with that of the previous week.

Serial No.	Districts and subdivisions.	Rainfall.	Price of common rice, in seers, per rupee.		Character of the weather, condition of crops, etc.
			This week.	Previous week.	
1	2	3	4	5	6
		Inches.			
1	24-PARGANAS	1·88	6¼	6¼	Weather seasonable. The transplantation of winter paddy and harvesting of jute are going on. Jute and *aus* paddy have been much damaged. Fodder and water sufficient. Condition of cattle is good.
	Diamond Harbour.	1·23	(*n*)	7¾	
	Barrackpore	(*n*)	(*n*)	7	
	Barasat ...	2·01	6½	6½	
	Basirhat ...	1·42	7	7	
2	NADIA ...	0·58	7¼	7¼	Weather seasonable. Harvesting of *aus* paddy continues. Prospects of jute and other standing crops are not favourable. Stocks of food-grains, fodder and water are sufficient. No cattle-disease is reported.
	Kushtia ...	(*n*)	(*n*)	6¾	
	Meherpur ...	(*n*)	(*n*)	7½	
	Chuadanga ...	3·02	7½	7½	
	Ranaghat ...	2·11	7	7	
3	MURSHIDABAD	0·51	7	7¾	Weather seasonable. Jute and other standing crops are damaged to some extent from the effects of excessive rain of previous weeks. Cattle-disease is reported from Nawada police-station (Sadar). Fodder and water are sufficient.
	Lalbagh ...	(*n*)	(*n*)	7½	
	Jangipur ...	1·05	7½	(*n*)	
	Kandi ...	2·13	8	8¼	
4	JESSORE ...	1·00	7¼	7¼	Weather seasonable. Transplantation of winter rice is nearly finished. Harvesting of *aus* paddy has been stopped in Jhenidah on account of rain. Stock of food-grains is insufficient in Narail, but water is sufficient. Want of fodder is felt in places. Condition of agricultural stock is fair. No cattle-disease.
	Jhenidah ...	3·50	6½	6½	
	Magura ...	1·53	7	7	
	Narail ...	2·10	7 5/16	7 5/16	
	Bangaon ...	0·59	7¼	7¼	
5	KHULNA ...	1·89	6½	7	Weather seasonable. Harvesting of jute and *aus* paddy and transplantation of winter rice are in progress. *Paruli* insects are damaging paddy seedlings in Paikgachha thana. Outturn of jute and *aus* paddy is poor. Foot-and-mouth disease is reported from Paikgachha thana. Fodder is sufficient.
	Satkhira ...	1·55	6½	6½	
	Bagerhat ...	1·70	6½	6½	

NOTE.—For subdivisional stations, figures of rainfall and prices relate to the week ending on the previous Saturday. The prices reported from Noakhali are those prevailing on the previous Saturday. From all other head-quarters stations, figures for prices and rainfall relate to the week ending on Monday.

(*n*) Not reported.

Serial No.	District and subdivisions.	Rainfall.	Price of common rice, in seers, per rupee. This week.	Price of common rice, in seers, per rupee. Previous week.	Character of the weather, condition of crops, etc.	
1	2	3	4	5	6	7
		Inches.				
6	BURDWAN ...	0·34	7½	7½	Weather hot. Rainfall is general. Transplantation of winter rice is over except in flood-affected tracts. The flood has damaged jute in Kalna and winter rice in the Sadar, Asansol and Katwa subdivisions. Jute being cut and steeped in Kalna. Prospects of jute are bad and those of other crops are fair. Cattle-disease has been reported from Faridpur thana. Stocks of food-grains, fodder and water are sufficient except in places of flood-affected area.	
	Asansol ...	0·51	8	8		
	Katwa ...	1·26	7 15/16	8¼		
	Kalna ...	1·89	6	6		
7	BIRBHUM ...	0·53	8	8	Weather hot and cloudy. Fodder and water are sufficient. No cattle-disease. Transplantation of winter rice is finished. Weeding is going on.	
	Rampurhat...	2·20	8	8		
8	BANKURA ...	2·11	8¾	9½	Weather seasonable. The transplanting of paddy continues. Standing crops are doing well. Fodder and water are sufficient. No cattle-disease.	
	Vishnupur...	2·73	8½	8½		
9	MIDNAPORE	0·65	8¼	8¼	Weather hot. Transplanting of winter rice is going on. Harvesting of jute is going on at Tamluk. Condition of agricultural population is bad at Contai. Fodder and water are sufficient except in Contai and Tamluk, where there is a dearth of fodder. No cattle-disease.	
	Ghatal ...	1·85	8	(n)		
	Tamluk ...	2·83	6½	6½		
	Contai ...	2·84	7½	(n)		
10	HOOGHLY ...	0·66	6½	6 5/32	Weather seasonable. Flood-water in Arambagh, Pursura, Khanakul, Tarkessur, Jangipara and also portions of Dhaniakhali and Haripal is gradually subsiding. The recent heavy rain and floods have done considerable damage to jute and winter rice. In the flooded areas paddy will have to be replanted. No cattle-disease. Fodder is likely to be scarce in the flooded tracts, where there is also a scarcity of drinking water; elsewhere they are sufficient. Condition of cattle in the tracts affected by floods is bad.	
	Serampore ...	1·27	6½	6½		
	Arambagh ...	0·71	8	8½		
11	HOWRAH ...	(n)	(n)	6⅛	Report not received.	
	Uluberia ...	(n)	(n)	6½		

(n) Not reported.

Serial No.	Districts and subdivisions.	Rainfall.	Price of common rice, in seers per rupee. This week.	Price of common rice, in seers per rupee. Previous week.	Character of the weather, condition of crops, etc.
1	2	3	4	5	6
		Inches.			
12	RAJSHAHI (RAMPUR-BOALIA).	0·62	6	6	Weather seasonable. Prospects of standing crops are fair. Harvesting of jute and *aus* paddy continues. Transplantation of winter rice is progressing. Stock of food-grains and fodder is sufficient.
	Naogaon ...	1·32	7	7¼	
	Nator ...	1·44	8	8	
13	DINAJPUR ...	3·67	7⅕	7¾	Weather seasonable. Export continues except from Thakurgaon. Stocks of rice and fodder are sufficient. Harvesting and steeping of jute and transplanting of winter paddy continue. Prospects of jute and *bhadoi* paddy are not good. Cattle-disease is reported only from Ghoraghat thana.
	Thakurgaon	2·40	8	8	
	Balurghat ...	2·23	7¼	7½	
14	JALPAIGURI	4·72	7	8	Weather seasonable. Cutting and steeping of jute and harvesting of *bhadoi* paddy continue; outturn of both is expected to be fair. Transplantation of winter rice is in progress. More rain is wanted. No want of fodder, water and food-grains.
	Alipur ...	7·20	6½	7	
15	DARJEELING	3·18	6½	6½	The rain is favourable for standing crops and will facilitate transplanting of paddy. Average price of maize is about 9 seers per rupee.
	Kurseong ...	7·81	7	7	
	Siliguri ...	11·43	6	7	
16	RANGPUR ...	8·75	7	7	Weather hot and cloudy. Prospects of standing crops good. Cutting, steeping and washing of jute are going on. Harvesting of *aus* paddy and transplantation of winter paddy continue. Price of rice is stationary. Fodder and water are sufficient. No cattle-disease.
	Nilphamari	5·45	7	7	
	Kurigram ...	4·94	7	7	
	Gaibanda ...	6·74	7	7	
17	BOGRA ...	3·11	6¾	7⅛	Weather cloudy and hot. The rainfall is general. Transplantation of *aman* paddy is going on briskly, and is nearly finished. Harvesting of *aus* rice and cutting and steeping of jute continue. Prospects of standing crops are fair. Stocks of food-grains and fodder are running out.
18	PABNA ...	1·48	7	7	Weather hot and occasionally rainy and favourable for harvesting and steeping of jute and also for the growth of standing crops. Prospects of *aman* paddy good. About 6 annas of the jute crop has been harvested. No cattle-disease is reported.
	Sirajganj ...	(*n*)	(*n*)	6¾	

(*n*) Not reported.

Serial No.	Districts and subdivisions.	Rainfall.	Price of common rice, in seers, per rupee. This week.	Previous week.	Character of the weather, condition of crops, etc.
1	2	3	4	5	6
		Inches.			
19	MALDA ...	0·76	7¼	8	Weather cloudy and hot with occasional rain. Recent rain has facilitated transplanting of winter paddy. Prospects are good. Harvesting of *bhadoi* paddy and jute continues. Normal outturn of *bhadoi* paddy is expected. Cattle-disease is reported from Gomostapur thana. No want of fodder and water.
20	COOCH BEHAR	1·14	7•	8	Weather cloudy and rainy. Harvesting of *bitri* paddy, cutting and steeping of jute are going on briskly. More rain is wanted for transplantation of seedlings of winter rice. Present condition and prospects of standing crops are fair. Fodder and water are sufficient.
21	DACCA ...	3·30	6½	6½	Weather seasonable. Prospects of standing crops are not good. Harvesting of jute is going on. No cattle-disease is reported. Fodder and water are available.
	Manikganj ...	1·62	6½	6	
	Narayanganj	5·31	7⅛	7⅛	
	Munshiganj*	1·75	6½	6⅛	
22	MYMENSINGH	0·65	6¾	6¾	Weather seasonable. Prospects of crops are fair. Harvesting of jute is going on. No cattle-disease. Price of rice is stationary.
	Jamalpur ...	2·51	7	7¼	
	Tangail ...	3·83	6½	6½	
	Netrakona ...	4·34	6½	6½	
	Kishorganj	1·35	6⅜	6 1/16	
23	FARIDPUR ...	1·30	6 7‡	6 6¾‡	Weather seasonable. Prospects of standing crops are bad and the outturn of *aus* paddy is very poor in low lands. The outturn of jute is below the average. Prospects of winter paddy are fair.
	Goalundo ...	3·20	7 7½‡	7 7⅜‡	
	Madaripur ...	(n)	(n)	6½ 7½‡	
	Gopalganj†	2·98	7	7‡ 8‡	
24	BAKARGANJ (BARISAL).	1·18	6 7‡	6½‡ 8‡	Weather seasonable and its effects on crops are favourable. Fodder and water are sufficient. No cattle-disease. Harvesting of *aus* and jute and transplantation of winter rice continue.
	Pirozpur ...	2·31	6¼	6½	
	Patuakhali ...	3·29	6½ 8½‡	6½	
	Dakshin Shabazpur (Bhola).	3·57	6 7/16 8‡	6½	

* Munshiganj being very near to Dacca and Narayanganj, its rainfall statistics are not quoted. To give information regarding the northern part of the district, rainfall figures for Kapasia thana are reported here.
† Rainfall at Haridaspur, which is very near to Gopalganj, is shown here.
‡ New *aus* rice.

Offg. Secy. to the Govt. of Bengal.

The 1st September 1913.

No. 121Marine.—It is hereby notified, for general information, that under the provisions of section 16 of the Calcutta Port Act, 1890, Captain D. H. Gibsone, R.I.M., Officiating Deputy Director of the Royal Indian Marine, is appointed to be a Commissioner of the Port of Calcutta, in the place of Commander C. J. C. Kendall, R.I.M., D.S.O., Port Officer, Calcutta, resigned, who was acting for Captain G. S. Hewett, R.I.M., on leave.

H. H. GREEN,
Offg. Secy. to the Govt. of Bengal.

MARINE DEPARTMENT.

The 2nd September 1913.

No. 122 Marine.—The following draft of rules, to regulate the granting of certificates of competency to Engineers of sea-going steam-ships, which the Governor in Council proposes to make, in exercise of the power conferred by section 36 of the Indian Steam-ships Act, 1884 (VII of 1884), and in supersession of the rules published under Notification No. 118Marine, dated the 21st December 1909, as amended by subsequent Notifications and also in supersession of the draft rules published under Notification No. 26Marine, dated the 13th March 1912, is published for general information.

II. The draft will be taken into consideration on or after the 10th October 1913, and any suggestions or objections with regard thereto which are received by the undersigned before that date will be duly considered.

B. K. FINNIMORE,
Secy. to the Govt. of Bengal.

DRAFT RULES.

CHAPTER I.

GENERAL RULES.

1. *Certificates of competency granted to persons who pass requisite examinations.*—Certificates of competency will be granted to those persons who pass the requisite examinations and otherwise comply with the requisite conditions. For this purpose Examiners have been appointed and arrangements have been made for holding the examinations whenever necessary at the port of Calcutta.

2. *How to apply.*—Candidates for examination must fill up a form of application (form Exn. 3) at the Port Office. The form properly filled in, together with the candidate's certificate of apprenticeship testimonials and discharges, must be lodged with the Port Officer not later than the day before the day of examination. As discharges and testimonials may have to be verified before the candidate can be examined, it is desirable that they should be handed in, together with the form Exn. 3, as many days as possible before the date of the examination which the candidate desires to attend. In the absence of the necessary verification the candidates cannot be examined.

In all cases in which certificates of dischage in the home or other trade which have not been officially issued at a Mercantile Marine Office are produced as evidence of any part of a candidate's qualifying service, they should be submitted to the Port Officer for verification.

3. *Gaps in service.*—The Examiner should be particularly careful to ascertain that there are no gaps in the candidate's service which are not properly accounted for before he is allowed up for examination.

4. *Calculation of service.*—The candidate's services as shown on his discharges should be reckoned by the calendar month, *i.e.*, the time included between any given day in any month and the preceding day of the following month, both inclusive. The number of complete months from the commencement of the period, ascertained in this way, should be computed, after which the number of odd days should be counted. The day on which the agreement commences as well as that on which it terminates should both be included and all odd days should be added together and reckoned at 30 to the month.

5. *Service must be verified.*—Service which cannot be verified by proper entries in the articles of agreement of the ships in which the candidates have served cannot be counted.

6. *Application in special cases.*—In cases where the services of a candidate require verification, or where he is in doubt whether his service complies with the regulations and wishes to submit his case for special consideration, all certificates, discharges and testimonials, together with the form of application,* properly filled in, should be submitted to the Port Officer, who will either deal with the case or transmit it to Government for decision.

* Form Exn. 3, which can be obtained at the Port Office.

7. *Inquiries.*—All other inquiries regarding examinations should be made and dealt with in the same way. The point on which information is sought should be clearly stated, and certificates, discharges, testimonials, &c., should be forwarded when they are material to the inquiry.

8. *Age.*—Should any doubt exist as to the age of a candidate, he will be required to produce a certificate of birth.

9. *Fraud and misrepresentation.*—It is provided by section 104 of the Merchant Shipping Act, 1894, that any person who makes, assists in making, or procures to be made, any false representation for the purpose of procuring either for himself or for any other person a certificate of competency, shall in respect of each offence be guilty of a misdemeanour, which is punishable, on summary conviction, with imprisonment for a term not exceeding six months, with or without hard labour, or with a fine not exceeding one hundred pounds.

10. *Testimonials—shore service.*—All candidates will be required to produce, in addition to the official discharge certificates, testimonials as to their workshop service and as to their service at sea. The testimonials as to workshop service must be signed by the employer, and must testify to the candidate's conduct and ability, and state what kind of work he was engaged on (*e.g.*, fitting, erecting, turning, machine work, &c.), and for how long (*see* paragraph 31).

11. *Testimonials—sea service.*—Testimonials as to service at sea must testify to the applicant's sobriety, experience, ability and general good conduct for at least the last twelve months' service at sea preceding the date of application to be examined. They must be signed by the Master and Chief Engineer, or, in the case of testimonials to Chief Engineers, by the Master and Superintending Engineer, and must clearly state whether the applicant was on regular watch and in regular charge of a watch on the main engines or boilers. It is desirable that testimonials of candidates should be endorsed by the Superintending Engineer. No time spent in clerical work will be allowed to count.

12. *Further as to testimonials.*—In cases where a testimonial from the Chief Engineer, or from the Master, is for any sufficient reason not obtainable, one may be submitted from the Superintending Engineer in place of that of the Chief Engineer, and from the Marine Superintendent in place of that of the Master, or from the Managing Owner or Secretary or Chairman of a large Company in place of either; but in every such instance the testimonials must declare that the facts stated are in accordance with the reports made by the Chief Engineer or the Master, as the case may be, or else that the facts are within the writer's personal knowledge.

13. *Penalty for misconduct.*—Candidates who have neglected to join their vessels after having signed articles, or who have deserted their vessels after having joined, or who have been found guilty of gross misconduct on board, will be required to produce satisfactory proofs of two years' subsequent service and good conduct at sea, unless the Government, after having investigated the matter, should see fit to reduce the time.

14. *Physical defects.*—When a candidate is observed to be hard of hearing, or is labouring under any other obvious physical defect, the signatories of his testimonials are required to mention that defect specifically, and to state whether it in any way interfered with the efficiency of the candidate as an Engineer on watch. When these modified testimonials are such as to completely satisfy the Examiner that the defect is not such as to interfere with the efficient discharge of the applicant's duties as Engineer, the examination is proceeded with; otherwise the case is referred to the Government. Candidates afflicted with nervous impediment in speech may write their answers to *viva voce* questions.

15. *Foreign service.*—The testimonials of service of Foreign or British engineers serving in foreign vessels, which cannot be verified by the Port Officer, must be confirmed either by the Consul of the country to which the ship in which the candidate served belonged, or by some other recognized official authority of that country; or by the testimony of some credible person on the spot having personal knowledge of the facts required to be established. The production, however, of such proofs will not of necessity be deemed sufficient. Each case must be decided on its own merits; and if the sufficiency of the proofs given appears to be at all doubtful, the point must be referred to the Government.

16. *Foregin Engineers must know English.*—Foreign Engineers must prove to the satisfaction of the Examiners that they can speak and write the English language sufficiently well to perform the duties required of them

on board a British vessel. In every case before failing a candidate for insufficient knowledge of the English language the Examiner should refer the matter to the Port Officer.

17. *Issue of certificate.*—If the candidate passes he will receive a form (form Exn. 16) authorising the Port Officer to whom it is addressed to issue the certificate. The candidate's testimonials and other papers will be returned to him when the examination is finished. It is therefore important that the port at which the certificate is to be issued should be the same on both the form Exn. 16 and the form of application, Exn. 3. If circumstances should make any alteration necessary, the Examiner should see that it is made in both forms; otherwise delay in the issue of the certificate may be caused.

18. *Service found to be insufficient.*—If after a candidate has passed the examination it is discovered on further investigation that his services are insufficient to entitle him to receive a certificate of the grade for which he has passed, the certificate will not be granted to him; but if the Port Officer is satisfied that the error in the calculation of the candidate's services did not occur through any fault or wilful misrepresentation on his part, he may either have the fee returned to him or have it placed to his credit. Should his services entitle him to a certificate of a lower grade it may be granted to him, and the difference, if any, between the fee paid by him for the superior certificate and the fee payable for the inferior certificate will be returned to him or placed to his credit. The superior certificate will not be granted until the candidate has performed the amount of service in which he was deficient, and has been re-examined in all the subjects, unless the Government see fit to dispense with the re-examination.

19. *Failure in examination.*—If the candidate fails in practical knowledge he may not present himself for re-examination until he can produce proofs of three months' further service at sea as Engineer on watch on the main engines or boilers of a foreign-going steamer, or its equivalent in the home trade (four and-a-half months) subsequent to the date of failure. If he fails in Arithmetic, elementary questions, or drawing only, he may come up again at any time, but in all cases of failure any re-examination must begin entirely afresh.

20. *Fee must be paid.*—Candidates for examination in making their application on the form Exn. 3 will be required to pay the examination fee before any step is taken towards inquiring into their services or testing their qualifications, &c. If the candidate is found not to be qualified, the fee will either be returned to him or placed to his credit until he is qualified.

21. *Payment of fees, and penalty for offering gratuity.*—The fee for examination must be paid to the Port Officer. If a candidate offers a gratuity to any servant of the department, he will be regarded as having committed an act of misconduct, and will be rejected, and not allowed to be examined for twelve months, either at the port where the offence was committed or at any other port.

22. *Fees not returned on failure.*—If a candidate fails in his examination, no part of the fee he has paid will be returned to him.

23. *Table of fees.*—The fees are as follows :—

	Rs.
Second-class Engineer's certificate	15
First-class Engineer's certificate	30
First-class Engineer's certificate, if the candidate holds a Second-class Certificate of Competency granted by the Board of Trade or by the Government of a British Possession under the Merchant Shipping Act	15

CHAPTER II.

QUALIFICATIONS REQUIRED FOR THE VARIOUS GRADES.

Ordinary Certificates.

24. *Value of ordinary certificates.*—Ordinary certificates will entitle the holders to go to sea in the grade certified as Engineers of any vessel in the British Mercantile Marine.

25. *Second-class Engineer.*—A candidate for a Second-class Engineer's certificate must not be less than 21 years of age;

(*a*) He must have served as an apprentice Engineer for four years in Europe or five years in India at least, and prove that during the period of his apprenticeship he has been employed in the manner set forth in paragraph 31.

Journeyman's time will be considered as equivalent to apprenticeship.

Every applicant must produce testimonials of ability as an engineer workman to the satisfaction of the Port Officer.

If the candidate has served as an Apprentice Engineer or as journeyman, under the conditions above prescribed, for less than four years in Europe or five years in India, he will be required to make up the deficiency or to complete the equivalent of four years European apprenticeship by service as Engineer at sea on regular watch on the main engines or boilers (1) of a foreign-going steamer of not less than 66 nominal horse-power, or (2) of a home-trade steamer of not less than 66 nominal horse-power, such service to be counted as equivalent in the case of (1) to two-thirds, and in the case of (2) to four-ninths, of service as Apprentice Engineer or as journeyman.

If the candidate has not served at all as Apprentice Engineer or as journeyman, he will be required to have served at sea, in lieu thereof, as Engineer on regular watch on the main engines or boilers, six years in a foreign-going steamer of not less than 66 nominal horse-power, or nine years in a home-trade steamer of not less than 66 nominal horse-power.

(*b*) (i) In addition to the apprenticeship as above described, or the alternative sea service, the applicant must have served one year at sea as Engineer on regular watch on the main engines or boilers of a foreign-going steamer of not less than 66 nominal horse-power; or eighteen months in a home-trade steamer of not less than 66 nominal horse-power.

(ii) *On and after January 1st, 1915, the applicant will be required, in addition to the apprenticeship above described or the alternative sea service, to have served eighteen months at sea as Engineer on regular watch on the main engines or boilers of a foreign-going steamer of not less than 66 nominal horse-power; or twenty-seven months in a home-trade steamer of not less than 66 nominal horse-power.*

(*c*) He must be able to give a satisfactory description of boilers, and the methods of staying them, together with the use and management of the different valves, cocks, pipes, and connections.

(*d*) He must understand how to correct defects from accident, decay, etc., and the means of repairing such defects.

(*e*) He must understand the use of the water gauge, pressure gauge, barometer, thermometer, and salinometer, and the principles on which they are constructed.

(*f*) He must be able to state the causes, effects and usual remedies for incrustation and corrosion.

(*g*) He must be able to explain the methods of testing and altering the setting of the slide valves, and method of testing the fairness of shafts and adjusting them.

(*h*) He must be able to calculate the suitable working pressure for a steam boiler of given dimensions, and the stress per square inch on crank and tunnel shafts when the necessary data are furnished.

(*i*) He must understand the construction of steering engines, evaporators, feed filters, and feed heaters.

(*j*) He must understand the construction of centrifugal, bucket, and plunger, pumps, and the principle on which they act.

(*k*) He must be able to state how a temporary or permanent repair could be effected in case of derangement of a part of the machinery, or total breakdown.

(*l*) He must write a legible hand, and have a good knowledge of arithmetic up to and including vulgar and decimal fractions and square root. He must also understand the application of these rules to questions about safety valves, coal consumption, consumption of stores, capacities of tanks, bunkers, etc.

(*m*) He must be able to pass a creditable examination as to the various constructions of paddle and screw engines in general use; as to the details of the different working parts, external and internal, and the use of each part.

(*n*) He must possess a creditable knowledge of the prominent facts relating to combustion, heat and steam.

26. ***First-class Engineer.***—A candidate for a First-class Engineer's certificate must be not less than 22 years of age

. In addition to the qualifications required for a Second-class Engineer,

(*a*) (i) He must—

(1) have served at sea for 12 months, with a Second-class Certificate of competency or service, on regular watch on the main engines or boilers of a foreign-going steamship of not less than 99 nominal horse-power, as senior Engineer in charge of the whole watch ; or

(2) have served at sea for 18 months, with a Second-class Certificate of competency or service, as First Engineer of a home-trade steamer of not less than 99 nominal horse-power; or two years with a Second-class Certificate of competency or service as Second Engineer of a home-trade steamer of not less than 99 nominal horse-nower; or

(3) have served 2½ years with a Second-class Certificate of competency or service as Third Engineer of a home-trade steamer of not less than 99 nominal horse-power, if, during the whole of that period, he has been the senior Engineer in charge of the whole of a watch on the main engines and boilers; or

(4) possess, or be entitled to, a First-class Certificate of service.

(ii) *On and after January 1st, 1915, the candidate will be required, in addition to the qualifications required for a Second-class Engineer—*

(1) *to have served at sea for 18 months, with a Second-class Certificate of competency or service, on regular watch on the main engines or boilers of a foreign-going steamship of not less than 99 nominal horse-power, as senior Engineer in charge of the whole watch ; or,*

(2) *to have served at sea for 27 months with a Second-class Certificate of competency or service as First Engineer of a home-trade steamer of not less than 99 nominal horse-power ; or 3 years with a Second-class Certificate of competency or service as Second Engineer of a home-trade steamer of not less than 99 nominal horse-power, or*

(3) *to have served 3 years 9 months with a Second-class Certificate of competency or service as Third Engineer of a home-trade steamer of not less than 99 nominal horse-power, if during the entire period he has been the senior Engineer in charge of the whole of a watch on the main engines and boilers ; or*

(4) *to possess, or be entitled to, a First-class Certificate of service.*

The service described in paragraphs 42, 43, 44 and 45 of the regulations may, as heretofore, be accepted as qualifying for examination in accordance with the conditions specified in those paragraphs.

(*b*) He will be required to make an intelligible hand sketch, or a working drawing of some one or more of the principal parts of a steam-engine, and to mark in, without a copy, all the necessary dimensions in figures, so that the sketch or drawing could be worked from.*

(*c*) He must be able to take off and calculate indicator diagrams.

(*d*) He must be able to calculate safety-valve pressures and the strength of the boiler shell, stays, and rivetting.

* See Appendix C

(e) He must be able to state the general proportions borne by the principal parts of the machinery to each other, and to calculate the direct stress, the torsional stress, and the bending stress in round bars, and the direct stress and the bending stress in rectangular bars with given loads.

(f) He must be able to explain the method of testing and altering the setting of the slide valves, and to sketch about what difference any alteration in the slide valve will make in the indicator diagram, and also the method of testing the fairness of shafts and of adjusting them.

(g) He must be conversant with surface condensation, superheating and the working of steam expansively.

(h) His knowledge of arithmetic must include the mensuration of superficies and solids and the extraction of the square and cube roots, and the application of these rules to questions relating to the power, duty and economy of engines and boilers, and to the stresses in rods, shafts, and levers of the engine. He should also be able to calculate the effect of the application of the lever, pulley, inclined plane, and other mechanical powers.

(i) He must understand the construction of, and be able to maintain in working condition the auxiliary machinery which is placed under his charge, viz., refrigerating machinery, electric light engines and dynamos, electric motors fitted to ships' boats, hydraulic machinery, and the various descriptions of steering engines, &c.

27. *First-class Certificates without second.*—The Government may see fit to allow an applicant who, in consequence of service abroad, has had no opportunity to obtain a Second-class Certificate, to be examined for a First-class Certificate, although he does not possess a certificate of the lower grade, provided he is able to satisfy them as to the satisfactory character of his services, but these should be ample both as regards length and experience.

If any candidate, who has not got a Second-class Certificate of competency, fails to pass the examination for the First-class Certificate, but passes that for the lower grade, he may be given a Second-class Certificate of competency, but no part of the fee will be returned. A candidate who has been permitted to be examined for a First-class Certificate without first obtaining a Second-class Certificate of competency or a Certificate of Service, and who fails in his examination in practical knowledge, may not be re-examined for a certificate of the higher grade until he has served 3 months as watch-keeper with a Second-class Engineer's Certificate of Competency or Service as required by the Regulations. If the candidate fails in practical knowledge, both for the lower as well as for the higher grade of Certificate, he may be re-examined for a Second-class Certificate only, subject to the usual regulations relating to failure.

28. *On and after January 1st, 1915, a candidate for either a Second-class or a First-class certificate, who within two years from the date of application to be examined has attended an approved course comprising general mathematical and scientific instruction at a technical school recognised by the Government as suitable for the training of* Marine *Engineers, will be allowed to count time so spent as equivalent to sea service in the ratio of three months at the technical school to two months at sea. Time so spent cannot be accepted as equivalent to more than one-sixth of the total sea-service required for either Certificate, but a candidate who has been allowed to count such time on examination for a second-class Certificate will not be debarred from counting similar subsequent time on examination for a First-class Certificate.*

In every case in which an allowance is made for time spent at a Marine Technical School, the candidate will be required to produce the Principal's Certificate for continuous and regular attendance at all the approved classes and for satisfactory progress.

Certificates for Engineers of Home-trade ships propelled by oil engines.

29. *Oil engine certificates.*—Candidates may be examined for second-class Certificates of competency as Engineers of vessels propelled by oil engines.

These certificates will entitle the holders to go to sea as Second-class Engineers of home-trade ships propelled by oil engines, but will not entitle them to go to sea as Second-class Engineers of Foreign-going or home-trade steamships.

30. ***Second-class Engineer (Oil Engines).***—A candidate for a Second-class Oil Engine Certificate must be at least 21 years of age.

(*a*) He must prove—

(1) Four years' experience at the making or repairing of machinery, of which at least six months must be at the making or repairing of oil engines, or

(2) Three and a half years' experience in charge of engines and boilers at sea or an equivalent suitable experience on shore,

and, in addition to either (1) or (2)—

(3) Six months' experience with oil engines at sea.

NOTE—Alternative service to the above may be considered, but it is essential that the candidate should have experience with oil engines, and have spent at least six months at sea in the engine-room of a sea-going vessel.

(*b*) He must write a legible hand, and have a good knowledge of arithmetic up to and including vulgar and decimal fractions and square root. He must also understand the application of these and other rules to problems relating to spring and lever-loaded relief valves, and be able to solve questions about the relative speeds of a vessel at different revolutions, the capacity of oil tanks, &c.

(*c*) He must be able to give a clear explanation of the principle on which an oil engine works, and to shew by means of illustrative sketches and otherwise that he undertands the construction of those in general use.

(*d*) He must be able to describe the chief causes which may make the engine difficult to start, and to explain how he would proceed to remedy any defects.

(*e*) He must be able to show that he understands the mechanism of the starting and reversing arrangement, and is competent to deal with defects which may lead to failure in the prompt handling or reversing of the engine.

(*f*) He must have sufficient mechanical ability to be able to overhaul the engine, to adjust the working parts, and to put the engine together again in good working condition.

(*g*) He must be able to give satisfactory answers to the elementary questions numbered 305 to 310 inclusive in Appendix B (p. 25).

(*h*) He must be able to prove (by actual trial if practicable) that he is competent to manipulate an oil engine when under way by starting, running the engine, stopping, reversing or slowing down.

(*i*) He must understand what is meant by the flash point, and have a knowledge of the explosive properties of the oil generally used in oil engines when exposed in the open air, and the danger of exposing any vapour from the oil to a light or of allowing any leak from the oil tanks, particularly into the vessel's bilges.

(*j*) He must understand the action of wire gauze diaphragms when placed in pipes and connections to oil tanks, etc., for the purpose of preventing the explosion or ignition of oil vapour therein.

(*k*) He must be able to take the necessary precautions to guard against the escape of inflammable vapour from the vaporiser when the engines are stopped.

(*l*) He must be able to explain the principle and construction of a dynamo and the construction and arrangement of primary and secondary batteries and induction coils, so far as is necessary for the efficient management of an oil engine.

31. *Workshop service.*—Workshop service must have been performed in works where steam-engines, boilers, etc., are made or repaired, but no time served before the age of 15 will be counted.

Not less than two years in Europe or three years in India of the apprentice time must have been spent at fitting, erecting, or repairing engines and machinery either in the works or outside. The remaining two years may be made up of time spent in engine works at fitting, erecting, or repairing engines and machines or at one of the other branches of the

trade given below, or at an approved technical day school (*see* Appendix J), the time so spent to count as follows:—

Fitting, erecting, repairing, or turning.	Full time.
Working in drawing office ...	Full time up to one year, and beyond one year one-half time.
Pattern-making	One-half time with a maximum allowance of one year.
Planing, slotting, shaping, and milling.	One-third time.
Boiler-making or repairing ...	One-half time.
Smith work	One-half time with a maximum allowance of one year.
Coppersmith work	One-third time with a maximum allowance of six months.

In the event of the apprentice time being extended to five years in Europe or six years in India, or more, four years at turning followed by one year in Europe or two years in India at fitting or erecting may be accepted as qualifying.

32. *Workshop service other than the above.*—When the workshop service has been performed in a place where engines are made but not in the manner specified in paragraph 31, the case must be referred to the Government with a report upon the service performed. If the service be such as is useful training for an Engineer, the Government may accept the service; but in every such case the applicant must prove additional engine-room or marine engine workshop service as required in the succeeding paragraph.

33. *Workshop service where engines are not made.*—When the workshop service has been performed in a place where steam-engines are not made or repaired, and the class of work done is similar to that required in engine making, the service may be accepted with an additional year of qualifying service; that is, four years in Europe or five years in India of workshop service and either two years at sea on regular watch, or one year at engine fitting in a suitable marine engine workshop and one year at sea in the engine-room. The approval of the Port Officer must be obtained in every such case before the candidate is examined.

34. *Technical Schools.*—Time spent after the age of 15 at a technical day school (recognised by the Government as suitable) where there is an engineering laboratory, may be taken into account and accepted as equivalent to artisan service, usually at the ratio of three years in the technical school to two in artisan service, provided that the applicant has taken the full engineering course and can produce the Principal's certificate for regular attendance at all the approved classes and for satisfactory progress; and provided also that the remaining portion of the time has been spent in works where steam-engines, boilers, etc., are made or repaired, in accordance with the scale of values indicated above.

For list of approved technical schools and time allowed for attendance at each, *see* Appendix J.

35. *Sea-service.*—The sea-service required by these regulations is, unless otherwise stated, service performed in foreign-going ships of at least the nominal horse-power specified for the respective grades of Certificate. The nominal horse-power, as given on the vessel's Certificate of Registry, may in all cases be accepted by the Examiners.

36. *Qualifying service defined.*—In the case of candidates for First-class Certificates qualifying service means, as a rule, service on regular watch on the main engines or boilers as senior Engineer in charge of the whole watch. When, however, three or four Engineers are on watch at the same time the service of the two seniors may be allowed to count, and when not less than six Engineers are on watch together that of the three seniors, provided a certificate from the Superintending Engineer is produced stating the number of Engineers on watch, the rank held by the applicant and that he was in full charge of a watch on a definite section of the main engines or boilers. During the whole of the period claimed, candidates must have been in possession of Second-class Certificates.

In the case of candidates for Second-class Certificates qualifying service means service as Engineer on regular watch on the main engines or boilers. In no case will time spent in clerical work be allowed to count.

37. *Further as to Qualifying Service.*—Only such service as gives the experience required to make a man thoroughly competent as a sea-going Engineer is accepted as qualifying service. Even for a Second-class Certificate the candidate must prove to the satisfaction of the Examiner that he is qualified by experience and knowledge to act as Chief Engineer in an under-powered steamer of 99 nominal horse-power on a voyage, say, from India to Egypt, taking full responsibility for engines and boilers.

38. *Foreign Engineers.*—Foreign Engineers cannot be examined for a First-class Certificate unless they have performed the sea-service stated in paragraph 26 with the requisite British Certificate. The service may have been performed in foreign vessels if the candidate can produce satisfactory testimonials as to conduct and character, and is able to prove that the service has been in the required capacities, and that during the period of service he has held a British Certificate of Competency of the rank required by the Regulations (*see* paragraph 15).

39. *Names on Article.*—In all cases the candidates' names must have been duly entered on the ship's Articles as Engineers in their proper ratings.

40. *Regular Watch.*—Being on regular watch means being on watch for at least eight hours a day.

41. *Home-trade Service.*—Service in the home or coasting trade is regarded as being equivalent to two-thirds of the same period of time served in the foreign trade except where other allowances are specified [*see* paragraphs 26 (*a*) (2) and (3), 42, 44 and 45]. Also except in the case of Indian coasting voyages extending beyond a distance of 500 miles from the port of departure in steamships commanded by masters holding foreign-going certificates, when such service will count as foreign-voyages, and will be reckoned as full time; but the time spent in the port of departure or Home Port will not be allowed to count. In all cases the length of service is deemed to commence on the date of sailing from the port of departure or Home Port and to end on the date of arrival at the Home Port. Such service must be vouched for in the form laid down in Appendix K.

42. *Lake or River Service.*—Service as watch-keeper on a lake or river steamer of not less than 66 nominal horse-power may be accepted under the following conditions :—

(*a*) the service will only count half as much as sea service, *i.e.*, every two months of lake or river service is only equivalent to one month's foreign-going sea service ;

(*b*) candidates for Second-class Certificates must prove, in addition to the lake or river service, at least three months' qualifying service at sea in a foreign-going steamship of not less than 66 nominal horse-power, or four and-a-half months' similar service in the home-trade :

(*c*) candidates for First-class Certificates must prove, in addition to lake or river service in vessels of not less than 99 nominal horse-power, at least six months' qualifying service at sea, with a Second-class Engineer's Certificate, in foreign-going vessels of not less than 99 nominal horse-power or nine months' similar service in the home-trade.

43. *Service in Auxiliary Screw Steamships.*—Service performed on board auxiliary screw whalers and other vessels with auxiliary steam-power of not less than 66 nominal horse-power in the capacity of Engineer may be allowed to count towards qualifying candidates for examination for Second-class Engineers' Certificates of Competency to the extent of one-half the time thé vessel is actually at sea. If the candidate is able to prove a larger amount of time under steam, he will be allowed to count the whole of such extended time.

44. *Service in dredgers, fishing-boats, Tug-boats, or Pilot-vessels.*—Service in sea-going steam dredgers, fishing-boats, or tug-boats, and in sea-going pilot-vessels when on their station or when going to or returning from the same, may be accepted under the following conditions :—Two months of such service is only equivalent to one month's qualifying service in a foreign-going steamer. Candidates for Second-class Certificates may perform all their sea service in sea-going steam dredgers, fishing-boats, tug-boats, or pilot-vessels, but they must have been on regular watch on the main engines or boilers and the vessels must not be less than 66 nominal horse-power. Candidates for First-class Certificates must while in possession of a Second-class Certificate have served in vessels of at least 99 nominal

horse-power, and have been in charge of a watch on the main engines or boilers. They must, in addition, have served in a qualifying capacity for at least six months in a foreign-going cargo or passenger steamship, or nine months in a home-trade cargo or passenger steamship. This rule will not apply to service on the steam pilot-vessels at the Sandheads. Service on the regular watch on board such vessels for the period the vessels are on the station, or when going to, or returning from the same, shall be accepted as equivalent to two-thirds of the time performed in foreign-going trading vessels, as in the case of steam yachts.

45. *Service in yachts.*—Service performed in steam yachts, either within or beyond home-trade limits, may be accepted as equivalent to two-thirds of the time performed in foreign-going trading vessels, provided that the candidate's name is entered on the vessel's articles, and that he can prove to the satisfaction of the Examiner, that the time claimed was actually served at sea.

Candidates for Second-class Certificates may perform all their service in yachts, but the candidate must have been on regular watch on the main engines or boilers and the vessel must be of not less than 66 nominal horse-power.

Candidates for First-class Certificates must have served on vessels of not less than 99 nominal horse-power, and must have been in regular charge of the main engines or boilers. In addition they must have served for at least three months in a qualifying capacity on board a foreign-going cargo or passenger steamship. This additional service will, however, not be required in the case of a candidate who has served for 18 months as First Engineer, or for two years as second Engineer, of a steam yacht of the requisite power.

46. *Certificates of Service.*—An officer who has attained the rank of Engineer Lieutenant or Engineer Sub-Lieutenant in His Majesty's Navy or the rank of Engineer or Assistant Engineer in the Indian Marine Service, is entitled without examination, if an Engineer Lieutenant or Engineer, to a Certificate of Service as First-class Engineer, and if an Engineer Sub-Lieutenant or Assistant Engineer, to a Certificate of Service as Second-class Engineer. These officers may be examined for a Certificate of Competency on the same conditions as Engineers of the Mercantile Marine.

An officer who has attained the rank of Chief Artificer Engineer in His Majesty's Navy is also entitled without examination to a Certificate of Service as Second-class Engineer.

47. *Examination of Engine-room Artificers.*—Artificer Engineers, Chief Engine-room Artificers, Engine-room Artificers, and Mechanicians in the Royal Navy may be examined for Certificates of Competency on the same conditions as Engineers of the Mercantile Marine.

48. *Application by Naval Officers.*—The Lords Commissioners of the Admiralty have directed that applications from officers of the Navy for Certificates of Service or for permission to be examined for Certificates of Competency must, in the case of officers on the active list, be made through the Commanding Officer to the Secretary to the Admiralty, and in the case of officers who are on half-pay or who have retired, direct to the Secretary to the Admiralty, who in either case will forward the applications to the Port Officer.

49. *Masters' and Mates' Examination in steam.*—Particulars of the examination of Masters and Mates in steam will be found in Appendix F, pages 35-37.

50. *Certificates.*—The term "Certificate" in these regulations means a Certificate issued by the Board of Trade, or by a British Possession under Order in Council in accordance with section 102 of the Merchant Shipping Act, 1894. A list of the Colonial Certificates issued under Order in Council is given in Appendix G, and the holder of a Certificate so issued must not be examined in the United Kingdom for a Certificate of the grade already held.

51. *Colonial Local Certificates.*—The holder of a Colonial Certificate of Competency not granted under the Merchant Shipping Act, or of a Certificate of Competency granted after examination on board one of His Majesty's ships, who wishes to be examined for a Government of Bengal Certificate of the same grade, must prove that he has performed the amount of service required by these regulations for that grade, and complied with the conditions laid down as to testimonials. No fee will be demanded for the first attempt, but if the candidate fails the usual fee will be demanded on any subsequent attepmt.

All Colonial Certificates for marine purposes, whether local or issued under Order in Council, must be given up before a further Ceritficate is issued by the Government of Bengal.

CHAPTER III.

CONDUCT OF THE EXAMINATIONS.

52. *Commencement and duration of examinations.*—The examinations will, as a rule, commence at 10 A.M., and will be continued from day to day until all the candidates whose names appear upon the Port Officer's list on the day of examination are examined.

53. *Candidates to be punctual.*—Candidates are required to appear at the examination room punctually at the time appointed.

54. *Tables to be cleared.*—Before commencing the examination, the tables and desks must be cleared of all scraps of paper or books that are not used in the examination, and care should be taken that the candidates while in the examination room do not have in their possession any book or paper.

55. *Strangers not admitted.*—No person will be allowed in the rooms during the examinations other than those whose duties require them to be present.

No instructors will be allowed on the premises.

56. *Face sheet and blotting paper.*—At the commencement of the examination a face sheet should be given to each of the candidates and they should be instructed to read the rules contained therein. A sheet of blotting paper will be issued to each candidate with the first examination paper, and it must be returned to the Examiner when the last paper is completed each day. The Examiner will be careful to see that the blotting paper has not been used by the candidate in solving his problems, or for conveying information to other candidates.

57. *All work to be shown.*—No candidate will be allowed to work out his problems on a slate or on waste paper, or to write on the blotting paper supplied for his use in the examination. Violation of this rule will subject the candidate to all the penalties of failure.

All worked papers must be signed and dated and the name of the port of examination inserted by the candidate.

Additional sheets of paper will be supplied by the Examiner if required, but they must be attached to, and form part of, examination papers.

58. *Books and papers strictly forbidden.*—All books necessary for the use of candidates under examination will be provided by the Government, and candidates are prohibited from bringing into the examination room books or papers of any kind whatever. The slightest infringement of this regulation will subject the offender to all the penalties of failure, and he will not be allowed to present himself for re-examination for a period of three months.

59. *Drawing instruments.*—Candidates for First-class Certificates have to pass an examination in rough working drawing, which may, in the candidate's option, be either hand sketches clearly dimensioned and complete in the necessary views and sections, or drawings to a scale. Drawing boards and T squares will be provided by the Government, but the applicants will have to bring with them any drawing instruments they may require.

60. *Candidates' places.*—Candidates should be so placed as to prevent one copying from another, and no communication whatever between the candidates should be allowed.

61. *Penalty for copying, &c.*—In the event of any candidate being discovered referring to any book or paper, or copying from another, or affording any assistance or giving information to another or communicating in any way with another, during the time of examination, or copying any part of the problems for the purpose of taking them out of the examination rooms, he will subject himself to all the penalties of failure, and will not be allowed to be again examined for a period of six months.

62. *Leaving room or building.*—No candidate may leave the examination room without permission and without giving up the paper on which he is engaged. Under no circumstances will the same paper be returned to him, but the Examiner may substitute other data, or another question.

63. *Injury to books.*—If a candidate defaces, blots, writes in, or otherwise injures any book or form belonging to the Government, his papers will be retained until he has replaced the damaged book or document. He will not be allowed to remove the damaged book or document, and will be subjected to all the penalties of failure.

64. *Silence.*—Perfect silence is to be preserved in the examination room.

65. *Penalty for breach of rules.*—Any candidate violating any of the regulations, or being guilty of insolence to the examiner, or of disorderly or improper conduct in or about the room, will render himself liable to the postponement of his examination, or, in the event of his having passed, to the detention of his certificate for such period as the Government may direct.

66. *Order of examinations.*—The examination of candidates for Second-class Certificates consists of three parts: arithmetic, elementary questions, and *viva voce*; and that of candidates for First-class Certificates of four parts; arithmetic, drawing, elementary questions, and *viva voce* (*see* paragraphs 25 and 26).

67. *Examination papers.*—One sheet only at a time should be given to the candidate and not more than two hours should be allowed for any one sheet.

68 *Arithmetic.*—When the number of marks obtained in arithmetic amounts to 28, that is, two-thirds of the maximum, the candidate passes in arithmetic.

If the marks obtained amount to 21, but not to 28, and if the applicant has had long experience, his testimonials and service should be taken into account, and his examination continued, if deemed advisable by the Examiner, and he may be passed or failed, having due regard to his practical knowledge, and to whether he is being examined for second class or first class.

69. *Elementary questions.*—All Engineer applicants presenting themselves for examination will be required to give written answers to ten questions selected from elementary questions shown in Appendix B, pages 14-25. These questions are intended to furnish a record to some extent of the candidate's knowledge at the time of his examination and also to induce the candidates to pay more attention to their handwriting and spelling.

Examiners will require all candidates to fill up a form Exmn. 15*b*, and they will forward it to the Port Officer with the report of the examination.

The elementary questions will, as a rule, be given on the second day of the examination to candidates for second class, and on either the second or third day to candidates for first class, but candidates who have time after working the arithmetical papers on the first day or the drawing on the the second day may be allowed to go on with the elementary questions.

The questions for both classes of Engineers will be taken from the same series of elementary questions; and candidates for First-class Certificates are expected to show their superiority by giving answers more complete than those of the other candidates.

70. *Viva voce.*—Having regard to the fact that when the verbal examination is held, the candidate has already passed in arithmetic, and, if a first-class candidate, in drawing, and has also written answers to the elementary questions, the Examiners should deal with practical, rather than theoretical, questions in this division of the examination; and no candidate should be failed in the verbal examination without having been well cross-questioned on the points for which failure takes place. Candidates may, however, be failed in the written elementary paper without being examined *viva voce*. In cases where the Examiner approves of the elementary paper, but fails the candidate for lack of either practical or elementary knowledge, a written account of the points on which he failed must be forwarded to the Port Officer with the elementary papers and the Report Exn. 15.

The elementary questions to be answered on Form Exn. 15*b* are good starting points in *viva voce* examinations. With the candidate's written answers before the Examiner, the same question can be put in a way requiring the answer in another form. Each question may be developed into several according to the circumstances of the case, *e.g.*:—

1. What is made of? Of what parts does it consist?
2. What is its use?
3. What attention does it require at sea?
4. What attention does it require in port?

5. When it becomes defective, what is it that principally goes wrong with it?

6. How is it repaired?

7. What alteration may prevent a recurrence of the defect?

It is considered of great importance that Engineers presenting themselves for examination should have an extensive knowledge of the particulars of actual casualties which have occurred at sea, and be able to state how these might have been prevented and how remedied. Sometimes an Engineer presents himself who has had no personal experience of any defects, and who can tell nothing about casualties to machinery which have occurred in the experience of others: such candidates should be closely questioned as to their knowledge of boiler and engine construction and the repairs of same.

The management of engines and boilers at sea, the duties of the Engineer on watch, the work to be done to the engines, boilers and auxiliary machinery in port, and the periodical examinations of the working parts, should form part of the *viva voce* examination.

71. *Reports of examinations.*—Reports of examinations on the form Exn. 15, together with the examination papers, forms Exn. 37 and face sheets, should be forwarded to the Port Officer immediately the examinations are completed, together with the candidate's application to be examined (form Exn. 3) duly filled up, and his previous certificate, if any.

APPENDIX A.

Form to be filled up by all candidates at the examination.

Form Exn. 15-15*b*.

Port	Class for which examined
Date	Candidate's name.

A. Where and how long did you serve in works at the making or repairing of engines and boilers?

B. How long and in what capacity did you serve in works on shore other than at the making or repairing of engines and boilers?

C. How long have you served in the engine-room at sea and in what capacities?

D. With what descriptions of engines have you served at sea? What sizes were the engines?

E. With what descriptions of boilers have you served at sea?

F. What engine defects or defects to auxiliary machinery have come under your notice, what caused these defects, and how were they remedied? Give the names of the steamers for verification.

G. What boiler defects have come under your notice, what caused these defects, and how were they remedied? Give the names of the steamers for verification.

APPENDIX B.

ELEMENTARY QUESTIONS.

1. What parts of an engine are generally made of wrought-iron?
2. What parts of an engine are generally made of cast-iron?
3. For what parts of an engine is steel sometimes used?
4. What parts of an engine are generally made of brass or gun metal?
5. Where is "white metal" sometimes used? On account of what property possessed by it is it adopted? What objection is there to its more general use?
6. For what parts is Muntz metal sometimes used? Is it malleable? For what properties is it valued?
7. What difference is there in the composition of cast-iron, of wrought-iron and of steel?
8. How can cast-iron, wrought-iron, and steel be distinguished from each other?
9. What are the different properties of cast-iron, of wrought-iron and of steel?
10. What is meant by the terms "breaking stress," proof stress," "safe working stress"?
11. What is the cohesive strength, or breaking stress, of good ordinary wrought-iron?
12. Tempering steel; how is it done, and in what order do the colours come?
13. What is case-hardening?
14. Which of the common metals or alloys can be forged, and which of them are brittle or "short"?
15. What is meant by "welding"? Which of the common metals can be welded?
16. The expansion of metals by heat; give examples of this in the engine and in the boiler.
17. In the construction of steel cylindrical marine boilers, for what parts have the plates to be worked hot? What precautionary treatment of these plates is afterwards necessary?

18. In what parts of cylindrical marine boilers is the strongest rivetting employed? In which of the shell seams is it most necessary?
19. What is "caulking," and how are seams prepared for caulking?
20. Describe the different ways of fastening the ends of the main stays of a boiler. What are the merits of, or objections to, the different plans?
21. What stress per square inch is allowed on boiler stays?
22. Describe a rivetted stay, and state where such stays are commonly used.
23. Where are thin plates to be looked for in a boiler as it wears, and how is the thinness to be detected?
24. How are boiler tubes fixed? What are "stay tubes," and how are they secured?
25. Where is it generally that boiler tubes leak? How is this defect repaired? What are the causes of this leaking?
26. What are the causes of cracked tube plates? Where are the cracks situated? How are they repaired?
27. What is the difference between a "dry uptake" and a "wet uptake"? Which requires more repair? Why? Where have you seen a wet uptake?
28. What is a superheater? What is its construction? What valves are on it? There is somtimes a gauge glass on it. What is that for? Are superheaters now in general use?
29. What parts of a marine multitubular boiler are first injured by shortness of water?
30. Where are angle irons sometimes used in the construction of a boiler, and where are flanged plates used?
31. Priming; to what causes is it attributed? What means are applied to prevent it? What evils may be produced by it?
32. Funnel draught: what makes it? What checks it?
33. Flame is somtimes seen at the top of the funnel; what causes this appearance? Is it beneficial or is it detrimental? Why so?
34. A blast pipe; what is its construction? Where is it placed? For what is it used?
35. How many bottom blow-off cocks are generally fitted to each boiler, and why are they so fitted?
36. Blow-off cocks are sometimes fitted with a spanner guard; for what purpose is this? Describe how the guard is formed.
37. Water-gauge test-cocks; where are they placed? At what heights? Must the cocks themselves be at those heights? What provision is made for cleaning these cocks should they ever become choked? When there are no test-cocks, how is the height of the water ascertained?
38. What is a dead-weight safety valve? Of what are the rubbing surfaces formed? How is a lock-up valve arranged to admit of lifting it or of turning it round, and to prevent adding to the weight?
39. About what area of safety valve is now required by the Board of Trade? What is the effect of suddenly opening a safety valve when steam is up? To about what extent do safety valves rise when blowing off without being eased by hand?
40. Spring-loaded safety valves; what advantages have they that are not possessed by dead-weight valves? What are the disadvantages, if any, as compared with dead-weight valves?
41. Of what pieces does a glass water gauge mounting consist? How does it act? Where is it placed? At what height? Is it liable to derangement? How is its working tested?
42. Glass water gauges have sometimes pipe connections top and bottom; what is the object of this arrangement? Should there be cocks at the extremities of these pipes? Why? Or why not?
43. Describe a Bourdon steam gauge. Some gauges have an inverted syphon pipe below them; what is its use?
44. Why is a small cock sometimes put on the pipe leading to a steam gauge? Where should it be placed, and what error might be made by omitting to use it?
45. Do steam gauges indicate the total pressure of the steam or only a portion of that pressure? What is the pressure measured from?
46. What is meant by the salting of the boiler? How is this prevented? What is the density of ordinary sea water? How is the density ascertained? What is the difference between the formation of scale and the salting of the boiler? What is the maximum density at which boilers should be worked

at sea? In the event of condenser tubes leaking what is the minimum density at which boilers should be worked? Give your reasons.

47. Scum cocks and pipes; how are they arranged? Where are they placed? At what height in the boiler? When are they used? When must they be shut? Neglect of these cocks leads to what dangers?

48. Of what does scale consist? Where is it most objectionable? How is it removed? How is its formation prevented? What evil effects are produced by it?

49. What is a salinometer? Of what does it consist? How does it act? How it is graduated? Can it be used at any temperature indiscriminately?

50. What harm may be done through the check valve of one of a set of boilers being defective while under way? How would you work to avoid this harm?

51. How is the leak from a split tube stopped in a boiler at sea? Describe the operation.

52. What is the use of dampers? Where are they fitted? When should they be used?

53. When there are no dampers fitted, what is used instead? What evil to the boiler is sometimes attributed to this? When the heating surfaces are clean does this occur?

54. Describe the piston of a steam cylinder; with its different rings and their uses. There are generally round pieces let in flush on one side of a piston; what are they? How are these pieces fixed?

55. Cylinder drain cocks; what is their use? There is sometimes a a valve upon each cock; what purpose does it serve?

56. Cylinder escape valves; of what do they consist? How protected? How regulated? When are they most needed? To what danger do they expose the engineer? What precaution is sometimes used to obviate this danger?

57. What is a compound engine? What different kinds are there for screw steamers, in respect to the number and arrangement of their cranks and cylinders? What is a triple expansion engine?

58. What is link motion? What are some of its advantages? In modern engines for the screw propeller when there is no link motion, what takes its place?

59. What is a separate expansion valve? Why is it not fitted to all engines? What effect has an expansion valve upon the starting and upon the reversing of the engine?

60. What arrangement is applied to reduce the friction of a slide valve? To what is the friction due?

61. Describe a loose eccentric; how does it act? In what engines are the loose eccentrics still employed?

62. What is the travel of the eccentric rod? How it is measured on the eccentric? What is the travel of the slide valve when the link motion is in mid gear, and the engine still moving?

63. What are "double beat valves"? What objections are there to their use?

64. What is a circulating pump? Is it always worked by the main engine? Give an example from your last steamer of the three water temperatures generally noted by careful engineers.

65. An air valve is sometimes fitted to a circulating reciprocating pump; what purpose does it serve?

66. What is the difference between a bucket air-pump, a piston air-pump, and a plunger air-pump?

67. Are double-acting air-pumps made with plungers, with pistons, or with buckets? Describe the construction and action of circulating-pumps.

68. What is an air-pump trunk? When is it necessary? How is it attached to the bucket? Centrifugal pumps: describe their construction and mode of working.

69. What class of air-pump requires both foot and delivery valves, and in what other class can either of these valves be in some cases dispensed with?

70. What are marine governors? What is their general construction? How do they act?

71. With a surface condenser and a single acting air-pump what is the effect of a leaky foot valve, and what is the effect of a leaky bucket when there is also a foot valve?

72. Where is the air-pump pet cock or valve placed? How does it act? What is its object? Does it in every case reduce the effective capacity of the pump? Is it equally applicable to double-acting pumps?

73. At what temperature is the hot well worked? What is the effect of higher temperatures? What is the effect of lower temperatures? What limits the lowness of temperature? Has a very low temperature any disadvantages?

74. Bilge injection with jet condensers; what are the fittings required? When is it used? What precautions are necessary in using it?

75. When surface condensers are used, what takes the place of the bilge injection? To what is the connection made? How is its valve formed? Why is this necessary?

76. What are the practical guides to the proper amount of opening of the inlet valve for the circulating pump?

77. Feed-pump pet cock or valve; where is it placed? What is its use? How does it act? Is it always a necessary fitting?

78. What are some of the ways of fastening the ends of surface condenser tubes? About what size and about what thickness are condenser tubes? What parts of a surface condenser are made of brass?

79. What is a blow-through valve or cock? To what is it attached? There is sometimes a valve which, when opened, admits steam from the slide valve casing to the exhaust port; what is its use? To which cylinder is it fitted?

80. What are shifting valves? Why are they generally omitted now?

81. What connexions are generally fitted to the donkey pump, and to what services can it be applied?

82. When the engines are stopped in harbour with steam up, what are to be shut and what are to be opened?

83. How is an engine heated up before starting? What precautionary examinations are made before starting?

84. What is an interceptor or catch-water? Where is it fixed, what is its construction, how does it act, and what attention does it require?

85. Describe an air-pump bucket with its valve or valves and its packing. Of what are the valves generally made?

86. Of what materials are air-pump rods made? Why?

87. What is the racing of the engine? When does it occur? What danger attaches to it? What is done to prevent it?

88. When under way, when the air-pump bucket is at the top of its stroke, at what height is the water in the condenser?

89. What is meant by the "pitch" of a screw propeller? How is it measured?

90. Explain the difference between a "right hand" and a "left hand" propeller, and state how each of them revolves.

91. What is the slip of a screw propeller? How is its amount expressed in figures?

92. Which of the valves about engines and boilers have to be worked by hand, which of them are self-acting, and which are worked by the motion of the engine.

93. Why is soda sometimes put into a boiler, and how is it put in when under way? What is the kind of soda used?

94. Tallow cups for cylinders were sometimes made with two small cocks, or with only one small cock, or with one large hollow plug cock or with one small cock and a valve; which of these is suitable for a high-pressure cylinder, and which for the cylinder of a condensing engine? Describe how the cup with only one small cock is used. What is now generally used instead of these? How has this change come about?

95. Does a cylinder escape valve, self-acting, allow all the wate to escape? If not, how much is left in the cylinder?

96. What is a "Steam Lubricator" (sometimes called an Impermeator)? Explain its action. To what part of the engine is it connected? Will throwing cold water over it make it work faster or slower? Describe the one used in your last steamer.

97. A common paddle wheel; of what is the centre made? Of what are the arms formed? What is the form of the bolts which attach the floats to the arms? How are the arms attached to the centres?

98. Why have some paddle wheels one or more cast-iron floats in each wheel? With what engines are these most required? At what part of the circumference are they placed?

99. Why are paddle wheel floats sometimes made of different breadths in the same wheel? With what description of engine is this most needed? Where are the broad floats placed and where are the narrow floats placed in the circumference of the wheel?

100. What difference is there between a radial paddle wheel and one with feathering floats? What is the object of feathering floats? Are all the eccentric rods attached in the same way, and are they all of the same form?

101. Whereabout is the centre of the eccentric of a paddle wheel with feathering floats placed? In that case are the feathering levers on the striking face or on the back of the float? When the paddle shaft has an outer bearing how is the eccentric made?

102. Of what materials are the working surfaces of a paddle wheel with feathering floats? How are they lubricated?

103. What is a "Disconnecting Paddle Engine"? At what place is the disconnecting effected? How is it accomplished? In which of the cranks of a disconnecting engine are the crank pins fixed?

104. Is link motion valve gear or the loose eccentric generally used for disconnecting paddle engines? For what steamers are disconnecting paddle engines frequently employed?

105. What are expansion joints? Where are they necessary? What attention do they require? Of what should the working surfaces be made?

106. What omission in the construction of expansion joints may lead to a serious accident when steam is first applied? How is this prevented in the construction of a steam trunnion pipe for an oscillating engine?

107. Describe an oil cup with a syphon worsted? How is the worsted arranged? How is it cleaned? How far down the tube does it extend?

108. Describe a thrust bearing; which of the surfaces wears? Why is there sometimes a number of oil tubes or one thrust bearing?

109. What parts of a screw shaft are generally covered with brass? Why is this necessary? About what thickness is the brass?

110. What is the stern tube or screw shaft pipe? Why is a pipe of such a length required? Of what is it made? How is it fixed at each end?

111. What is a *lignum vitæ* bearing? How is the wood fitted? Where is such a bearing generally used?

112. How is a screw propeller fixed on the shaft? What means are used to prevent its getting loose at sea?

113. Where are sluice valves placed? What large sluice valve is there in almost all screw steamers? From what position should this valve be worked? Why so? What attention should it receive?

114. With a condensing engine what valves or cocks are on the skin of the ship in the engine room and in the stokehold?

115. What are the necessary fittings of a marine boiler?

116. With a surface condensing engine what cocks or valves are opened some time before the engine is started so as to be ready for starting whenever the order is given?

117. What is a steam jacket? What cocks are on it? In what engines are jackets most generally used? Do they require to be felted?

118. What parts of an engine or its fittings should be felted or otherwise protected from radiation?

119. What are the small cylinders sometimes fitted on the slide valve casing cover of vertical engines? Explain their action. To what are they connected by a pipe? Why?

120. Name the principal pipes in connection with the engines and boilers of a steamer, and state to what the ends of these pipes are connected?

121. Through what cocks or valves, pipes and chambers does the water pass on its way from the sea inlet rose plate to the water space of the boiler, with a jet condenser?

122. Through what cocks or valves, pipes and chambers does the circulating water of a surface condenser pass?

123. Through what cocks or valves, pipes and chambers does the steam pass from the boiler until it is in the form of water in the hot well?

124. Name the pieces of the engine through which the pressure of the steam is transmitted from the piston to the screw propeller. Name them in the order in which they act.

125. What is an air vessel? How does it act? At what parts of an engine or of its fittings are air vessels generally applied?

126. What is the construction of a mudbox? Where should mudboxes be placed? Why are they necessary? How should the space be divided by the rose plate, and why?

127. What is a trunk engine? Why has it fallen into disuse?

128. What is an oscillating engine? For what steamers are oscillating engines generally adopted? Why? How is the steam conveyed to and from the slide valve casing?

129. Of what parts does the valve motion gear of an oscillating engine consist?

130. For what have geared engines sometimes been used? Of what were the cogs or the large wheel made?

131. At what part of a screw steamer is the pressure that propels it applied to the hull?

132. At what part of a paddle steamer is the pressure that propels it applied to the hull?

133. About how much fuel per indicated horse-power per hour is required by modern steam engines, common compound, and triple expansion?

134. What is the explanation of the economy of the surface condenser?

135. What is the construction of a surface condenser? Of what are its tubes made? How are they fixed? How are they kept tight? What is done with a split tube?

136. Where do surface condensers foul? How are they cleaned?

137. What non-conducting substances are employed to prevent radiation, and how are they applied?

138. In the construction of smoke-box doors and of dry up-takes, what provision is made to lessen the amount of radiation?

139. How can the formation of black smoke be prevented? Describe smoke preventing apparatus.

140. What is meant by "circulation" in a boiler, and what are the results of defective circulation?

141. What means are sometimes adopted to improve the circulation in a boiler?

142. By what arrangement is the circulation promoted in a "hay-stack" boiler?

143. Describe a ship's side air-pump discharge valve. In what respects does it sometimes differ from a common stop valve, and what attention does it require?

144. What is the construction of a feed escape valve, to what is its discharge connected, and how is its loading regulated? Where should the escaping water flow?

145. When there is no feed escape valve what is the arrangement of the feed valves or cocks?

146 What is the measure of a horse-power? How is indicated horse-power ascertained?

147. Has "nominal horse-power" a fixed meaning? What is the use of this expression? What is generally taken as the measure of one horse-power nominal?

148. What is "back pressure" in a cylinder? About how much is it in each of the cylinders in your last steamer? Is excessive cushioning ever a trouble under certain conditions in modern engines? Say when and why and in which cylinder this occurs.

149. What is meant by "speed of piston"? About how much is the speed of piston in modern marine engines?

150. What is "atmospheric pressure"? What is its average amount? What instrument tells this amount?

151. What is "gross pressure" or "absolute pressure"? What pressure is it that is shown by the steam gauge?

152. What is meant by "cutting off" steam? How is it done? What part of the valve regulates the cut off?

153. What is a piston slide valve? Describe its construction. Why are they frequently employed in place of the common slide valve? Have they any disadvantages compared with a common slide valve? If so, name them.

154. What fixes the time of closing the exhaust? After the exhaust is closed and before the port opens for steam, what becomes of the steam that is in the cylinder?

155. What is the "lead" of the valve? What is its object? About that amount is it?

156. What is the "cover" or "lap" of the valve? What is its object? About what proportion of the stroke of the valve is it made?

157. What is the "exhaust cover" of a slide valve? What is its effect upon cushioning and upon exhaust?

158. What is "minus cover" or "minus lap" on the exhaust? What is its effect upon the exhaust and upon cushioning?

159. What is "cushioning" or "compression" in a steam cylinder? How is it affected by the amount of cover or of minus cover there may be upon the exhaust? How is it affected by the exhaust pressure?

160. What is "mean effective pressure"? How is its amount ascertained?

161. What is a dial vacuum gauge? What is its construction? For what is it used? About what amount should it show when the engine is working all right? What effect have the variations it indicates on the performance of the engine?

162. Does the vacuum gauge enable you to tell what pressure there is in the condenser, or must you have recourse also to the barometer to arrive at that? How would you ascertain the actual amount of back pressure there is in the condenser?

163. What is a barometer? What is its construction? Is a barometer sometimes used instead of a vacuum gauge? In what respect does the weather barometer differ from the vacuum gauge barometer?

164. The common vacuum gauge and the common steam gauge, in which of them are the graduations marked from atmospheric pressure? Does either of them tell what is the true actual pressure in the boiler or in the condenser?

165. Do steam and vacuum gauges vary with the variations of the weather barometer? When the weather barometer varies from 29 to 31 how much will the vacuum gauge vary and how will that affect the working of the engine? Why?

166. Vacuum is generally stated as so many inches. What is meant by, say, 20 inches vacuum? What does that tell us about the absolute pressure of the vapour then in the condenser?

167. From what depth will a pump draw water? Is there any limit? Why?

168. What is vacuum? Can vacuum move a piston? When the temperature of the water in the condenser is 212° Fahrenheit, what is the greatest degree of vacuum there can then be in the condenser?

169. What is a thermometer? What is its constuction? What is the property of matter that is the principle of its construction? What temperatures are regularly noted by careful Engineers?

170. What is the temperature of (1) melting ice, (2) boiling water, (3) steam about 60 lbs. pressure by the steam gauge, (4) steam about 100 lbs., (5) steam about 150 lbs., (6) smoke in the funnel, (7) water in the hot well?

171. What is meant by the "conduction" of heat? Give examples of it in the boiler and in the engine.

172. What is meant by the "convection" of heat? Give examples of it in the boiler and in the engine.

173. What is meant by "radiation" of heat? Give examples of it in the boiler and in the engine.

174. Which is convection, which is radiation, and which is conduction in the following cases:—(1) Heat from the glowing fuel to the furnace crown? (2) Heat passing from one side of the furnace crown plate to the other? (3) Heat passing from the steam pipes in the engine room? The heat of evaporation?

175. What are the effective heating surfaces of a marine boiler?

176. What parts of a marine engine are exposed to danger when the temperature is below freezing point?

177. What precautions are necessary in cold climates when the temperature is below freezing point?

178. State as many ways as you can by which a boiler might not get its full feed. A boiler, or one of a set of boilers, gets short of water although the feed valve is open its proper amount; to what causes might this be due?

179. Of what are furnace bars generally made? About what thickness are they at the top? About what space is between them? Are the bars put further apart for Newcastle than for Welsh coal?

180. Which burns faster, Newcastle coal or Welsh coal? Which is the flaming coal. Which makes more smoke?

181. About how many tons of steam coal will be burnt per day in four furnaces, each 3′ 0″ wide, and of about the usual length? On what grounds do you say so?

182. About how many tons of steam coal will be burnt per day with good triple expansion engines to drive an ordinary steamer of 40 ft. beam 10 knots an hour by steam alone ? On what grounds do you say so ? What percentage more coal would be required to propel the same steamer one knot faster ?

183. About how many tons of steam coal will be burnt per day with a good triple expansion engine, surface condensers, the low pressure cylinder 60 inches diameter, doing average work ? On what grounds do you say so ?

184. A pair of inverted cylinder direct acting engines, there is a liner half an inch thick between the ahead eccentric rod and the eccentric strap, in overhauling the engine this place is lost and forgotten ; what difference will its omission make in the working of the engine, on the admission, on the cut off, and on the exhaust of the steam ? Which will take place earlier and which later, distinguishing between the up stroke and the down stroke ?

185. In a pair of inverted cylinder direct acting engines driving a right-hand screw, on which of the crosshead guide bars is the pressure greatest in the up stroke, and on which in the down stroke ?

186. A screw propeller is getting loose, it has a little play on the shaft, sideways on the key or feather ; how will this show in the engine room ?

187. How would you prove whether the centre line of the trunnions of an oscilating cylinder be fair with the centre line of the main shaft ?

188. How can the fairness of a line of screw shafting be tested without lifting the shafts ?

189. Where are steel forgings generally used in marine engines ?

190. What is the composition of nickel-steel ? Where is it sometimes used in engines and boilers ?

191. How is forced draught generated on board ship and supplied to boiler-furnaces ? Is the air heated before delivery ? If so, how ?

192. What is "induced" draughts ? Compare the merits of "forced" and of "induced" draught.

193. How is the intensity of forced or induced draught measured ? What is the usual pressure employed in the mercantile marine ?

194. An explosive gas is liberated from bunker coals. Usually in well ventilated bunkers this gas escapes into the atmosphere without doing harm. In ill-ventilated bunkers the gas after mixing with a certain proportion of common air has been known to explode when a naked light has been brought into contact with it. What is the composition of the gas ? Where is it found, in bunkers, 'tween decks, pockets and coal shoots ? How may it be got rid of as soon as it evolves from the coal ? How many cubic feet of air to one of the gas forms a violent explosive mixture ?

195. A lighted lamp or candle has sometimes been lowered into an apparently empty paraffin tank and produced an explosion resulting in injury to the person holding the light. What did the tank probably contain, and what produced the explosion ?

196. In vessels carrying coal cargoes it has been observed that, generally speaking, the gas which escapes from the body of the coal is found more abundantly at the forward end of the hold than at the after end. Why should this be so ?

197. In recently opened ballast tanks, double-bottoms and boilers, a light lowered into either has sometimes been extinguished. What would, in all probability, cause this ?

198. In double-bottom steamers where does the bilge water lie, and where are the roses of the bilge pipes fitted ?

199. What is the advantage of a large rose over a small one ?

200. Why, especially in vessels carrying cargoes liable to shift, should engine bilge suctions be fitted to both wings of the bilge ?

201. In a heavily listed vessel, why is it difficult to keep steam ?

202. If the engine bilge pumps get choked and water accumulates in the stokehold bilges, what effect does the water have upon the bilge boards and stokehold plates, when the ship is rolling violently ?

203. In a triple-expansion engine, what spare gear do you consider necessary in the case of a foreign-going ship? Also what stores would you provide for a voyage to New Zealand ?

204. What means are sometimes provided for temporarily coupling together the broken parts of, say, a tunnel-shaft? Describe the fitting.

205. Does the pressure on the thrust-collars vary with the horse-power or with the speed of the ship, or how ?

206. If the holding-down bolts of a thrust-bearing should become slack, what effect would it have upon the working of the engines?

207. In an engine with three cranks, which of the three is subject to the greatest torsional stress (1) in going ahead, (2) in going astern?

208. Is it usual to make the crank shaft of a triple or quadruple expansion engine in one piece? And is the diameter of the shaft uniform from end to end? Give your reasons for the practice which obtains.

209. In a "built" crank shaft how are the webs rigidly secured to the pins and to the body of shaft?

210. There are various descriptions of donkey engines in use on board ship for pumping purposes. Some pumps are fitted with escape-valves, some or not. Why should this be?

211. Explain the function of an air vessel fitted to a feed pump. Make rough hand sketches of (1) a satisfactory vessel, (2) an unsatisfactory vessel, where, say, the air spring has been destroyed by carelessness, or has never been properly provided.

212. Should cocks or escape valves be fitted to air-vessels? Why, or why not?

213. Where, by preference, should the escape valve of a feed pump be placed? Why?

214. Scum cocks are sometimes fitted to boiler-shells at a height convenient for Engineers to manipulate when standing in the stokehold; the scum pipes in such cases are led upward, inside the boiler, to a little above the combustion chamber tops. What danger may arise from this arrangement?

215. Cocks for testing the water level of boilers are sometimes fitted within reach of the engineer who is standing in the stokehold. These may have internal pipes leading upward and terminating at various levels. Under what circumstances may these become misleading?

216. Why should the pipe which leads from the bottom of the water-gauge column to the bottom of the boiler-front, or back, be covered with non-conducting material? Why also should it never have lengthy horizontal bends?

217. In your own experience, how frequently is this pipe removed and cleared?

218. Why, even with the best of water-gauges, is it advisable occasionally to use the drain-cock?

219. Steam loops have sometimes been inadvertently made in the length of piping leading from the top of the water-gauge column to the top of the boiler. Roughly sketch such a loop and explain the danger arising from its existence.

220. Describe your method of thoroughly testing the water-gauge system to satisfy yourself that all the cocks and pipes are clear. Your answer can be written on a supplementary sheet of foolscap, which the Examiner will hand you. Hand sketches, mere lines indicating pipes, and circles indicating cocks, should be made. Identify the cocks and pipes by letters or numerals.

221. Describe the construction of a water-tube boiler, mentioning the type selected.

222. In a water-tube boiler how is an economiser fitted, and what is its duty?

223. How is the water-gauge fitted in a water-tube boiler? Are glass-gauges used?

224. The pressure of the steam in water-tube boilers is sometimes greater than at the engines. Why is this, and what percentage above the engine pressure does it amount to? How is this difference of pressure maintained?

225. Describe any automatic method of feeding water-tube boilers. Of what material are the tubes made?

226. Describe the construction of any steam turbine you are acquainted with, which is used on board ship. How is the expansion of steam effected? How many propeller shafts are employed, and how many propellers?

227. Is the same power in a steam turbine available to go astern as to go ahead?

228. Of what material are the propellers made in a steam turbine?

229. How many pounds of coal per indicated horse-power per hour are burnt with turbine engines? Name the type of boiler in use.

230. Describe one of the several classes of refrigerating machinery in use on board ship. Several types exist, one being more economical than the rest. Which is it?

231. Describe the defects to which the selected type is subject. How are the defects overcome?

232. How frequently are the parts opened out for examination? Name the parts.

233. How frequently are the condensers of refrigerating plants opened for examination? How frequently are the coils tested by hydraulic pressure? On which side of the coil is corrosion most commonly found? Why should this be so?

234. Where ammonia is used in refrigerating machinery, should the machinery by preference be isolated? Why? In reply give what information you possess bearing on the matter, naming the ships for purposes of identification.

235. Explain how the ammonia is removed from the tubes in which it is supplied, and how passed into the refrigerating machine.

236. What objection is there to the presence of water in the ammonia?

237. Describe the ammonia process of refrigeration.

238. Of what material are the parts made which are in contact with the ammonia?

239. Are escape valves fitted to the compressors of ammonia machines?

240. What is the maximum pressure found in the compressors of ammonia machines?

241. What kind of pressure and other gauges are used in ammonia machines?

242. Explain how carbonic acid is removed from the tubes in which it is supplied, and how passed into the refrigerating machines.

243. What objection is there to the presence of water in the carbonic acid?

244. Describe the carbonic acid process of refrigeration.

245. Of what material are the parts made which are in contact with the carbonic acid?

246. Are escape valves fitted to the compressors of carbonic acid machines?

247. What is the maximum pressure found in the compressors of carbonic acid machines?

248. What kind of pressure and other gauges are used in carbonic acid machines?

249. In which type of machine is brine used? What is its density? Where does it circulate?

250. Are fans for circulating air used in any of the refrigerating processes? If so, why are they necessary?

251. What means are in some cases employed for ascertaining the temperatures of refrigerating chambers without entering them?

252. What effect may the swabbing of the compressor piston rods have upon the working of refrigerating machinery?

253. What is a rectifier? Explain its use.

254. Describe the cold-air process of refrigeration.

255. Of what material are the air suction and delivery valves of a cold-air machine made? How are the valves kept on their seats?

256. How many compressors are there to a cold-air machine?

257. What is the duty of the expansion cylinder of a cold-air machine?

258. What objection is there to the presence of moisture in the air passed through the cold-air machine?

259. How is water to some extent removed from the air? What is the minimum temperature of the air?

260. What is the maximum pressure found in the compressors of cold-air machines?

261. What kind of pressure and other gauges are used in cold-air machines?

262. In refrigerating engines generally, where is the exhaust steam led?

263. Cold-air chambers on board ship are insulated. How and why?

264. Is it prudent to allow the wires of an electric circuit to pass through the insulation? Explain fully.

265. Describe the construction of a feed water-heater and give the name of its manufacturer.

266. To about what temperature is the feed water raised by passing through a feed-heater?

267. What fittings are usually placed on a feed-heater? Why are they necessary?

268. Describe any well-known ash-ejector.

269. Describe any well-known independent feed pumps.

270. Are independent feed pumps automatic in their action? Explain the action.

271. What advantage, if any, have independent feed pumps over feed pumps worked by the main engines?

272. Describe the construction of a feed-filter, enumerating its valves and cocks.

273. How can the filter be cleaned? What ingredients are generally removed when cleaning takes place?

274. What is the intercepting material in a filter made of? How is it fitted?

275. Describe an evaporator, and mention the type.

276. What fittings are necessary with evaporators?

277. How is the brine got rid of in an evaporator?

278. How may the evaporator coils be cleaned?

279. What is a dynamo? Describe its various parts. For what is it used?

280. In what respect does an electric motor differ from a dynamo? Where are electric motors sometimes used on board ship?

281. Describe a system of electric lighting employed on board ship.

282. How is the position of a fault in the electric circuit discovered?

283. What is "sparking," and may it under some circumstances (naming them) be a danger?

284. What is "short-circuiting," and to what evil may it give rise?

285. What means are employed to prevent any part of the circuit becoming overheated?

286. Describe the features of an arc-lamp.

287. Describe the construction of a glow-lamp.

288. What is the usual candle-power of the small glow-lamps in general use on board ship?

289. Define the following terms:—Ampère, volt, ohm, watt. What is the measure of an electrical horse-power?

290. Explain the uses of switches, brushes, commutators, cut-outs, field-magnets, armatures and resistance-coils.

291. Why is it desirable to fit a dynamo in a cool place on board ship?

292. What undesirable effect will ultimately occur to an electric wire, whose sectional area is constantly diminishing, say, through corrosion?

293. What danger might arise from leading electric wires through coal bunkers?

294. Is it better to lead electric wires above or below side-scuttles? Why?

295. What instruments are used on board ship to ascertain the strength of an electric current?

296. Many ocean-going steamers are fitted with hydraulic cranes, etc. Where do they obtain their power? How is the hydraulic pressure kept at a relatively constant amount?

297. Is any difficulty experienced in working hydraulic cranes in frosty weather? If so, why?

298. Describe any steam steering gear you are acquainted with.

299. When the helm is put hard over and the ship is going full speed ahead, what prevents the rudder returning to the amidship position.

300. In the case of a steam-ship under way does the officer or man manipulating the steam steering wheel overcome any resistance exerted by the rudder?

301. Explain clearly what is being done by a helmsman manipulating the wheel of a steam steering engine.

302. Is there any difference between the amount of horse-power required to put a helm hard over, in a given time, when the vessel is going full speed ahead, and when she is going full speed astern? This question refers to the case of a steamer fitted with one rudder only, and demands a more complete answer than merely "yes" or "no."

303. What precautions should be taken before removing a manhole-door of a steam boiler? In the absence of such precautions what casualties might occur.

304. Describe the chief features of the engine-governor fitted to a steamer you have served in. Describe its action, give the maker's name and name of ship.

NOTE.—The following six questions refer to oil-motors fitted to launches which carry passengers :—

305. Name the principal parts of an oil-motor, and briefly state their functions. Give the name of the makers of the motor.

306. What kind of oil is usually employed in oil-motors? What is its flash-point? What is its specific gravity? What is its calorific power? What precautions are taken in its storage to guard the public against the casualty by fire or explosion?

307. How many cylinders are generally used in oil-motors? What kind of pistons are fitted? How frequently (measured in revolutions) is explosion per cylinder effected? How is explosion in the cylinder carried out?

308. Describe how an oil-motor is started. If starting proves difficult, where would you chiefly look for defects? How is piston speed modified? How is the speed of vessel varied? How is reversing effected?*

309. Before examining an oil-motor with a naked light, what steps should be taken for safety's sake?

310. How frequently should an oil-motor working 12 hours a day be opened up for examination, cleaned, and its parts re-adjusted? What difficulty arises when the internal parts become foul with carbonized oil?

NOTE.—Questions should be read in the light of their context. Thus the "sparking" referred to in question 283 relates to the sparking in an electric lighting circuit on board ship (*See* question 281.)

APPENDIX C.

EXAMINATION IN ROUGH WORKING DRAWING FOR A FIRST-CLASS ENGINEER'S CERTIFICATE OF COMPETENCY (Form Exn. 17).

1. The regulations in regard to the qualifications of a candidate for a First-class Engineer's Certificate of Competency specify that—

> "He will be required to make an intelligible hand sketch, or a working drawing of some one or more of the principal parts of a steamengine, and to mark in, without a copy, all the necessary dimensions in figures, so that the sketch or drawing could be worked from."
>
> "He must be able to state the general proportions borne by the principal parts of the machinery to each other."

2. In accordance with these clauses, a candidate for a First-class Certificate is required to make a rough working drawing of the parts specified as on page 51. An Engineer who has been some years in charge of marine engines and boilers ought to have familiarly in his mind the general construction of at least one set of engines and boilers, say that set he was last with. Fine drawing is not expected, and in the proportions of the parts a wide margin will be allowed; absurd dimensions will entail failure in practical knowledge.

3. The drawing must, however, be practically a working drawing, giving a sufficient number of views to show the parts fully—sections, plans, or elevations, just as the candidate would require to be supplied to him if he had to make the parts represented to the design of another person.

4. A clear hand sketch showing the construction completely, and fully dimensioned, will be accepted if the candidate prefers this alternative.

5. A portion only of the parts specified may be accepted in place of the whole, if that portion is sufficient to show that the candidate has a good practical idea of the construction of the parts, and a fair notion of their general proportions or dimensions.

6. Candidates are cautioned not to put on paper what they have not fully considered, and deliberately intend to be understood, as evidence of what they know about the construction of any part required.

7. The statements given in by a candidate may be in themselves, apparently, of little importance; but, as sample material from which the extent of the candidate's knowledge of engines and boilers is to be inferred, every detail which is glaringly inconsistent with a sound knowledge of the use of the part, or in which an essential consideration has evidently been overlooked, is an important element in the description which the candidate is giving of his own qualifications.

8. The candidate is advised not to begin more than he can clearly finish in the time allowed. An important object in this part of the examination is to ascertain whether the candidate can be trusted to mark all necessary dimensions upon a sketch or a drawing. The test of this is, practically, the making of the part from the sketch without having to supply additional dimensions, and without measuring the drawing. To prove this ability the candidate must fully dimension the parts shown in his sketch or drawing, notwithstanding that the parts may be correctly drawn to scale. A drawing is fully dimensioned when no part of it is left to the option of the party who is to work to the drawing.

9. To prevent misunderstanding, however, when the candidate has been led into showing more of the details than he has time fully to finish, he should name, in the statement on the other side, the particular parts which he has not fully dimensioned.

10 All dimensions should have lines and darts, to indicate distinctly the points between which the dimensions are given.

11. Beware of writing cross dimensions upon centre lines, or upon longitudinal dimension lines. This is not an order but a recommendation.

12. The candidate is not expected to design anything; he has merely to sketch or draw something with which he has expected to be already familiar At the same time he should call attention to any defect in the design of the article or apparatus. Omission to do so will imply want of practical knowledge.

13. Pencil in noting after half-past 3; all the dimensions, the figures, and the darts must be inked in; employ the remaining time in examining the drawing and in inking in any figure which may have been before overlooked, and in checking the dimensions.

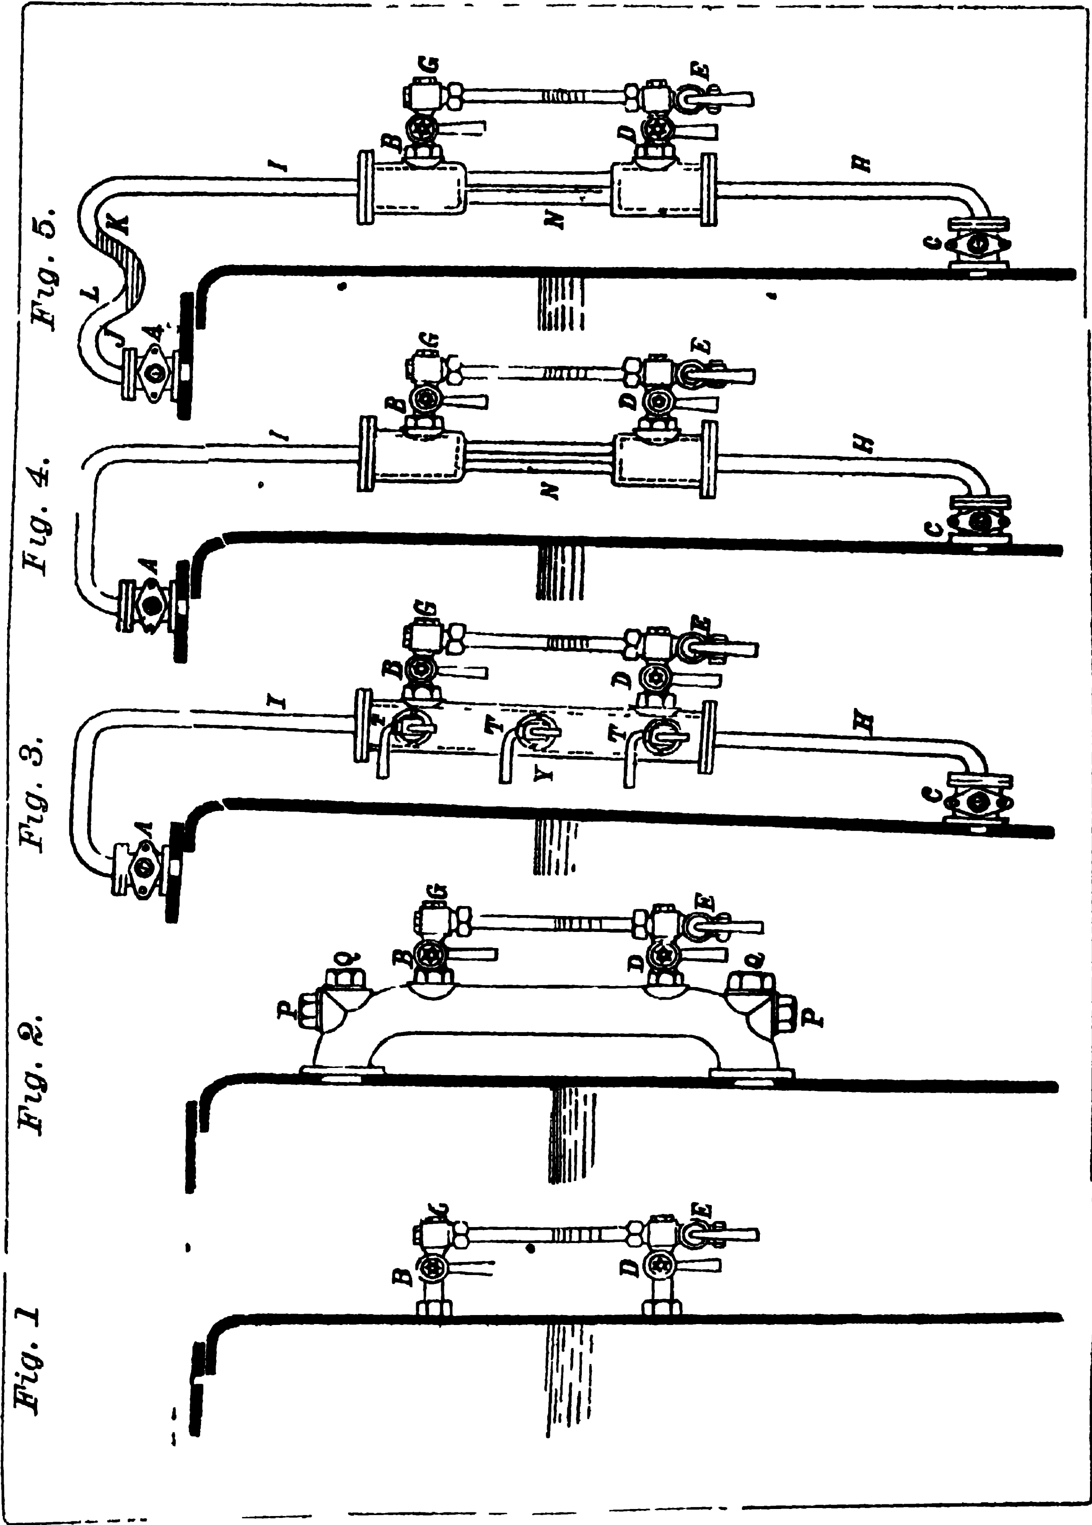
14. Make sure that you will have sufficient room on the drawing sheet to show all the necessary views. You can have another sheet of drawing paper if necessary. All the paper used must be forwarded with the drawing.

SUBJECT FOR EXAMINATION IN ROUGH WORKING DRAWING.

(Form Exn. 17a.)

(Specimen.)

Read the foregoing general instructions.



A common slide valve with its spindle. Show also an outline section of the parts at the cylinder face. Show the provision for connecting the slide valve to the spindle.

The candidate is requested to fill up the following, and to attach this paper to his drawing.

STATEMENT BY THE CANDIDATE.

The accompanying drawing, made by me this day, without referring to any document, and without the assistance of any person, is intended by me to be sufficient for the new construction of the parts above described to fit the places of similar parts which are to be removed. The construction is

APPENDIX D.

Reading the Water-Gauges.

Notwithstanding that the reading of the water-gauge is made a special feature in the examination of Engineers, many boiler casualties result from the Engineer of the watch either not understanding the construction of the water-gauge fittings or not satisfying himself by actual trial that the cocks, pipes, etc., are clear.

In one case, two furnace crowns came down in a steamer that was just starting on a voyage. The Engineers were satisfied that there was plenty of water in the boiler because the water-gauge showed full glass, and they called the attention of a Board of Trade Surveyor to this fact as being conclusive evidence that the casualty could not have resulted from shortness of water. On examination of the fittings, however, it was found that the cock between the boiler and the steam pipe leading to the gauge was shut, having been carelessly left in that position on the previous day when the mountings were overhauled for survey. Directly the cock was opened the water disappeared from the gauge glass, and the Second Engineer admitted that he had blown down the boiler in order to lower the water level, as the glass was full.

Many steamers have had their furnaces brought down at sea in a similar manner to the above through what the Engineers of the watch have called "false water in the glass," and which on examination has been found to result from the top communication being choked.

These casualties resulted from what, to say the least, was bad management, not false water.

Unless a candidate under examination is able to prove that he understands how to verify the indications of the water-gauge, he should not be passed in practical knowledge and, as failure in practical knowledge involves the candidate going to sea for another three months before being eligible for re-examination, the Examiner should explain to such candidate his error, after failing him, in order to prevent further casualties resulting from his want of knowledge on this subject.

The sketches, Figures 1, 2, 3, 4 and 5, Plate I., represent the usual methods of attaching water-gauge mountings to marine boilers. The important features in each gauge and the method of verifying its indications are dealt with separately in the following remarks:—

REFERRING TO FIGURE 1 ONLY.

In this case the water-gauge cocks are attached direct to the boiler, and the accuracy of the gauge when the boiler is under steam can be tested as follows:—

First.—Let B remain open, then close cock D and open cock E, and if steam issues it proves that cock B and the passage through the top fitting and gauge glass are clear. If no steam or water issues, either cock B or the passage through the top fitting and gauge glass is choked and the gauge cannot act properly until the obstruction is removed.

Second.—Close cock B and open D and E, and if water issues, cock D is clear. If no water or steam issues, either cock D or the passage from the boiler through the lower fitting is choked and must be cleared before the gauge can act properly.

REFERRING TO FIGURE 2 ONLY.

In this case the gauge cocks are attached to a bent pipe of comparatively large diameter (at least 3 inches in the bore), the upper end of which communicates with the steam space, and the lower end with the water space of the boiler. Owing to the bore of the pipe being large it is not liable to become choked or stopped under the ordinary conditions of working. The water-gauge is, therefore, in practically the same condition as if it were attached direct to the boiler, as in Figure 1. This gauge, when at work, is tested in precisely the same manner as the one shown in Figure 1.

Screw plugs are inserted at P P. and Q.Q., by the removal of which the apertures in the pipe can be cleared, if necessary, by the insertion of a wire or rod when steam is down.

REFERRING TO FIGURE 3 ONLY.

In this gauge there is an open communication from A to C through the column Y, and in order to "blow through the *glass*" it is only necessary to shut cocks D and B alternately keeping E open. But to "blow through the *water-gauge*," including the pipes H and I, it is necessary, after blowing through the glass as described above, to shut A and C alternately, at the same time keeping B, D and E open for such time as will ensure the complete discharge of the contents of the gauge and its connections. When B, D and C are clear and A choked the steam lodging in the glass and in the pipe I leading from column Y to A becomes condensed and the water flowing through C to take its place rises in column Y and in the glass to a level above that of the water in the boiler. In other words, the gauge shows a false level. If now E be opened and water is blown out, then on E being again closed the water in the gauge will rise higher than before and be still further misleading. On the other hand, when B, D and A are clear and C choked, the water, if any, in the glass is trapped and no longer rises and falls with the water in the boiler or with the motion of the vessel; it, however, slowly rises in the glass owing to the condensation of the steam in the upper part of the gauge until such time as E is opened when the whole of the water in the glass is blown out, and on E being closed the glass does not show any water notwithstanding that the water in the boiler may be at the proper level. When the test cocks T T T are attached to column Y, as shown in Figure 3, they cease to be reliable when either

cock A or C or the pipe in connection therewith is choked, or nearly choked.

REFERRING TO FIGURE 4 ONLY.

Sometimes the water-gauge fittings are arranged as shown in Figures 4 and 5, with no passage up the column, the central portion (N) of the column being simply a pillar or connecting piece of any convenient section between the upper and lower portions to which the cocks B and D are attached.

By this arrangement double communications are obviated and there is no need for what is known as "double shut off" in testing the accuracy of the gauge. When, however, the gauges are constructed in this manner the cocks B and D are unreliable as test cocks in the event of there being no glass in the gauge. This feature should be carefully noted. Moreover, when in working condition the reduction of pressure in the glass which arises when E is opened causes the water in pipe H to rise above its normal level. This objectionable feature should also be noted.

REFERRING TO FIGURE 5 ONLY.

Sometimes there is a bend, L, in the steam pipe, I, leading from cock A to cock B. This has occasionally escaped observation when new boilers have been fitted on board ship. In most cases this bend arises from the pipe being led in an abnormal direction to escape other pipes, beams or fittings near the smoke box. With such a bend the condensed steam collects in the pipe and falls to the bottom of the bend, and in time it completely fills the pipe from J to K. The steam from K down to the level of the water in the glass is thereby trapped and, as condensation proceeds, leads to a reduction of pressure in the pipe below that of the boiler and an equivalent rise of the water in the bend and also in the gauge glass. When the vessel is quiescent the water in the gauge glass increases in height until cock E is opened or until the pressure in the boiler is so much in excess of that in the lower part of pipe I, as to cause the water in the bend to be blown into the gauge glass. In either case instantaneous change to water level in the glass ensues.

In the ordinary course of working the phenomenon described above is more or less modified by the presence of air in the upper part of the gauge and by the rise and fall of the water in the boiler and gauge glass arising from the rolling or pitching motions of the vessel.

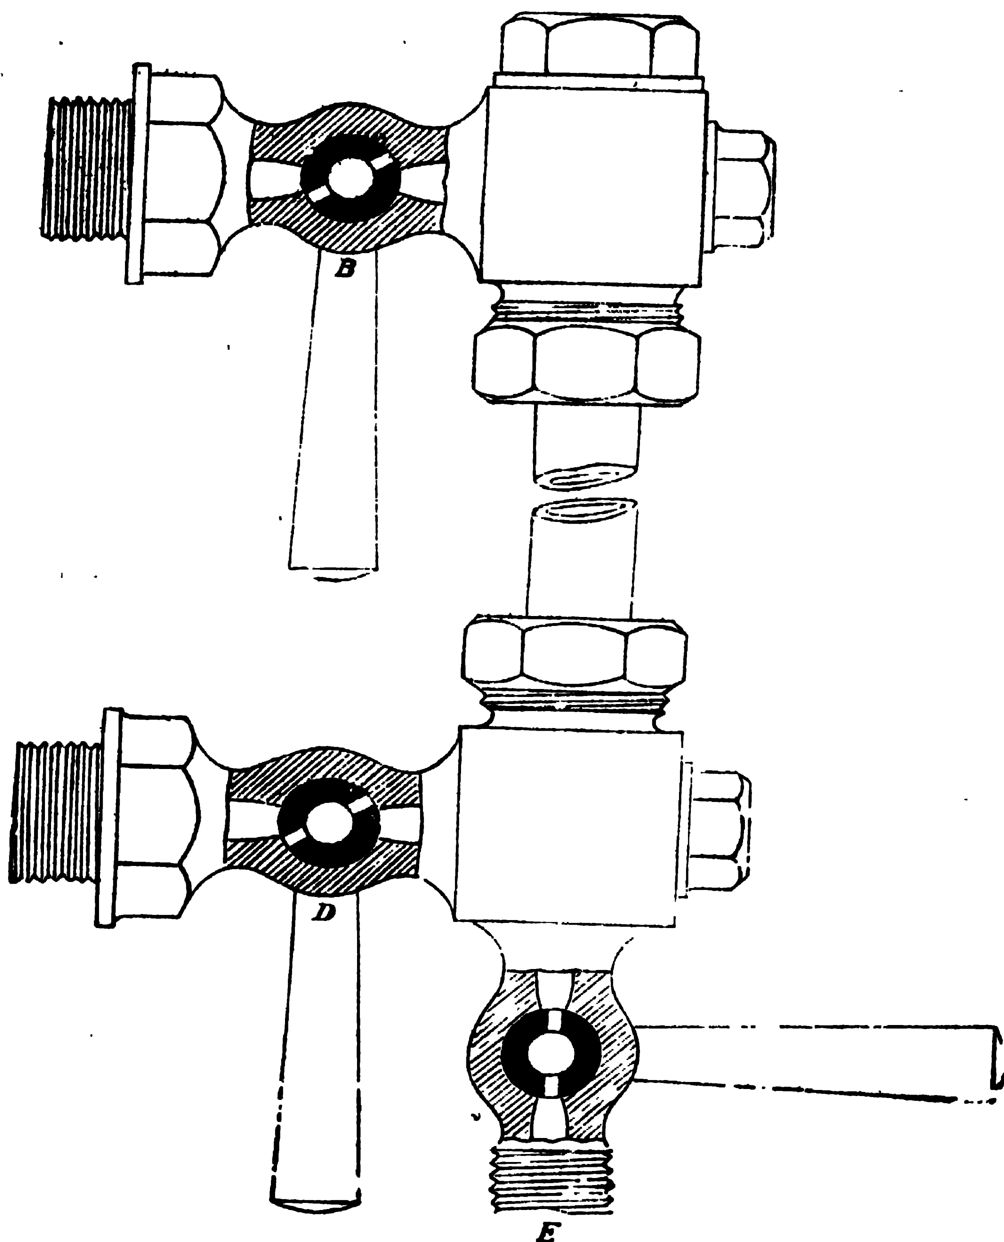
OTHER SPECIAL POINTS TO BE NOTED.

When the cocks A and C are omitted, as in Figure 2, it is owing to the bore of the stand pipe being sufficiently large to enable it to be regarded as part of the boiler. Such pipes require, however, to be examined and cleared at intervals by passing a rod through the holes provided for the purpose at P.P. and Q.Q.

Cocks at A and C are not necessary for the testing of gauges arranged as shown in Figures 4 and 5. Examiners ought, however, to make sure that candidates are aware of the impossibility of testing the reliability of the indications of water-gauges arranged as in Figure 3 when the cocks A and C are absent and of the effect which the choking of cock A or C, or pipe H or I has on the indications of the test cocks T. T. T. attached to column Y.

Probably more than half the steamers afloat are fitted with water-gauges as shown in Figures 3 and 4, and it is therefore specially important that engineer candidates should thoroughly understand their construction, the principle on which they act, and the steps which must be taken to keep them in an efficient condition.

When fitting a gauge glass into its place it is specially important that it should not be placed so high as to prevent a clearing rod being inserted at G, Figures 1, 2, 3, 4 and 5. This defect, especially if it occurs in a water-gauge attached to a boiler subject to priming, permits a rapid accumulation of scum around the top of the glass and results in the choking of the orifice leading from cock B to the gauge glass in each of the figures.



When a gauge glass is too short or is placed either too high or too low in the fittings, it is also liable to become choked by the packing material being forced over its ends by the glands whilst being screwed up.

The use of unsuitable or insecure internal pipes in connection either with the ordinary glass gauge cocks of the description shown in Figure 1, or with test cocks which are jointed to the boiler itself should also be carefully guarded against.

Boiler casualties have resulted from the cocks B and D having the parts wrongly placed as shown in Figure 6, Plate II. In one case of that kind

To face page 30.

Plate 2.

which forms the subject of Report No. 208 under the Boiler Explosions Acts, the Engineer in testing the water-gauge omitted to see that the passages in the cocks B and D were clear *when the handles were in their proper working position.* This defect could easily have been discovered if proper attention had been paid to the condition of the cocks. A defect of this nature may be due to faulty construction originally, or to the handle of the cock having been overstrained, and the neck twisted. Whether the passages in the plugs are fair and clear can, however, be verified in a few minutes. As an illustration, the water cock D, Figure 6, Plate II, can be verified by blowing through E with B shut and then moving the handle of D to one side until it is just closed, and then to the other side until it is again just closed; the proper working position of the handle is about equally distant from each of the above positions. The other cocks can be verified in the same manner.

Another serious casualty occurred through the handle of the cock A, Figure 3, having been twisted from its original position relatively to the orifice of the cock, resulting in the cock being shut when apparently open.

When a water-gauge, that is clear in all its parts, has been thoroughly blown through, the water in the glass rises above the level at which it formerly stood, immediately the drain cock E is closed, but if left undisturbed for a time it gradually falls to its former position. The amount of rise which occurs on these occasions depends chiefly on the temperature of the contents of the boiler and on the length of the pipes by which column Y is connected top and bottom to the boiler, but in cases where the gauge is of the description illustrated in Figures 3, 4 and 5, it amounts in high pressure boilers to about 4 inches, while the time occupied by the water in returning to its former level ranges from 30 to 40 minutes. The cause of this rise is twofold, namely, (*a*) the displacement of the comparatively cold water in pipe H by hotter, and proportionately lighter water from the boiler, and (*b*) a slight condensation of the steam and a corresponding fractional reduction of pressure in pipe I. The cause of the gradual subsidence of the water in the glass to its former level is also of a dual character, namely, (*a*) the cooling of the water in pipe H, and (*b*) the diminution in the condensation of steam in pipe I owing to the collection therein of air released from the steam condensed.

These results will, however, be somewhat modified if the water in the boiler is of higher density than in pipe H, and this will nearly always be the case owing to the condensation of the steam in the glass and upper fittings of the water-gauge causing the water in the lower part to be fresher than that in the boiler.

The Examiner should impress upon candidates the necessity for periodically blowing through the water-gauge on each boiler (no matter what the form may be) in a systematic and thorough manner, and, in cases where a boiler is fitted with two water-gauges, of keeping both in constant use; finally, he should further impress upon them the necessity for keeping the water-gauges well lighted, clean, and in all respects efficient.

APPENDIX E.

DANGERS ATTENDING THE EXISTENCE OF A VACUUM IN BOILERS.

The attention of Examiners of Engineers is called to the following report relating to a fatal accident to an Engineer on board a British ship, and they are requested to see that all candidates for Engineers' certificates realise the danger of removing a manhole door without taking the necessary precautions:—

Board of Trade Surveyors' Office,

79, Mark Lane,

London, E. C.,

December 1st, 1898.

SIR,

WE beg to report that in accordance with your instructions we visited the S.S. "Elderslie," O. N. 89,929, and inquired into the cause of the death, at Smyrna, of Ernest Marshall, Third Engineer of that steamer, on the 15th October 1898.

The "Elderslie" is a screw steamer, built in 1884, of 2,761 tons gross and 1,801 tons net register. The engines are compound, direct-acting, and there are two double-ended boilers of the usual marine type, each boiler having six furnaces, three at each end, W. P. 90 lbs. Mr. E. Marshall, the Third Engineer, was found dead in one of the boilers under circumstances which are not readily understood.

The Chief Engineer, Mr. Bishop, repeated to us a statement which he had previously made, and he was corroborated, so far as his personal knowledge went, by the Second Engineer, and also by a Greek fireman, Spiloni, and the other firemen in the engine-room and stokehold at the time. It is clear that on the vessel's arrival at Smyrna on the 14th October, after the fires had died out, the boilers were blown down between 5 and 6 P.M., and, by the instructions of the Chief Engineer, the Third Engineer proceeded at 7 A.M. on the following morning to take the manhole doors off. (The manholes are 16¼ inches by 12¼ inches, and are in the end plate at the after end of the boiler.) He was assisted by Spiloni, who was usually detailed to work with him, and who says that one nut and one dog or cross-bar had been taken off the door, and the other nut started, when the Third Engineer sent him to prepare to take the door off the manhole of the other boiler. Spiloni left the Third Engineer, went down a ladder into the stokehold, across the stokehold, up another ladder to the starboard boiler, and immediately afterwards, hearing a loud report, went back to the port boiler where he had left the Third Engineer, and saw nothing but that the door was off and not in sight. What happened in the interval between this fireman leaving the Third Engineer and his return in a few minutes can only be reasoned out from the conditions and circumstances of the case as there is nothing definitely known.

The Engineers and Engineers' crew were at this time engaged as follows:—

Chief Engineer on deck.

Second Engineer in engine-room at H.P. cylinder; one fireman with Second Engineer; one fireman with Third Engineer; four firemen cleaning engines, and two trimmers cleaning tubes in boilers.

The Second Engineer in the engine-room heard the report—he says about 7-15 A.M.—and describes it as being like the sound caused by coal falling in the bunkers. The Chief Engineer knew nothing until informed that the Third was missing. Spiloni and others had been looking about and inquiring for him. The Chief joined in the search and finally went to the manhole, when he noticed that the door was off, and not to be seen. He states that the boiler was so hot inside that he could not keep his hand in, and that on trying to put his head in the manhole he found it impossible to do so. Hot vapour was coming out of the manhole. His first thought was that the Third Engineer had allowed the door to drop into the boiler, and, attempting to get it out, had gone into the boiler, and been overcome by the heat. He tried to look in with lamps, etc., but could not see anything. He then got the bottom doors off, first the after bottom door and then the forward one. He could not see anything through the after door, but on looking in the forward bottom door he saw blood on the sides of the furnaces—that is, he explains there was some fresh blood as if running down on the side of the centre and wing furnace near to the forward end of the boiler. This was at 7-45 A.M. The boiler was allowed to cool down and in about four hours the body of the Third Engineer was got out. It was found lying on two of the longitudinal stays close to the forward end plate and opposite the manhole. The door was found on the top of the tubes almost underneath the body, and one of the dogs beside it—both of the studs in the door were bent and a small piece of rope was fastened to one of the studs. A spanner was found on the top of the combustion box girders—that is half-way between the manhole and the position of the body, and a lamp, hammer and chisel and broom-head or brush were found in the bottom of the boiler. When the body was got out it was found that the skull was factured, and that the skin where exposed, peeled off when rubbed. A surgeon certified that the skull was fractured, but does not appear to have examined the whole body, contenting himself with seeing sufficient cause for the man's death. The Master, however, says that the arms and the shoulders looked to him as if seriously injured or broken, and that there was a deep mark on the forehead and the clothing torn in places.

The foregoing statement contains the important points of the case so far as we can gather them. We both have entered the boiler, examined the manhole and door, had the exact position where the body was found pointed out, and also that of the door, etc., and spanner. The whole story appears straightforward and is easily realised, but the causes which brought the body of the Third Engineer to the position where it was found are not so readily explained. Accepting the statements of the Master, Engineers and firemen (and we have no reason for doubting them), it is clear that the Third Engineer either (1) got into the boiler of his own accord, (2) was put in by others, or (3) met his death accidently by causes unforeseen and unnoticed, and which no one contributed to, except himself, and that unknowingly. The first two causes must, it appears to us, be dismissed—the position of the body and the statement as to the high temperature of the boiler and other reasons rendering them absolutely inadmissible; and after considering the whole circumstances of the case, we are of opinion that the death of the Third Engineer was brought about in the following manner:—

The boilers were blown down and left, neither safety valves nor cocks were opened (the Chief Engineer says he gave instructions to open the gauge cocks, but found them shut), so that when the steam condensed there would be a vacuum in the boilers. The manhole is in the after end plate; there is a small platform almost in a line with the door. The deceased took off both the nuts without starting the door, one dog was taken off, the other turned partly round, a piece of small rope (which the Second Engineer says was very weak stuff) was fastened to one of the studs of the door and to the gauge glass stand. He then stooped down in almost a lying position, probably holding the door by one of the studs, or by the rope, with one hand, and perhaps tapping it with the spanner in the other hand, when the door started, was suddenly driven inwards by the pressure of the atmosphere with great force, the rope broke, and the deceased, involuntarily tightening his grip on the stud or rope, was drawn into the boiler—the inrush of air assisting this movement, as his body became near to or partly filled the hole—and he was propelled with such violence as to fracture his skull on the other end of the boiler, or it may be by striking the plate at the manhole as his head was entering it.

This explanation, which from its singularity may at first appear somewhat doubtful, is the only one which we think fits all the known facts of the case, such as: the short interval which elapsed between the time when the fireman Spiloni left the Third Engineer and his return to the manhole; the short time from starting work at 7 A.M. until the report was heard 15 minutes later; the sudden disappearance of the Third Engineer; the condition and position of the body when found, the position of the door, spanner, etc.; and also the high temperature of the boiler.

It certainly appears extraordinary that a man could be drawn into a boiler through a manhole with such force as to fracture his skull on the end plate, 16 feet from the hole, and in a direct line with it, but the stays would form a sort of guide to keep the door and body travelling in a horizontal and direct line, and it may be added that the deceased was not a big man. He is said to have been about 10 stone in weight and 5 feet 5 inches high. It can be seen by examination of the small platform at the manhole that the occurrence is at least quite possible. At any rate, unless the whole story is disbelieved, a manhole door weighing 85 lbs. was found along with the body of the Third Engineer, close to the end plate furthest from the manhole, and had been in that position for some hours and from a time when the condition of the boiler was such that no one would have entered it, or could have lived therein.

We wish to add that, although death under the above circumstances is probably unprecedented, the violent inrush of a manhole door due to vacuum in the boiler has been frequently experienced. A case somewhat analogous occurred in one of the steamers of the———Line, which hearing about, we inquired as to the facts from the Superintendent who kindly sent a letter describing the case, a copy of which is given below.*

We have inquired in reference to the circumstances of this case of the Master, First and Second Engineers, Spiloni, and the other men. The firemen are Greeks and understand very little English. The present Third Engineer, who is a native of Smyrna, and can speak English and Greek, acted as interpreter.

The area of the manhole, 16¼ inches by 12¼ inches, is about 156 square inches, and assuming a temperature of about 180 degrees in the boiler, there might exist an external pressure of 7 lbs. per square inch, which, if suddenly

applied, would exert a force of 1,092 lbs.—at any rate sufficient force would be exerted to set up a high velocity on the door when suddenly relieved.

** Copy of letter above referred to.*

Referring to our conversation this morning, relative to the death of an Engineer in a boiler on board a British steamer at Smyrna, it affords me some pleasure to give you the details of an almost similar occurrence on board one of the steamers of the——Line some few years ago. They are as follows:—

The vessel arrived on a Saturday evening, and it being necessary to get the men in the boiler at the earliest possible moment for cleaning purposes, one of the junior Engineers was ordered to the ship on Sunday morning. His instructions were to pump the remaining water out of the boiler, and he did this without admitting air. So far as we were able to gather at the time, it seems that the Engineer, together with a Chinese fireman, went to take off the lower manhole door. This door was some few inches above the stokehole floor, and, as is the usual practice of Chinamen, the fireman assumed the "squatting" attitude. He was left to himself to remove the nuts and dogs of the door, and when he had done so, he started the door, and was instantaneously drawn in towards the boiler, his stomach practically closing the aperture, and the door swinging to the back of the boiler with a loud report.

Hearing the fireman's cries, the Engineer opened the gauge cocks in order to admit air to the boiler, whilst the fireman in the meantime suffered great agony, being pinned in this position until the vacuum was destroyed.

When the matter was reported to me the next morning, I saw the fireman, who complained of internal injuries. These, however, do not appear to have been of a severe nature, as the man was able to resume his work in a few days.

APPENDIX F.

EXAMINATION OF MASTERS AND MATES IN STEAM.

These examinations are provided for the purpose of giving Masters and Mates who are possessed of Certificates of Competency an opportunity of undergoing a voluntary examination as to their practical knowledge of the use and working of the steam engine. The Examiners are appointed by Government.

The examination is open to any person who holds a certificate of any grade in the Foreign or Home trade or as Master of his own pleasure yacht. Candidates should fill up the form of application, Form Exn. 2, at the Port Office, pay the fee of Rs. 15, and deposit their certificates and testimonials with the Port Officer, who will inform the applicant when and where to attend to be examined. If the candidate fails to pass his certificate will be at once returned to him.

If he passes, the report (Exn. 15) will be sent to the Port Officer, and the certificate, together with the Form Exn. 2, will be sent to Government. The words "Certified to have passed in steam," with the date and place of examination, will then be entered on the certificate and its counterpart, and the certificate will be sent to the Superintendent of the Mercantile Marine Office of the port named in the Form Exn. 2, and be delivered to the candidate in the usual manner.

If a candidate fails he may not present himself for re-examination until the expiration of three months from the date of failure.

The examination is for the most part *vivâ voce* and extends to a general knowledge of the practical use and working of the steam engine, and of the various valves, fittings and pieces of machinery connected with it, and of the way in which electric lighting is carried out on board ship. Theoretical questions on calculations of horse-power or areas of cylinders and valves, or any of the more difficult questions relating to steam-engines and boilers, will not be asked.

Examiners are to satisfy themselves that the candidates know the names and understand the uses of the various parts of engines and boilers, and their connecting pipes, valves, cocks, etc. Practical knowledge, as distinguished

from theories and abstruse calculations, is to be the test of the candidate's fitness to have his certificate endorsed.

The Examiner should arrange to conduct part of the examination in the engine-room of a steamship, unless from circumstances he finds it impossible to do so; but in the event of the candidate passing, the Examiner should state in writing what circumstances prevented a visit to an engine-room. If an opportunity offer, the candidate should be permitted, under the guidance of the Examiner, to start and stop the engine of some vessel which may have her steam up.

The Examiner, in sending in his report of the examination, should state where the examination has been held.

Candidates will be required to give written answers to sixteen out of twenty questions taken from the elementary questions printed in Appendix B. These questions will be altered from time to time without notice. The twenty questions are not to be difficult, theoretical, or book questions, but are to be such as any man of ordinary capacity, who has any practical knowledge of the use and working of the steam engine, ought to answer.

These questions with the candidates' answers should be sent to the Port Officer with the reports after each examination.

If a candidate refers to any book or paper or memorandum, or obtains information from another candidate or any other person during the examination, he will be treated as having failed, will forfeit his fee, and will not be allowed to be re-examined for a period of three months.

The Examiners will report, in the case of failure, the nature of the question or questions that decided the failure, or the point in the management of the engine in which the candidate was deficient.

There is nothing in the regulations requiring that applicants for the voluntary examination shall have served on board steamships. All that is required is that they shall have a practical knowledge of the use and working of the steam engine. Examiners will not fail to appreciate the fact that practical knowledge is best gained in the engine-room; and the examination of an officer who does not produce official evidence of service in steamships, and of experience of engines, must necessarily be more searching than in the case of one who produces evidence of such service and experience.

Examiners will require all candidates to fill up a Form Exn. 15*b*, and they will forward it to the Port Officer with the report of the examination.

Masters and Mates may cancel questions A, B and C, but they should fill up the form for questions D, E, F and G as evidence of their practical knowledge.

A candidate for this examination is required to have a thorough grasp of the construction of the steam engine and boiler to enable him, in the first place, to understand the nature and importance of any defect which may be reported to him by the Chief Engineer, and so that he may work in harmony with him in affording time and facilities for disconnexions, inspections, adjustments and repairs;

to have a looking-on knowledge of what the principal repairs are about engines and boilers and pipes, and how these repairs are accomplished;

to be able to form an independent opinion as to a breakdown, and the consequent propriety or impropriety of proceeding under steam with temporarily repaired or defective machinery;

to understand how to estimate approximately the reduction of fuel required for reduced speed, and consequently to sanction such reduction of speed as may seem to him to be warranted by the report of the Chief Engineer, and to satisfy himself before leaving port that there is sufficient coal for the voyage;

to have an intelligent grasp of the general run of pipes and connexions in the engine-room, the marking of cocks, the opening and closing of cocks and valves, how mistakes of importance may be made in the confusion of an accident, and how best to guard against such mistakes;

to be capable of being left in charge of the feeding of a set of boilers, to understand the working of the water-gauge, and to be able to guard against being misled by false indications of the gauge glass;

to understand about blowing down and surfacing, the reasons for doing so, and the danger which may result from the neglect of these under certain circumstances.

A Master or Mate presenting himself for examination in steam must be understood to have made up for his want of practical experience by reading up about the steam engine. He ought, therefore, to show that he has given his mind to intelligently understanding the *rationale* of the action of the

steam engine. Under this head he should, therefore, be able to state approximately the quantity of heat required in the formation of steam, the remarkable relation of "latent" heat to "sensible" heat, how much steam can be raised by the combustion of one pound of coal, what horse-power measure is, what indicated horse-power is, what is the action of the slide valve, the course of the steam through the engine, and the advantage of working expansively, and how the expansive action is shown by the indicator diagram. To know the uses of the various parts of the engines and dynamos used for electric lighting, and how they and the cables are fitted in the hull; how wires are jointed, insulated, and cased; why it is desirable that they should be led along places which are dry and accessible; what is "short circuiting," and what are the causes which produce it; what is its danger in coal bunkers and petroleum carrying steamers; what are the uses of switches and cut-outs, and why is it so important to prevent short-circuiting taking place.

The candidate has to answer in writing 16 out of 20 questions selected from the Elementary Questions (*see* Appendix B).

Selections for this examination are given on the alphabetic sheet for "Steam." Generally, these answers are given by candidates as learned by rote from a book; the candidate should therefore be asked such *viva voce* questions as will necessitate his giving his answers in different words, so as to discover whether he has the root of the matter in him.

The principal part of the *viva voce* is the examination on board a steamer, preferably one with which he is unacquainted. He is told to look about and try to find out the run of the machinery without the assistance of anyone; the Examiner to be in the engine room to see that this independent examination is properly carried out. When the candidate reports that he thinks he knows the whole arrangement of the machinery, the Examiner will then question him on the uses of the parts, get him to point out the different cylinders, pumps, valves, condenser, etc.; also the dynamo, its field-magnets, armature, commutators, brushes, cables, etc. He must show that he understands the run of the pipes in the bilges, not necessarily that he has gone over every one of them, but he ought to be directed to trace, at least, one important range of pipes, and to thoroughly satisfy the Examiner that he could be safely trusted to manipulate the valves or cocks in connexion therewith. It will not often be practicable for the candidate to be asked to actually work engines under steam, but he must satisfy the Examiner that he knows how to do so, and that he is aware what precautions have to be taken in regard to water in the cylinder, etc. It is most important that a candidate should show that, in the event of an accident depriving him of the assistance of Engineers, he knows what to do to safely take his vessel to an anchorage, or to stop the engines and proceed under sail alone.

The examination of a Mate in steam is the same as that of a Master. The knowledge required has no reference to the Mate's position. A Mate may be examined, but such examination implies that the Mate will one day be a Master, when the possession of the knowledge will be an advantage to him in the discharge of his duties as Master.

APPENDIX G.

LIST OF COLONIAL CERTIFICATES ISSUED UNDER ORDER IN COUNCIL, which are of the same force as those granted by the BOARD OF TRADE.

Colony.	Certificates.		Date of original Order in Council.	Date from which Order in Council takes effect.
	By whom granted in Colony.	Description.		
Victoria ...	* Marine Board.	Master; 1st Mate; Only Mate; 2nd Mate; 1st Class Engineer; 2nd Class Engineer.	30th Mar. 1871.	4th Jan. 1870.
Canada ...	The Minister of Marine and Fisheries.	Master; Mate † ...	19th Aug. 1871.	19th Aug. 1871.
		1st Class Engineer; 2nd Class Engineer.	10th Nov. 1886.	1st Jan. 1887.

* The Steam Navigation Board was superseded by the Marine Board on the 21st December 1888 *See* Order in Council of 23rd November 1898.

† Equivalent to First Mate.

Colony.	Certificates.		Date of original Order in Council.	Date from which Order in Council takes effect.
	By whom granted in Colony.	Description.		
New Zealand.	Marine Department.	Master; 1st Mate; Only Mate; 2nd Mate; 1st Class Engineer; 2nd Class Engineer.	9th Aug. 1872.	1st May 1872.
New South Wales.	* Department of Navigation.	Master; 1st Mate; 2nd Mate; 1st Class Engineer; 2nd Class Engineer.	30th Aug. 1873.	18th June 1872.
Malta ...	The Head of the Government.	Master; 1st Mate; 2nd Mate; 1st Class Engineer; 2nd Class Engineer.	12th May 1874.	12th May 1874.
South Australia.	Marine Board	Master; 1st Mate; Only Mate; 2nd Mate; 1st Class Engineer; 2nd Class Engineer.	12th May 1874.	12th May 1874.
Tasmania	The Governor	Master; 1st Mate; Only Mate; 2nd Mate; 1st Class Engineer; 2nd Class Engineer.	12th Feb. 1876.	1st April 1876.
Bengal ...	Governor ...	Master; 1st Mate; Only Mate; 2nd Mate; 1st Class Engineer; 2nd Class Engineer.	27th June 1876.	27th June 1876.
New-foundland.	Governor ...	Master; 1st Mate; Only Mate; 2nd Mate.	14th May 1877.	14th May 1877.
		1st Class Engineer; 2nd Class Engineer.	19th July 1910.	19th July 1910.
Bombay ...	Governor ...	Master; 1st Mate; Only Mate; 2nd Mate; 1st Class Engineer; 2nd Class Engineer.	11th July 1877.	11th July 1877.
Queensland	Marine Board	Master; 1st Mate; 2nd Mate; 1st Class Engineer; 2nd Class Engineer.	26th Mar. 1878.	1st Oct. 1877.
Hongkong	Governor ...	Master; 1st Mate; Only Mate; 2nd Mate; 1st Class Engineer; 2nd Class Engineer.	31st Dec. 1883.	1st Jan. 1884.
Straits Settlements.	Governor ...	Master; 1st Mate; 2nd Mate.	1st May 1890.	1st June 1890.
		1st Class Engineer; 2nd Class Engineer.	Ditto	1st Aug. 1888.
† Mauritius	Governor ...	Master; 1st Mate; 2nd Mate.	22nd Nov. 1890.	1st Jan. 1891.

* The Marine Board was superseded by the Department of Navigation on the 17th March 1900.

† Mauritius does not issue Engineer Certificates under the Order in Council.

APPENDIX H.

FORMS USED IN THE EXAMINATIONS OF ENGINEERS.

Exn. 1*a*. Regulations.

Exn. 1*b*. Elementary questions.

Exn. 3. Application to be examined.

Exn. 10*d*. Face sheet, Second Class.

Leaves 201, etc., Second Class, 10 A.M. to noon

Leaves 311, etc., Second Class, 12 to 2 P.M.

Leaves 411, etc., Second Class, 2 to 4 P.M.

Exn. 11*d*. Face sheet, First Class.

Exn. 12*d*. Face sheet, Extra First Class.

Leaves 261, etc., First Class, 10 A.M. to noon.

Leaves 361, etc., First Class, 12 to 2 P.M.

Leaves 461, etc., First Class, 2 to 4 P.M.

A corner is cut off the First Class papers to prevent the papers being accidently mixed.

Exn. 15. Examiner's Reports.

Exn. 15*b*. Form for elementary questions

Exn. 16. Examiner's authority.

Exn. 17—*a*, *b*, *c*, *etc*.

Subjects for examination in rough working drawing. The candidates bring their own instruments; the office supplies drawing boards, paper, and T-squares.

Exn. 37. For reporting the names of candidates under examination.

Exn. 38, 39 and 40. Alphabetical lines of numbers of the elementary questions for First Class, Second Class, and Masters and Mates in steam.

APPENDIX J.

TECHNICAL SCHOOLS RECOGNISED BY THE GOVERNMENT.

When nothing is stated to the contrary, time spent in a recognised technical school is accepted as equivalent to artisan service at the ratio of three years of the former to two of the latter, provided the applicant was over 15 years of age and can produce the Principal's certificate for continuous and regular attendance at all the approved classes and for satisfactory progress. Such time cannot be accepted as equivalent to more than two years' artisan service. This recognition applies to day classes only, not to evening classes.

Name of School or Institution.

Armstrong College, late Durham College of Science, Newcastle.

Battersea Polytechnic, London, S. W.

Birmingham University.

Bradford Municipal Technical College.

Brighton Municipal Technical College.

Bristol University College.

Cardiff University College.

Central Technical College, London, S. W.

City and Guilds Technical College, Finsbury, London, N.

Electrical Standardising, Testing and Training Institution, Southampton Row, London, W. C.*

Glasgow and West of Scotland Technical College, Glasgow.†

Hartley College, Southampton.

Huddersfield Technical College.

Hull Municipal Technical School.

James Watt Engineering Laboratories, Glasgow University.†

King's College, Strand, W. C.‡

London County Council School of Marine Engineering, Poplar, London, E.

Manchester Municipal School of Technology.

Merchant Ventures' Technical College. Bristol.

HIGH COURT NOTICE.

Issued by authority of the High Court of Judicature at Fort William in Bengal.

CIVIL.

Rule No. 6 of 1913.

1. *Insert* the following as Note IA to the list of functions, powers and duties of mukhtars practising in the Subordinate Courts, given in rule 34, chapter XI, at page 295, volume I, of the High Court's General Rules and Circular Orders, Civil :—

Note IA.—When a plaint or a written statement is presented or tendered by a mukhtar (*see* clauses 1 and 7), an endorsement shall be made thereon by the officer of the Court receiving the same in the following terms :—

"Presented by A. B., mukhtar."

The endorsement shall be signed by such officer and by the mukhtar.

2. *Insert* the following as clause (*d*) of rule 37, chapter XI, at page 297, *ibid* :—

(*d*) The appointment of a Mukhtar in addition to a pleader cannot be authorised on the vakalatnama appointing the latter, but only on a separate document drawn as a mukhtarnama.

By order,

HIGH COURT:
ENGLISH DEPARTMENT,
CIVIL:
The 14th August 1913.

F. B. COUNSELL,
Assistant Registrar.

SMALL CAUSE COURT NOTICES.

NOTICE is hereby given under section 7, Act IX of 1887 (the Provincial Small Cause Court Act), that from the month of November and December 1913, until further orders, the Judge of the Court of Small Causes at Serampore and Howrah and 1st Sub-Judge at Hooghly will hold his sittings as detailed below —

November 1913.

Hooghly	...	...	1st to 12th.
Serampore	...	...	13th to 21st.
Howrah	...	...	22nd to 30th.

December 1913.

Hooghly	...	...	1st to 5th.
Serampore	...	...	6th to 17th.
Howrah	...	...	18th to 31st.

Sundays and holidays are excepted.

HASSIBUDDIN AHAMAD,
Additional Judge, Small Cause Court.

SERAMPORE, *the 28th August 1913.*

NOTIFICATION.

NOTICE is hereby given, under section 7 of Act IX of 1887, that the Judge of the Court of Small Causes, Dacca and Munshiganj, will, in the months of November and December 1913, sit in those Courts on the undermentioned dates:—

Munshiganj Small Cause Court	...	From 18th to 24th November and 15th to 20th December 1913.
Dacca Small Cause Court	...	During the rest of the months, Sundays and holidays being excepted.

B. L. CHATARJI, *Judge.*

DACCA, *the 29th August 1913*

EDUCATION DEPARTMENT, BENGAL.

SUBORDINATE EDUCATIONAL SERVICE.

The 26th August 1913.—Babu Umapada Sen Gupta, B.A., B.T., a Sub-Inspector of Schools, Nadia district (class VIII of the Subordinate Educational Service), who has been working as a temporary measure on his own pay as an Assistant Master in the Nawab Bahadur's Institution, Murshidabad, since the 22nd November 1909, *vice* Maulvi Karamul Huq, resigned, is confirmed in his present appointment.

The 27th August 1913.—Pandit Jyotish Chandra Vidyabinode, Assistant Master (2nd Pandit). Birbhum Zilla School (class IV, Lower Subordinate Educational Service), acted as Head Pandit of the same Institution and in class VIII of the Subordinate Educational Service, on the usual acting allowance admissible under the rules for the period from 28th June to 19th July 1913, both days inclusive, *vice* Pandit Harilal Kabyatirtha, on leave.

Babu Jogendra Nath Dutta, an Assistant Master, Birbhum Zilla School (class VIII, Subordinate Educational Service), is granted leave, under article 271 of the Civil Service Regulations, for one day in extension of that already granted to him under the orders of 8th August 1913.

The arrangements already sanctioned for the performance of the absentee's duties are allowed to continue.

The 28th August 1913.—Miss Price is appointed to be a temporary Assistant Mistress, Victoria School, Kurseong, on an allowance of Rs 75 a month in class VI of the Subordinate Educational Service, with effect from the 26th of August 1913, *vice* Mrs. L. E. Sharp, on leave.

The 30th August 1913.—Maulvi Abul Khair Abdul Wahhab, an Assistant Maulvi in the senior section of the Arabic Department of the Calcutta Madrassa (class III of the Subordinate Educational Service), was absent on leave without allowances, under article 339 of the Civil Service Regulations, for one day, viz., 28th July 1913.

The 1st September 1913.—Leave of absence for one month, under article 260 of the Civil Service Regulations, is granted to Babu Kshetra Gopal Chakravarti, Sub-Inspector of Schools, Calcutta (class VIII of the Subordinate Educational Service), with effect from the 30th July 1913.

The 4th September 1913.—Babu Amrita Lal Singha, a Sub-Inspector of Schools, in the district of Midnapore (class VII of the Subordinate Educational Service), is allowed leave of absence, under article 260 of the Civil Service Regulations, for two months and twenty-three days from 12th July 1913.

He is permitted, under article 220 of the Regulations, to affix the ensuing Puja holidays to his leave.

Babu Surendra Nath Piri is appointed to act as a Sub-Inspector of Schools, in the district of Midnapore, and in the Subordinate Educational Service, during the absence, on leave, of Babu Amrita Lal Singha.

W. W HORNELL,
Director of Public Instruction, Bengal.

The 2nd September 1913.

No. 254A.—Babu Monomohan Chatterjee, Laboratory Assistant, Dacca College, in class VII of the Subordinate Educational Service, is granted privilege leave of absence for fifteen days, under article 272 of the Civil Service Regulations, with effect from the 16th August 1913

No. 255A.—Babu Dwijendra Kumar Chakravarty is appointed to act as Laboratory Assistant, Dacca College, in class VIII of the Subordinate Educational Service on an allowance of Rs. 50 per mensem during the absence, on leave, of Babu Monomohan Chatterjee.

W. W. HORNELL,
Director of Public Instruction, Bengal.

ORDERS BY COMMISSIONERS OF DIVISIONS.

NOTIFICATION.

PART I B.

Orders by the Governor of Bengal in Council.

MUNICIPAL AND LOCAL.

NOTIFICATIONS.

Hooghly.

No. 1188M.—The 26th August 1913.—In exercise of the power conferred by section 27 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), the Governor in Council is pleased to appoint Mr. W. Allan to be a Commissioner of the Bhadreswar Municipality, in the district of Hooghly, *vice* Mr. D. Petrie, resigned.

Dacca.

No. 1190M.—The 30th August 1913.—The following draft of additional by-laws which have been framed by the Commissioners of the Dacca Municipality, in the district of Dacca, under section 350 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), and which the Governor in Council proposes to confirm under section 351 of the Act, is published for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration on the 16th October 1913 and any objection or suggestion received by the undersigned through the District Magistrate before that date will be duly considered :—

Draft Additional By-laws.

4. (*a*) No person shall, except between the hours of 6 A.M. and 10 A.M., drive any cart laden with or carry bamboos, trees, planks or other materials of a similar character which exceed 10 feet in length, on the road from the Sadar Ghat to the Nawabpur Railway crossing.

Fine, Rs. 5.

21. (*a*) No person shall, without the special permission of the Commissioners, stack any materials or construct or repair or cause to be constructed or repaired any boat, on the foreshore of the river in front of the Buckland bund or make any excavation in such foreshore.

Fine, Rs. 25.

No. 1211M.—The 1st September 1913.—The following draft of by-laws which have been framed by the Commissioners of the Rangpur Municipality, under section 350 of the Bengal Municipal Act, 1884 (Ben. Act III of 1884), and which the Governor in Council proposes to confirm under section 351 of that Act, is published for the information of persons likely to be affected thereby.

Rangpur.

2 The draft will be taken into consideration on the 15th October 1913, and any objection or suggestion received by the undersigned, through the District Magistrate, before that date, will be duly considered.

DRAFT BY-LAWS FOR THE RANGPUR MUNICIPALITY.

DEFINITIONS.

Definitions.

1 In these by-laws,—

(*1*) "carriage" includes also a motor-car; and

(*2*) "cattle" means cattle as defined in section 3 of the Cattle-trespass Act, 1871 (I of 1871).

GENERAL EXCEPTION.

2. In this Municipality in which section 34 of the Police Act, 1861 (V of 1861), is in force, no act which constitutes an offence under that section shall be punishable under by-laws 22, 40 or 51.

Police Act 1861 section 34

PENALTIES.

Fines

3. The penalty for the infringement of any of these by-laws shall be—

(*a*) a fine not exceeding the sum stated at the foot of the by-law,

(*b*) in the case of a second or subsequent conviction for a similar offence, a fine not exceeding the sum (if any) stated in that behalf at the foot of the by-law, and

(*c*) in the case of a continuing offence, a further fine, not exceeding the sum (if any) stated at the foot of the By-law as the daily fine, which daily fine may be imposed for each day after written notice of the offence from the Commissioners.

REGULATION OF TRAFFIC ON ROADS.

4. No owner of any carriage or cart shall allow it to be driven on any road by a driver under fourteen years of age.

Youthful drivers

Fine, Rs. 10.

5. No driver shall drive or have in his charge on any road more than one carriage or cart, except in the case of two carts, the hinder one of which is securely fastened to the preceding cart.

Driving more than one carriage or cart

Fine, Rs. 10.

6. Any person driving a carriage or cart, or riding a bicycle, or driving or riding an animal, or carrying a palanquin, on any road, shall, when passing any vehicle coming from the opposite direction, keep to his left, and shall, when overtaking any vehicle, keep to his right.

Rule of the road

Fine, Rs. 10.

7. No person shall drive any of the undermentioned vehicles or animals, or convey any palanquin, on any road, between half-an-hour after sunset and half-an-hour before sunrise, unless lights, or a bell are provided as follows:—

Lights

(a) every carriage must carry two conspicuous lights, one on each side;

(b) every cart must carry one conspicuous light:

(c) every elephant, camel or palanquin must be accompanied by one conspicuous light and every elephant must, in addition to such light, carry a bell to warn passers-by

(d) every cycle must carry one conspicuous light in front:

Provided that this by-law shall not apply on nights of full moon or on the four nights before and after full moon, if and when the moon is clearly visible.

Fine, Rs. 50.

8. No person shall drive any motor-car, or ride any motor-cycle or any tricycle or bicycle, on any road, unless it has attached to it a bell, horn or other suitable signal in good order.

Signals on motors and cycles

Fine, Rs. 50.

9. No cart shall, without the general or special permission of the Commissioners, carry on any road a load in excess of twenty maunds.

Maximum load for carts

Fine, Rs. 10.

10. No person shall drive upon a road any cart laden with iron girders, rails, beams, *bullas*, bamboos, planks or other materials of a similar character which exceed twelve feet in length, unless the cart be accompanied by another person, and be loaded in such a way that no portion of the said materials touches the ground.

Cart laden with girders, etc.

Fine, Rs. 10.

11. No person shall drive upon a road any cart laden with bricks, stones or other materials of a similar character, unless such materials be so secured that they cannot fall on to the road.

Cart laden with bricks, stones, etc.

Fine, Rs. 10.

12. No person shall convey on any road bamboos or timber placed on the back of any animal in such a way that any portion of such bamboos or timber touches the ground, and no person shall, after dusk, carry on any road any bamboos, or timber or anything else exceeding twelve feet in length.

Animal laden with bamboos or timber

Fine, Rs. 10.

13. No person shall, without the general or special permission of the Commissioners, take any elephant or camel along any road.

Taking elephants or camels along a road

Fine, Rs. 50.

14. No person shall allow any elephant in his charge to go over any bridge on any road, unless the bridge be constructed of arched masonry.

Taking an elephant over a bridge

Fine, Rs. 10.

15. No person shall drive upon a road, at the same time, more than two loaded pack-animals.

Loaded pack-animals

Fine, Rs. 10.

16. No person riding or driving a mare on any road shall allow a foal to accompany the mare unless it is secured.

Foals.

Fine, Rs. 10.

Driving bullock-cart on centre of road.

17. No person shall drive a bullock-cart on the centre of any road on which cart-tracks are provided.

Fine, Rs. 10.

Sitting or sleeping.

18. No person shall sit or sleep on any road so as to obstruct traffic.

Fine, Rs. 10.

REGULATION OF TRAFFIC ON FOOT-PATHS.

19. No person shall wilfully drive or ride any cart, carriage, bicycle, horse or cattle on any foot-path set apart for the use of foot-passengers.

Driving or riding on foot-path.

Fine, Rs. 10.

PREVENTION OF OBSTRUCTIONS, ENCROACHMENTS AND NUISANCES ON OR NEAR ROADS.

20. No person shall abandon, or let loose or negligently allow to get loose, any cattle, on or on to any road, and no person may have charge of more than twenty head of cattle on any road when going or returning from the pasture land and the cattle must be driven on one side of the road only.

Abandoning or letting loose cattle.

Fine, Rs. 10.

21. No parent or guardian of any child below the age of seven years shall allow such child to play or wander about on any road so as to obstruct traffic.

Children playing or wandering.

Fine, Rs. 10.

22. No person shall, without the general or special permission of the Commissioners, deposit any articles or things on any road, except for a temporary purpose, or use any road as a place for keeping any carriage, cart or cattle, or for washing any article or for any other private purpose:

Depositing of articles.

Provided that, during the months of April, May and June, between the hours of 10 P.M. and 5 A.M., *khatias* may be laid on the side of a road in such a manner as not to cause obstruction or danger to persons using the road.

Fine, Rs. 10.

23. No person shall plant a tree on any road without the general or special permission of the Commissioners.

Planting trees.

Fine, Rs. 10.

24. No person shall, without the general or special permission of the Commissioners, make any excavation on any road, or enclose any road or any part thereof.

Excavations and enclosures.

Fine, Rs. 10; daily fine, Rs. 2.

25. No person shall, without the general or special permission of the Commissioners, remove turf or cut grass from any road or the slopes thereof.

Removing turf or cutting grass.

Fine, Rs. 10.

26. No person shall affix or cause to be affixed to any building, owned or occupied by him, any gutter, spout or other thing intended for the conveyance and discharge of water, or shall leave in any such building any opening for the discharge of water, in such a way that the water discharged therefrom is thrown or falls upon a road or into any drain in or near a road, except through a downpipe or other suitable contrivance reaching to the level of the road or drain.

Discharge of water.

Fine, Rs. 10; daily fine, Rs. 2.

27. No person shall break in horses on any road not set apart for that purpose.

Breaking in horses

Fine, Rs. 10; on a second or subsequent conviction, Rs. 50.

28. No person shall fly a kite on any road or in such a way that it may fall on any road.

Flying kites

Fine, Rs. 10.

29. No person shall play any game on any road.

Playing games

Fine, Rs. 10.

30. No person shall throw or discharge any stone or missile on or near any road.

Throwing stones or missiles

Fine, Rs. 10.

31. No person shall drive any vehicle across a public drain in or near any road so as to cause damage to such drain.

Driving across a drain

Fine, Rs. 10.

32. No owner or occupier of land abutting on any road shall fence such land with barbed wire.

Barbed wire

Fine, Rs. 10; daily fine, Rs 2

33. No person shall—

Dust-bins

(a) place any burning material in any municipal dust-bin on or near a road or

(b) burn in any such dust-bin any paper, leaves, grass, wood or other material.

Fine, Rs. 10.

34. No person shall convey sewage or offensive matter by any road otherwise than—

Conveying sewage or offensive matter

(a) in a closely-covered receptacle, of such description and pattern as are prescribed from time to time by the Commissioners at a meeting, and

(b) between such hours as are so prescribed.

Fine, Rs. 10.

35. No person shall build or cause to be built, or shall keep, after prohibition by the Commissioners, any *tatti*, privy or urinal within ten feet of any road.

Privies and urinals

Fine, Rs. 10; daily fine, Rs. 2.

36. No person shall, on or within sight of any road, kill, or clean the carcass of, any poultry.

Killing cattle or poultry or cleaning carcasses

Fine, Rs. 10.

37. No person shall take or drive any carriage or cart over a road or part of a road which is closed under section 201 of the Bengal Municipal Act, 1884, or displace any barrier or fence erected under that section.

Closed roads

Fine, Rs. 10.

LETTING OFF OF FIRE-ARMS, FIRE-WORKS, FIRE-BALLOONS OR BOMBS.

38. No person shall let off any fire-arms, fire-works, fire-balloons or bombs on or within fifty yards of any road, except on payment of the following fees :—

Letting of fire-arms, etc

For processions ... ... Rs. 2 (two rupees).

For other purposes ... ... As. 4 (four annas)

Fine, Rs. 10.

REGULATION OF THE USE OF, AND PREVENTION OF NUISANCES IN REGARD TO, PUBLIC WATER-SUPPLY, BATHING AND WASHING PLACES, STREAMS, CHANNELS, TANKS AND WELLS.

39. No person shall, without the general or special permission of the Commissioners, set up any obstruction in any *nala* or water-course which is a source of public water-supply.

Setting up obstruction

Explanation.—The spreading of fishing-nets and the placing of fishing-traps in any such *nala* or water-course are included in the word ' obstruction," as used in this by-law.

Fine, Rs. 10; daily fine, Rs. 2.

40. No person shall ease himself at the side of or into any river, stream, channel, tank or well which is used by the public.

Easing one self

Fine, Rs. 10.

41. Every owner or occupier of any part of the bank of any *nala* or water-course which is a source of public water-supply shall—

Cleanliness of banks, and access for conservancy

(*a*) keep such bank free from filth, dense vegetation and other obstruction, and

(*b*) at all times allow the Commissioners, or any of their servants duly authorized in this behalf, to have access to such *nala* or water-course for any purpose of public conservancy.

Fine, Rs. 10.

42. A person cleansing a channel or tank shall not leave any weeds taken therefrom on the slopes or banks of the channel or tank, but shall remove the same altogether within three days.

Weeds

Fine, Rs. 10; daily fine, Rs. 2.

43. The owner of every well which is a source of public water-supply shall construct a masonry platform and drains to prevent the surface water falling into the well or stagnating in its vicinity.

Masonry platforms and drains for wells

Fine Rs. 10; daily fine, Rs. 2.

44. No person shall bathe, or shall wash clothes, utensils or any other article, within a distance of ten feet from the lowest platform of any public well [or of any filtered water stand-pipe which is used by the public].

Bathing or washing near well [or stand-pipe]

Fine, Rs. 10.

45. Except with the general or special permission of the Commissioners and under such conditions as they may from time to time prescribe, no person shall use any stand-pipe or fountain, belonging to the Commissioners, for any purpose other than drawing water—

Use of stand-pipes and fountains

(a) for drinking on the spot, or
(b) for carrying away for domestic purposes.

Fine, Rs. 10.

46. No person shall, without the general or special permission of the Commissioners, steep in any tank or ditch, any jute, hemp or other vegetable matter which is likely to render the water offensive or noxious to the neighbourhood.

Steeping jute, hemp, etc

Fine, Rs. 10; on a second or subsequent conviction, Rs. 50.

47. No person shall wash or cause to be washed in any tank or water-course or any other receptable for water used by the public for drinking or bathing purposes any clothes, bedding or other articles which have been used by a person suffering from any infectious or contagious disease.

Washing in infected articles

Fine, Rs. 50.

48. No person suffering from any infectious or contagious disease shall bathe in any public bathing place.

Bathing by infected persons

Fine. Rs. 10.

49. No male person above twelve years of age shall stand on or near, or bathe or wash in, any bathing-place which has been reserved by the Commissioners at a meeting for the use of females only.

Bathing-places reserved for females

Fine, Rs. 10.

50. No person shall use for any other purpose any drinking trough which is intended for watering cattle.

Cattle troughs

Fine, Rs. 10.

DISPOSAL OF SEWAGE AND OFFENSIVE MATTER.

51. No person shall deposit night-soil in any place not approved by the Commissioners for the purpose.

Depositing night-soil

Fine, Rs. 10; on a second or subsequent conviction, Rs. 50.

52. No owner or occupier of any garden or agricultural land shall, without the general or special permission of the Commissioners, cause or allow any human excrement to be used for manuring in such garden or land.

Manure

Fine, Rs. 50.

53. Every owner or occupier of any house, land or premises, from which sewage or offensive matter is not removed by such owner or occupier, shall give free access to the servants of the Municipality for the removal thereof within such hours as may have been fixed by the Commissioners.

Access to Municipal servants

Fine, Rs. 10; on a second or subsequent conviction, Rs. 50.

54. Every owner, occupier or farmer of any market shall remove or cause to be removed therefrom, once in every twenty-four hours, any offensive matter which may have accumulated therein during that period.

Removal of offensive matter from markets

Fine, Rs. 10; on a second or subsequent conviction, Rs. 50.

DISPOSAL OF CARCASSES.

Disposal of carcasses.

55. Every owner or occupier within whose premises any animal dies shall, within six hours after its death, or, if the death occurs at night, then within six hours after sunrise, either remove the carcass, at his own expense, to such place as may be set apart by the Commissioners for the disposal of such carcasses, or report the death to the Conservancy Overseer of the Ward within which such premises are situated.

Fine, Rs. 10.

LATRINES.

Latrines reserved for females.

56. No male person above twelve years of age, except the Municipal Inspecting officers for purposes of inspection at such times as the Commissioners may fix in this behalf, shall enter any public latrine intended for the use of females.

Fine, Rs. 10.

DRAINS.

Obstruction to drains.

57. No person shall deposit, or cause to be deposited in or on the side of any public drain, any substance or thing which will cause obstruction to such drain.

Fine, Rs. 10.

Constructing stalls, platforms, etc., over a drain.

58. No person shall construct or place over, or by the side of, any public drain, any stall, bridge, platform, building or structure of any kind, except with the general or special permission of the Commissioners and in such manner as they may direct.

Fine, Rs. 10; daily fine, Rs. 2.

CREMATIONS AND BURIALS, AND THE DISPOSAL OF CORPSES.

Covering of corpse.

59. No person shall convey a corpse or part of a corpse along any road, unless it be decently covered and totally concealed from view.

Fine, Rs. 10.

Depositing corpse on or near road.

60. No person, while conveying a corpse, shall, except for the purpose of ordinary relief or for a religious purpose, deposit it on or near any road.

Fine, Rs. 10.

Burial or burning obligatory.

61. No person shall, without the general or special permission of the Commissioners, dispose of any corpse otherwise than by burying or burning it.

Fine, Rs. 10.

Lines for graves.

62. When lines for graves in any burial-place have been marked out by the Commissioners, no person shall build or dig, or cause to be built or dug, any grave in such burial-place except in such a line.

Fine, Rs. 50.

Depth of coffin or corpse in masonry grave.

63. No person shall, in any burial-ground, bury, or cause to be buried, any corpse in a grave constructed of masonry, unless the top of the coffin, or (if no coffin is used) the corpse, is placed at least six feet below the surface.

Fine, Rs. 50.

64. No person shall, in any burial-ground, bury, or cause to be buried, any corpse in a grave not constructed of masonry, unless the grave is at least six feet deep.

Depth of non-masonry graves.

Fine. Rs. 50.

65. No person shall build or dig, or cause to be built or dug, any grave in a burial-ground at a distance of less than three feet from any other existing grave.

Distance between graves.

Fine, Rs. 50.

66. No grave once used shall be opened for the burial of another corpse without the general or special permission of the Commissioners.

Opening graves

Fine, Rs. 50.

67. Any person burning, or causing to be burnt, any corpse at any burning-ground or burning-ghât, shall cause the corpse and the clothes and other articles brought with it to be completely reduced to ashes.

Complete cremation

Fine, Rs. 50.

68. Any person who conveys, or causes to be conveyed, any corpse to any burning-ground or burning-ghât shall burn the same or cause it to be burnt within six hours after its arrival at such ground or ghât.

Speedy cremation

Fine, Rs. 50.

PREVENTION OF NUISANCES AFFECTING THE PUBLIC HEALTH, SAFETY OR CONVENIENCE.

69. Every owner or occupier of any land shall, within forty-eight hours after service of a notice in this behalf from the Commissioners,—

Clearing and fencing land

(a) clear the land of dirt, dung, bones, ashes, sweepings, night-soil and other filth, and all other noxious or offensive matter, and

(b) fence the land so as to prevent the commission thereon of nuisances affecting the public health, safety or convenience.

Fine, Rs. 10; daily fine, Rs. 2.

70. No proprietor, owner, manager, trustee or motawalli, or person entrusted with the daily supervision, or in charge, of any public place of charity or worship shall keep such place, or any building or premises used in connection therewith, in an insanitary condition.

Sanitation of public places of charity or worship

Fine, Rs. 10; on a second or subsequent conviction, Rs. 50.

71. Every owner or occupier of a meat, poultry, fish or vegetable shop, or a market, bazar or slaughter-house, shall keep the same in a cleanly condition.

Cleanliness of shops, markets and slaughter-houses

Fine, Rs. 10; on a second or subsequent conviction, Rs. 50.

72. No person shall sell fish or expose fish for sale in any part of the Municipal market except on the paved floor specially set apart for the purpose.

Sale of fish in market

Fine. Rs. 10.

73. Every baker or confectioner who keeps for sale any bread. sweetmeats or other prepared articles of food and every vendor or hawker of such articles shall keep the same in a glass case or other covered receptacle, so as to exclude flies and dust therefrom.

Sale of prepared articles of food

Fine. Rs. 10; on a second or subsequent conviction, Rs. 50.

74. When a urinal or latrine has been provided for any market, no person shall satisfy a call of nature at any place within the market, except at the urinal or latrine so provided.

Easing oneself in market

Fine, Rs. 10.

75. No person shall make any ærated water or ice for the purpose of sale without first boiling the water.

Ærated water and ice

Fine, Rs. 50.

76. No person shall retain, purchase or sell clothing found on the dead body of a person who has died from small-pox, plague, cholera or any other infectious disease.

Infected clothing

Fine, Rs. 50.

77. Every owner or driver of a carriage which has conveyed a person suffering from small-pox, plague, cholera or any other infectious disease, or a corpse, shall, before using the carriage again, disinfect it with such disinfectants as the Commissioners may from time to time prescribe.

Disinfection of carriages

Fine, Rs. 50.

78. No person shall, without the general or special permission of the Commissioners, picket animals, collect carts or form any encampment on any public ground not set apart for the purpose.

Picketing animals, collecting carts or forming encampments

Fine, Rs. 10: on a second or subsequent conviction, Rs. 50.

79. No person shall abandon or let loose, or allow to get loose, any diseased or worn-out cattle.

Diseased or worn-out cattle

Fine, Rs. 10.

80. No person shall, except with the general or special permission of the Commissioners, beat a drum or tom-tom or blow any high-sounding instrument after 10 P.M. or before 6 A.M.

Nocturnal noises

Fine, Rs. 10.

BY-LAW GIVING EFFECT TO THE OBJECTS OF SECTION 103 OF THE BENGAL MUNICIPAL ACT, 1884.

81. When a ticket, showing the number of the holding on the register and the circle within which the holding is situated has been affixed to a holding by the Municipal authorities, and the same is disfigured, obliterated or removed, the owner or occupier of the holding shall, within two weeks from the time at which he becomes aware of the fact, report the matter to the Vice-Chairman.

Report of disfigurement, etc, of tickets

Fine, Rs. 10.

CANCELLATION OF FORMER BY-LAWS.

82. The by-laws which were confirmed by Government order No. 4498M., dated the 2nd December 1896, are hereby cancelled.

Cancellation of former by-laws

No. 1193M.—The 31st August 1913.—The following draft order which the Governor in Council proposes to make in exercise of the power conferred by section 221 of the Bengal Municipal Act, 18 4 (Bengal Act III of 1884), published for the information of persons likely to be affected thereby.

Nadia.

2. The draft will be taken into consideration on the 16th October 1913, and any objection or suggestion which may be received by the undersigned through the District Magistrate and the Divisional Commissioner before that date will be duly considered.

Draft order.

In exercise of the power conferred by section 221 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), and upon the application of the Commissioners of the Kushtia Municipality, in the district of Nadia, made in pursuance of a resolution passed at a meeting specially convened to consider the question, the Governor in Council is pleased to extend all the provisions of Parts VI, IX and X of that Act to the area of the Kushtia Municipality, the boundaries of which are specified below:—

North and West—The old channel of the river Gorai.

East—Part of the present western boundary of the Municipality, viz., a straight line drawn from the junction of the old channel of the river Gorai with the Damash to the site of the old Kushtia station building, and thence to the point where the present western boundary line cuts the Dadapur road to reach the Railway gate on the Bhadalia road.

South—The northern edge of the part of the Dadapur road lying between the aforesaid point and the old channel of the river Gorai.

No. 1204M.—The 2nd September 1913.—The following draft order, which the Governor in Council proposes to make in exercise of the powers vested in him by section 1 (3) of Bengal Act II of 1891, is published for the information of persons likely to be affected thereby.

II. The draft will be taken into consideration on the 16th October 1913, and any objection or suggestion which may be received by the undersigned through the District Magistrate or the Divisional Commissioners before that date will be duly considered.

Draft order.

In exercise of the power conferred by section 1, clause (3) of the Calcutta Hackney Carriage Act, II of 1891, the Governor in Council is pleased to extend the provisions of the said Act to the Pabna Municipality, in the district of Pabna.

2. The Governor in Council is also pleased, in exercise of the power conferred by section 61, sub-section (1) of the same Act, to appoint the Commissioners of the Pabna Municipality and their Chairman, respectively, to perform the duties imposed, and to exercise the powers conferred by the Act on the Corporation of Calcutta and the Chairman of the Corporation respectively.

No. 1227M.—The 1st September 1913.—The Commissioners of the Comilla Municipality, in the district of Tippera, having at a meeting requested the Government of Bengal under section 23 (2) of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), to appoint a Chairman, the Governor in Council is pleased to appoint Babu Kailas Chandra Bhattacharjee to be their Chairman.

Tippera.

No. 1241M.—The 5th September 1913.—In exercise of the power conferred by section 221 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), and upon the application of the Commissioners of the Baidyabati Municipality, in the district of Hooghly, made in pursuance of a resolution passed at a meeting specially convened to consider the question, His Excellency the Governor in Council is pleased to extend all provisions of Part IX of that Act to the

Hooghly.

area of the said Municipality, the boundaries of which are specified below:—

North—Bagdipara Lane and the southern boundary of the Bhadreswar Municipality.
South—Garden of Sarat Chandra Mukherji and others.
East—Grand Trunk Road.
West—Raj Krishna Mukherji's Lane, including North and South Deanston road.

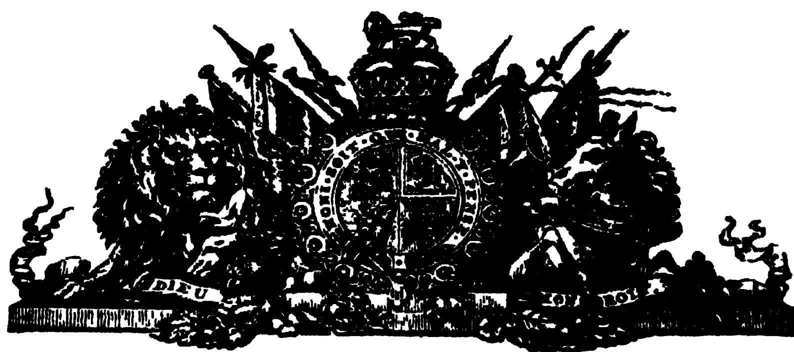
No. 1213L.S.-G.—The 1st September 1913.—In exercise of the power conferred by section 138, clauses (*i*) and (*t*) of the Bengal Local Self-Government Act of 1885 (Bengal Act, III of 1885), read with section 3 of the Bengal, Bihar and Orissa and Assam Laws Act, 1912 (VII of 1912), the Governor in Council is pleased to make the following amendment in the District Board's Account Rules published under Notification No. 2009T.—M., dated the 9th November 1901, at page 217 of Part IB of the *Calcutta Gazette* of the 4th December 1901, namely:—

1. *Number* the present rule 66, in Part VIII, of the said District Board's Account Rules as 66 (*1*) and *after* rule 66 (*1*) *add* the following:—

(*2*) Cheques in favour of the District Engineer in recoupment of imprest shall be made payable "to order" only.

No. 1219L.S.-G.—The 1st September 1913.—The following draft of a notification, which the Governor in Council intends to issue under the Bengal Local Self-Government Act of 1885 (Bengal Act, III of 1885), read with section 3 of the Bengal, Bihar and Orissa and Assam Laws Act, 1912 (VII of 1912), is published for the information of persons likely to be affected thereby.

II. The draft will be taken into consideration on the 16th October 1913, and any objection or suggestion, which may be received by the undersigned before that date, will be duly considered.



Draft Notification.

In exercise of the power conferred by section 138, clauses (*i*) and (*t*) of the Bengal Local Self-Government Act of 1885 (Bengal Act, III of 1885), read with section 3 of the Bengal, Bihar and Orissa and Assam Laws Act, 1912 (VII of 1912), the Governor in Council is pleased to make the following amendment in the District Board's Account Rules published under Notification No. 2009T.—M., dated the 9th November 1901, at page 217 of Part IB of the *Calcutta Gazette* of the 4th December 1901, s amended by Notification No. 1213L.S.-G., dated the 1st September 1913, namely—

After rule 66 (*2*), in Part VIII, of the said District Board's Account Rules *add* the following:—

(*3*) Cheques in favour of the District Engineer in recoupment of imprest shall be separately drawn and shall not be mixed up with any other payment.

Educational Notices.

CIVIL ENGINEERING COLLEGE, SIBPUR.

THE following courses of instruction are provided at this College:—

I.—THE ENGINEER DEPARTMENT.

(Affiliated to the Calcutta University.)

A four-year course leading to the Bachelor of Engineering Degree in Civil Engineering.

Admission qualification.—The Intermediate Examination of the Calcutta University in Science or Arts (with Mathematics and Physics or Chemistry), or equivalent. In addition candidates for admission are required to pass a special examination in Drawing.

Applications for admission by regular students on or before February 1st.

Applications for admission by special students on or before July 31st.

Session commences on the 1st Monday in November.

II.—THE APPRENTICE DEPARTMENT.

(Affiliated to the Joint Technical Examination Board).

Section I.—The Sub-Overseer Classes.

A course of two academic years leading to the Sub-Overseer Examination of the Board.

Admission qualifications—

To the 1st-year class—The Matriculation Examination of the Calcutta University, Middle School Examination, or equivalent.

To the 2nd-year class—The Final Examination of B classes of zilla schools.

Admissions—

To 1st-year class—1st Monday in June.

To 2nd-year class—Immediately the result of the Final Examination of the B classes of zilla schools is announced.

Section II.—The Overseer Classes.

A choice of three special branches is offered :—

(1) Civil Engineering, preparing for the Board's certificate of Overseer (Civil Branch).

(2) Mechanical and Electrical Engineering, preparing for the Board's certificate of Overseer (Mechanical and Electrical Branch).

(3) Mining leading to the Government of India's Diploma in the Principles of Mining.

Admissions which are limited to 40 in each branch are made from among the successful candidates immediately the results of the Sub-Overseer Examination are announced.

Section III.—Practical Training.

[Lasting for a full year (of 313 working days).]

This practical training is carried out under the regulations of the Board for the Civil and Mechanical and Electrical Engineering Branches in the workshops or Electrical Department of the College, or under Government or other public bodies or firms approved for this purpose by the Board. On the satisfactory completion of this training the following certificates are awarded :—

Civil Branch	Sub-Engineer. Upper Subordinate.
Mechanical and Electrical Branch	Full course certificate.

III.—CLASSES IN TINCTORIAL CHEMISTRY AND DYEING.

A two-year courses in Tinctorial Chemistry and Dyeing leading to a College Diploma is offered.

Admissions.—1st Monday in November.

Qualification for regular students.—Intermediate examination of the Calcutta University in Engineering, Science or Arts (with Chemistry); the Final Examination of Government Weaving Institute.

For occasional students.—A sufficient general education with a practical knowledge of Dyeing.

IV.—WORKSHOPS.

Industrial classes in the following shops :—

Carpenters.	Turners.
Blacksmiths.	Pattern-making.
Fitters.	Foundry and Brass and Iron

Admissions at any time of the year.

For further information apply to the Principal, Civil Engineering College Sibpur.

CALCUTTA, *the 2nd September 1913.*

CALCUTTA UNIVERSITY.

NOTICE.

IT is hereby notified that the examination of Sudhansusekhar Mookerjee, who was a candidate at the last I. A. Examination (Roll Baul. 18), is cancelled, as he had been expelled from the Examination Hall for using unfair means to pass the examination.

P. BRÜHL, *Offg. Registrar.*

SENATE HOUSE, *the 27th August 1913.*

NOTIFICATION.

TEST EXAMINATION OF PRIVATE CANDIDATES FOR MATRICULATION EXAMINATION, 1914.

A TEST EXAMINATION of private students, who have not attended any school recognised or unrecognised for at least one year previous to the ensuing examination, will be held at the office of the Inspector of Schools, Presidency Division, 285, Bow Bazar Street, Calcutta, from Monday, the 1st December 1913. Such candidates only as reside in any of the districts of the Presidency Division, including Calcutta, will be admitted to the examination. The term "private student" includes school-masters.

2. Private candidates are students, who have not attended any school for at least one year previous to the Matriculation examination. They should produce proof that they have not attended any school for such period. They should also produce certificates of conduct and progress in studies from the authorities of the last school where they read, and also a certificate from other reliable authorities regarding conduct and progress in studies after leaving school. The transfer certificates granted to them by the authorities of the schools in which they studied last, or the Registrar's receipt for the fee paid in the case of those candidates who previously appeared at the Entrance or the Matriculation examination, must be submitted in original along with the application for permission to appear at the test examination. A statement of antecedents of the candidate should accompany his application. He should state whether he read in any unrecognised school, and if so, in what school and in what year. A student who failed to pass the annual examination for promotion to the first class at the end of session 1912-13 and then left the school will, under no circumstances, be allowed to appear at the Matriculation examination of 1914.

3. *Bonâ fide* teachers employed in any of the schools in the Presidency Division may be admitted to the examination: they must produce certificates of service and character from their employers or from the Deputy Inspector of Schools of the district concerned.

4. No one shall be admitted to the Matriculation examination unless he completes the age of sixteen years on the first day of the month in which the Matriculation examination is held.

5. Each candidate should submit to this office, not later than the 1st November 1913, his application for admission to the test examination, with the following particulars:—

(1) Age, (2) residence, (3) father's name, (4) whether he appeared at any previous Entrance or Matriculation examination, (5) second language besides English, (6) Vernacular language, and (7) which two of the following optional subjects he has taken up:—

(*a*) Additional Mathematics.

(*b*) Additional paper in the Classical language.

(*c*) History.

(*d*) Geography.

(*e*) Elementary Mechanics.

6. The admission-fee for the examination is Rs. 6 for each candidate, and is to be remitted with the application on or before the prescribed date, after which a fine of Rs. 2 is to be imposed for each week's delay. Under no circumstances the admission-fee will be refunded.

7. No private student will be admitted to the test examination unless he is satisfactorily identified.

8. Candidates who are sent up by this office must appear at the Calcutta Examination centre.

9. Those who reside at a distance from Calcutta may, with special permission, present themselves at the test examination held by the head master of the nearest zilla or Government high school within the Presidency Division on condition that they appear at the centre selected by the candidates from that institution. The head master of such school is hereby

authorized to sign the applications, which must afterwards be countersigned by the undersigned. The fees and fines paid by these candidates as per paragraph 6 above should be utilized in meeting the cost of the examination.

10. The Matriculation examination in 1914 will be held on the 2nd of March 1914 and following days.

11. Applications and fees for admission to the examination must reach the office of the Registrar on or before the 17th of January 1914.

12. *Programme of Examination*—

	Morning	After noon
Monday, 1st December ...	English Translation	English Text and Grammar.
Tuesday, 2nd December ...	Compulsory Mathematics.	Vernacular Language.
Wednesday, 3rd December	Compulsory Classical Language.	Additional Classical Language.
Thursday, 4th December ...	History ...	Additional Mathematics.
Friday, 5th December ...	Geography ...	Mechanics.

INTERMEDIATE AND B.A. EXAMINATIONS IN 1914.

Deputy Inspectors, Sub-Inspectors, and *bonâ fide* teachers of English schools in the Presidency Division who have been employed as such for at least three years preceding the examination will be admitted to the above examinations on production of certificates of character and length of service (with dates) from their employers. Laboratory Assistants and Demonstrators and Librarians of affiliated colleges will be treated as teachers. *Their applications must reach this office on or before the 4th December 1913.*

1. In accordance with section 9, Chapter XV, of the revised Regulations dealing with the registration of University students, all candidates, who intend to appear at any of the ensuing examinations of the University of Calcutta otherwise than as students of some affiliated institutions and who have applied for or have obtained the special permission of the Senate for the purpose, are required to apply to the Registrar of the Calcutta University for the registration of their names as University students. No person will be deemed a "University student" unless and until his name has been duly registered, and none but "University students" will be eligible for admission to any University examination other than the Matriculation. A registration fee of Rs. 2 must accompany every application.

2. Candidates for the B.A. examination must send their F.A. certificates, and candidates for the Intermediate examination their Entrance or Matriculation certificates, together with a letter, in original, from the Senate of the Calcutta University, permitting them to appear at the examination.

3. Candidates should carefully read the printed form of application and supply all the information required by the University, including the Registrar's receipt in the case of those school-masters who were admitted to a previous examination of the same class.

4. The Intermediate and B.A. examinations in 1914 will be held on the 16th March 1914 and following days.

5. Applications with the countersignature of the undersigned and fees for admission to the above examinations must reach the *office of the Registrar on or before the 31st January 1914* and must be sent to that office by the candidates direct.

P. MUKERJI.

Inspector of Schools, Presidency Division.

ADMINISTRATOR-GENERAL.

Notice of Deaths sent to the Administrator-General of Bengal under section 64 of Act II of 1874.

Name of deceased	Place of death	Date of death	By whom death reported and when	REMARKS
Mr. H. P Comber, Excise Inspector, Myitkyina.	......	18th June 1913	District Judge, Myitkyina, on 20th July 1913	The deceased left no Will and the value of the estate as reported was worth Rs 300 The District Magistrate proposed to make the balance of the estate over to the deceased's brother, who is at present in England on leave, after settlement of accounts.
Mr Hugh Carbery, of Ambala City	Simla ..	2nd August ,, .	District Judge Simla, on 9th August 1913	Mrs. Moffatt, the mother-in-law of the deceased, has applied to the Court of the District Judge of Ambala for grant of Letters of Administration. The Administrator-General is in communication with the District Judge on the subject of this application.
Major Kemp, A V C. (retired)	Mussoorie	2nd ,, ,, .	District Judge, Saharanpur, on 19th August 1913	The deceased has left a Will which is in the custody of the Bank of Upper India, Ld., Mussoorie. The District Judge has been informed that if steps are being taken to prove this Will, there is no need for the Administrator-General to take any action in the matter. Further report from the District Judge is awaited.
Mr Ernest Humphry Stevens .	Muzaffarpur	1st J[illegible] .	District Judge Muzaffarpur on 20th August 1913	[illegible] his wife appointing his brother-in-law [illegible] for Probate thereof

1, COUNCIL HOUSE STREET, CALCUTTA, *the 28th August 1913.*

Notice to Tenderers.

(See A. R. I., Vol. III, paras. 135 and 136.)

I.—Fresh Sealed Tenders for the supply of the undermentioned supplies from 1st October 1913 to 31st March 1914 will be received by the Superintendent up to 4 P.M. on the 30th September 1913.

II.—Forms of "Tenders" and "Schedules" (I. A. F Z2120, 2121 and 2122) of the stores for the supply of which tenders are invited, are obtainable on payment at the rate of Re. 1 per set on application in writing, and samples of the articles to be supplied can be inspected at the Depôt Godown. Remount Depôt, 25 Garden Reach, any day (Sundays and holidays excepted) between the hours of 10 A.M. and 2 P.M.

III.—Tenders will only be received in accordance with the conditions on these printed forms, which must be submitted in English and should specify in words as well as in figures the rate at which each description of article named in them will be delivered. Fractional parts of pies in rates will not be accepted. Tenders must be duly signed and completed in accordance with the instructions they contain.

IV.—Tenders should be accompanied by a deposit in the form of a Presidency Bank / Treasury Receipt or Government Promissory notes, Provincial or Municipal debentures or Port Trust bonds, as earnest money, at the rate of 2 per cent. on the total value of the stores tendered for, subject to a minimum of Rs. 25, which deposit will be returned on acceptance or rejection of the tender. In the case of Promissory Notes being furnished they must remain in the name of the depositor.

V.—No security or deposit which the tenderer may have furnished in connection with a previous contract or on any other account can be accepted as earnest money.

VI.—The approval or rejection of tenders rests with the Quartermaster-General in India, who reserves to himself the right of rejecting any tender, or any items in a tender, without cause assigned. The lowest tender will not of necessity be accepted.

VII.—Tenders will be opened at this office at 12 A.M. on Wednesday, the 1st October 1913. Tenderers are invited to attend.

VIII.—Parties tendering are particularly requested to give their addresses in full.

IX.—Any further information required can be obtained on application to this office between the hours of 10 A.M. and 4 P.M (Sundays and holidays excepted).

X.—Tenders must be sent under a strong cover securely fastened, sealed with a distinctive device and conspicuously marked "Tender for the supply of grain and fodder," and addressed to the Superintendent, Calcutta Remount Depôt, Babugarh (U P.), and not to any officer by name.

XI.—Tenders which do not comply with the above conditions will be rejected.

C. DEMPSTER, MAJOR,
for Superintendent, Remount Depôt, Calcutta

Calcutta, the 3rd September 1913.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD

THE Indian Law Reports published under the authority of the Governor-General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge Bengal Secretariat Book Depôt, Calcutta,
or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad

PART IV.

Bills introduced in the Bengal Legislative Council, Reports of Select Committees presented or to be presented to that Council, and Bills published before introduction in that Council.

GOVERNMENT OF BENGAL.

BENGAL LEGISLATIVE COUNCIL.

NOTIFICATION.

No. 1882L., dated the 6th September 1913.—The following Bill was introduced in the Bengal Legislative Council on the 1st September 1913, and is hereby published for information, together with the Statement of Objects and Reasons:—

THE DOVETON TRUST BILL, 1913.

A

BILL

to abolish the Parental Academic Institution and Doveton College and Doveton Institution for Young Ladies, and to provide for the application of the property and funds thereof as nearly as possible in accordance with the intentions of the founders.

Preamble

WHEREAS, on the first day of March, 1823, an Educational Society was established in Calcutta, under the designation of "The Parental Academic Institution," with the object of establishing one or more schools under its own control in order to procure the means of affording to youth the best education of which existing circumstances would admit, and, as far as the state of funds would allow, to provide education for the orphans of members dying not possessed of property sufficient to educate their children;

And whereas the designation of the said Society was changed in the year 1855 to that of "The Parental Academic Institution and Doveton College";

And whereas the said Society was registered as a Society under the Societies Registration Act, 1860, on the twenty-ninth day of August, 1881; (XXI of 1860)

And whereas the designation of the said Society was again changed in the year 1886, on the incorporation therewith of "The Young Ladies' Institution," to that of "The Parental Academic Institution and Doveton College and Doveton Institution for Young Ladies";

And whereas various properties and funds have from time to time been vested in the Governing Body of the said Society, and in other persons, for the benefit of, or in trust for, the said Institution or pupils to be educated therein;

And whereas the said Institution is now governed by certain persons claiming to be a Committee duly elected or appointed under an order made by the High Court, Calcutta, on the eighth day of April, 1907;

And whereas it appears to the Governor in Council that the said Committee are unable satisfactorily to manage the said Institution according to the intentions of its founders, and that portions of the property and funds of the Institution have been wasted away in litigation and by mismanagement, and that it is expedient that the Legislature should intervene in order to prevent further waste and mismanagement;

And whereas it appears to the Governor in Council that the objects of the founders of the said Institution would best be met by providing for the application of its property and funds, under the direction of the Government, to the education of Christian children of what is known as the Domiciled Community of Bengal;

And whereas the sanction of the Governor General has been obtained, under section 5 of the Indian Councils Act, 1892, to the passing of this Act; (55 & 56 Vict., c. 14.)

It is hereby enacted as follows :—

Short title.

1. This Act may be called the Doveton Trust Act, 1913.

Abolition of the Doveton Institution.

2. The "Parental Academic Institution and Doveton College and Doveton Institution for Young Ladies" is hereby abolished.

The Doveton Trust Bill.
(Clauses 3-6.)

Vesting and application of trust property and funds.

3. All property, movable and immovable, which is vested in the Managing Committee of the said Institution, or in any other person, for the benefit of the said Institution or anywise in trust therefor, and all sums standing to the credit of the said Institution, shall vest in the Accountant-General, Bengal, as bare trustee, and shall be applied —

(a) to the discharge of all debts and liabilities properly payable out of, or chargeable upon, the property or funds of the said Institution, and

(b) to making provision for the education of Christian children of what is known as the Domiciled Community of Bengal, by the granting of scholarships, by grants-in-aid to Institutions intended for the education of such children, or in such other similar manner as to the Local Government may seem reasonable and proper

Appointment of administrator, and transfer of powers to him.

4. The Local Government shall, by notification in the Calcutta Gazette, appoint an officer (not being the Accountant-General, Bengal) to administer the property and sums referred to in section 3; and all powers in respect of such property and sums, which have hitherto been exercisable by the said Managing Committee or by any other person, may henceforth be exercised by such officer, subject to the control of the Local Government. [Cf. Act VI of 1890, s. 6 (2), last part.]

Power to make rules.

5. (1) The Local Government may make rules to carry out the purposes of this Act [Cf. Act VI of 1890, s. 13 (e), Act V of 1912, s. 24 (1).]

(2) In particular, and without prejudice to the generality of the foregoing power, such rules may prescribe— [Cf. Act V of 1912, s. 24 (2).]

(a) the method of applying property and funds held under this Act to the purpose specified in clause (b) of section 3; [Cf. Act VI of 1890, s. 8 (2), last part.]

(b) the securities in which funds held under this Act and not required for immediate disbursement shall be invested; [Cf. Act VI of 1890, s. 4 (3).]

(c) the accounts to be kept by the Accountant-General, Bengal, and by the officer appointed under section 4, and the mode in which such accounts are to be audited; [Cf. Act VI of 1890, s. 8 (2) first part, and s. 13 (d).]

(d) the periodical publication of a list of all property and funds held under this Act, and of an abstract of all accounts kept hereunder; [Cf. Act VI of 1890, s. 9.]

(e) the fees (if any) to be paid to the Government in respect of property held and administered under this Act. [Cf. Act VI of 1890, s. 13 (b).]

(3) The power conferred by this section to make rules is subject to the condition of the rules being made after previous publication. [Cf. Act VI of 1890, s. 13 (c), Act V of 1912, s. 24 (3).]

(4) All rules made under this section shall be published in the Calcutta Gazette, and on such publication shall have effect as if enacted in this Act. [Cf. Act V of 1912, s. 24 (4).]

Indemnity

6. (1) No suit shall be instituted against the Government in respect of anything done or purporting to be done under this Act, or in respect of any alleged neglect or omission to perform any duty devolving on the Government under this Act, or in respect of the exercise of, or the failure to exercise, any power conferred by this Act on the Government. [Cf. Act VI of 1890, s. 14.]

(2) No suit shall be instituted against the Accountant-General, Bengal, or any officer appointed under section 4, except—

(a) for divesting him of property on the ground of its not being subject to this Act, or

The Doveton Trust Bill.
(Clause 6.)

(b) for making him chargeable with or accountable for the loss or misapplication of any property vested in or managed by him under this Act, or the income thereof, where the loss or misapplication has been occasioned by or through his wilful act, neglect or default:

Provided that nothing in this sub-section shall affect the operation of section 92 of the Code of Civil Procedure, 1908, or of any other enactment for the time being in force respecting the authority of the Advocate General of Bengal to act with respect to any charity. [Cf. Act VI of 1890, s. 16] V of 1908

STATEMENT OF OBJECTS AND REASONS

THE objects of this Bill are to abolish the Institution known as the Doveton College, and to take its property and funds under the management of the Government for application, as nearly as possible, in the manner contemplated by the founders of the Institution.

2. The Institution was founded nearly a century ago for the purpose of providing education for Christian children. It is at present managed by persons claiming to be a Committee duly elected or appointed under an order of the High Court, dated the 8th April, 1907. That Committee has failed to carry out the intention of the founders of the Institution with respect to the provision of education for Christian children, and has, in other respects, failed to discharge its obligations; and the number of its members has been allowed to fall below the number prescribed in the order of the High Court. It has therefore become necessary for the Legislature to intervene, to prevent further waste.

Notes on clauses.

3. *Clause 2* of the Bill abolishes the Doveton Institution.

4. *Clause 3* vests the property and funds of the Institution in the Accountant-General, Bengal, as bare trustee, to be applied, *first*, to the discharge of the debts and liabilities of the Institution, and *next*, to making provision for the education of Christian children of the Domiciled Community of Bengal.

5. *Clause 4* directs the Local Government to appoint an officer (other than the Accountant-General) to administer the property and funds, and transfers to the officer so appointed all powers now exercisable by the Committee of Management or by any other person in respect of such property and funds, so that all necessary steps may be taken for protecting or recovering the same.

6. *Clause 5* empowers the Local Government to make rules to carry out the purposes of the Act, and is based on provisions contained in the Charitable Endowments Act, 1890 (VI of 1890).

7. *Clause 6* grants the usual trustees' indemnity, and is based on section 14 of the Act just mentioned.

The 5th August, 1913.

P. C. LYON,
Member in charge.

A. W. WATSON,
Offg. Secy. to the Bengal Legislative Council.

NOTIFICATION.

No. 1892L., dated the 8th September, 1913.—His Excellency the President having been pleased to order, under rule 39 (*b*) of the Bengal Legislative Rules, 1912, the publication of the Supplementary Report of the Select Committee to which the Bill to assimilate certain enactments in force in Eastern and Western Bengal, to amend certain enactments, and to repeal certain other enactments was referred. the said Report of that Committee, with the Bill, as finally amended by them, annexed, is hereby published for general information.

SUPPLEMENTARY REPORT OF THE SELECT COMMITTEE ON THE BENGAL LAWS BILL, 1913.

WE, the undersigned members of the Select Committee to which the Bengal Laws Bill, 1913, was recommitted at the meeting of the Bengal Legislative Council held on 1st September last, have the honour to submit this further report, supplementry to the report dated 1st July 1913, which was presented to the Council on the said 1st September.

2. We have considered the proposal to assimilate the Local Self-Government law at present in force in the two divisions of the Presidency by the extension to Eastern Bengal of Bengal Act V of 1908 [the Bengal Local Self-Government (Amendment) Act,] and are of opinion that such assimilation is desirable, and that Schedule I to the Bill should be amended accordingly.

3. We further see no objection, in view of the fact that a comprehensive amendment of the Bengal Local Self-Government Act of 1885 (Ben. Act III of 1885) cannot be undertaken at the present time, to the suggestion that the present opportunity should be taken—

(1) to modify the present provisions of Chapter I of that Act by providing that all appointments made by the Divisional Commissioner thereunder to any District or Local Board shall be subject to the administrative contro of the Local Government, and

(2) to empower District Boards to establish scholarships for the furtherance of technical education.

We are informed that considerable inconvenience has resulted in practice from the legal disability of District Boards to establish scholarships of this nature, and it is, we consider, in the best interests of education that such disability should be removed. We accordingly recommend to the Council that the amendments (affecting Bengal Act III of 1885) now embodied in Schedule III to the Laws Bill should be accepted. It is true that they are of a somewhat different nature from those relating to other Acts which find a place in that Schedule; but, in the existing circumstances, we incline to the opinion that the minor amendments now sought to be made in the Bengal Local Self-Government Act can be more conveniently and expeditiously dealt with in this manner than by means of a separate legislative enactment.

4. The only amendments made by us in Schedule IV have reference to Bengal Act III of 1885 and are purely formal. Amendments Nos. (*i*) and (*ii*) relate to enactments which are now obsolete in view of the repeal of Bengal Act II of 1880 by Act II of 1886; while Nos. (*iii*) and (*iv*) merely seek to expunge from the Act references to a measure which has no application to the Presidency of Bengal as now constituted.

5. The Bill, as thus further amended by us, is annexed hereto. We recommend to the Council that it be passed into law.

THE BENGAL LAWS BILL, 1913.

CONTENTS.

A

BILL

to assimilate certain enactments in force in Eastern and Western Bengal, to amend certain enactments, and to repeal certain other enactments.

WHEREAS it is expedient to extend certain enactments of the Bengal Legislative Council to Eastern Bengal, and to extend certain enactments of the Eastern Bengal and Assam Legislative Council to Western Bengal;

And whereas it is also expedient that certain formal amendments should be made in enactments in force in Bengal;

And whereas it is also expedient that certain enactments in force in Bengal should be repealed;

And whereas the previous sanction of the Governor-General has been obtained, under section 5 of the Indian Councils Act, 1892, to the passing of this Act; 55 & 56 Vict., c. 14.

It is hereby enacted as follows:—

Short title. 1. This Act may be called the Bengal Laws Act, 1913.

Definitions. 2. In this Act,—

(1) "Eastern Bengal" means the territory mentioned in Part I of Schedule A to the Bengal, Bihar and Orissa and Assam Laws Act, 1912; and VII of 1912.

(2) "Western Bengal" means the territory mentioned in Part II of that Schedule.

Extension of enactments to Eastern Bengal. 3. The enactments specified in Schedule I are hereby extended to Eastern Bengal, to the extent mentioned in column 4 thereof.

Extension of enactments to Western Bengal. 4. The enactments specified in Schedule II are hereby extended to Western Bengal, to the extent mentioned in column 4 thereof:

Provided that the Eastern Bengal and Assam Disorderly Houses Act, 1907, shall not apply to any municipality, constituted under the Bengal Municipal Act, 1884, in which the Calcutta Suburban Police Act, 1866, is in force. [Cf. Ben. Act III of 1907, s. 3.] E. B. & A. Act II of 1907. Ben. Act III of 1884. Ben. Act II of 1866.

Amendment of enactments. 5. The enactments specified in Schedule III are hereby amended to the extent and in the manner mentioned in column 4 thereof.

Repeal of enactments. 6. The enactments specified in Schedule IV are hereby repealed to the extent mentioned in column 4 thereof.

Continuance of orders, etc., issued under certain repealed enactments. 7. Every appointment, order, rule, notification or form made or issued under— [Cf. Ben. Act I of 1899, s. 25.]

(a) the Land Registration Act, 1876, as amended by the Bengal Land Registration (Amendment) Act, 1906, Ben. Act VII of 1876. Ben. Act II of 1906.

(b) the Bengal Military Police Act, 1892, or Act V of 1892.

(c) the Bengal Disorderly Houses Act, 1906, Ben. Act II of 1906.

shall, so far as it is not inconsistent with—

(i) the Land Registration Act, 1876, as amended by the Eastern Bengal and Assam Land Registration (Amendment) Act, 1907. Ben. Act VII of 1876. E. B. & A. Act I of 1907.

(*ii*) the Eastern Bengal and Assam Military Police Act, 1912, or — E. B. & A. Act III of 1912

(*iii*) the Eastern Bengal and Assam Disorderly Houses Act, 1907, — E. B. & A. Act II of 1907

as the case may be, continue in force, and be deemed to have been made or issued under that Act, unless and until it is superseded by any appointment, order, rule, notification or form made or issued under that Act.

WEDNESDAY, SEPTEMBER 10, 1913.

PART IVA.

Proceedings of the Bengal Legislative Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

Abstract of the Proceedings of the Bengal Legislative Council assembled under the provisions of the Indian Councils Acts, 1861, 1892 and 1909, and the Government of India Act, 1912.

THE Council met in the Council Chamber in Government House on Monday, the 1st September, 1913, at 11 A.M.

Present:

His Excellency the Right Hon'ble THOMAS DAVID, BARON CARMICHAEL OF SKIRLING, G.C.I.E., K.C.M.G., Governor of the Presidency of Fort William in Bengal, *presiding*.

The Hon'ble SIR FREDERICK WILLIAM DUKE, K.C.I.E., C.S.I., *Vice-President*.

The Hon'ble NAWAB SYED SHAMS-UL-HUDA.

The Hon'ble MR. D. J. MACPHERSON, C.I.E.

The Hon'ble MR. J. LANG.

The Hon'ble MR. J. G. CUMMING, C.I.E.

The Hon'ble MR. N. D. BEATSON BELL, C.I.E.

The Hon'ble MR. B. K. FINNIMORE.

The Hon'ble MR. J. DONALD.

The Hon'ble MR. J. C. TWIDELL.

The Hon'ble MR. H. H. GREEN.

The Hon'ble MR. W. W. HORNELL.

The Hon'ble RAI PRIYA NATH MUKHARJI BAHADUR.

The Hon'ble MR. A. N. MOBERLY.

The Hon'ble MR. S. W. GOODE.

The Hon'ble MR. H. J. HILARY.

The Hon'ble MR. S. P. SINHA.

The Hon'ble DR. NILRATAN SARKAR.

The Hon'ble RAJA HRISHIKESH LAHA, C.I.E.

The Hon'ble MR. R. GLEN.

The Hon'ble MR. BYOMKES CHAKRAVARTI.

The Hon'ble SIR BIJAY CHAND MAHTAB, K.C.S.I., K.C.I.E., I.O.M., Maharajadhiraja Bahadur of Burdwan.

The Hon'ble MAHARAJA JAGADINDRA NATH RAY.

The Hon'ble RAJA SHOSHI KANTA ACHARYYA CHAUDHURI BAHADUR.

The Hon'ble DR. DEBA PRASAD SARBADHIKARI.

The Hon'ble MR. J. G. APCAR.

The Hon'ble RAI RADHA CHARAN PAL BAHADUR.

The Hon'ble MR. J. C. SHORROCK.

The Hon'ble MR. W. T. GRICE.

The Hon'ble MR. V. WOODS.

The Hon'ble MR. GOLAM HOSSEIN CASSIM ARIFF.

The Hon'ble MAULVI MAZHARUL ANWAR CHAUDHURI.

The Hon'ble MAULVI MUSHARRAF HUSAIN.

The Hon'ble MAULVI A. K. FAZ-UL-HAQ.

The Hon'ble MAHARAJA RANAJIT SINHA OF NASHIPUR.

The Hon'ble RAI NALINAKSHA BASU BAHADUR.

The Hon'ble RAJA MAHENDRA RANJAN RAY CHAUDHURI.

The Hon'ble NAWAB SAIYID NAWAB ALI CHAUDHURI, KHAN BAHADUR.

The Hon'ble BABU PRASANNA KUMAR RAY.

The Hon'ble BABU SURENDRA NATH BANERJI.

The Hon'ble BABU SURENDRA NATH RAY.

The Hon'ble BABU MAHENDRA NATH RAY.

The Hon'ble RAI HARI MOHAN CHANDRA BAHADUR

The Hon'ble BABU ANANDA CHANDRA RAY.

The Hon'ble BABU UPENDRA LAL RAY.

OATH OR AFFIRMATION OF ALLEGIANCE.

The Hon'ble Mr. Macpherson, the Hon'ble Mr. Green, the Hon'ble Mr. Goode and the Hon'ble Maulvi Mazharal Anwar Chaudhuri made the prescribed oath or affirmation of allegiance to the Crown.

QUESTIONS AND ANSWERS.

The Hon'ble MAHARAJA JAGADINDRA NATH RAY asked :—

1. (a) Has the attention of the Government been drawn to the leaderette—"Settlement Operations in Eastern Bengal"—which appeared in the "Bengalee" of the 3rd June last?

(b) If so, will the Government be pleased to state what steps, if any, they intend to take in the matter?

The Hon'ble MR. CUMMING replied :—

"(*a*) The attention of Government has been drawn by the Hon'ble Member to the leaderette.

(*b*) Government have made inquiries into the statements contained in this leaderette and have ascertained that the allegations are devoid of foundation in fact. Government do not propose to take further action in the matter."

The Hon'ble MAULVI MUSHARRAF HUSAIN, in the absence of The Hon'ble NAWAB SAIYID HOSSAM HAIDER CHAUDHURI, KHAN BAHADUR asked :—

Improvement in Hospital wards set apart, for contagious diseases.

2. (*a*) Are the Government aware that at most hospitals and charitable dispensaries and places of this nature, in the Presidency, the wards set apart for patients suffering from contagious diseases are in a very wretched condition, and without any satisfactory arrangement for treatment and nursing?

(*b*) If so, will the Government be pleased to state whether they intend to take any steps to better the arrangements, and if so, when?

The Hon'ble MR. DONALD replied :—

"It is not the fact that in most hospitals and charitable dispensaries and places of this nature in the Presidency the wards set apart for patients suffering from contagious diseases are in a very wretched condition. In hospitals and dispensaries where separate provision has been made for the accommodation and treatment of persons suffering from infectious or contagious diseases the arrangements are on the whole not inadequate. The necessity for making separate provision for such cases is recognised and new wards are being constructed, as funds become available, at places where no separate wards now exist. The nursing arrangements in these wards are generally similar to those in the main hospital. These wards are occupied only at considerable intervals, and the maintenance of a separate nursing staff would be an unwarrantable extravagance."

The Hon'ble BABU SURENDRA NATH BANERJI asked :—

Text-book Committee in Eastern and Western Bengal.

3. (*a*) Will the Government be pleased to lay on the table a statement showing the names and dates of appointment of the members of the Text-book Committees in Western and Eastern Bengal?

(*b*) Will the Government be pleased to say whether they intend to appoint members of the Text-book Committees for fixed and definite periods?

The Hon'ble MR. CUMMING replied :—

(*a*) "A statement giving the required information is laid on the table.

(*b*) "The question of the constitution of the Text-book Committees and of the conditions of the appointment of members is at present under the consideration of the Director of Public Instruction."

Statement referred to in the answer by the Hon'ble Mr Cumming to question No. 3 asked by the Hon'ble Babu Surendra Nath Banerji at the Council Meeting of the 1st September, 1913.

LIST OF PRESENT MEMBERS OF THE TEXT-BOOK COMMITTEE,

WEST BENGAL.

Date of appointment		Name.
24th April, 1911	...	1. Director of Public Instruction, *Ex officio President.*

11th August, 1911	...	14.	J. Vas, Esq., I.C.S.

The Hon'ble BABU SURENDRA NATH BANERJI asked :—

Chairmanship of North Barrackpore Municipality.

4 (*a*) Has the attention of the Government been drawn to certain letters which appeared in the "Bengalee" in its issues of the 26th, 27th and 29th June last, respectively?

(*b*) The correspondents allege in substance—

(*i*) that Colonel Foote, Superintendent of the Ishapur Factory, is a candidate for the Chairmanship of the North Barrackpore Municipality, and

(*ii*) that the services of all the old nominated Commissioners have been dispensed with.

(*c*) Have the Government received any memorial on the subject of these nominations from the ratepayers of the North Barrackpore Municipality?

(*d*) If so, will the Government be pleased to state what action, if any, has been taken in the matter?

The Hon'ble MR. DONALD replied :—

(*a*) "Yes.

(*b*) (*i*) Government understand that in the recent election Colonel Foote was proposed and seconded for the Chairmanship of the North Barrackpore Municipality.

(*b*) (*ii*) The term of office of all previous Commissioners has expired. The services of no Commissioner have been dispensed with.

(*c*) Yes.

(*d*) Government have taken no action and propose to take no action in the matter."

The Hon'ble BABU SURENDRA NATH BANERJI asked :—

The appointment of certain nominated Commissioners to the North Barrackpore Municipality.

5. (*a*) Will the Government be pleased to state whether it was the case that in 1897 the nomination of Babu Baroda Kanta Mitter (now a Rai Bahadur), which was sent up by the Commissioner of the Presidency Division, was negatived on the ground that any person who is a daily passenger from a suburban town to Calcutta and has to spend the best part of his time in Calcutta was not a suitable person for nomination by Government as a Municipal Commissioner of a suburban town?

(*b*) Is it not a fact that Babu Benoy Krishna Banerjee, a Commissioner nominated by Government for the North Barrackpore Municipality, is a daily passenger from Ichapore to Calcutta?

(*c*) Was the above order of the Government taken into consideration in appointing, as Municipal Commissioners of North Barrackpore, Babu Benoy Krishna Banerji and Babu Nitaran Chandra Shah, B.L., who ordinarily reside in Calcutta?

The Hon'ble MR. DONALD replied :—

(*a*) "Government are unable to trace the order referred to.

(*b*) Government have no information.

(*c*) This question is covered by the answer to (*a*)."

The Hon'ble MAULVI MUSHARRAF HUSAIN asked :—

Alleged oppression in connection with sacrifice of cows.

6. (*a*) Has the attention of Government been drawn to an article which appeared in the "Moslem Hitaishi" of the 20th June, 1913, regarding allegations of oppression upon certain poor Muhammadan students in connection with the sacrifice of cows?

(*b*) Have the local officers taken any action in the matter?

The Hon'ble MR. CUMMING replied :—

(a) & (b) "The attention of Government has been drawn to the article. The facts of the case are as follow :—

On the 20th April last the Magistrate of Pabna received a telegram from one Panaulla Sarkar complaining that his house and those of two others had been looted by the zamindar of Banwarinagar. The police were directed to hold a local inquiry. It was found that no looting had taken place; but that Panaulla and two others, who had joined a Muhammadan sect that slaughter cattle, had killed a cow, although this custom does not exist in the village and the villagers have no desire to introduce the practice. The local agents of the zamindar remonstrated with the cow-killers; and considerable indignation was manifested in the neighbourhood against the behaviour of Panaulla and the others on the part not only of the Hindus, but of all Muhammadans of respectability. The Superintendent of Police asked that Panaulla and his associates should be bound down to keep the peace. Meanwhile Panaulla had also filed a complaint in Court against the local agents of the zamindar, alleging that his house and those of his associates had been looted and their families turned out. A Deputy Magistrate was ordered to inquire into these allegations but as the complainant failed to produce his witnesses the complaint was dismissed by the District Magistrate. On a motion before the District Judge the case has, however, been revived; it is now under disposal by a Deputy Magistrate. The proceedings under section 107, Criminal Procedure Code, against Panaulla and two others were heard by another Deputy Magistrate. A considerable amount of unhealthy feeling was found to exist in the village, and Panaulla and his two associates were bound down to keep the peace."

The Hon'ble MAHARAJA RANAJIT SINHA OF NASHIPUR asked :—

Conditions to be imposed on the proposed grant of the entire revenue from Public Works cesses to the District Boards.

7. Will the Government be pleased to state whether any final decision has been arrived at as to the conditions to be imposed on the proposed grant of the entire revenue from Public Works cesses to the District Boards, and if so, what those conditions are?

The Hon'ble MR. DONALD replied :—

"The question is still under the consideration of Government."

The Hon'ble MAHARAJA RANAJIT SINHA OF NASHIPUR asked :—

Proposed amendment of the rules regarding the management of hospitals and dispensaries.

8. Will the Government be pleased to state whether they have under consideration any proposal for the amendment of the rules regarding the management of hospitals and dispensaries to enable Municipal Commissioners to appoint their own medical officers for the charge of their dispensaries situated at the headquarters of subdivisions?

The Hon'ble MR. DONALD replied :—

"The answer is in the negative."

The Hon'ble MAHARAJA RANAJIT SINHA OF NASHIPUR asked :—

High Schools maintained by Government.

9. Will the Government be pleased to lay on the table a statement showing the number of high schools maintained by the Government of Bengal in each district in the Presidency, where students of all classes could be admitted without any distinction?

The Hon'ble MR. CUMMING replied :—

"A statement giving the required information is laid on the table."

Statement referred to in the answer by the Hon'ble MR. CUMMING to Question No. 9, asked by the Hon'ble MAHARAJA RANAJIT SINHA of Nashipur at the Council Meeting of the 1st September, 1913.

Statement showing the total number of Government High Schools in the Presidency of Bengal, district by district, excluding European High Schools and other purely denominational schools.

Name of district	Total number of Government high schools in each district

* One school temporarily provincialised.

NOTE.—Students of all classes are *eligible for admission* to the above schools without distinction.

The Hon'ble MAHARAJA RANAJIT SINHA OF NASHIPUR asked :—

Improved System of Boring for Agricultural and Drinking purposes.

10. Are the Government aware that a book named "Improved System of Boring for Agricultural and Drinking Purposes," written by Rao Sahib Pandit Matadin Sukul, Executive Engineer, Public Works Department, was published by the late Government of Eastern Bengal and Assam at its own cost and circulated to all the local bodies; and if so, will the Government be pleased to state whether there is any intention to instruct local bodies in this Presidency to make experiments on the system contained therein?

The Hon'ble MR. DONALD replied :—

"Government are aware that a book entitled 'Improved System of Boring for Agricultural and Drinking Purposes,' written by Rao Sahib Pandit Matadin Sukul, Executive Engineer, Public Works Department, was published by the late Government of Eastern Bengal and Assam at its own cost and circulated to all the local bodies. This Government do not propose to instruct the local bodies to make experiments on the system contained therein. Government desire to leave local bodies entirely unfettered in this matter. If local bodies desire to expend their resources on experimental borings, they are at liberty to do so, but the general opinion expressed at the conference held in October, 1912, on the question of the improvement of rural water-supply was in favour of tanks in preference to wells."

The Hon'ble MAHARAJA RANAJIT SINHA OF NASHIPUR asked :—

In-door and out door dispensaries in the Presidency maintained by the District Boards

11. Will the Government be pleased to lay on the table a statement showing the number of indoor and outdoor dispensaries in each district in the Presidency maintained at the cost of each District Board?

The Hon'ble MR. DONALD replied :—

"A statement giving the information required is laid on the table."

Statement referred to in the Answer by the Hon'ble MR. DONALD to Question No. 11 asked by the Hon'ble MAHARAJA RANAJIT SINHA of Nashipur at the Council Meeting of the 1st September, 1913.

Statement showing, district by district, the number of Indoor and Outdoor Dispensaries in Bengal, maintained by the District Board or for the upkeep of which the District Board are ultimately responsible.

DISTRICTS	NUMBER OF DISPENSARIES MAINTAINED BY DISTRICT BOARDS. For both In and Out patients.	NUMBER OF DISPENSARIES MAINTAINED BY DISTRICT BOARDS. For Outdoor patients only	Number of dispensaries aided by District Boards other than those in columns 2 and 3.

* Besides these, eight temporary fever dispensaries are maintained by the District Board.
† No District Board.

The Hon'ble MAHARAJA RANAJIT SINHA OF NASHIPUR asked :—

Recent Railway disaster at Panchra.

12. Has the attention of the Government been drawn to the recent railway disaster at Panchra on the Ondal-Sainthia branch line; and if so, will the Government be pleased to lay on the table a statement showing the number of persons killed and injured and the amount of damage caused by the accident?

The Hon'ble MR. CUMMING replied :—

"The attention of Government has been drawn to this lamentable accident, due to a very serious flood. The Indian driver, the Indian brakesman and two firemen were killed; their bodies have been recovered and also the bodies of 19 Indian passengers. Some bodies may have been swept down-stream by the flood; but extensive and careful inquiries have, up to the present, disclosed a death-roll of no more than 24. Seventeen persons are reported to have been injured, three of them severely.

Out of a train of 18 vehicles consisting of 2 brake-vans, 12 third-class, 1 intermediate-class, 2 second-class, and 1 first-class, 8 vehicles were reduced to matchwood, namely 1 brake-van, 6 third-class and 1 second-class, while 1 intermediate and 1 second-class were broken beyond repair. The engine and tender were also badly damaged. The embankment on the south of the bridge was eroded by the abnormal flood caused by heavy rains. The structure of the Salko Bridge was damaged by the impact of the train as it fell from the rails on its approach to the bridge. The East Indian Railway Company estimate the amount of the damage as follows :—

	Rs.
To rolling-stock	42,244
To locomotives	17,500
To permanent way	25,000.'

The Hon'ble MAHARAJA RANAJIT SINHA of NASHIPUR asked :—

"Insanitary Magura"

13. Will the Government be pleased to state whether they have received a copy of the pamphlet called "Insanitary Magura", written by Babu Revatikanta Sarkar, and if so, what steps (if any) they propose to take in the matter?

The Hon'ble MR. DONALD replied :—

"Government have not received a copy of the pamphlet referred to."

The Hon'ble MAHARAJA RANAJIT SINHA of NASHIPUR asked :—

Procedure regarding transmission of landlords' fees.

14. (*a*) Is it a fact that full effect is not given to the provisions of the law regarding the transmission of landlords' fees to the landlords concerned?

(*b*) If so, will the Government be pleased to state what action is being taken to give full effect to these provisions?

The Hon'ble MR. CUMMING replied :—

(*a*) and (*b*) "The Bengal Tenancy Act (VIII of 1885) and the rules made under it provide that, where there is a sole landlord or where joint landlords have a common manager, the landlords' fee shall be transmitted by money order, and that, where joint landlords have no common manager, a notice shall be served on each joint landlord, but that the landlords' fee shall be kept in deposit in the Collectorate until application is made for its payment. Full effect is given to these provisions. Where joint landlords have no common manager, it has not been found possible to devise any more easy or convenient, and, at the same time, safe, method for payment than the present method of payment at the Collectorate."

The Hon'ble MAHARAJADHIRAJA BAHADUR OF BURDWAN asked :—

Status of Chief Secretary to the Government of Bengal.

15. Will the Government be pleased to state—

(*a*) whether the status of the Chief Secretary to the Government of Bengal in respect of pay, powers, privileges, etc., is equal to the status of the Chief Secretaries to the Governments of Madras and Bombay?

(*b*) whether the question of the status of the Chief Secretary to the Government of Bengal has been under discussion, and if so, what are the orders of the Government of India?

The Hon'ble MR. CUMMING replied :—

(*a*) "The answer to the Hon'ble Member's question is in the negative.

(*b*) The answer to the first part of the question is in the affirmative. The Government of India have intimated that they do not consider that the substitution of a Governor for a Lieutenant-Governor in Bengal need necessitate any change in the status of the appointment of Chief Secretary to the Government"

The Hon'ble MAHARAJADHIRAJA BAHADUR of BURDWAN asked :—

Status of the Inspector-General of Civil Hospitals.

16. Will the Government be pleased to state—

(*a*) whether the status of the Inspector General of Civil Hospitals in Bengal is the same in respect of pay, powers, and privileges as that of the Surgeons General with the Governments of Madras and Bombay?

(*b*) If so, will the Government be pleased to say why the former is styled "Inspector General" and the two latter "Surgeons General"?

The Hon'ble MR. DONALD replied :—

"The question of the status and designation of the Inspector General of Civil Hospitals has been referred to the Government of India, and the orders of that Government are awaited."

The Hon'ble MR. J. C. SHORROCK asked :—

Bhowanipore Lunatic Asylum

17. (*a*) Has the attention of the Government been called to a letter from Mr W. J. Bradsaw, dated the 2nd July, 1913, which appeared in the "Statesman" of the following day, regarding the Bhowanipore Lunatic Asylum?

(*b*) If so, will the Government be pleased to state what steps have been taken in the matter?

(*c*) Are there any proposals now before the Government to build a suitable asylum for the amelioration of the present condition of lunatics in this Presidency?

(*d*) Has the matter advanced any further than is stated in the Bengal Administration Report for 1911-12?

The Hon'ble MR. DONALD replied :—

(*a*) "Yes.

(*b*) Steps are being taken to provide electric lights and fans for the patients and to make other improvements for their comfort. It is not possible to make any further improvements in the buildings until another suitable building is constructed for the reception of lunatics.

(*c*) A scheme for the construction of a Central Lunatic Asylum at Ranchi for the accommodation of European lunatics from the whole of Northern India has been under the consideration of the Government of India and the Government of Bihar and Orissa.

(*d*) The Government of India have given administrative sanction to the scheme and Messrs. Martin & Co. have been entrusted with the preparation of plans and estimates which are expected to be completed this month."

The Hon'ble BABU SURENDRA NATH RAY asked :—

18. (a) Will the Government be pleased to state the number of students who applied to be admitted into the Calcutta Medical College in the years 1910, 1911, 1912 and 1913, and how many were actually admitted during each of these years?

Admission of students into the Calcutta Medical College.

(b) Is it a fact that a large number of students could not be admitted on account of want of accommodation and paucity in the number of professors in the College?

(c) Is it a fact that only 50 students are to be admitted into the Medical College to be attached to the proposed Dacca University?

(d) Will the Government be pleased to state whether they have under consideration any proposals for the admission of a larger number of students into the Calcutta Medical College?

The Hon'ble MR. DONALD replied :—

(a) "

		Number of applicants	Number admitted.
1910.	...	380	123
1911	...	531	142
1912	...	544	158
1913	...	581	153

(b) The limitation of admissions is due not to paucity of staff, but to the capacity of the laboratories and buildings, particularly the former. Students are admitted to the full number for whom practical work can be arranged in the laboratories.

(c) Government are unable to make any statement at present with reference to the Medical College attached to the proposed Dacca University.

(d) Government have at present no proposals under consideration for the admission of a larger number of students in the Medical College. "

The Hon'ble BABU SURENDRA NATH RAY asked :—

19. (a) Will the Government be pleased to state when the Dacca University will be open, and the number of professors to be employed therein?

The Dacca University.

(b) Will the Government be pleased to state what pay it is intended to give to the professors to be attached to the proposed Government Residential College at Dacca?

(c) If no scheme has yet been prepared, will the Government be pleased to state whether they intend to lay the scheme before this Council before taking any action in regard to it?

The Hon'ble MR. CUMMING replied —

" The detailed scheme prepared by the Dacca University Committee has already been submitted to the Government of India with the recommendations of the Government of Bengal.

Pending receipt of orders thereon it is not possible to give the information asked for in the first and second paragraphs of the question put by the Hon'ble Member."

The Hon'ble MR. BYOMKES CHAKRAVARTY asked:—

20. (a) Has the attention of the Government been drawn to the correspondence which appeared in the issues of the "Amrita Bazar Patrika" of the 27th and 31st March, 11th April and 22nd July, 1913, respectively, with regard to the South Dum-Dum Municipality?

The South Dum Dum Municipality.

(b) If so, do the Government intend to make any inquiry into the matter?

The Hon'ble MR. DONALD replied :—

(a) "Government have seen the correspondence referred to in the issues of the "Amrita Bazar Patrika" of the 27th and 31st March and the 22nd July, 1913, respectively.

(b) The correspondence is anonymous and Government do not propose to make any inquiry. The local officers will take action should they think it necessary."

The Hon'ble RAI NALINAKSHA BASU BAHADUR asked :—

Proposed removal of the Civil Engineering College from Sibpur.

21. (a) Are the Government aware that the feeling of the people of this Presidency is very strong against the removal of the Civil Engineering College from Sibpur?

(b) Will the Government be pleased to state whether any definite conclusion has been arrived at by them on the subject of the removal of the College from Sibpur? If so, what is that conclusion?

The Hon'ble MR. CUMMING replied :—

(a) and (b) "The Hon'ble Member is invited to refer to the answer given to a similar question asked by the Hon'ble Dr. Nilratan Sarkar at the meeting of the Legislative Council held on the 13th March, 1913. It has now been decided that the site of the Engineering College shall ultimately be handed over to the Port Commissioners, but before the final transfer takes place arrangements will be made for the accommodation of the students elsewhere. The proposals for providing the instruction now imparted at Sibpur partly in the Dacca University and partly in the projected Technological Institute in Calcutta are still under the consideration of Government."

The Hon'ble RAI NALINAKSHA BASU BAHADUR asked :—

Lawlessness in village of Ghargohal in the district of Hooghly.

22 (a) Has the attention of the Government been drawn to a petition made by the inhabitants of Ghargohal, a village in the district of Hooghly, to the District Superintendent and the Magistrate of that district, and published in the town edition of the "Amrita Bazar Patrika" of the 18th July last, complaining of the lawlessness prevailing in that village?

(b) If so, will the Government be pleased to state whether an inquiry has been made, and what action, if any, has been taken by them in the matter?

The Hon'ble MR. CUMMING replied :—

(a) "The answer is in the affirmative.

(b) An inquiry was made. The charges of theft were not proved against any one. They had never been reported to the police. Steps are being taken to stop illicit distillation of country liquor."

The Hon'ble MR. G. H. C. ARIFF asked :—

Ministerial appointments in the Secretariat and attached offices.

23. Will the Government be pleased to lay on the table a statement showing the total number of ministerial appointments in the Secretariat, and the attached offices of the Heads of Departments, arranged in the order of their home districts in the Presidency?

The Hon'ble MR. DONALD replied :—

"A statement giving the information required is laid on the table."

Statement referred to in the Answer by the Hon'ble MR. DONALD to Question No 23, asked by the Hon'ble MR. G. H. C. ARIFF at the Council Meeting of the 1st September, 1913.

Statistics showing the total number of ministerial appointments in the Secretariat and attached offices arranged in the order of the officers' home districts.

The Hon'ble Mr. G. H. C. ARIFF asked :—

24. Will the Government be pleased to state how many of the total number of permanent ministerial appointments in the Secretariat and its attached offices are held by persons having no university qualifications and how many of these are Muhammadans ?

The Hon'ble MR. DONALD replied :—

"Of 993 ministerial appointments in the Secretariat and attached offices located in Calcutta, 383 appointments are held by persons possessing no university qualification. Of those, 40 are held by Muhammadans."

The Hon'ble MR. G. H. C. ARIFF asked :—

Provincial Subordinate Educational Service.

25. Will the Government be pleased to lay on the table a statement showing the total number of appointments in—

(*i*) the Provincial Educational Service, and

(*ii*) the Subordinate Educational Service,

arranged according to the home districts of the persons holding these appointments ?

The Hon'ble MR. CUMMING replied :—

"Two statements (A and B) containing the information desired by the Hon'ble Member are laid on the table. The figures relate to the 1st April, 1913, which is the latest date for which information is readily available."

Statement (A) referred to in the Answer by the Hon'ble Mr. Cumming to Question No. 25, asked by the Hon'ble Mr. G. H. C Ariff at the Council Meeting of the 1st September, 1913.

STATEMENT SHEWING THE TOTAL NUMBER OF APPOINTMENTS IN THE PROVINCIAL EDUCATIONAL SERVICE, EXCLUDING VACANT APPOINTMENTS, ARRANGED ACCORDING TO THE HOME DISTRICTS OF THE PERSONS HOLDING THESE APPOINTMENTS ON 1ST APRIL, 1913.

The Hon'ble MR. G. H. C. ARIFF asked :—

Maktabs and junior madrasas in the Presidency of Bengal.

26. Will the Government be pleased to state the number of maktabs and junior madrasas existing in each of the districts of the Presidency, Burdwan, Dacca, Rajshahi and Chittagong Divisions, and how many of them are entirely Government institutions and how many aided, and the amount of aid given to each of the said maktabs and junior madrasas?

The Hon'ble MR. CUMMING replied :—

"A statement giving the required information is laid on the table. As it would be a matter of some difficulty to ascertain the exact amount of the grant-in-aid given to each institution, the average amount given to each has been entered in the statement."

Statement referred to in the Answer by the Hon'ble MR. CUMMING to Question No. 26, asked by the Hon'ble MR. GOLAM HOSSEIN CASSIM ARIFF at the Council Meeting of the 1st September, 1913.

Statement showing the statistics of Maktabs and Junior Madrasas in each district in the Presidency of Bengal.

PRESIDENCY DIVISION.

The Hon'ble MR. G. H. C. ARIFF asked :—

Additional and Assistant Inspectors of Schools.

27. Will the Government be pleased to state whether Additional Inspectors and Assistant Inspectors of Schools are subordinate to Inspectors of Schools, and whether Inspectors, Additional Inspectors and Assistant Inspectors of Schools are required to attend office regularly when they are not out on tour?

The Hon'ble MR. CUMMING replied :—

"Assistant Inspectors are subordinate to Divisional Inspectors, and Additional Inspectors, though primarily responsible for their own circles, are under the general control of the Divisional Inspector, who is the responsible head of all branches of education in his Division. All inspecting officers are required to attend office regularly when they are not out on tour."

The Hon'ble BABU UPENDRA LAL RAY asked :—

Amendment of the Leave rules in the Provincial Judicial Service.

28. In view of the fact that Leave Rules are now being modified by the Government, will the Government be pleased to say whether they intend to consider the claim of the members of the Provincial Judicial Service for privilege leave on full pay?

The Hon'ble MR. CUMMING replied :—

"The amendment of the Leave Rules is under the consideration of the Government of India. The Government of Bengal are therefore unable to make any statement on the subject."

The Hon'ble BABU UPENDRA LAL RAY asked :—

Regrading of Munsifs.

29. Will the Government be pleased to inform the Council when the regrading of munsifs foreshadowed in the budget of the Province for 1913-14 is likely to be carried out?

The Hon'ble MR. CUMMING replied :—

"Government have at present nothing to add to the answer given on the 30th June, 1913, to the question of the Hon'ble Dr. Deba Prasad Sarbadhikari."

The Hon'ble BABU UPENDRA LAL RAY, asked :—

The Provincial Judicial Service.

30. Have the Government any intention of raising the salary of the lowest grade in the Provincial Judicial Service to Rs. 250 a month, as has already been done in the Provincial Executive Service more than a year ago, and if so, from what date?

The Hon'ble MR. CUMMING replied :—

"Government have at present nothing to add to the answer given on the 5th March, 1913."

The Hon'ble BABU UPENDRA LAL RAY asked :—

Prize-posts in the Judicial branch of the Provincial Service.

31. Will the Government be pleased to state whether they contemplate the creation of the same number of prize-posts (including the listed ones) for the Judicial as for the Executive Branch of the Provincial Service?

The Hon'ble MR. CUMMING replied :—

"There are at present 8 listed posts—4 for the Executive Branch and 4 for the Judicial Branch of the Provincial Civil Service.

As regards other special appointments, the number of such posts in both branches will vary from time to time according to circumstances; and Government are not prepared to fill such posts merely to maintain a numerical equality between the two Services."

The Hon'ble BABU UPENDRA LAL RAY asked :—

Uniform standard of education in the Training Schools in the Presidency.

32. (*a*) Are the Government aware that the course and standard of education in the Training (Normal) Schools of the eastern districts of Bengal differ from those of the western districts?

(*b*) If so, will the Government be pleased to state what action, if any, they are taking to fix the same course and standard of education and test of examination for all the Training Schools of this Presidency?

The Hon'ble MR. CUMMING replied :—

32. (*a*) "The answer is in the affirmative.

"The Western Bengal curricula were introduced in 1911 and the Eastern Bengal curricula, in 1910. They were drawn up by representative Committees. They have been in force for only two or three years. Government are not aware of any demand for their co-ordination and do not intend at present to take up the question."

The Hon'ble RAI RADHA CHARAN PAL BAHADUR asked :—

33. (*a*) Has the attention of the Government been drawn to the articles and letters published in the "Amrita Bazar Patrika" and other newspapers, between the 22nd May, 1913, and 6th June, 1913, on the removal of the image of Saraswati from the parapet of the Bogra Woodburn Public Library and Exhibition Hall by the Officiating District Magistrate of Bogra?

Removal of the image of Saraswati from the Bogra Woodburn Public Library.

(*b*) Is it a fact that the Bogra Woodburn Public Library and Exhibition Hall are a sort of District Museum, in which various types of images, bricks and other materials of historic significance are collected and preserved?

(*c*) Is it a fact that the Secretary of the said Library made a present of an image of Saraswati to the Library, to be placed on the top as a decoration with the approval of Kumar R. K. Deb, the permanent District Magistrate of Bogra and the President of the Library?

(*d*) Is it a fact that the Officiating District Magistrate sent a petition to the Secretary of the Library, asking him to call a meeting of the Executive Committee of the Library, on the 11th May, 1913, to consider an objection to the retaining of the image of Saraswati on the top of the Library building?

(*e*) Is it a fact that the proposed meeting was not called at all on the 11th May, 1913? If so, why?

(*f*) Is it a fact that the members of the Library Committee approached the Officiating District Magistrate and submitted a petition to him, and requested him to direct the Secretary to call a meeting of the Committee to give the members an opportunity to discuss the matter?

(*g*) Is it a fact that the Officiating District Magistrate did not pass any order on the petition at the time?

(*h*) Is it a fact that the members of the Library Committee were favoured by the Officiating District Magistrate with a reply to the petition of protest of the 19th May, 1913, about 12 hours after the dismantling of the image?

(*i*) Will the Government be pleased to state what were the reasons which led the Officiating District Magistrate of Bogra to remove the image of Saraswati, under the cover of night on the 19th May, 1913, from the top of the Bogra Woodburn Public Library, with the assistance of the Deputy Inspector-General of Police, Superintendent of Police, Inspector of Police, and a number of constables?

(*j*) Will the Government be pleased to place on the table the correspondence which passed between the Officiating District Magistrate of Bogra and the Commissioner of the Rajshahi Division and the Chief Secretary to the Government of Bengal, in connection with this matter?

(*k*) Will the Government be pleased to state whether any inquiry has been made into the procedure of the Officiating District Magistrate in this matter?

(*l*) If so, will the Government be pleased to place on the table the result of the inquiry?

(*m*) If not, will the Government be pleased to state whether they intend to make any inquiry into the matter?

The Hon'ble MR. CUMMING replied :—

(*a*) "The answer is in the affirmative.

(*b*) It is understood that the Public Library contains collections of objects of antiquarian interest.

(*c*) The image of Saraswati was presented to the Library by the Secretary and was placed on the parapet of the building by order of Kumar Ramendra Krishna Deb, District Magistrate of Bogra and President of the Library, during the Easter holidays of 1913.

(*d*) The Officiating District Magistrate received a petition from the Secretary, National Muhammadan Association, Bogra, on the 2nd May and endorsed an order thereon directing that it be laid before the meeting of the Committee on the 11th May.

(*e*) It is understood that no meeting was held on the 11th May. Government do not propose to enquire why it was not held.

(*f*), (*g*) and (*h*) The answer is in the affirmative.

(*i*) The reasons are given in the District Magistrate's letter of the 20th May addressed to the Committee.

(*j*) Government are not prepared to lay the correspondence on the table.

(*k*), (*l*) and (*m*) Government received full information from the Commissioner of the Division and it was decided that no further action was necessary."

The Hon'ble DR. NILRATAN SARKAR asked :—

Sanitary Officers' their work.

34. Will the Government be pleased to state—

(*a*) the preliminary qualifications necessary for admission into the training class for Sanitary officers ;

(*b*) the period and course of study prescribed for them while under training ;

(*c*) the curriculum of any examination which they may have to pass ; and

(*d*) the exact nature of the duties which these officers will be called upon to perform when employed in municipalities ?

The Hon'ble MR. DONALD replied :—

(*a*), (*b*) and (*c*). " The Hon'ble Member is referred to the Resolution No. 2342-San., dated the 28th October, 1912, which appeared in the Calcutta Gazette of the 6th November, 1912.

(*d*) The duties of the Sanitary Inspectors are—

(1) to look after the whole of the conservancy establishment and attend to the cleanliness of the town or quarter ;

(2) to inspect markets, slaughter-houses, etc., and to attend to their cleanliness ;

(3) to disinfect and carry out simple preventive measures under the direction of the Health Officer ; and

(4) to attend to small minor sanitary works such as small repairs to and relevelling drains, etc."

The Hon'ble BABU MAHENDRA NATH RAY asked :—

Changes in the ferry steamers' service between Calcutta and Howrah.

35. (*a*) Has the attention of the Government been drawn to the complaints made with regard to the following changes made by the Commissioners of the Port of Calcutta in the ferry steamers' service between Calcutta and Howrah :—

(*i*) discontinuance of the special Sibpur ferry service ;

(*ii*) increase of the intervals at office-going times from half an hour to nearly one hour ?

(*b*) If so, do the Government propose to take any action in the matter ?

The Hon'ble MR. GREEN replied :—

(*a*) and (*b*). " The attention of Government had not previously been drawn to the subject. The following are the facts as ascertained from the Port Commissioners :—

Up to August, 1911, one ferry steamer plied between Chandpal Ghat and Sibpur only, leaving each station at intervals of 30 minutes. Since

August, 1911, the run has been extended to Shalimar and Kidderpore and two steamers have been employed. The interval, so far as Sibpur is concerned, has only been increased from 30 to 37 minutes. In addition to the above ordinary timings, there are two special runs from Sibpur to Chandpal Ghat in the morning, one leaving at 8-46 and the other at 10-4."

The Hon'ble MAULVI A. K. FAZ-UL-HAQ asked :—

Eastern Bengal and Assam clerks transferred to the Bengal Secretariat and attached offices.

36. (*a*) Will the Government be pleased to lay on the table a statement showing the names of Eastern Bengal and Assam clerks transferred to the establishments of the Secretariat and attached offices in Calcutta in consequence of the rearrangement of the provinces, the salary of the appointments each held in Eastern Bengal and Assam, and their present salary on being transferred to Calcutta ?

(*b*) In the case of the Muhammadan clerks, will the Government be further pleased to state their position in their respective grades at Dacca at the moment of transfer, and their position consequent on transfer ?

The Hon'ble MR. DONALD replied :—

(*a*) " A statement (A) is laid on the table showing the names of Eastern Bengal and Assam clerks transferred to the establishments of the Secretariat and attached offices in Calcutta in consequence of the territorial redistribution and the pay of such clerks before and after their transfer.

(*b*) The relative position of Muhammadan clerks in their respective grades prior to and after the territorial redistribution is shown in the statement (B) laid on the table."

Statement referred to in the Answer by the Hon'ble MR. DONALD to Question No. 36, asked by the Hon'ble MAULVI A. K. FAZ-UL-HAQ at the Council Meeting of the 1st September, 1913.

Statement (A) showing the names of Eastern Bengal and Assam clerks transferred to the establishments of the Secretariat and attached offices in Calcutta in consequence of territorial redistribution, and the salary of the appointments each held in Eastern Bengal and Assam and their present salary on being transferred to Calcutta.

NOTE.—The clerks of the old office of the Director of Public Instruction, Eastern Bengal and Assam, who were transferred to Calcutta on the rearrangement of the Provinces, constitute the Eastern Bengal section of the office of the Director of Public Instruction, Bengal, which has not yet been amalgamated with the Western Bengal section of the office. Hence there has been no change in the relative position of the clerks, Muhammadan or Hindu, on the office establishment.

The Hon'ble MAULVI A. K. FAZ-UL-HAQ asked :—

Temporary and permanent vacancies in the Secretariat.

37. (a) Will the Government be pleased to state how many temporary and permanent vacancies have occurred in the Secretariat and offices of the Heads of Departments since the 1st April, 1912, and how many of them have been filled up by Muhammadans?

(b) Is it a fact that the late Government of Eastern Bengal and Assam, and its Heads of Departments used to invite applications from Muhammadan candidates from the various Muhammadan associations and anjumans in the Province when vacancies occurred in their offices and when candidates were required for agricultural, forest and other technical scholarships? If so, will the Government be pleased to state whether that practice is followed by them?

(c) Is it a fact that, when, on the partition of Bengal in 1905, Bengal clerks were transferred to the Eastern Bengal and Assam Secretariat, their pay was, for the purpose of determining their relative position in the amalgamated cadre of that Secretariat, taken at 50 *per cent.* more than what the Assam Secretariat clerks were given in the new scale, and that, again, on the modification of the partition, Bengal clerks were transferred to Ranchi on increased pay and the Eastern Bengal and Assam Secretariat clerks had to come to the Bengal Secretariat on the pay they were drawing on the 31st March, 1912, even losing the benefits of the progressive pay prevailing in the former Secretariat?

(d) Is it a fact that the scale of pay in the Eastern Bengal and Assam Secretariat was low in comparison with that in the Bengal Secretariat, and that its revision was under the consideration of that Government just before its dissolution?

(e) Is it a fact that the Eastern Bengal and Assam Secretariat clerks of the first, second, third, fourth, fifth and sixth classes were not put into the first, second, third, fourth, fifth and sixth classes, respectively, of the Bengal Secretariat at the time of the amalgamation of the ministerial establishments of the two Secretariats, and if so, will the Government be pleased to state whether there are any particular reasons for not doing so?

(f) Is it a fact that this Government made any recommendation to the Government of Bihar and Orissa in favour of liberal treatment for the Bengal clerks who were transferred to Ranchi, and if so, will the Government be pleased to state in detail how many of the Eastern Bengal and Assam clerks have received liberal treatment?

The Hon'ble MR. DONALD replied :—

(a) "A statement giving the information is laid on the table.

(b) The Government of Eastern Bengal and Assam issued instructions that officers should widely advertise vacancies which they desired to fill, and that Muhammadan associations and other known associations and educational officers should be informed so that they might put forward the names of suitable candidates. The orders of the late Government of Eastern Bengal and Assam have not been made applicable to the districts in Western Bengal. The co-ordination of the rules and orders in force in the two parts of the Presidency is now under the consideration of Government.

(c) The records relating to the transfer of Bengal clerks to the Eastern Bengal and Assam Secretariat in 1905 have been destroyed, and Government are unable to state what principles were adopted in determining the relative positions of these clerks in the amalgamated *cadre* of that Secretariat. It is not the case that on the recent reconstitution of the Province, the clerks of the Bengal Secretariat were transferred to Ranchi on increased pay. In some cases there was an increase and in others there was no increase. With reference to the case of the Eastern Bengal and Assam Secretariat clerks transferred to the Bengal Secretariat from the 1st April, 1912, the Hon'ble Member is referred to the statements laid on the table in answer to his question No. 36.

(d) The general scale of pay in the Eastern Bengal and Assam Secretariat was not low in comparison with the scale in the Bengal Secretariat. It is understood that the proposal for the revision of the Eastern Bengal and Assam scale of pay was under the consideration of that Government previous to its dissolution.

(e) As the scales of the Eastern Bengal and Assam Secretariat and the Bengal Secretariat were different, it was not possible to put the clerks of the former Secretariat into the same class in the Bengal Secretariat.

(f) This Government addressed the Government of Bihar and Orissa and suggested that the clerks transferred to Ranchi should be granted adequate remuneration to compensate them for the hardship entailed on them by their transfer. The case of each clerk transferred from Eastern Bengal and Assam to Calcutta was equitably dealt with on its merits."

Statement referred to in the Answer by the Hon'ble MR. DONALD to Question No. 37, asked by the Hon'ble MAULVI A. K. FAZL-UL-HAQ at the Council Meeting of the 1st September, 1913.

Statement showing the number of vacancies (permanent and temporary) which occurred in the Secretariat and offices of the Heads of Departments since the 1st April 1912 and how many of these were filled up by Muhammadans.

The Hon'ble BABU SURENDRA NATH BANERJI asked :—

Supply of drinking water in the rural areas.

38. Will the Government be pleased to state whether any practical steps for the supply of drinking water in the rural areas, such as the excavation of tanks or the sinking of wells have been taken by the Government, or with the aid of the Government, during this summer ?

The Hon'ble MR. DONALD replied:—

"Government have no information as to what practical steps have been taken in the way of excavating or sinking wells during the last hot weather. As the Hon'ble Member is aware, provision for the water-supply in rural areas is a matter which primarily concerns the District and Local Boards. In this matter action on the part of Government is generally limited to advice and financial assistance, and the execution of schemes for the improvement of water-supply is left to the local bodies.

The Hon'ble RAI RADHA CHARAN PAL BAHADUR asked :—

Survey of a railway line from Navaran to Satkhira.

39. (*a*) Is it a fact that the Government, by a notification published in the Calcutta Gazette on the 7th May last, sanctioned the preliminary survey for a railway line from Navaran to Satkhira and mentioned a large number of villages where it might be necessary to acquire land for the said purpose ?

(*b*) Is it a fact that the actual survey operation is now being carried on through other villages not mentioned in the notification ? If so, will the Government be pleased to state definitely the particular villages through which they propose to direct the course of the line ?

(*c*) Will the Government be pleased to state whether the proposed railway line will pass by the proximity of markets, *hats*, the Vatrabati river and the District Board Road between Navaran and Satkhira ?

(*d*) Have the local public been consulted regarding the alignment of the railway line and the sites of the stations ? If so, will the Government be pleased to state from whom suggestions on these matters have been received and what those suggestions are ?

(*e*) Have the Government already selected the sites of the stations ? If so, will they be pleased to state—

(*i*) the number of stations,

(*ii*) the particular places where they are to be located, and

(*iii*) the distances between the successive stations ?

The Hon'ble MR. GREEN replied :—

(*a*) "The answer is in the affirmative.

(*b*) Yes ; it has been ascertained from the Collector of Khulna that the Engineer in charge of the survey has found it necessary to take a different route from that originally proposed. The Railway authorities have been asked to submit a revised notification giving the names of the villages through which the actual survey has been made, and this will be published at the earliest possible date.

(*c*) The actual alignment has not been settled yet, but it will naturally be chosen with a view to serving the greatest amount of traffic. This matter will be duly considered when the report of the officer in charge of the survey has been received. This report is still under preparation.

(*d*) and (*e*) The sites of the stations have not yet been selected. The officer in charge has been in consultation with the Civil authorities concerned and has also received a large number of suggestions regarding sites of stations and alternative routes from various deputations and in writing. These suggestions will be duly considered by him in his report. No project report and estimate for the construction of the line have yet been submitted to this Government."

The Hon'ble RAI NALINAKSHA BASU BAHADUR asked :—

Floods in the Burdwan Division.

40. (*a*) Has the attention of the Government been drawn to the fact that, owing to the unprecedented floods which occurred on the 9th of August in the town of Burdwan, and a very large number of villages in the district of Burdwan, thousands of people have become houseless and have been completely denuded of their belongings and are quite destitute of subsistence?

(*b*) Will the Government be pleased to state what has been done and what further steps (if any) they intend to take to give relief to the sufferers?

(*c*) Are the Government aware that the openings of several culverts on the East Indian Railway line at Burdwan and places near it, meant for the flow of surplus water, have been closed?

(*d*) Will the Government be pleased to state whether the closing of these openings has contributed to the flooding of the town and the villages near it by the inundation of the 9th of August?

(*e*) Has the attention of the Government been drawn to the fact that breaches occurred in several places of the Damodar embankment on the 8th and 9th of August owing to the unprecedented inundation of the river?

(*f*) Will the Government be pleased to state what steps are being taken to protect the town of Burdwan and the villages near it from future inundations?

(*g*) Will the Government be pleased to state the places where the breaches have occurred, and whether the submersion of the town and the several villages near it has been caused by these breaches, and who are responsible for the same?

(*h*) Are the Government aware that the seedlings, which had been transplanted by the cultivators in the flood-affected areas, have been completely destroyed?

(*i*) Will the Government be pleased to state whether, and if so, what steps are being taken to supply them with seedlings from other places?

(*j*) Has the attention of the Government been drawn to the fact that, owing to the flood, the Civil Court buildings at Burdwan were under water for two days, and that there was water breast deep in the record-room with the result that a very large number of records have been completely destroyed or very badly damaged?

(*k*) Will the Government be pleased to state what is being done to remove the Courts from the buildings in which they are now held and to locate them in better buildings of modern type?

(*l*) Has the attention of the Government been drawn to the fact that the places submerged by the flood are now in a most insanitary condition?

(*m*) Will the Government be pleased to state what steps are being taken to restore the places to their normal sanitary state?

(*n*) Has the attention of the Government been drawn to the reports published by the leading newspapers regarding the flood in the subdivision of Contai in the district of Midnapore?

(*o*) Will the Government be pleased to state whether they have received any authentic report as to the number of deaths (if any) which have occurred there on account of the flood, and what steps have been taken to give relief to the flood-stricken people?

(*p*) Are the Government aware that parts of the district of Hooghly have also been affected by the flood, and will the Government be pleased to state what part of it has suffered most, and whether there has been any loss of life in any part of it and what has been done to relieve the affected parts?

The Hon'ble MR. DONALD replied :—

"The Hon'ble Member is referred to the statement to be made on this subject at to-day's meeting by the Hon'ble Sir William Duke."

The Hon'ble BABU MAHENDRA NATH RAY asked :—

The Howrah Waterworks Improvement Scheme.

41. (*a*) Will the Government be pleased to state—

(*i*) whether the Howrah Waterworks Improvement Scheme, estimated to cost over 17 lakhs of rupees, is being worked under the supervision of the Sanitary Board of Bengal ;

(*ii*) whether the pipes for the new works, supplied by the contractors of the value of over 5 lakhs of rupees, have been examined and approved by the Sanitary Engineer ;

(*iii*) whether the Sanitary Engineer has examined and approved the sample pipe alleged to be coated with a special rust-preventing composition with a view to test the soundness of the same in accordance with the specifications approved by him ?

(*b*) Will the Government be pleased to lay on the table the papers (if any) in connection with such examination and approval ?

The Hon'ble MR. DONALD replied :—

(*a*) (*i*) "The scheme is being carried out under the direct supervision of the Municipal Engineer and is periodically inspected by the Sanitary Engineer, Bengal.

(*a*) (*ii*) Yes.

(*a*) (*iii*) Yes.

(*b*) Extracts from the inspection notes of the Sanitary Engineer, so far as they relate to the condition of the pipes, are placed on the table."

Extracts referred to in the Answer by the Hon'ble MR. DONALD to Question No. 41, asked by the Hon'ble BABU MAHENDRA NATH RAY at the Council Meeting of the 1st September, 1913.

Extract from the Sanitary Engineer's Inspection Note, dated the 14th April, 1913.

*　　*　　*　　*

The sample pipe duly arrived and the coating is quite satisfactory.

Extract from the Sanitary Engineer's Inspection Note, dated the 23rd April, 1913.

*　　*　　*　　*

I inspected these works on the 13th April, 1913, in company with the Chairman and Mr. Hale. A number of the steel pipes are now strung along the road from Serampur. No specials have been landed so far.

The pipes themselves so far landed are apparently satisfactory. The sockets are of a good and strong design and no bulging or injury has been done to the metal.

The coating has, however, softened to some extent on the top in the hot sun and some of the Hessian wrapping has been torn in handling after unloading.

Mr. Hale has had some of the pipes whitewashed on the outside so that the effect this has in minimising the melting action of the sun can be seen. The remainder of the pipes should all be whitewashed, and I understand the makers are being asked to do so for all future consignments. Mr. Hale is arranging to have the whitewashing of those already landed finished as soon as possible.

The contractor has promised to provide a derrick for unloading out of the carts, for it appears that much of the injury to the wrapping has been done at that time.

The harm done is not serious. In no case does it appear to have affected the coating of the pipe itself, and that done to the outer wrapping can be easily repaired.

---

*Extract from the Sanitary Engineer's Inspection Note, **dated the 7th May, 1913.***

* * * *

I have to-day examined the last consignment of steel pipes on the barges and at the jetty.

The unloading has been carefully done and there has been, so far as I saw, no injury to the coating or wrapping, except that the latter has been slightly displaced in a few places. The coating is at present hard and sound inside and outside.

* * * *

---

*Extract from the Sanitary Engineer's Inspection Note, **dated the 31st May, 1913.***

* * * *

I inspected the works at Serampur on the 30th May, 1913. A large number of pipes are now strung out along the Grand Trunk Road from the 10th mile onwards. The majority of these are whitewashed, but a few have not been whitewashed at all, and in some whitewashing has been done in a somewhat sketchy fashion.

The pipes are in very good condition. I only noticed two damaged pipes and the Hessian wrapping has been slightly torn in a few cases and can very easily be put right.

The Hon'ble BABU MOHENDRA NATH RAY asked :—

Prevention of the recurrence of floods.

42. Will the Government be pleased to state whether it is in their contemplation to take any, and if so, what, steps to prevent or to minimise the chances of the recurrence of such serious floods as recently occurred in the Burdwan Division?

The Hon'ble MR. DONALD replied :—

"The Hon'ble Member is referred to the statement to be made on this subject at to-day's meeting by the Hon'ble Sir William Duke."

The Hon'ble RAJA HRISHIKESH LAHA asked :—

Extension of the subdivision of Feni.

43. Is it a fact that a petition has been submitted to the Government by the inhabitants of the Feni subdivision in the Noakhali district and others, praying for the extension of the subdivision by the incorporation of certain thanas in it, and if so, will the Government be pleased to state what orders have been passed upon it?

The Hon'ble MR. CUMMING replied :—

"A petition of this nature was received and forwarded to the Commissioner of the Chittagong Division for disposal."

The Hon'ble BABU SURENDRA NATH RAY asked :—

Irregular means of communication between Hooghly and Arambagh.

44. Has the attention of the Government been drawn to the fact that there is no regular road or other means of communication between the district headquarters of Hooghly and the subdivisional headquarters of Arambagh ?

The Hon'ble MR. DONALD replied :—

"Government are aware that no through road communication exists between district headquarters, Hooghly, and the subdivisional headquarters of Arambagh. The route from Hooghly to Arambagh is partly by rail, partly by steamer and partly by boat."

The Hon'ble RAI RADHA CHARAN PAL BAHADUR asked :—

The Damodar flood.

45. (*a*) Will the Government be pleased to state what was the cause of the Damodar flood, the recent Damodar flood ?

(*b*) Will the Government be pleased to state at what points there have been breaches in the embankment of the Damodar ?

(*c*) Will the Government be pleased to state how many villages have been affected in the Burdwan, Bankura, Hooghly, Howrah and Midnapore districts and what was the population of those villages ?

(*d*) Will the Government be pleased to state approximately—

(*i*) how many human lives have been lost,

(*ii*) how many cattle have been lost,

(*iii*) how many areas of crops have been and are still under water and

(*v*) how many houses (including huts) have collapsed ?

(*e*) Are the Government aware of the immense voluntary help rendered by the Central Relief Committee formed at a meeting held at the residence of the late Raja Benoi Krishna Deb Bahadur and various other organizations to the helpless and the destitute in connection with the floods ?

(*f*) Will the Government be pleased to state what action they have already taken and what further steps (if any) they propose to take to alleviate the sufferings of those who have been rendered homeless and destitute on account of the recent floods ?

The Hon'ble MR. DONALD replied :—

"The Hon'ble Member is referred to the statement to be made on this subject at to-day's meeting by the Hon'ble Sir William Duke."

The Hon'ble BABU SURENDRA NATH BANERJI asked :—

Unpleasantness the distribution prizes at the Madaripur High English School.

46. (*a*) Has the attention of the Government been drawn to a report published in the *Bengalee* of the 18th and 23rd July last and in the *Sanjibani* of the 31st July last, that, at a meeting for the distribution of prizes to the boys of the Madaripur High English School, held on the 25th June last, Mr. Beatson Bell, Commissioner of the Dacca Division, in addressing a local pleader, who wanted permission to put a garland round his neck, used words to this effect : "Stop! I do not wish to hear you. I am not come here to be garlanded by dacoits" ?

(*b*) Is it also a fact that at the said meeting Mr. Beatson Bell said in effect that the guardians, the teachers and the students of the upper classes are all responsible for the dacoities ?

(*c*) What action have Government taken in reference to this matter ?

The Hon'ble MR. CUMMING replied :—

46. (*a*) "The attention of Government has been drawn to certain statements in the Press. It has been inaccurately represented that a pleader desired to garland Mr. Beatson Bell ; it was the boys who wanted to do so.

(*b*) Mr. Beatson Bell said that the guardians, teachers and older boys were all morally responsible for the deplorable state into which the school had fallen.

(*c*) The Director of Public Instruction, on behalf of Government, has made special inquiries into the condition of this school. It has been ascertained that within the last few months. 4 boys have been expelled ; 3 left of their own accord under suspicious circumstances ; and 4 were arrested on a charge of complicity in a dacoity.

The Director of Public Instruction has made certain proposals to Government for effecting an improvement in the *morale* of the school and in the discipline to be exercised over the students. His suggestions include the appointment of a prefect of discipline ; arrangements for visiting the domiciles of those students who do not live under the protection of responsible guardians, and for exercising adequate supervision over their conduct outside of school hours ; the erection of new hostels and more frequent Departmental supervision."

The Hon'ble DR. DEBA PRASAD SARBADHIKARI asked :—

Damage cau by the rec floods.

47. (*a*) Will the Government be pleased to state the extent of damages done by the recent floods, as far as they have been able to ascertain, in the districts of Midnapore, Hooghly, Burdwan and Bakarganj ?

(*b*) What steps have been taken by the Government to relieve distress in these tracts and to prevent recurrence of such disasters in future as far as possible ?

(*c*) Will the Government be pleased to state the extent of private organizations in the affected tracts ?

The Hon'ble MR. DONALD replied :—

"The Hon'ble Member is referred to the statement to be made on this subject at to-day's meeting by the Hon'ble Sir William Duke."

The Hon'ble MR. G. H. C. ARIFF asked :—

Dispensaries the Presidency Bengal.

48. Will the Government be pleased to state the number of dispensaries in each district in the Presidency of Bengal, where they are located, and what grant each of them receives from the Government, District Boards, Municipalities, etc., respectively ?

The Hon'ble MR. DONALD replied :—

"The Hon'ble Member is referred to the published annual returns of the hospitals and dispensaries in Bengal for the year 1912."

The Hon'ble MR. G. H. C. ARIFF asked :—

49. Will the Government be pleased to lay on the table a statement showing the number of dispensaries which are managed solely by private bodies and those which are either under the supervision of Government, District Boards or Municipalities, and their respective situations ?

The Hon'ble MR. DONALD replied :—

"The Hon'ble Member is referred to the published annual returns of the hospitals and dispensaries in Bengal for the year 1912."

The Hon'ble MR. G. H. C. ARIFF asked :—

Deaths from malaria.

50. Will the Government be pleased to lay on the table a statement showing the total number of deaths from malaria in each of the districts in the Presidency during the years 1909-10, 1910-11, 1911-12 and 1912-13?

The Hon'ble MR. DONALD replied :—

"Statistics of the mortality from fever will be found in the annual Reports on Sanitation in Bengal. It is not known how many of the deaths under this head were due to malaria."

The Hon'ble MR. G. H. C. ARIFF asked :—

Eastern Bengal and Assam clerks transferred to Bengal.

51. (a) Is it a fact that, when, on the partition of Bengal in 1905, Bengal clerks were transferred to the Eastern Bengal and Assam Secretariat and attached offices, their pay was, for the purpose of determining their relative positions on the amalgamated cadre of that Secretariat, taken at 50 per cent. more than what the Assam Secretariat clerks were given in the new scale and that, again, on the modification of the partition of 1905, Bengal clerks were transferred to Ranchi on increased pay, while the Secretariat clerks of Eastern Bengal and Assam and attached offices had to come to the Bengal Secretariat and attached offices on the pay that they were drawing on the 1st April, 1912, even losing the benefits of the progressive pays prevailing in the former Secretariat?

(b) Is it a fact that this Government made any recommendation to the Government of Bihar and Orissa in favour of liberal treatment to the Bengal clerks who were transferred to Ranchi, and if so, will the Government be pleased to state in detail how many of the Eastern Bengal and Assam clerks have received liberal treatment?

The Hon'ble MR. DONALD replied :—

(a) "The Hon'ble Member is referred to the Answer given to Question No. 37 (c), asked by the Hon'ble Maulvi A. K. Fazl-ul-Haq.

(b) The Hon'ble Member is referred to the Answer given to Question No. 37 (f), asked by the Hon'ble Maulvi A. K. Fazl-ul-Haq."

The Hon'ble BABU SURENDRA NATH BANERJI asked :—

[illegible]tion of a [illegible]an for the [illegible]bati Munici-

52. (a) Will the Government be pleased to state whether they have received any memorial from the ratepayers of the Baidyabati Municipality regarding the election of a chairman in succession to Mr. Low, who has recently resigned his office as chairman?

(b) Are the facts alleged therein correct, namely,—

(i) that Mr. John Low, Manager, Champdani Jute Mills, who was an appointed Commissioner and Chairman of the Baidyabati Municipality, resigned both offices on the 1st May last;

(ii) that his head clerk in the Mills was appointed a Commissioner by Government in his place;

(iii) that at a special meeting held on the 25th June last, a unanimous resolution was passed requesting the Government to appoint a Chairman, special mention being made of Babu Mohendra Chandra Lahiri, Government Pleader and Honorary Magistrate, Serampore;

(iv) that another meeting was called on the 11th July in pursuance of letter No. 1121 J.G., dated the 4th *idem*, from the Magistrate of Hooghly to the Vice-Chairman of the Municipality, to reconsider the previous unanimous

resolution on the ground that he, the Magistrate, had understood that the Commissioners were in favour of Mr. Low's re-election on his return from Europe, and that the appointment of a Chairman by Government would preclude the possibility of such re-election ;

(*v*) that at this meeting of the 11th July some of the Commissioners were of opinion that the Magistrate's letter contained an order that was binding on them, and that they were not competent to question the legality or otherwise of such an order ;

(*vi*) that ultimately the unanimous resolutions recently passed by the Commissioners were set aside by the casting vote of the Vice-Chairman, and the Mill clerk was elected Chairman in the belief that he would resign office on the return of his chief ?

(*c*) Will the Government be pleased to lay on the table the proceedings of the two meetings held respectively on the 25th June and 11th July and the Magistrate's letter No. 1121 J.G., dated the 4th July, referred to in the memorial ?

(*d*) Will the Government be pleased to state what action, if any, they propose to take in the matter ?

The Hon'ble MR. DONALD replied :—

(*a*) "Yes.

(*b*) (*i*), (*ii*), (*iii*) and (*iv*). The answers are in the affirmative.

(*b*) (*v*) Government are informed that one Commissioner expressed this view.

(*b*) (*vi*) The proposals that the resolutions passed at a meeting held on the 25th June should be set aside and that Babu Prasanna Kumar Mukharji should be appointed Chairman were carried by the casting vote of the president of the meeting. Government are not aware whether the Commissioners were influenced in their votes by the belief that Babu Prasanna Kumar Mukharji would resign on the return of Mr. Low.

(*c*) Government see no useful purpose in placing the correspondence referred to on the table. The facts are made sufficiently clear by the answers to the previous questions.

(*d*) Government have intimated that they are unable to give approval to the resolution, dated the 11th July, 1913, appointing Babu Prasanna Kumar Mukharji to be Chairman."

The Hon'ble MAULVI A. K. FAZL-UL-HAQ asked :—

53. Will the Government be pleased to state—

Duties of the Principal of the Calcutta Madrasa.

(*a*) the routine of duties performed by the Principal of the Calcutta Madrasa ?

(*b*) how many hours, on an average, he is required to work per week ?

(*c*) the total monthly cost (salary of Principal, house-allowance, cost of establishment, etc.) of retaining the office of the Principal ?

(*d*) the number of clerks employed in the office of the Madrasa, their pay, and also how many of them are Muhammadans ?

The Hon'ble MR. CUMMING replied :—

(a) "The ordinary duties of the principal of a College.
(b) There are no orders fixing the number of hours' work per week.
(c) The monthly cost is Rs. 1,148, made up as follows :—

	Rs.
(1) Present salary of the Principal	880
(2) Head Clerk, class II, Subordinate Educational Service ...	200
(3) Second Clerk, class I, Lower Subordinate Educational Service	43
(4) Third Clerk, class IV. Lower Subordinate Educational Service	25
Total ...	1,148

The Principal has free quarters and enjoys the privilege of drawing exchange compensation allowance.

(d) There are three clerks as shown in the answer to the preceding question. None is a Muhammadan."

The Hon'ble MAULVI A. K. FAZL-UL-HAQ asked :—

The Madrasa Reform Committee.

54. Will the Government be pleased to state what action, if any, has been taken on the report of the Madrasa Reform Committee which met at Dacca during the régime of the Government of Eastern Bengal and Assam ?

The Hon'ble MR. CUMMING replied :—

"The first Conference for the reform of the Madrasas in Eastern Bengal met in 1909-10. It was found that the curricula proposed were defective in certain respects, and the second Conference was summoned in March, 1912, to reconsider them. While the resolutions of the second Conference were under discussion, the Dacca University Committee held its sittings and the suggestion that the new University should include a department of Islamic studies necessitated a fresh survey of the question. A third Conference was accordingly held in 1913 with the Hon'ble Mr. Nathan as President. The Resolutions of this Conference are still under the consideration of Government."

The Hon'ble MAULVI A. K. FAZL-UL-HAQ asked :—

55. Will the Government be pleased to state whether it is in contemplation to bring all the senior madrasas in the Presidency under one uniform standard, and if so, whether Government would approve of the appointment of a committee of experts, official and non-official, to prepare a scheme for the purpose ?

The Hon'ble MR. CUMMING replied :—

"It is in contemplation to introduce a uniform modernized course in the Madrasas, though it is probable that the old system of learning will be maintained in at least one large Madrasa in the Province.

The question has already been thoroughly investigated by the various committees to which a reference has been made in answer to the last question, and Government think no useful purpose would be served by the appointment of another committee to examine a subject which has already been adequately ventilated."

The Hon'ble MAULVI A. K. FAZL-UL-HAQ asked :—

Teaching of Arabic Persian in the Presidency College.

56. (a) Will the Government be pleased to state whether it is a fact that the present staff in the Presidency College for the teaching of Arabic, Persian and Urdu consists of only one professor in the Provincial Educational Service and one lecturer in the Subordinate Service ?

(b) Are the Government aware that there is a very strong impression in public circles that this staff is wholly inadequate for the work?

The Hon'ble MR. CUMMING replied :—

"(a) The answer is in the affirmative.
(b) The answer is in the negative."

The Hon'ble MAULVI A. K. FAZL-UL-HAQ asked :—

Teaching Arabic, Persian Urdu in Government school the mofussil

57. (a) Will the Government be pleased to state whether it is a fact that there is no provision for the teaching of Arabic in the Dacca Collegiate School?

(b) Is it a fact that a representation was sent to the Director of Public Instruction by a large number of guardians of Muhammadan boys, praying that provision be made for the teaching of Arabic in the abovementioned School?

(c) If so, will the Government be pleased to state what steps (if any) they propose to take in the matter?

The Hon'ble MR. CUMMING replied :—

(a) "The answer is in the affirmative.

(b) A representation signed by four guardians of Muhammadan boys was received by the Director of Public Instruction. A similar representation had been received by the Inspector of Schools for the Dacca Division, who caused it to be brought before the Managing Committee of the School. In view of the small number of boys (7) who professed a desire to study Arabic, the Committee resolved that there was no case for approaching the Department for the appointment of an Arabic teacher. On being informed of this decision the petitioners approached the Director of Public Instruction.

(c) The representation is now being dealt with by the Director of Public Instruction."

The Hon'ble MAULVI A. K. FAZL-UL-HAQ asked :—

58. Will the Government be pleased to lay on the table a statement showing existing arrangements for the teaching of Arabic, Persian and Urdu in Government colleges and schools in the mufassal, district by district, under the following heads :—

(i) names of professors, lecturers or teachers, with their qualifications and pay;
(ii) the average number of hours per week each is required to work;
(iii) the number of students who read Arabic, Persian or Urdu in the last academical year, Pass and Honours students being shown separately?

The Hon'ble MR. CUMMING replied :—

"A statement giving the information required is laid on the table."

Statement referred to in the Answer by the Hon'ble Mr. Cumming to Question No. 58, asked by the Hon'ble Maulvi A. K. Faz-ul-Haq at the Council meeting of the 1st September, 1913, shewing existing arrangements for the teaching of Arabic, Persian and Urdu in Government Colleges and Schools in the mufassal in West Bengal, District by District.

The Hon'ble RAI NALINAKSHA BASU BAHADUR asked :—

59. (*a*) Will the Government be pleased to state whether it is a fact that the number of students admitted in each section of the Presidency College is far less than the number fixed by the University?

Admission students in Presidency Coll

(*b*) If so, will the Government be pleased to state the reason for this appreciable difference?

The Hon'ble MR. CUMMING replied :—

(*a*) "Government are not prepared to admit that the number of students admitted in each section of the College is far less than the number fixed by the University.

(*b*) The numbers given in the University Regulations are obviously not prescriptive but permissive only, or rather prohibitory of excess. The limit of the numbers reading in the various sections of the Presidency College has been determined by a careful consideration of the teaching strength and the available equipment."

The Hon'ble BABU SURENDRA NATH BANERJI asked :—

60. Will the Government be pleased to state whether it is in contemplation to appoint two Deputy Directors—one for Western Bengal and the other for Eastern Bengal—and to locate the office of the Deputy Director of Eastern Bengal at Dacca?

Appointment two Deputy Dir tors.

The Hon'ble MR. CUMMING replied :—

"A suggestion has been made that two Deputy Directors should be appointed to assist the Director of Public Instruction, but the reorganization of the Office of the Director of Public Instruction is now under consideration and the exact lines which the reorganization will follow and the question whether these officers will be included in the scheme have not yet been determined."

The Hon'ble MAULVI MUSHARRAF HUSAIN, in the absence of the Hon'ble NAWAB SAIYID HOSSAM HAIDER CHAUDHURI, KHAN BAHADUR asked :—

61. (*a*) Is it a fact that Government do not contemplate the abolition of the posts of the Inspecting Pandits in Western Bengal and that the posts of these officers in Western Bengal are being strengthened by raising the scale of pay?

The abolition the posts of In pecting pandits Western Bengal.

(*b*) If so, will the Government be pleased to state why the posts of these officers are being abolished in Eastern Bengal districts?

(*c*) Will the Government be pleased to state whether it is in their contemplation to invite public opinion, pending the final decision of Government, regarding the question of further abolition of the posts of the Inspecting Pandits in Eastern Bengal districts?

The Hon'ble MR. CUMMING replied :—

(*a*) "The question of the abolition of these Inspecting Pandits in Western Bengal has been discussed but postponed because—

(*i*) the present staff of Sub-Inspectors and Assistant Sub-Inspectors is insufficient,

(*ii*) they are still needed for the work of teaching the untrained teachers of primary schools.

These officers are directly under District Boards : Government are not aware of any proposals to raise their pay.

(*b*) It is in contemplation gradually to abolish these Inspecting Pandits in Eastern Bengal so as to bring in a more efficient inspecting agency in the persons of Sub-Inspectors and Assistant Sub-Inspectors.

(c) The question of the abolition of these posts has already been finally decided, and the Secretary of State has given his sanction to the inauguration of the more efficient system mentioned above. Government see no reason to reopen the subject by inviting public opinion in the matter."

The Hon'ble BABU UPENDRA LAL RAY asked :—

Privilege leave the Provincial Judicial Service.

62. (a) Are the Government aware that privilege leave applied for on the ground of ill health by some members of the Provincial Judicial Service has been refused on the ground that they were not confirmed in the Service, although their confirmations were actually due more than a year before?

(b) Will the Government be pleased to inform the Council when the confirmations to the existing vacancies in the Service are likely to be gazetted?

The Hon'ble MR. TWIDELL replied :—

(a) "Government are aware of only one case of the kind mentioned in the question.

An officiating Munsif applied for leave in March last. Under the rules, officers holding officiating or temporary appointments are not entitled to privilege leave, if any substitute is required in their place or if arrangements cannot be made for their work without extra cost to Government. In the case referred to a substitute was required and the application for privilege leave was, therefore, refused. When the Munsif represented that he was in ill health, which he had not done before, he was granted extraordinary leave without allowances, which can be commuted to privilege leave on confirmation. It is understood that the Munsif in question, who has since been confirmed, has applied to the High Court for commutation of his leave to privilege leave. When his application is received by Government, it will be duly considered in accordance with the rules.

(b) The confirmations in the vacancies referred to were published in the Calcutta Gazette of the 25th June, 1913."

The Hon'ble RAI NALINAKSHA BASU BAHADUR asked :—

Certain inconveniences at railway stations between Bandel and Katwa.

63. (a) Has the attention of the Government been drawn to the following facts :—

(i) that there are no platforms at the railway stations between Bandel and Katwa to enable passengers to enter, and alight from, the trains running between the above two places with ease?

(ii) that there are no waiting-rooms at any of the railway stations between the above two places for the use of passengers?

(b) If so, will the Government be pleased to state what steps are being taken to remove the above inconveniences?

(c) Are the Government aware that no fencing has as yet been erected on either side of the railway line between Bandel and Katwa, and that cattle are now and then killed by running trains?

(d) If so, will the Government be pleased to state what action (if any) they intend to take in the matter?

The Hon'ble MR. GREEN replied :—

(a) (i) "The answer is in the affirmative. The attention of the Hon'ble Member is drawn to the reply given to Maulvi Abul Kassem at the Council Meeting of the 13th March to the effect that it is not usual to provide raised platforms at stations on a branch line until the traffic has developed to an extent that will justify the cost. The Hooghly-Katwa Branch was only opened in 1912 and the question of providing raised platforms at a few of the principal stations will be considered.

(a) (ii) and (b) There are waiting-rooms at Dainhat and Katwa and waiting-sheds for intermediate- and third-class passengers at Tribeni, Kalna Court and Katwa which have so far been found sufficient to meet requirements. When the passenger traffic at other stations justifies the provision of waiting-rooms and -sheds, these conveniences will be provided.

(c) The answer is in the affirmative.

(d) Sanction has been accorded for fencing on both sides of the line from Bandel to Katwa, and the materials have been ordered and the work will be commenced next cold weather."

The Hon'ble MHARAJA RANAJIT SINHA OF NASHIPUR asked :—

Extension female edu within the za

64. With reference to the reply given by Mr. Küchler, late Director of Public Instruction. at a meeting of the Bengal Legislative Council held on the 4th April, 1913, to my suggestion regarding the extension of female education within the zanana, will the Government be pleased to state what progress (if any) has been made in that direction?

The Hon'ble MR. CUMMING replied :—

"In furtherance of the policy of encouraging zanana education, the following posts have been sanctioned since the date of Mr. Küchler's speech, namely, --

(1) One assistant inspectress in the Provincial Educational Service for zanana work and Muhammadan education in the Burdwan and Presidency Divisions.

(2) Three governesses—one at Dacca, one at Mymensingh and one at Faridpur.

(3) Fifteen additional zanana teachers for Western Bengal.

"Grants have also been sanctioned in aid of the Widows' Educational Home Scheme.

"A new zanana centre has been established at Sultanpur in the district of Khulna, and the question of assisting the Jikra zanana agency at Howrah is under consideration. In addition to the post of assistant inspectress mentioned above, the appointment of four more assistant inspectresses has been sanctioned. This increase in the inspecting staff will, it is hoped, lead to still greater expansion and efficiency in zanana education."

The Hon'ble MR. G. H. C. ARIFF asked :—

Lower Prim Upper Primary Middle En Schools in Ben

65. Will the Government be pleased to state the number of Lower Primary, Upper Primary and Middle English schools in each of the districts of the Presidency, Burdwan, Dacca, Rajshahi and Chittagong Divisions, and how many of them are entirely Government institutions, and how many of them are aided by Government; and the amount of aid given to each of these Lower, Upper and Middle English schools?

The Hon'ble MR. CUMMING replied :—

"A statement giving the required information is laid on the table. As it would be a matter of some difficulty to ascertain the exact amount of the grant-in-aid given to each institution, the average amount given to each has been entered in the statement."

Statement referred to in the answer by the Hon'ble MR. CUMMING to Question No. 65, asked by the Hon'ble MR. G. H. C. ARIFF at the Council Meeting of the 1st September, 1913:—

PRESIDENCY DIVISION.

The Hon'ble RAI NALINAKSHA BASU BAHADUR asked :—

66. (*a*) Will the Government be pleased to state whether all the science subjects prescribed for the Calcutta University examinations (I.Sc., B.Sc. and M.Sc) are included in the curriculum of studies at the Presidency College, Calcutta ?

Teaching of Science subjects of the Calcutta University

(*b*) If not, will the Government be pleased to state whether it is in the contemplation of the Government to prepare a scheme by which all the science subjects may be taught in that College ?

(*c*) Will the Government be pleased to state why Physiology does not find a place in the curriculum of studies at the Presidency College this year ?

(*d*) Are the Government aware that there is no other college in Bengal where the subject is taught in the Intermediate standard and that an application was made some time ago to the Principal by a few students of the Presidency College praying that arrangements may be made for the teaching of the above-named subject, which was rejected ?

(*e*) Will the Government be pleased to state the reason for the action taken by the Principal, and whether it is in the contemplation of the College authorities to teach the subject in that standard in future ?

The Hon'ble MR. CUMMING replied :—

(*a*) "No; all the science subjects prescribed for the I.Sc., B.Sc. and M.Sc. examinations of the Calcutta University are not included in the curriculum of studies at the Presidency College.

(*b*) The answer is in the negative. It is not practicable at present to teach all the science subjects in the College.

(*c*) The teaching of Physiology has been discontinued in the present session first year I.Sc. class, and it will, under present arrangements, be discontinued altogether in the I.Sc. class next session. This arrangement has been decided upon after full consideration. A majority of the science professors consider it better to postpone the beginning of Physiology to the B.Sc. stage. The subject is taught in the B.Sc. and M.Sc. classes.

(*d*) Yes. An application was received by the Principal in July from a number of first year I.Sc. students to be allowed to take up Physiology either as a necessary part of their studies or as an optional subject, but as the teaching of Physiology in the I.Sc. classes has been discontinued after due consideration, it was not considered practicable to accede to their request.

(*e*) The Principal had no option but to reject the application. The second portion of the question has already been answered."

The Hon'ble RAI NALINAKSHA BASU BAHADUR asked :—

67. (*a*) Will the Government be pleased to state whether it is a fact that research work on Indian Economics cannot be carried out efficiently in the Presidency College Library owing to the want of blue books, copies of "Journals" of the Economic Society of England and of the Royal Statistical Society and the publications of the Government of India in relation to finance and commerce, etc. ?

Research work on Indian Economics in the Presidency College Library.

(*b*) Will the Government be pleased to state what action (if any) they intend to take to supply the want ?

The Hon'ble MR. CUMMING replied :—

(*a*) "Government are aware that the Presidency College Library does not possess complete sets of the *Economic Journal* nor of the *Journal of the Royal Statistical Society*; but otherwise the College Library, though capable of further improvement and expansion, is sufficiently supplied with books on Economic Science.

(*b*) It is the desire and the deliberate policy of the College authorities to encourage and promote research to the best of their ability, and steps are being taken to complete the equipment of the library."

The Hon'ble BABU UPENDRA LAL RAY asked :—

Jetty No. IV at Chittagong.

68. Will the Government be pleased to state—

(*i*) why jetty No. IV was built at Chittagong;

(*ii*) whether it is used for the purpose for which it was constructed, and if not, why not; and

(*iii*) what steps (if any) they intend to take to put the jetty to the use for which it was originally constructed?

The Hon'ble MR. GREEN replied :—

"Jetty No. 4 is part of a complete progressive scheme for seven jetties at Chittagong to be constructed by the Assam-Bengal Railway. When jetty No. 4 was first proposed, accommodation for a special coasting service between Chittagong and Calcutta with through booking arrangements with the Assam-Bengal Railway was contemplated and the jetty was intended to meet this and other developments. The negotiations for the utilization of this jetty for the coasting trade fell through, and it has been needed for the additional requirements of the Ocean trade.

It is not at present intended to renew negotiations for the special coasting service above referred to, nor to use the jetty for such service. It is, however, desirable to provide for the ordinary coasting steamers with means of direct access from ship to shore, and the matter will be inquired into."

The Hon'ble RAI RADHA CHARAN PAL BAHADUR asked :—

Posts of Inspectors of Calcutta Canals.

69. (*a*) Will the Government be pleased to state how recruitments are made to posts of Inspectors in the Calcutta Canals?

(*b*) Are they made from the ranks of the Upper Subordinates in the Public Works Department or from the clerical service?

(*c*) If from the latter, will the Government be pleased to state why preference is not given to darogas of toll-stations?

(*d*) Will the Government be pleased to state whether it is not a fact that the Daroga of the Chitpore Toll-station also acts as *ex officio* Inspector of the Chitpore Canal, and that on one occasion a daroga of the Calcutta Canal was appointed to act as Inspector?

(*e*) Have the Government considered the desirability of promoting deserving darogas to posts of inspectors?

The Hon'ble MR. GREEN replied :—

(*a*), (*b*), (*c*) and (*e*) "Inspectors of the Calcutta Canals are selected from amongst the most suitable men of—

(i) the Toll Daroga establishment,

(ii) upper Subordinates of the Public Works Department,

(iii) other candidates for such appointments.

Inspectorships have been held by men of all three classes either permanently or officiating. These appointments are not reserved for any particular class of officer, and it is not desirable that they should be. When a vacancy occurs the most suitable man is appointed. The claims of Toll darogas are always fully considered.

(*d*) The Daroga of the Chitpore Toll-station is not also *ex officio* Inspector of the Chitpore Canal. He exercises certain functions of an inspector directly under the orders of the Assistant Engineer, who lives on the spot and exercises the superior authority of an inspector over this length of the Canal. Darogas have occasionally been appointed to act as inspectors of the Canal in temporary vacancies."

The Hon'ble RAI NALINAKSHA BASU BAHADUR asked :—

70. (*a*) Will the Government be pleased to state whether the opening of the Kristopore Canal has contributed to the increase of revenue in the Calcutta Canals and to a considerable decrease in the revenue of the Dhappa Canal?

(*b*) If so, will the Government be pleased to state what steps, if any, they intend to take to recoup the revenue of the latter?

The Hon'ble MR. GREEN replied :—

(*a*) and (*b*) "There has been no increase in the revenue of the Calcutta Canals owing to the opening of the Kristopore Canal, but there has been a decrease in the toll collections at the Dhappa Toll-station since the opening of this alternative route. No measures are in contemplation to render the Dhappa route more popular and consequently to increase the receipts at the Dhappa Toll-station."

The Hon'ble RAI NALINAKSHA BASU BAHADUR asked :—

The Dia Harbour Milk

71. (*a*) Has the attention of the Government been drawn to the leading articles in the "Bengalee" of the 25th and 26th July last and the correspondence signed "Justice", appearing in the same paper on the 1st August last, on what is called "The Diamond-Harbour Milk Case"?

(*b*) Will the Government be pleased to state whether the statements contained in those articles and that correspondence are correct?

(*c*) Will the Government be pleased to state whether they have held any inquiry in the matter; and if so, whether they propose to take any steps as a result of that inquiry?

The Hon'ble MR. CUMMING replied :—

(*a*) "The answer is in the affirmative.

(*b*) and (*c*) The matter is still under inquiry."

The Hon'ble MR. G. H. C. ARIFF asked :—

Governm Pleaders in Presidency.

72. Will the Government be pleased to state the total number of Government pleaders in each district in the Presidency and the number of Muhammadans holding this post?

The Hon'ble MR. TWIDELL replied :—

"A statement showing the names of Government pleaders and public prosecutors in each of the districts in Bengal is laid on the table. It will be seen that the public prosecutors in three districts are Muhammadans."

Statement referred to in the Answer by the Hon'ble Mr. Twidell to Question No. 72, asked by the Hon'ble Mr. G. H. C. Ariff at the Council Meeting of the 1st September, 1913.

STATEMENT SHOWING THE NAMES OF GOVERNMENT PLEADERS AND PUBLIC PROSECUTORS IN BENGAL.

District.		Names of Government Pleaders and Public Prosecutors.
Pakarganj	...	Babu Ganesh Chandra Gupta, Senior Government Pleader.
		" Rajendra Lal Banarji, Junior Government Pleader.
Bankura	...	" Basanta Kumar Neogi.
Birbhum	...	Rai Sahib Kalikanand Mukharji.

District.		Names of Government Pleaders and Public Prosecutors.
Bogra	...	Babu Beni Madhab Chaki.
Burdwan	...	„ Debendra Nath Mitra, Government Pleader. „ Bunwari Lal Hati, Public Prosecutor.
Chittagong	...	Rai Satish Chandra Sen Bahadur, Government Pleader. Maulvi Abdul Sattar, Public Prosecutor.
Dacca	...	Rai Iswar Chandra Ghose Bahadur, Government Pleader. Babu Sarat Chandra Ghose, Public Prosecutor.
Darjeeling	...	„ Rajani Kanta Mukharji.
Dinajpur	..	„ Jatindra Mohan Sen.
Faridpur	...	„ Srish Chandra Banarji, Government Pleader „ Kailas Chandra Das, Public Prosecutor.
Hooghly	...	„ Khirode Krishna Biswas, Officiating.
Howrah	. .	„ Ashutosh Bose.
Jalpaipuri	...	„ Preonath Banarji.
Jessore	...	Rai Jadunath Mazumdar Bahadur.
Khulna	...	„ Bepin Behari Sen Bahadur.
Malda	...	Babu Harinath Palit.
Midnapore	...	„ Shital Prasad Ghose, Government Pleader. „ Brajendranath Roy, Junior Government Pleader.
Murshidabad		„ Radhika Mohan Sen.
Mymensingh		„ Sarada Charan Ghose, Government Pleader. Maulvi Mahammed Ismail, Public Prosecutor.
Nadia	...	Rai Bishwambhar Roy Bahadur, Government Pleader. Babu Akhay Kumar Maitra, Public Prosecutor.
Noakhali	...	(Vacant).
Pabna	...	Babu Prasanna Narain Chowdhuri, Government Pleader. „ Mohendra Chandra Mukharji, Public Prosecutor of Sirajganj.
Tippera	...	Rai Sasanka Kumar Ghose Bahadur, Government Pleader. Maulvi Abdul Karim, Public Prosecutor.
Rajshahi	...	Babu Hari Charan Maitra, Senior Government Pleader. „ Sarat Chandra Roy, Junior Government Pleader.
Rangpur	...	Rai Sarat Chandra Chatarji Bahadur.
24-Parganas	...	Babu Kailas Chandra Bose, Government Pleader. „ Hemendranath Mitra, Public Prosecutor.

The Hon'ble BABU SURENDRA NATH BANERJI asked :—

Establishment of new Board schools for primary education.

73. (*a*) Will the Government be pleased to state how many new Board schools for primary education it is proposed to establish in the current financial year in the eastern districts of the Province?

(*b*) Is it in contemplation to start similar schools in the western districts, and if so, how many?

(*c*) What is the average—

(*i*) cost of a Board school *per annum*;

(*ii*) area served by it; and

(*iii*) attendance in a Board school?

(*d*) Does the opening of a Board school involve the withdrawal of grants from other schools in its neighbourhood?

(*e*) Do the Government act, in respect of primary education, on the principle of concentration of grants?

(*f*) Is it a fact that such a policy led to the closing of nearly 700 primary schools in the eastern districts in 1909-10?

(*g*) If so, has this decrease been made up in subsequent years?

The Hon'ble MR. CUMMING replied :—

(*a*) "It is proposed to establish 511 Lower Primary schools in the Eastern districts.

(*b*) It is proposed to extend the Board Primary schools system to Western Bengal at the rate of one Upper Primary school for each Panchayati Union. There are 1,432 Panchayati Unions without such schools at present. The Director of Public Instruction is considering proposals for the immediate establishment of one-fifth of this number.

(*c*) (*i*) The average annual cost of the establishment of a Board school is Rs. 162 in Eastern Bengal. In Western Bengal, where the schools are of an Upper Primary status, the cost is Rs. 216.

(*c*) (*ii*) The area served by such a school is a Panchayati Union.

(*c*) (*iii*) In Eastern Bengal, the average attendance is 52.

(*d*) The opening of a Board school does not involve the withdrawal of grants from other schools, except when the existence of other schools in the neighbourhood is considered unnecessary.

(*e*) The policy is one of concentration by withdrawing grants from weak and superfluous schools.

(*f*) Yes, about 900 schools were closed during 1909-10.

(*g*) The decrease has not been made up: on the contrary, there has been a further decrease in the number of aided primary schools. But the number of pupils increased by about 10,000 by the close of the year 1911-12."

The Hon'ble BABU SURENDRA NATH BANERJI asked :—

74. Will the Government be pleased to state whether it is a fact that there is great difficulty of communication between the villages in the eastern districts, especially during the rains, and that the closing of schools in pursuance of the policy of concentration of grants has resulted in depriving a large number of boys, in the eastern districts, of the benefits of education owing to there being no schools within easy reach?

The Hon'ble MR. CUMMING replied :—

"Government are aware that the means of communication in Eastern Bengal are difficult during the rains, but there is no evidence to show that the policy of the concentration of grants has resulted in depriving a large number of boys in Eastern Bengal of the benefits of education. On the contrary, it is found that, although the number of schools has diminished, the number of pupils has increased considerably."

The Hon'ble BABU SURENDRA NATH BANERJI asked :—

Resignation of the Head Master of the Feni High English School.

75. Will the Government be pleased to state the circumstances in which the Head Master of the High English School at Feni, Babu Kailash Chandra Chakravarti, was compelled to resign his appointment in June last?

The Hon'ble MR. CUMMING replied :—

"The Inspector of Schools visited Feni in June last, when he came across certain books which he considered to be objectionable. The matter was brought to the notice of the Managing Committee, who called on the Head Master for an explanation. The Head Master forthwith resigned his post and the resignation was accepted at a special meeting of the Committee. Government have no reason to believe that the resignation was not voluntary. On the 30th June, the Head Master asked for permission to withdraw his resignation, and as a majority of the Committee was in favour of this course, he was allowed to do so. The matter is at present being considered by the Director of Public Instruction."

The Hon'ble BABU SURENDRA NATH BANERJI asked :—

Proposed partition of the districts of Midnapore and Mymensingh.

76. (*a*) Will the Government be pleased to state the principle of the contemplated partition of the districts of Midnapore and Mymensingh?

(*b*) Will the Government be pleased to lay on the table an estimate of the cost, recurring and non-recurring, for the partition of the Midnapore and Mymensingh districts?

(*c*) Will the Government be pleased to state whether they have finally decided on making the partition?

The Hon'ble MR. CUMMING replied:—

"The Hon'ble Member is referred to the resolutions published in the Calcutta Gazette of the 9th July, 1913, and for the 12th July, 1912.

(*b*) Such detailed estimates have not been prepared.

(*c*) As regards the Midnapore district, the Bengal Government will decide after the 15th September, the last day for the receipt of the opinions called for. As regards the Mymensingh district, the Hon'ble Member is referred to the pronouncement of His Excellency the Governor at the Durbar held at Dacca in July last."

The Hon'ble RAJA HRISHIKESH LAHA asked :—

Erosion of the town of Noakhali.

77. Will the Government be pleased to state whether there is any reason to apprehend the gradual disappearance of the town of Noakhali, and if so, will they please state what measures (if any) they propose to take to avert the threatened calamity?

The Hon'ble MR. GREEN replied :—

"The attention of the Hon'ble Member is drawn to the answer given on the 2nd April, 1913, to the question asked by the Hon'ble Nawab Saiyid Hossam Haider Chaudhuri, Khan Bahadur.

Since that date, on the 4th August, 1913, the Chief Engineer, Bengal, has inspected the eroded river bank. He found from sections taken that silting in front of the station was going on satisfactorily. The Superintending Engineer has been directed to have more sections taken as soon as the rains are over, and if these show satisfactory progress in the silting, there will be no reason for entertaining any apprehension for the town of Noakhali for many years.

Nature at present seems to be doing all that is required."

The Hon'ble DR. DEBA PRASAD SARBADHIKARI asked :—

Proposed assimilating of the vernacular curricula in the two parts of Bengal.

78. (*a*) Will the Government be pleased to state whether there is any difference in the vernacular curricula obtaining in Eastern and Western Bengal?

(*b*) If so, what is the difference and what is the reason of such difference being maintained?

(*c*) Will the Government be pleased to state whether they propose to adopt a common vernacular curriculum in both Eastern and Western Bengal?

(*d*) If the answer to question (*c*) be in the affirmative, will the Government be pleased to state whether a committee of experts will soon be appointed to consider the question of assimilating the vernacular curricula in the two parts of Bengal?

The Hon'ble MR. CUMMING replied :—

(*a*) "The answer is in the affirmative.

(*b*) The difference is to be found in many minor details, not in principle. The syllabuses for the two parts of the Province were drawn up by special committees appointed by Government and framed with special reference to the requirements of the two parts of the Province—hence the difference in detail.

(*c*) The question has been carefully considered by Government, and it has been decided to maintain the two curricula side by side until the Director of Public Instruction has had the opportunity of forming an opinion in the matter, and until sufficient experience of their relative merits has been acquired.

(*d*) The answer already given covers this part of the question."

The Hon'ble DR. DEBA PRASAD SARBADHIKARI asked :—

Separate Text-book Committee for Eastern Bengal

79. (*a*) Will the Government be pleased to state whether a separate Text-book Committee is maintained at Dacca for Eastern Bengal?

(*b*) Is it proposed to amalgamate such Committee with the Calcutta Committee, and if so, when?

(*c*) If the Government have no such intention, will they be pleased to state the reason for continuing a separate Text-book Committee for Eastern Bengal?

The Hon'ble MR. CUMMING replied :—

(*a*) "A separate Committee is maintained at Dacca.

(*b*) The question is bound up with the question of co-ordinating the curricula, etc., of Eastern Bengal and Western Bengal. The future of the Text-book Committees is under consideration, but Government are not at present in a position to make any communication on this subject.

(*c*) So long as Eastern Bengal has its own curricula, it may be necessary to continue a separate Text-book Committee for that part of the Province."

The Hon'ble DR. DEBA PRASAD SARBADHIKARI asked :—

80. (*a*) Will the Government be pleased to state whether the practice of selecting text-books in Western Bengal by a system of confidential examination has proved generally satisfactory?

(*b*) If the answer to (*a*) be in the affirmative, will the Government be pleased to state whether the same system will be adopted in selecting text-books in Eastern Bengal?

The Hon'ble MR. CUMMING replied :—

(*a*) "It has proved generally satisfactory.

(*b*) No answer can be given, as the question is under consideration."

The Hon'ble DR. DEBA PRASAD SARBADHIKARI asked :—

81. (*a*) Will the Government be pleased to state whether it is a fact that text-books for all Government and aided vernacular schools in Eastern Bengal used formerly to be prescribed by the Director of Public Instruction in consultation with the Text-book Committee at Dacca?

(*b*) Will the Government be pleased to state whether this practice has recently been departed from, and if so, to what extent and why?

(*c*) If the separate Text-book Committee at Dacca be maintained, will the former practice be reverted to?

The Hon'ble RAI RADHA CHARAN PAL BAHADUR asked :—

Prohibition of the *Rath Jatra* procession at Serampore.

87. (*a*) Has the attention of the Government been drawn to a letter signed by a resident of Bhadreswar, published in the "Bengalee" of the 28th June last, in which it is stated that, last year, the order of the Subdivisional Officer of Serampore, disallowing the Rath Jatra procession (the pulling of the holy car) of Sri Sri Iswar Nanda Dulal Jiu of Gaurhati, within the Municipality of Bhadreswar, on the *Rath Jatra* days, wounded the religious feelings of the people, and that this year the said officer again refused the permission ?

(*b*) Has the attention of the Government been drawn to the proceedings of the public meeting of the residents of Bhadreswar and Gaurhati, held on the 29th June, in which resolutions were passed expressing feelings of the deepest sorrow and grief at the refusal of permission to the *Rath Jatra* procession of the idol Sri Sri Iswar Nanda Dulal Jiu, of the latter place ?

(*c*) Has the attention of the Government been drawn to the letter published in the "Bengalee" of the 2nd July, and the "Amrita Bazar Patrika" of the 9th July, from two of the learned pandits of the day and other highly respectable people in which they besought the authorities to refrain from taking such steps as to forbid the *Rath Jatra* procession ?

(*d*) Is it a fact that the original application praying for permission was submitted to the Subdivisional Officer, Serampore, by Babu Girindra Nath Roy, an executor of Sri Nanda Dulal Thakur, on the 9th of June last, *i.e.*, 27 days before the date of the festival ?

(*e*) If so, will the Government be pleased to lay on the table the report of the local police and the order of the Subdivisional Officer thereon ?

(*f*) Is it a fact that the people of the locality submitted an appeal to the District Magistrate of Hooghly on the 26th of June, but that he also refused to give the permission on the ground that the Superintendent of Police had opposed the same and he asked the petitioners to submit such application two months earlier, next year, to enable the necessary police arrangements to be made ?

(*g*) Will the Government be pleased to lay on the table the report of the said Police Superintendent and the District Magistrate's order on the aforesaid appeal ?

(*h*) Are the Government aware that the people again approached the District Magistrate on the 10th July last, who allowed the *Rath* to be dragged on the 14th *idem* on the occasion of the *Ulta Rath Jatra* festival ?

(*i*) If so, will the Government be pleased to state what police arrangements were made on that occasion, and whether similar arrangements were not possible on the first day, *i.e.*, on the 6th July ?

(*j*) Will the Government be pleased to state whether an inquiry has been made into the above alleged facts and what action (if any) has been taken in the matter ?

(*k*) Are the Government aware that a special minute was issued in the year 1875 by Sir Richard Temple, the then Lieutenant-Governor of Bengal, laying down principles for the guidance of the Magisterial authorities in connection with the *Rath Jatra* festival ? Will the Government be pleased to lay on the table a copy of the Minute referred to above ?

The Hon'ble MR. CUMMING replied :—

(*a*) "The attention of Government has been drawn to the letter in question. It was not the same Subdivisional Officer who passed the order this year. The former Subdivisional Officer was transferred in March. The present Subdivisional Officer has no connection with the events of last year.

(*b*) The answer is in the affirmative.

(*c*) The answer is in the affirmative.

(*d*), (*e*), (*f*) and (*g*) An inquiry has been made, and the facts as now ascertained are as follows. This year the Subdivisional Officer of Serampore received four petitions from Bhadreswar for permission to draw cars. Two of these petitions referred to old cars and were granted. The other two petitions referred to another car which is a new one ; and they were received by the Subdivisional Officer on 10th June and 30th June, respectively. The Assistant Superintendent of Police reported that the full strength of the local police would be required in connection with the other two cars, and accordingly the Subdivisional Officer refused permission on the 19th June and again on the 2nd July. The application, which was made on the 26th June, was made to the District Magistrate, and not to the Subdivisional Magistrate, as was previously understood by Government. After full consideration the District Magistrate refused the application on the grounds of the paucity of the local police force and the insufficiency of time within which to make adequate police arrangements. The applicants have been advised to give two months' notice in future of their intention to observe the festival, so that, if possible, necessary police arrangements may be made by drafting in police from other districts. The Hooghly district force is already overtaxed by the number of cars drawn, principally in the Serampore subdivision.

Government consider that no public purpose will be served by laying on the table the reports of the local officers.

(*h*) The answer is in the affirmative.

(*i*) On the occasion of the *Ulta Rath* festival the applicants in their petition proposed to draw their car at a different time from that fixed for drawing a neighbouring car. This arrangement had not been proposed on the occasion of the *Rath* festival on the 6th July. The local officers, in their desire to oblige the applicants, arranged that the same police should attend at the pulling of both cars in succession. This course proved successful on the occasion in question ; but it is not one which Government are prepared to insist that the local officers should adopt, since any lack of punctuality might result in the failure of the festival and thus cause grievous disappointment.

(*j*) An inquiry has been made, and the facts have been stated above. In the opinion of Government timely intimation of the intention to observe the ceremony was not given, and two months' notice should be given in future. It must be remembered, however, that the introduction of new cars involves the employment of a large additional force of police, and that the use of the police for these purposes must be limited by the force available and the other needs of the administration.

(*k*) Government see no necessity for placing on the table the Minute of 1876 recorded by Sir Richard Temple."

The Hon'ble BABU ANANDA CHANDRA RAY asked :—

The English School Narayanganj.

88. (*a*) Has the attention of the Government been drawn to the correspondence that appeared in the "Amrita Bazar Patrika" of the 18th April 1913 (dak edition), and to the representation made to the Vice-Chancellor of the Calcutta University, and published in the said "Patrika" of the 13th May last (dak edition), both dealing with the action taken by Mr. H. E. Stapleton, Inspector of Schools, Dacca Division, regarding the High English School at Narayanganj ?

(*b*) Is it a fact that the said Inspector has limited the number of boys in the tenth class to 40, and the ninth class to 30 in the said School, in the place of 50, prescribed by the Calcutta University for both the said classes ?

(*c*) Is it fact that the said Inspector has reduced the Government grant to the said school from Rs. 150 to Rs. 100 from the month of January last ?

(*d*) Is it a fact that the said school has not therefore drawn the grant-in-aid from January last ?

(*e*) Is it a fact that the said Inspector has kept in abeyance, for one year, the increment proposed by the said School Committee to be given to the deserving teachers on account of the satisfactory work they have been doing, and on account of the large increase in the income of the said School?

(*f*) Is it a fact that the said Inspector has ordered that the new building for the said School, proposed to be constructed by making additions and alterations, must be so small that accommodation for more than 580 boys may not be had in the building, and that no room should be so large as to accommodate 50 boys?

(*g*) Is is not a fact that the said Inspector has vetoed the principal recommendations of the School Committee consisting of the Subdivisional Officer, the Hon'ble Lieut. Col. R. Glen (Honorary A. D. C. to His Excellency the Governor) and the Rev. T. D. Williams. and representative men of the locality, about the increase of pay of the teachers at once, and larger rooms for the accommodation of the maximum number of boys prescribed by the Calcutta University?

(*h*) Will the Government be pleased to state whether the aforesaid orders were passed by the said Inspector, and whether they have the sanction of the Government?

The Hon'ble MR. CUMMING replied :—

(*a*) "The answer is in the affirmative.

(*b*) On the occasion of the Inspector's visit there were 47 boys in class IX and 35 boys, in class X. To ensure better teaching and to provide for a larger number of boys, the Inspector suggested in the visitors' book that there should be 60 boys in class IX and 40 in class X, the boys in class IX being divided into two sections of 30 each. In Mr. Stapleton's opinion, the class-rooms are not large enough to accommodate more than 40 boys. The Committee has resolved to give effect to this suggestion from the beginning of 1914.

(*c*) The school is working at a profit and does not therefore require the grant of Rs. 150 tentatively sanctioned for it the previous year. The grant was reduced to Rs. 100 per mensem with effect from February last. It is not an uncommon practice to reduce grants which are not required, so that the savings which accrue may be devoted to the assistance of other schools which are in greater need of help.

(*d*) The former grant expired on the the 31st January last. The terms of the new grant have been accepted by the Committee and the grant will now be paid.

(*e*) The proposal of the Committee regarding the increments of pay of certain masters was not approved in full by the Inspector. The terms of the new grant have, however, recently been accepted by the Committee and, under the terms of that grant, all teachers, who have served more than one year in the school, will receive increments from the 1st February last.

(*f*) The Inspector was of opinion that the supervision of a school with a larger number than 580 boys was beyond the capacity of one head master. Owing to the rapidly-increasing demand for English education, the opening of a second high school is contemplated. Mr. Stapleton, accordingly, framed a scheme of classes on the basis of a total number of 580 boys. On this basis it is unnecessary that there should be as many as 50 boys in any one class. Mr. Stapleton's scheme has been accepted by the School Committee.

(*g*) This question is covered by the previous answers.

(*h*) There is no question of the Inspector giving orders or of Government sanctioning them. Mr. Stapleton's proposals were in the nature of recommendations to the School Committee.

Government do not propose to take any action in the matter."

The Hon'ble BABU ANANDA CHANDRA RAY asked :—

89. Will the Government be pleased to state—

Inspecting officers of the Education Department.

(a) whether there is any rule or practice regarding the length of the stay of the inspecting officers of the Education Department in one and the same place?

(b) if there be no such rule or practice regarding the inspecting officers in the Education Department, will the Government be pleased to consider the advisability of laying down the rule that officers shall not generally remain for more than five years in the same place?

The Hon'ble MR. CUMMING replied :—

(a) "The answer is in the negative.

(b) "Government do not think it desirable to lay down any general rules. The case of each officer must be decided on its merits and according to the exigencies of the Education Department."

The Hon'ble BABU ANANDA CHANDRA RAY asked :—

Amalgamation of the cadres of the Provincial and Subordinate Educational Services in Eastern and Western Bengal.

90. Will the Government be pleased to state when the cadres of the Provincial and Subordinate Educational Services in Eastern and Western Bengal are likely to be amalgamated, and what principles (if any) have been laid down for the determination of the relative positions of Eastern and Western Bengal officers in corresponding classes?

The Hon'ble MR. CUMMING replied :—

"The question of the *cadres* of the Provincial Educational Service and Subordinate Educational Service has been the subject of correspondence with the Government of Bihar and Orissa and the Assam Administration. The Governments concerned have now arrived at an agreement, but the final determination of the strength and grading of the *cadres* for the Presidency of Bengal rests with the Secretary of State. Some time must therefore elapse before the new *Cadres* can be fixed and before the officers of Eastern and Western Bengal can be placed on one nominal roll. Meanwhile Government are considering the principles which should be adopted to determine the question of relative seniority in the various classes so that officers may be able to take their proper position immediately on receipt of the orders sanctioning the permanent *cadres*."

The Hon'ble BABU SURENDRA NATH BANERJI asked :—

Alleged police interference in connection with Shiva Puja Gajan and Rakhya Kali Puja at Chinsura.

91. (a) Will the Government be pleased to state whether they have received any memorial from some of the inhabitants of Chinsura and Hooghly complaining of the alleged interference of the District Superintendent of Police with the performance of the usual rites in connection with Shiva Puja Gajan and Rakhya Kali Puja at Chinsura?

(b) If so, will the Government be pleased to state what orders, if any, they have passed on the memorial?

The Hon'ble MR. CUMMING replied :—

(a) "The answer is in the affirmative.

(b) The matter is still under consideration."

The Hon'ble RAI RADHA CHARAN PAL BAHADUR asked :—

Partition of the Calcutta Police Court.

92. (a) Has the attention of the Government been drawn to the articles published in the "Amrita Bazar Patrika" of the 21st July, 12th August and 15th August, 1913, and in the "Reis and Rayyet" of the 26th July, 1913, under the heading of "Partition of the Calcutta Police Court"?

(b) Will the Government be pleased to place on the table a copy of the Report of Mr. J. C. K. Peterson on the splitting up of the Calcutta Police Courts?

(c) Will the Government be pleased to place on the table a statement showing, item by item, the estimated increase in expenditure (recurring and non-recurring) consequent on a partition of the Calcutta Police Courts?

(d) Is it a fact that the headquarters of the Calcutta Fire Brigade will be removed from Lal Bazar? If so, when?

(e) How do the Government intend to utilize the accommodation thus set free?

(f) Will the Government be pleased to state whether the Police and the Magistrates will be housed in one and the same building in the Northern Police Court in Jorabagan, Calcutta? Or whether some arrangement will be made to keep them apart?

The Hon'ble MR. CUMMING replied:—

(a) "The answer is in the affirmative.

(b) This report is a privileged document and cannot be made available.

(c) As the partition is in an experimental stage, no detailed estimate of the increase in expenditure for a permanent partition has been framed.

(d) The headquarters of the fire brigade have been recently removed from Lal Bazar; but the staff and equipment for one fire station still remain at Lal Bazar.

(e) The matter is still under consideration.

(f) The northern Court will be located in a portion of the Duff College buildings in Nimtolla which is at present occupied by the Jorabagan police. The Court and the thana will thus be housed in one building, but cut off from one another, and with separate compounds."

The Hon'ble MAULVI A. K. FAZL-UL-HAQ asked:—

Suppression of papers by Government Pleader.

93. (a) Has the attention of the Government been drawn to a telegram in the "Mussulman" in its issue of the 20th June, 1913, under the heading "Papers Suppressed by Government Pleader"?

(b) If so, will the Government be pleased to state whether the allegation contained in the telegram is well founded, and what steps (if any) they intend to take in the matter?

The Hon'ble MR. CUMMING replied:—

(a) "The attention of Government was drawn to the telegram after the Hon'ble Member gave notice of his question.

(b) It is the case that certain progress reports were mislaid. This made no practical difference in the decision of the case as copies were available. Government have not taken any steps."

The Hon'ble BABU MAHENDRA NATH RAY asked:—

Frequent changes at the District Officers of Howrah.

94. (a) Are the Government aware of the serious difficulties caused by the frequent changes of the District Officers of Howrah who also happen to be Chairmen of the Howrah Municipality, especially in respect of the due control and supervision of the important and costly drainage and water-supply works now in progress in the town of Howrah?

(b) What measures, if any, have Government taken to prevent such changes?

The Hon'ble MR. CUMMING replied :—

(*a*) "The answer is in the affirmative.

(*b*) Government are constantly on the watch to prevent excessive changes, but they recognize that in the past year Howrah has been unfortunate in this respect. It is hoped that before long more stable conditions may be again established."

The Hon'ble BABU SURENDRA NATH BANERJI asked :—

Infliction of fines of twenty rupees and upwards by the Cantonment Magistrate of Barrackpore for offences under the Cantonment Code, etc.

95. Will the Government be pleased to lay on the table a statement showing, from the 1st of January up till the 31st July, 1913, the number of cases in which the Cantonment Magistrate of Barrackpore has inflicted fines of twenty rupees and upwards for offences under the Cantonment Code and under the Act for the prevention of cruelty to animals (Bengal Act I of 1869), specifying the names and positions of the parties fined and the nature of the offences for which such fines were imposed?

The Hon'ble MR. TWIDELL replied :—

"A statement showing the number of cases in which the Cantonment Magistrate, Barrackpore, has inflicted fines of Rs. 20 and upwards for offences under the Cantonment Code and the Prevention of Cruelty to Animals Act (XI of 1890) is laid on the table."

Statement referred to in the Answer by the Hon'ble MR. TWIDELL to Question No. 95 asked by the Hon'ble BABU SURENDRA NATH BANERJI at the Council Meeting of the 1st September, 1913 :—

Serial No.	Name of accused.	Position.	Nature of offence.	Date of sentence.	Fine imposed.
					Rs.
1	Sakhi Chand Goala ...	Owner of 11 cattle (cows and buffaloes).	Section 288, Cantonment Code. (Grazing cattle on land belonging to Government in cantonment area, at night, forbidden by public notice.)	23rd January 1913 ...	20
2	Hari Charan Kahar ...	Carriage owner having a stable of his own.	Section 6 of Act XI of 1890	19th February ,, ...	50
3	Surendra Nath Banerji ...	Editor of "Bengalee"	Section 107, Cantonment Code. (Non-compliance with a notice to repair a bungalow certified to be in a dangerous condition.)	16th April ,, ...	50
4	Hazi Habib Bux ...	Carriage owner having a stable of his own.	Section 6 of Act XI of 1890	21st ,, ,, ...	50

FLOODS IN THE BURDWAN DIVISION.

The Hon'ble SIR WILLIAM DUKE said :—

"So many questions have been asked with reference to the floods that it was thought that it would be more convenient and intelligible to Members if, instead of disjointed answers, a connected statement were prepared giving all the information at the disposal of Government. Unfortunately, however, the Hon'ble Mr. Lyon, who had throughout been attending to everything in connection with the floods, has fallen ill ; immediately afterwards the Hon'ble Mr. Samman, the Revenue Secretary, who had been working with Mr. Lyon, fell ill also. The statement which I have to present has, therefore, had to be prepared without the assistance of those who were really familiar with the case. I fear it will have neither the clearness nor the authority which those who had personal knowledge of the case would have given it, and I can only ask the indulgence of the Council to its shortcomings, premising merely that all the information available has been given.

"Full details of the damage done by the recent floods in the Burdwan Division are even now not available, but the following statement summarises the information at present in the possession of Government :—

"*Course of events.*—In the first week of August there was heavy rainfall both in the districts of the Burdwan Division and, outside Bengal, towards the head waters of the Damodar and other rivers rising in the hills of Chota Nagpur. The floods in the districts of Burdwan, Bankura, Howrah and Hooghly were due to the very high rise of the Damodar. On the night of the 8th August, the embankment on its left bank was breached at Raghabpore, about 8 miles above Burdwan town, and the whole town and the surrounding country was under water on the morning of the 9th August. Altogether there were 40 breaches in the embankments on either side of the Damodar and in other embankments ; 25 were in the left and 10 in the right embankment of the Damodar, 11 of the former being above Burdwan town. A paper is laid on the table for the information of Hon'ble Members showing exactly at what places breaches occurred. The breaking of the bund was the cause of the flooding of the town and surrounding country. The flood was unprecedented and at various points rose from two feet to as much as four feet and a half above the highest previous record. At Raniganj it was four feet and a half and at Edilpur near Burdwan two feet and three inches above the highest record. At the latter place it might have risen still higher, had the embankment not already breached above it. The left embankment has been maintained at the same height and in the same condition for a great number of years, except where certain portions were raised after the floods of 1897 and 1907, the object aimed at being to keep it three feet above highest-record level, this having been considered a sufficient margin of safety. It had successfully resisted previous floods, but it was obviously totally unequal to this one. The causes of the failure and the future measures of protection require and will receive full and careful investigation. The East Indian Railway line was breached a little to the west of the town. The attention of the Government has been drawn to the fact that some of the culverts, intended to let out surplus water, on this railway were closed at the time of the flood. This could not, however, have contributed appreciably to the flooding of the town and neighbouring villages, as, within a few hours of the breach of the Damodar embankment, the embankment of the railway was topped, and also 300 feet of it was washed out, passing a quantity of water much in excess of what the closed culverts could have dealt with. The country on the right bank of the river in this district was also flooded. The embankments on the right bank were abandoned in 1859, as it was found impossible to protect the country fully on both banks. There are, therefore, many openings into the country and a great number of spill channels, which occasion a certain amount of flooding whenever the river is high. The floods on the right bank, although quite as great as on the left, were not so much in the nature of an unexpected calamity. The spill of the right bank passed southwards into

the Arambagh and Khanakul thanas of Hooghly where it did extensive damage, and finally found its way back to the Damodar and into the Rupnarayan in the Bagnan thana of Howrah. On the left bank, the water from the breaches above Burdwan flowed eastwards across country towards Kalna without doing much further damage. That from the southern breaches, beginning from near Jamalpur through the Burdwan district and as far south as Champadanga in the Hooghly district not far from Tarakeswar, flowed southwards over the west of the Serampore subdivision until it was eventually impounded in the low-lying embanked areas in the Howrah district. The floods passed away rapidly in Burdwan and Hooghly, particularly on the left bank; but in Howrah it was necessary to cut the Damodar embankment to let them out. In Bankura, which lies on the right bank of the Damodar in its upper course, considerable damage was done in Sonamukhi thana, but only in an isolated low-lying area. In Midnapore, there were extensive floods. Some small tracts in the north-east portion of the district were affected by the banking up of the water of the Selai river by the flood-water of the Damodar, but the country which has suffered most is the Contai subdivision. This area has no connection with the Damodar river, from which it is at a great distance, and the floods were caused by heavy local rain in the first instance, subsequently much aggravated by the breaching of the Amarsi embankment by the Kaliaghai river. All this water was pounded behind the Hijili Tidal canal, and rose more rapidly than it could be discharged. Much of the southern part has already been drained, but the Jalamutha and Sujamutha estates have suffered severely.

"*Damage.*—In every district damage of varying magnitude was done to standing crops, seedlings and houses. As regards the first, the extent of the damage depended on the length of time the crops were under water. There has been considerable difficulty in obtaining seedlings, but the local officers, with the assistance of the Director of Agriculture, have made arrangements to import them from all parts of the province where they are still available. In Burdwan, the total area affected was about 185 square miles on both banks of the Damodar, comprising some 250 villages. It is not possible to give the exact population of these villages. The country remained under water, the average depth being 4 feet, for about 60 hours. The number of deaths of human beings reported from this district has not yet been definitely ascertained, but from the latest reports received there is little likelihood that it will exceed 12. The people generally had ample warning of the coming of the flood. Losses of horses and cattle are estimated at about 560. About 60 per cent. of the mud and thatched huts in the flooded area in this district have collapsed or been washed away. Very few masonry houses have collapsed. Within the Municipality considerably more than half the huts have fallen. The Civil Court buildings were inundated to a depth of over three feet and over 80,000 records were under water. Of these 15,000 were damaged, of which about 2,000 may prove to be totally destroyed. A question has been asked by one Hon'ble Member as to the removal of those buildings. Plans and estimates have been prepared and will be considered in due course. The damage done to the crops in this district, while serious, is much less than it might have been, and is inconsiderable on the left bank of the river where the water passed off quickly. The people have begun to retransplant their fields and there is still time for a good crop to be grown if the end of the rainy season should prove propitious.

"In Hooghly, about 420 square miles were affected. The number of villages and population thereof affected has not yet been fully reported. The latest report as to the number of human lives lost places it at 32. Definite figures as to the loss of cattle are not yet available. Great havoc was wrought among the mud huts, and many thousands have been destroyed or damaged. It is difficult to estimate the actual amount of damage to the crops, the effect of the water being different in different localities, but the Collector considers that in no case will the paddy crop be totally lost.

"In Howrah, the area affected was some 200 square miles comprising about 300 villages. Government is not in a position to give the population of these villages. Only two or three deaths from drowning have been reported, and no cattle are reported to have been lost. As there are no breaches in this neighbourhood, the flood did not take a violent form, but was caused by the gradual inflow of water across country from the north. Several thousands of houses have fallen down or been otherwise damaged. Widespread damage has been done to the paddy and jute crops, but there is still time to retransplant the former.

"In Bankura, the area affected was that lying close to the Damodar in the north-east portion of the district, comprising some 110 villages, of which those in Sonamukhi thana suffered the most severely. It is imposible to give the population of these villages. The deplorable loss of 71 human lives, of which Hon'ble Members are aware, occurred in Sonamukhi. It was this area which felt the first rush of the flooded Damodar as it entered Bengal. Over 1,000 head of cattle are reported to have been destroyed, and some 6,000 houses. The damage to the crops has been considerable in only a few villages, but in others remoter from the main flow of the flood and when it passed off quickly the loss has not been very considerable. In the immediate line of the flood a certain amount of damage has been done by sand deposit. It is only in Bankura that any very considerable area has been affected in this way.

"In Midnapore, the parts affected were the Ghatal subdivision in the extreme north-east and the Contai subdivision in the extreme south of the district, the floods in the former being an indirect result of the Damodar flood, while those in the latter were due to continuous local rain. No information has been received as to the number of villages and population affected, but the greater part of the subdivision appears to have been flooded to some extent, that is to say, to have been somewhat more under water than usual; for this is low-lying country which is always extensively covered with water in the rains. No loss of human life is reported and the loss of cattle is insignificant. In Contai, great damage was done to houses, but in Ghatal, very little; crops suffered to a considerable extent, but it is impossible as yet to say how great the damage will eventually turn out to be.

"Birbhum, which had been visited by serious floods towards the end of June, also suffered in August from the rising of the Adjai, which divides Birbhum from Burdwan on the south, and of the Hinglo. Forty-nine villages were affected and about 800 houses were damaged or destroyed. No loss of life occurred, and the loss of cattle was insignificant. About 2,000 bighas of crops have been damaged. If we attempt to sum up the total effect of the floods, there are so many points still uncertain that it is impossible to give more than a very rough estimate which is not entitled to be considered in any degree authoritative. Very roughly, however, it may be taken that the floods have affected in the six districts of the Burdwan Division—a total area of about 1,200 square miles with a population approaching a million. That the houses of nearly a quarter of these have been more or less damaged or destroyed, that the loss of cattle has been several thousands, but probably not more than 5,000 to 6,000, that the loss of human life has not exceeded 125. The loss of crops cannot possibly be estimated until much later in the season; all that can be said at present is that the loss that is already inevitable and beyond repairs is not very great.

"*Measures.*—The Public Works Department at once took steps to close the breaches and, where necessary, retired or advance bunds are being constructed as a temporary protection for the remainder of the flood season. The question of the protection of the town of Burdwan from future inundation will receive the careful attention of Government. In all districts the District Offi ers took immediate steps to aid the people by giving shelter, medical help, grain and money, in which they were aided by public-spirited local gentlemen. Special attention was given in all districts to sanitary measures, and steps were taken to provide an increased staff of medical

officers. Eighteen sub-assistant surgeons have been arranged for, of whom, 12 are already on the ground, while the District Officers of Midnapore and Burdwan, respectively, obtained the services of 7 and 4 men of the same class locally. Not much sickness has yet been reported, but the flooding of tanks and wells always imports a risk of disease and doctors are held in readiness to be sent to threatened localities. In every district relief committees were formed, composed mainly of non-officials. Government has sanctioned Rs. 50,000 for immediate gratuitous relief, and two lakhs for agricultural loans over and above the normal provision for that purpose. As to what more will be required, Government awaits the reports and estimates of the local officers. The civil staff of the division was strengthened, three officers of the Indian Civil Service and three Deputy Magistrates having been placed at the disposal of the Commissioner of Burdwan. In Burdwan, in addition to gratuitous relief, a lakh of rupees has been placed at the disposal of the Collector for agricultural loans. Rupees 3,000 was also sanctioned for gratuitous relief from Ram Lal Mukherji's Fund, a trust fund established for relief in such cases. The Sanitary Commissioner has visited both Midnapore and Burdwan, and the Deputy Sanitary Commissioner has visited Burdwan town and various outlying villages and has given a favourable report of the state of public health. The outlook in this district is now on the whole favourable, and the Collector in his report comments on the people's remarkable power of recuperation.

"In Hooghly, a large amount of gratuitous relief has been granted both from official and non-official sources. Rupees 40,000 has been sanctioned for distribution in the form of agricultural loans.

"In Howrah, rice was distributed free to the destitute by various persons, many of them non-officials. The Collector reports that money and grain distributed in this way have been ample for the needs of the people. It has not so far been found necessary to grant any agricultural loans in this district. The most recent reports about the district are reassuring.

"In Bankura, Government has granted Rs. 10,000 for agricultural loans and this sum will probably be exceeded.

"In Midnapore. agricultural loans are being granted freely throughout the affected area, and gratuitous relief has been given where needed, and steps have been taken for the provision of relief works, should such be required. To guard against epidemics, 5 sub-assistant surgeons were sent to Contai and 2 to Ghatal.

"In Birbhum, Rs. 10,000 for agriculture loans and Rs. 5,000 for gratuitous relief had been sanctioned by Government on account of the floods in June. Much the same area has again been affected, but the Collector has not yet sent in further requisitions and is probably still disbursing the original grants.

"The Hon'ble Mr. P. C. Lyon visited part of the flooded area and gave instructions to the local officers as to the manner of dealing with the situation. A public meeting was held on the 22nd August in the Calcutta Town Hall under the presidency of Your Excellency which was largely attended and at which considerable sums of money were promised for relief. It is understood that the funds so raised will be spent through the agency of the local relief committees. Considerable funds had already been collected and a great deal of extremely valuable voluntary work was done by private enterprise previous to the Town Hall meeting. In every district there was a large number of private organizations at work, but it is impossible to detail exactly the extent of their activities. Reports have been received by Government of excellent voluntary work carried on in circumstances of great inconvenience and hardship in the remotest and most difficult parts of the flooded area.

"The question of preventing the recurrence of such disasters as the present is engaging the attention of Government, but no pronouncement on the subject can at present be made."

LEGISLATIVE BUSINESS.

THE BENGAL LAWS BILL, 1913.

4. The Hon'ble Sir William Duke presented the report of the Select Committee appointed to consider the Bengal Laws Bill, 1913, and moved that the Bill, as amended by the Select Committee, be recommitted to the said Committee, with a view to—

(*i*) the extension of the Local Self-Government (Amendment) Act, 1908 (Ben. Act V of 1908), to Eastern Bengal; and

(*ii*) the consideration of certain minor amendments which it is proposed to make in the Bengal Local Self-Government Act, 1885 (Ben. Act III of 1885), by incorporating the same in Schedules III and IV to the said Bill;

and with instructions to circulate their report in time for its considerations at the next meeting of the Council.

He said :—

"The Secretary to the Council has explained the matter so fully in his circular letter of the 18th August that, I think, it is necessary for me to add but little.

"The Select Committee had but little difficulty with the Laws Bill, as it was first made over to them, except in the careful consideration of the wording of items in the Schedule. But there was no difficulty as to substance. In that Bill the Local Self-Government Acts were not included: they were not amongst the measures which were originally proposed to be assimilated in the East and West of the Presidency by means of the Laws Bill, the reason being that it was in contemplation to revise and recast them thoroughly. It was, however, found that this revision was an extensive matter which is not likely to be taken up for the next two years or so. Then it was thought undesirable to leave parts of the Province under different sets of laws for two years, and it was thought desirable to introduce a separate measure introducing the Amendment Act of 1908 into East Bengal, and at the same time making some small amendments of substance. Eventually, however, it was found that the amendments, which could be conveniently brought forward at present, were very small indeed, and it seemed a pity to pass a measure which will be repealed within two years and thereafter merely swell the lists of repealed laws in our statute-books. It was therefore judged better, at the cost of delaying the Laws Bill a little, to include the Local Self-Government Act in it. The only conceivable difficulty in doing so is as to the amendments which we now propose to make in the Local Self-Government Act. In a measure like the Laws Bill the strictly correct course is to make no changes of substance, and the matters now in the schedules are all mere matters of machinery or of form, repealing portions of the law which are obsolete or spent and the like. The two matters of substance which we desire to introduce, however, are, as I have said, very small; one relates to giving the Local Government a general control over the exercise, by Commissioners of Divisions, of the power of nomination to local bodies, and the other is a slight extension of the powers of District Boards so as to enable them to grant technical scholarships. These are comparatively small matters and offend but little, if at all, against the general principle of the Bill, and I do not anticipate that the Committee will find any difficulty in dealing with them."

The motion was put and agreed to.

THE BENGAL MUNICIPAL (SANITARY OFFICERS) BILL, 1913.

The Hon'ble NAWAB SYED SHAMS-UL-HUDA said :—

"I beg to ask your Excellency to suspend the rules of business to enable me to make a motion with reference to the Sanitary Officers Bill."

The PRESIDENT :—

" I am prepared to allow you to do so."

The Hon'ble NAWAB SYED SHAMS-UL-HUDA said :—

" My Lord, some time ago we received notice of a motion from the Hon'ble Mr. Chakravarti, asking that the consideration of this Bill be postponed to enable us to consult the municipalities. We felt at the time that such a course would be, inconsistent with the decision of the Council arrived at, at a previous stage when a similar motion was made and rejected, and we could not see our way to accept the motion and had to reject it. Since then, my Lord, we have met with other difficulties. The amendments to the Bill have come at a very late stage, and I got a number of them on the 28th of August only, just when I was coming to Calcutta, and the Government was on the move from Dacca with the result that we had little or no time to consider these amendments. Some of the non-official Members of this Council have also complained to me that they got notice of the amendments only yesterday."

The Hon'ble BABU SURENDA NATH BANERJI said :—

" I got mine to-day."

The Hon'ble NAWAB SYED SHAMS-UL-HUDA continuing said :—

" And that they had no time to consider them properly.

" There is, my Lord, another reason why I make this motion, and it is this : Two of the amendments have struck me to be such as to require careful consideration. I cannot pledge the Government to any definite views on them, but I think one of the amendments which suggests that, in the case of municipalities whose income is below Rs. 10,000, the provisions of the Bill should not be put in force. Although we want to keep as much discretion in our hands as we can, still, my Lord, I think that this is a point which requires careful consideration, and one as to which we may try to meet Hon'ble Members half way.

" There is another suggestion in the amendments, namely, that where more than one Sanitary Inspector is to be appointed, it should be left to the municipalities to fix the number. That is also a question as to which we may reconsider our position. We have, as I have said, my Lord, had no time to take the decision of the Council on these amendments, and the regrettable illness of the Hon'ble Mr. Lyon made it still more difficult, apart from the question of the shortness of time.

" On these grounds I think it would be much more satisfactory if the consideration of this matter were postponed, and I, therefore, beg to move, that items 5, 6 and 7* in the List of Business be not proceeded with at to-day's meeting, and that the consideration of the Bill be postponed until the next meeting of the Council."

The Hon'ble BABU SURENDRA NATH BANERJI said :—

" My Lord, I desire to congratulate the Hon'ble Member in charge of the Bill upon the decision which he has arrived at, and which he has laid before the House on behalf of the Government. We were going to make a suggestion from this side of the House that the consideration of this matter be adjourned, as some of my friends behind me have told us that they

*5. The Hon'ble Nawab Syed Shams-ul Huda to present the Report of the Select Committee on the Bill to provide for the appointment of Sanitary Officers for certain Municipalities outside Calcutta, and to move that the said Report be taken into consideration.

6. The Hon'ble Nawab Syed Shams-ul Huda to move that the Secretary be directed to re-number the clauses and sub clauses of the Bill in consecutive order, and to make corresponding alterations in all cross-references thereto

7. Also to move that the Bill, as settled in Council, be passed.

received notice of this amendment only yesterday, and I myself got the notice only to-day, and, consequently, we have not had time to consider the position. I therefore associate myself with my Hon'ble friend's motion, and desire to congratulate him on the decision which he has arrived at, the value of which is further enhanced by the fact that he is going to reconsider two very important matters which were pressed upon the attention of Government in Select Committee, but which the Government, as then advised, did not see its way to accept. I hope the recommendations of the Select Committee in regard to these two matters will be accepted by the Hon'ble Member in charge of the Bill."

The Hon'ble MR. BYOMKES CHAKRAVARTI said :—

" With regard to the resolution which I had intended to move, objection was taken to the form in which I sent and it was ruled out. I bow to the ruling. But I am deeply grateful to the Hon'ble Mover of the Bill, because the object which I had in view in seeking to move that resolution has now been practically attained, and I feel that this course which the Hon'ble Mover has taken will not only be acceptable to this House, but will be hailed outside this House, as a very prudent course which has been taken by Government."

The Hon'ble NAWAB SYED SHAMS-UL-HUDA said :—

" My Lord, I wish only to say a word in explanation with regard to the delay in sending out the notice of amendments. The difficulty was that these amendments had to be considered in detail under the standing orders of Government, and owing to the fact that Government has just been on the move, we have not had sufficient time to do this. I should like to add that it is not the Legislative Department that is to blame in any way for the delay."

The Hon'ble MR. BYOMKES CHAKRAVARTI said :—

" No, no, we do not blame anybody."

The Hon'ble NAWAB SHAMS-UL-HUDA said :—

" It is a question whether we should not reconsider the rules about the period of notice requisite in the case of amendments."

The motion was then put and agreed to.

THE DOVETON TRUST BILL, 1913.

8. The Hon'ble Mr. Hornell moved for leave to introduce a Bill to abolish the Parental Academic Institution and Doveton College and Doveton Institution for Young Ladies, and to provide for the application of the property and funds thereof as nearly as possible in accordance with the intentions of the founders.

He said :—

" The history of the Society is a melancholy record of incompetence and mismanagement. We read that in 1823 ' as the result of a great movement which, after years of indifference, led the Anglo-Indian community to determine on a scheme for securing for their children a substantial English education, a Society of parents, guardians, and friends was formed.' Subscriptions were raised and a school was opened under the designation of the Parental Academic Institution. The object of the Society was thus stated ' to establish one or more schools under its own control in order to procure the means of affording the youths the best education which existing circumstances will admit of as far as funds will allow ; to provide education for the orphans of members, who might die not possessed of property sufficient to pay for educating their children.' The members of the Society

were to be Christian parents having a child or children receiving instruction in any school of the Society, and such other Christian persons who might be elected provided they contributed Rs. 2 a month, or paid down to the Society a lump sum of Rs. 300. The business arrangements of the Institution were conducted by a committee elected annually by the members of the Society.

"For some years the Society conducted the Parental Academic Institution on fees and contributions, but in 1853 a certain John Doveton, who had been formerly a captain in the service of the Nizam of Hyderabad died, and bequeathed to it a legacy of a little more than two lakhs of rupees. This legacy enabled the Institution to extend and, in 1855, a separate infant school was added, this development being followed in 1857 by the establishment of a College Department affiliated to the University of Calcutta. Another result of the legacy was that in 1855 the designation of the Society was changed to that of the 'Parental Academic Institution and the Doveton College.' It was under this designation that the Society was on the 29th August, 1881, registered under the Societies Registration Act of 1860.

"In 1886, the Parental Academic Institution and the Doveton College, as the Society was then called, amalgamated with another Society called the Young Ladies Institution, which existed for the education of girls, and the designation of the Society was again changed to that of the 'Parental Academic Institution and Doveton College and Doveton Institution for Young Ladies.' The scope of the operations of the Society included therefore the Parental Academic Institution and Doveton College at No. 41, Free School Street, and the Doveton Institution for Young Ladies which was, I believe, originally in Park Street and subsequently at No. 16-1, Royd Street. The Doveton Institution for Young Ladies was closed some ten years ago.

"The connection of Government with the Society dates from 1896, when Sir Alexander Mackenzie was considering the appointment of a commission to examine the question of the higher education of Europeans and Anglo-Indians and to draw up a scheme for its reorganization and improvement. He was anxious to appoint to the commission representatives of the two leading institutions of this class then existing in Calcutta, the Doveton College and La Martinière. While, however, there was no difficulty with the latter, the Lieutenant-Governor found that there was no authority of the Doveton College whom he could address. Owing to certain unfortunate differences of opinion, two committees were in existence, each of which claimed to represent the College. The right to control the Parental Academic Institution originally vested, as I have already indicated, in those who were either paying for the education of their children in the Institution, or were contributing, or had contributed, at a prescribed rate, to the funds of the Society, but as time went on there were children both in the Doveton College and in the Doveton Institution for Young Ladies, the cost of whose education was met either wholly or in part from two charitable Trust Funds, namely, the D'Souza Fund and the Bruce Fund. The governors of these Funds were not represented in the management of either of those institutions and the point of contention was whether the parents of these children who either paid no fees at all or fees at reduced rates were or were not members of the Society. The matter was referred to Mr. Justice Sale, who decided that parents falling within the above category were members of the Society. A compromise was eventually arrived at; both the committees resigned and a new committee was appointed.

"A Resolution was then issued by Government appointing a committee with representatives from La Martinière and the Doveton College and presided over by Mr. Justice Stevens to consider the question of the amalgamation of the two institutions just referred to. This committee was a fiasco. The Doveton College representatives put forward conditions which were regarded as impossible, and incidentally it was suggested that the finances of the Society were in a very unsatisfactory condition. Government then attempted to find out how matters stood as regards the Trust

Funds, but failed to obtain information of any real value. The Secretary of the Society, however, took this opportunity of expressing the hope that Government would take no further part in (what he was pleased to term) agitation against the College; he also forwarded to Government a judgment delivered by Mr. Justice Phear in 1867, which ruled that the Trust Funds were at the absolute disposal of the committee. The Advocate-General was consulted and he advised that no further action should then be taken. This brings the history down to October 1898.

"Things then went from bad to worse. From subsequent enquiries it transpired that the Society's accounts opened in 1897 with a deficit of about Rs. 4,000; in 1898, with a deficit of Rs. 34,000; in 1899, with a deficit of Rs. 42,000; and in 1900, with a deficit of Rs. 49,000.

"In the year 1900, a committee of 12 was appointed by the Society but the validity of their appointment was challenged, and on the 22nd December, 1904, a suit was instituted by certain members of the Society against certain other members of the Society and against the Society asking (1) that a new Committee of Trustees of the Society should be appointed by the Court, (2) that a receiver should be appointed, (3) that the defendants should be restrained by injunction from interfering with the Society, and (4) that, if necessary, a scheme should be framed for the management of the Society. A settlement was arrived at and a new committee was appointed by the Court. This settlement was, however, disputed and litigation continued.

"In February, 1906, this new committee appealed to Government to have an enquiry made into the affairs of the Institution which, they submitted, were exceedingly complicated and embarrassed, and Sir Andrew Fraser appointed Messrs. Slacke, Earle, B. L. Gupta, Madge and myself to go into the whole matter. Mr. F. M. Leslie of Messrs. Leslie and Hinds, Solicitors, a former student of the Institution rendered us considerable assistance.

"In March of the same year, 1906. we reported to Government that the then existing Committee of Management had made a genuine attempt to re-organize the Institution; but that their numbers had dwindled, and that while they were in considerable danger of being left without a quorum there was no provision in the High Court's order for filling up vacancies. We reported that the sole assets of the Society consisted of No. 53, Park Street, upon which a mortgage had been raised and that the income from that source was insufficient to keep up the College. We stated further that, though the Institution was founded for Christians, out of 103 students then on its rolls, all but eight were non-Christian Asiatics. In these circumstances we advised that it was not obligatory on the Society to educate non-Christians, and, secondly, that it would be advisable for Government to legislate, so that the funds of the Institution could be vested in Government to be applied by Government to the education of Christian children. Otherwise we apprehended that the funds of the Society would be frittered away in litigation; we pointed out that even as things were then the funds were not sufficient to maintain a suitable educational institution.

"In August, 1906, a Draft Bill designed to attain the object advocated was submitted by the Government of Bengal to the Government of India. Meanwhile, however, litigation was still going on among the members of the Society, and this litigation did not terminate until a Full Bench decision was delivered in the High Court on the 3rd of January, 1907. In April, 1907, the High Court finally settled a scheme of management under which eight Anglo-Indian gentlemen were appointed members of the Committee of Management, two to retire in rotation each year, and elections to the Committee were to be made in accordance with the existing rules of the Society; but in the event of the Society's failing to hold its annual meetings or otherwise failing to appoint a Committee in any year, the members of the Committee with the approval of the Director of Public Instruction were empowered to appoint such members of the domiciled community as might be necessary for the purpose of completing the necessary number of the committee. The scheme also laid down that the committee should have its accounts audited by

Chartered Accountants every year, and should submit a copy of the balance sheet to the Director of Public Instruction.

"The publication of this scheme modified the intentions of Government as regards legislation and, on the advice of the Advocate-General, the proposal to legislate was dropped in order to give the new scheme a fair chance. Nothing was heard of the Society between September 1907 and April 1909 when Mr. W. C. Madge, one of the members of the Committee, asked Government to intervene in view of the hopeless mismanagement which was going on. A report from the Director of Public Instruction, which was then called for and received in September 1909, showed that the Committee had proved itself totally incompetent to manage the affairs of the College. The scheme of 1907 had in fact failed.

"The matter was again put before the Government of India and a revised Bill was submitted. This Bill provided for the abolition of the Doveton College and for the vesting of the property and funds of the Society in the Accountant-General, Bengal, to be applied in making provision for the education of children of the domiciled community by such officer as the Lieutenant-Governor might appoint in this behalf. The Bill, the introduction of which I am moving, is the outcome of subsequent discussions with the Government of India and with the legal advisers of this Government.

"I will not take up your Lordship's time by a detailed explanation of the Bill. It is a short Bill and a self-contained one. Its object is that the proper application of the funds and property of the Society may be secured. There is ample evidence that the conduct of the affairs of this Society has become not only a public scandal, but has involved both the waste of funds left in trust for a particular purpose and their misdirection to purposes for which they were never intended. The Society was founded and subsequently provided with funds for a particular purpose, but it is not fulfilling that purpose. The only remedy is legislation. It has therefore been decided to place this Bill before the Bengal Legislative Council."

The motion was put and agreed to.

RESOLUTIONS ON MATTERS OF GENERAL PUBLIC INTEREST.

9. The Hon'ble Maharaja Ranajit Sinha of Nashipur moved the following resolution :—

This Council recommends to the Governor in Council that a conference of officials and non-officials be convened to inquire into the sanitary condition of municipal and rural areas, and to draw up a comprehensive scheme for the provision of better sanitation and more widespread medical relief in such areas.

He said :—

"My Lord, there is no harm in this resolution, and a similar resolution has been adopted by the sister Province of Bihar and Orissa. It is a well-known fact that our Province is a most unhealthy one, and the improvement of sanitation is nowhere more urgently needed than in this Province. There is not a single district which is not affected by malaria, and just after the rains malaria breaks out and lasts for four or five months of the year, and several thousands of people are carried away by its effects. If one goes to the interior of the district, one finds that almost all the people are suffering from malarial fever, some from enlarged spleen and disordered liver, and some from dysentery and other bowel complaints. My Lord, in the last year's Sanitation Report it appears that the mortality from fever

is gradually increasing. Last year 1,349,779 people died from these complaints, as compared with the previous year's 1,221,508, and the average for the last five years was 1,315,449, and from fever alone 959,193 deaths occurred. So practically nearly 21 *per cent.* of the total number of deaths occurred from fever alone. Despite all the anti-malarial measures which your Excellency's Government have taken to check the progress of this fell disease, nothing practical could have been done. Your Excellency very justly remarked that the various anti-malarial measures that have been undertaken throughout the Province have so far been unproductive of any real permanent advantage. Last year quinine was distributed in the south-western districts in Nadia, Murshidabad and Jessore, but despite all the efforts made, the mortality from fever rose, and it is practically rising every year. We know full well that Government is not slow in recognising the importance of the subject, and that they are anxious to do what it is possible to do in this matter. My Lord, I am surprised to find that, in some of the districts and individual municipalities the population has decreased. In the census of 1901 I find that the population of the Burdwan district was 1,445,744, whereas, according to the census of 1911, it was reduced to 1,244,185. Again, in the case of Jessore, the population at the previous census was 7,991,856, whereas, according to the last census, it was 1,737,066, and, if we take up the case of individual municipalities, I find that in Nadia the population was 24,547 in 1901 and, in 1911, it came down to 23,475. Such is the case in Santipur, also in Murshidabad and other municipalities. In Santipur, the population was 36,898 and it came down to 26,703, and in Murshidabad, it came down from 15,168 to 12,669. So, my Lord, something is necessary to be done which will be of permanent good and gradually improve the sanitation of our mufassal districts. The principal question is—How can this be done? I consulted all the District Boards and municipalities of this Presidency. They are all unanimously of opinion that, if we could improve the supply of drinking water, put in good drainage and clear jungles, the sanitation could be improved. Of course every one will admit that these are the principal things.

"As regards the clearance of jungles, there is a difference of opinion I understand. Some medical officers are of opinion that this will not be able to eradicate the evil from this Province; therefore there is no doubt that, if the supply of drinking water can be improved and a good drainage system introduced, the sanitation of Bengal would be much improved. But, my Lord, the conditions of the municipalities and of the municipal districts are not the same; they vary in many districts. There are the municipalities whose incomes are so small that they cannot undertake a water-supply or drainage scheme. Their incomes are so limited that it would be impossible for them either to raise sufficient money or go to Government for a loan. In those cases we may be satisfied with excavating or re-excavating tanks, and reserving them for drainage purposes, or in some cases we have *kutcha* drains instead of *pucca*—there are rural areas where it would suffice our purposes if we could open out water channels, and they would serve all the neighbouring villages, and so in those cases it might not be necessary to dig wells or excavate tanks. First of all, we should have to consider how we could arrive at this conclusion. In my humble opinion, my Lord, I think, if a conference of experts and men who have practical experience in these matters be convened, they might devise some means as to how we could improve the sanitation. They might collect the necessary information which is required for drawing up a scheme, and although some are of opinion that it is not possible for a conference to draw up any scheme, in my humble opinion there would be no difficulty in this respect, because these experts (I mean the men who would be convened to form a conference) would be able to suggest what information is required from all the districts and municipalities, and the information will be collected through the District Collectors who are on the spot, and who in their turn might also consult the Civil Surgeons, the other medical officers, and official and non-official

gentlemen who are competent to give information on these points. When all this information is collected, I think it would not be difficult for the conference to draw up a scheme which would be suitable for different classes of municipalities and districts.

"As regards funds, Government has already doubled the resources of the District Boards, and there will therefore be no difficulty for them to carry any scheme. If they get schemes, they will be able to follow them out methodically and systematically, and I am sure that in course of time our want will be removed in that respect.

"As regards municipalities, your Excellency's Government contribute every year a large sum of money, and I was told the other day that some of the municipalities did not move the Government to take advantage of the Government's munificence in that respect; but, if a scheme were prepared, Government would be in a position to know the real wants of all the municipalities, and then the Government could call upon them to undertake the work systematically, and help with such contributions as the Government may consider necessary in the case of any municipality.

"My Lord, as regards medical relief, Government is already distributing quinine amongst the people, but, in my humble opinion, there are many villages where there are no doctors at all, and it is not possible for the people living in the interior to go to the Sadar for medical aid; and there are places where there are doctors, but people are so poor that they cannot afford to call them.

"So, if it be possible, and if the funds are sufficient, I think an outdoor dispensary should be established in each village, or they may try a travelling dispensary, and I understand that this has been successful in the United Provinces.

"My Lord, since your assumption of your exalted office, your Excellency has given your earnest attention to the question of the supply of pure drinking water in the rural areas and, through your kindness, my Lord, I hope this crying want will soon be removed, and I am confident that, during your Excellency's *régime*, sanitation in Bengal will be much improved.

"With these few observations, I beg to commend my resolution to your Excellency's favourable consideration."

The Hon'ble BABU SURENDRA NATH BANERJI said:—

"May I be permitted to make a suggestion? We have got two resolutions covering practically the same ground. The one which has just been moved by my Hon'ble friend recommends the convening of a conference for the purpose of settling a comprehensive scheme of sanitation for the whole Province. My Hon'ble friend, Babu Surendra Nath Ray, makes a recommendation that a committee be appointed with the object of assisting the Government in assigning the details of the fund allotted to us for sanitary purposes. My Lord, it is very obvious that a conference is very ill-adapted to the purpose of formulating a comprehensive scheme of sanitary reform. A conference sits only for two or three days. A conference is not a body that by its constitution or by its duration is in a position to draw up a satisfactory scheme for the whole Province. A conference may consider the sanitary situation of the Province or may lay down general principles, as conferences have done in the past, but it is for a committee to assist the Government in the assignment of the funds allotted for sanitary purposes. Therefore, my Lord, what I suggest is that a conference be held to consider the sanitary situation and deal with the principles of sanitation applicable to wide areas,

and that a committee be appointed for the purpose of assisting the Government in dealing with the details. The committee will be in a position to obtain knowledge and information from the districts; a conference cannot possibly do this. Therefore, my Lord, my suggestion is that the two resolutions be taken together. I suggest this as it would shorten the discussion and concentrate it upon the points which are really at issue. I therefore suggest that a conference be convened for the purpose of formulating the principles of sanitation, and that a committee be appointed to assist the Government in assigning the funds and dealing with the details."

The PRESIDENT said :—

"I quite understand the point raised by the Hon'ble Babu Surendra Nath Banerji, but I think many of you may remember the inconvenience that was caused at an earlier period of the year when I consented to adopt a suggestion of a similar nature. and I do not think I shall venture to do so again. But, of course, one of these resolutions may be dropped; but that must lie with the Hon'ble Movers."

The Hon'ble BABU SURENDRA NATH BANERJI said :—

"I beg your Lordship may permit me to suggest to my friend the Hon'ble Mover to drop his resolution, or to amend it.

The PRESIDENT said :—

"No amendment would now be in order, but the Hon'ble Member may withdraw his resolution."

The Hon'ble MAHARAJA RANAJIT SINHA OF NASHIPUR said :—

"My Lord, I do not wish to withdraw my resolution."

The PRESIDENT said :—

"If any Hon'ble Member wishes to speak on the resolution he may do so."

The Hon'ble RAI HARI MOHAN CHANDRA BAHADUR said :—

"My Lord, with your Excellency's permission I wish to say a few words in reference to the resolution moved by my Hon'ble friend the Maharaja of Nashipur.

"The Hon'ble Maharaja's proposals are (1) to enquire into the sanitary conditions of the Province, and (2) to draw up what is styled a 'Comprehensive Scheme' for the Province at a conference of officials and non-officials.

"I confess, my Lord, I do not understand how the sanitary conditions of the villages and the large number of trade centres of the 27 districts of the Province can be ascertained and a comprehensive scheme drawn up at a conference.

"To draw up such a scheme a complete survey of the sanitary requirements, including water-supply and medical relief, of each village and trade centre, should be made and such a survey can only be made by experts deputed to the spot. It is not necessary to pass a resolution at a conference. as has been done at Ranchi in pursuance of a similar resolution accepted there, that such a survey should be made. I should think that we already know that such a survey is needed and that we must make it. How to make it is the question. Primarily, to make such a survey outside municipal areas

and to draw up the scheme is the duty of the District Boards. But I am humbly, yet strongly, of opinion that there should be at the headquarters, a central authority to advise and guide the District Boards and to have the surveys made in a systematic and business-like way and a complete record of the requirements of each district prepared, and gradually, to have schemes drawn up and have them carried out according to their relative importance and to see that the works done are kept up.

"As regards the central authority I have submitted to Government a rough scheme for consideration and circulated copies of my notes on the subject to almost all the official and non-official members of the Council. It would be premature at present to go into details of the scheme. If I am permitted to do so, I shall submit to the Council a resolution on the subject later.

"But I should submit at once that a central authority to advise and guide the Municipalities and the District Boards should not be construed as opposed to the principles of Local Self-Government or against the scheme of decentralization. There must, I take it, be some sort of authority to guide and control the decentralized departments of the administration. And the only question is whether such guidance and control is to be exercised by a department of Government or by some central authority constituted partly on a representative basis. We are likely to pass a law to compel municipalities to appoint Health Officers where necessary. We should at least have the power to advise and guide the District Boards in matters of sanitation, water-supply and medical relief. In the circumstances, my Lord, I am obliged to vote against the resolution moved by the Hon'ble Maharaja of Nashipur."

The Hon'ble NAWAB SYED SHAMS-UL-HUDA said :—

"My Lord, I may assure my Hon'ble friend the Hon'ble Maharaja of Nashipur that, it is not for any want of sympathy with the object of the resolution, but on account of the practical difficulties that its acceptance would confornt us with, that I am compelled to oppose this resolution. It has been already pointed out that a conference is not a suitable body for a business of this description. In the first place, such a conference has no continuity ; it comes, sits for a day or two and then dissolves ; and the other difficulty is that every district has its own special requirements and it is impossible for any conference, however representative it may be, to draw up a comprehensive scheme for the provision of better sanitation and more wide spread medical relief for the whole Province, I also think that the Municipalities and the District Boards will have some cause to resent such an action on the part of Government. So far as conferences go, my Hon'ble friend knows (he was a member of it) that we had a conference at Darjeeling on the question of water-supply. We do not deny the assistance we received from that conference ; but that conference has now dissolved. New questions are arising as to which we cannot rely on the conference for an opinion ; all these are matters of expert knowledge, and I doubt if you could get together a conference of official and non-official Members who will be competent to draw up a comprehensive scheme for better sanitation. Although we have the same object in view, that is, the efficient administration of the funds that are placed in our care for purposes of sanitation, and also for the proper expenditure of the augmented resources of the Boards by reason of the whole of the Public Work Cess being assigned to them ; and although we are anxious that the money so available may be properly spent, we are not at all convinced that a conference such as is asked for by my Hon'ble friend would serve our purpose. I might inform my Hon'ble friend that we have been holding conferences recently in every Division. We have held one at Dacca, one at Chittagong, one in the Presidency Division and we are going to hold one in the Burdwan Division and then another at Darjeeling, and so these matters are being considered by us and we do not think, as I have said before, that a conference is either necessary or helpful. For these reasons I beg to oppose the resolution."

A division was then taken with the following result :—

Ayes 3.

The Hon'ble Maharaja Ranajit Sinha of Nashipur.
" Mr. S. P. Sinha.
" Dr. Nilratan Sarkar.

Noes 35.

His Excellency the President.
The Hon'ble Nawab Saiyed Nawab Ali Chaudhuri, Khan Bahadur.
" Mr. Glen.
" Raja Shoshi Kanta Acharyya Chaudhuri Bahadur.
" Mr. Woods.
" Mr. Grice.
" Raja Mahendra Ranjan Ray Chaudhuri.
" Mr. Apcar.
" Babu Ananda Chandra Ray.
" Dr. Deba Prasad Sarbadhikari.
" Rai Nalinaksha Basu Bahadur.
" Babu Surendra Nath Ray.
" Babu Prasanna Kumar Ray.
" Rai Hari Mohan Chandra Bahadur.
" Maulvi A. K. Fazl-ul-Haq.
" Babu Upendra Lal Ray.
" Maulvi Musharraf Husain.
" Mr. Moberly.
" Mr. Lang.
" Mr. Finnimore.
" Mr. Beatson Bell, C.I.E.
" Mr. Goode.
" Mr. Hilary.
" Rai Priya Nath Mukherji Bahadur.
" Raja Hrishikesh Laha, C.I.E.
" Maulvi Mazharul Anwar Chaudhuri.
" Mr. G. H. C. Ariff.
" Sir William Duke, K.C.I.E., C.S.I.
" Nawab Syed Shams-ul-Huda.
" Mr. Macpherson, C.I.E.
" Mr. Cumming, C.I.E.
" Mr. Donald.
" Mr. Green.
" Mr. Twidell.
" Mr. Hornell.

The following Members were absent :—

The Hon'ble Sir Khwaja Salimullah Bahadur, G.C.I.E., K.C.S.I.
The Hon'ble Mr. McLeod.
The Hon'ble Mr. Shorrock.
The Hon'ble Mr. Chaplin.
The Hon'ble Nawab Saiyed Hossam Haider Chaudhuri, Khan Bahadur.
The Hon'ble Mr. B. C. Mitra.
The Hon'ble Mr. Lyon, C.S.I.
The Hon'ble Mr. Samman.

The following Members abstained from voting :—

The Hon'ble Maharaja Jagadindra Nath Ray.
The Hon'ble Sir Bijay Chand Mahtab, K.C.S.I., K.C.I.E., I.O.M., Maharajadhiraja Bahadur of Burdwan.
The Hon'ble Mr. Chakravarti.
The Hon'ble Babu Surendra Nath Banerji.
The Hon'ble Babu Mahendra Nath Ray.
The Hon'ble Rai Radha Charan Pal Bahadur.

The result of the division being Ayes 3, Noes 35, the resolution was accordingly lost.

10. The Hon'ble BABU SURENDRA NATH RAY moved the following resolution :—

This Council recommends to the Governor in Council that a committee be appointed, consisting of official and non-official Members of the Council, for the purpose of assisting the Government in the application of all moneys allotted for the purposes of sanitation in this Presidency.

He said :—

" My Lord, on the 4th April last, in my speech on the Budget for 1913-14, I suggested the advisability of establishing an Education Board and a Sanitary Board for the purpose of advising Government not only on Educational and Sanitary problems, but also on the proper expenditure of the Provincial and Imperial grants on those heads. I then said that with the large grants both from the Provincial revenue and from the Government of India for Sanitation and Education, with the larger responsibilities thrown upon the Provincial Governments, it is necessary that there should be advisory boards to help Government in the proper expenditure thereof. If there are persons, Members of your Lordship's Council, willing to assist the Government with their advice and co-operation, I think the time has come when such assistance should be availed of. In introducing the Indian Budget in the House of Commons, the Under-Secretary of State for India, Mr. Montague, said only the other day :—

'The problem in India is not the problem of material advancement, of increasing her prosperity, or of new public buildings. It is not even a problem of efficiency. It is the problem of Government and co-operation, of giving the Indian increasing opportunity in his own country, and increasing assistance in the development of his capacity for local government and administration.'

" The real and chief reasons for my moving this resolution are that we want to co-operate with Government in the distribution of moneys now allotted to sanitation, that we want to be associated, to use the words of the Reform Despatch of Lord Morley to Lord Minto, 'in the work not only of occasional legislation but of actual everyday administration.' The amounts now allotted by Government for sanitation and education are large. The Councils have been expanded, and with it the desire on the part of the people to co-operate to a larger extent with the Government in the distribution of moneys for purposes which affect them most vitally has grown more and more. In framing the Provincial Budget, the practice has been to have a Finance Committee consisting of official and non-official Members. But the Budget, as framed by the Finance Committee, gives only the heads under which the money is to be spent. What I move for is that there should be a committee, one of whose objects should be to assist Government in framing the detailed Budget of the amounts allotted to sanitation. Such a committee as this may also be consulted as regards many sanitary questions which every now and then come up before Government. Questions are put in the Council both as regards sanitation and education simply because the public are quite ignorant of many of the facts. They are not put, I can assure your Excellency's Government, with a view to embarrass the Government, but with a view to know or to ascertain how matters really stand. If there be a committee of the Council consisting of official and non-official Members—an advisory committee and nothing else—there will be a sensible reduction in the number of questions put in the Council, there will be more light thrown on the actions of Government. The result then would be that the actions of Government will be viewed in a truer and better light. This committee will not trench upon the existing powers of Government in any matter—it will neither have any vote nor any controlling authority. It will no doubt carry us one step forward, but I humbly beg to submit that if we

can advance a step forward with the help of Government, why should we not try to do it? The non-official Members of the Council practically represent the voices of the people. What I want for my committee is that the representatives of the people in the Council may be allowed to advise, to suggest and thus indirectly be allowed to have some voice in at least one of the branches of the administration of the Province and upon which the people of the Province are vitally interested. I need hardly assure your Lordship's Government that the appointment of the committee I move for is sure to be a source of strength to Government, it will be a source of removing much misapprehension which may exist in the public mind regarding the acts of Government. Actions now misconstrued will be correctly interpreted, seeming laches and delays on the part of Government officials, difficulties which the Government officials now meet with in carrying out sanitary reforms, but about which neither ourselves—the non-official Members of Council—nor the public know anything, will all then be put down to their true causes. I do not think there is anything to be kept back from the representatives of the people in this Council as regards sanitation. The Committee which I move for may be consulted as regards the usefulness of particular sanitary measures or the advisability of spending money on them. I do not suggest that the advice given by this committee is to be binding upon Government. But whether you take it in the light of a concession or not, this much may be said that the adoption of the resolution will be much appreciated by the public and the non-official Members of the Council, that it will raise the Government much in their estimation.

"My Lord, in all public or corporate bodies there are committees or sub-committees to assist them in their deliberations and to provide an easier and smoother method of working. The sub-committees of the Corporation are an instance in point. Why should not this Council have such a committee as that?

"The Hon'ble Maharaja Ranajit Sinha of Nashipur's resolution is for convening a conference of officials and non-officials to enquire into the sanitary conditions of municipal and rural areas. My Lord, I am not opposed to the holding of conferences, but I doubt, however, their practical utility. One has simply to read the report on sanitation in Bengal for the year 1912 and the resolution of the Government of Bengal, dated only the 12th July last, to enlighten one on the sanitary conditions of the municipalities and rural areas. We find from the report that, in this Province, mortality from such diseases as fever, cholera, small-pox, dysentery and diarrhœa were on the increase in the year 1912 as compared not only with the year previous thereto but also with the average of the previous five years. The resolution of the Government, dated the 12th July last, on the report on sanitation in Bengal is to the following effect:—

'The Governor in Council realises the difficulty of determining the causes which influence the healthiness or unhealthiness of a particular locality, particularly so when registration is far from perfect, but it should not, he considers, have been impossible to give some indication as to the cause of the large increase in the mortality, especially that from fever and cholera . . . The Governor in Council is also disappointed to find that despite the employment of Sub-Assistant Surgeons in the distribution of quinine in the districts of Nadia and Murshidabad, there has been no diminution in fever mortality, but the reverse. The various anti-malarial measures that have been undertaken throughout the Province have so far been unproductive of any real permanent advantage, and in many places they have been discontinued. The clearance of jungles and tanks and the destruction of mosquitoes have not proved successful measures, and a more extended use of quinine seems, on present knowledge, the only method by which it is possible to reduce the rate of mortality and the risk of infection."

"The above extracts fully show the real sanitary state of the Province and the opinion of Government on the same. The facts are there. The

efforts of Government officials so far have proved to be unavailing. Mortality is on the increase, while its causes remain unascertained or at least unaccounted for. Under the circumstances I think that instead of making speeches and passing resolutions in conferences, we ought to do, or rather we ought to be allowed to do, some actual work. We ought to have some voice in the consideration of sanitary schemes and in the expenditure thereof.

"The resolution of my Hon'ble friend the Maharaja of Nashipur, which was similar to the one in the Bihar Council which was moved there on the 7th April last, does not, I am afraid, go far. My resolution may be considered as ancillary to the resolution of the Maharaja. We cannot rest satisfied with conferences. We cannot stop short there. We want, as I have already said, something more. We want step by step to be associated with the Government in actual work. If a committee such as that which I move for be accepted by Government, we get all that we get from a conference, and over and above that we get something more. We may render some practical assistance to Government.

"The mercantile community, who are practical men of business, know full well the futility of conferences and the value of committees. I think my resolution will commend itself to all business men.

"I beg to repeat what I have already said that, if my resolution is accepted, there will be no curtailment of the powers of the Executive, no surrender of any of their powers—that there is absolutely no apprehension of the non-official Members needlessly interfering with the powers now exercised by Government. Government will have the same control which they now have over the finances of the Province. There is nothing to prevent Government from dissolving such a committee if it is found to be obstructive or of no practical utility.

"The non-official Members are condemned because it is said they talk too much in the Council. Without pleading guilty to the charge, I may be allowed to say that there is no great scope for showing our business capacity on the Council; but if such a committee as that which I move for is constituted, we may be in a position to show, at least in some measure, our capacity for actual work, and there is, I need hardly say, always less talk when there is actual work to be done. I have every reason to believe that the committee I move for would be, to use the words of Carlyle, 'a better-Acting apparatus', the benefits of which would be invaluable now and henceforth."

The Hon'ble BABU SURENDRA NATH BANERJI said:—

"My Lord, I hope that the Government will accept this resolution. If I am permitted to say so, my friend's (the Hon'ble Nawab Syed Shams-ul-Huda's) observations, in which he replied to the resolution of my Hon'ble friend, the Maharaja of Nashipur, ought to lead him to accept this resolution. His objection, in the first instance, to the Hon'ble Maharaja's resolution was that a conference was ill-adapted for the purpose for which it was intended. A committee is admirably suited for the purpose, because it will be a permanent body; it will sit from day to day. The next objection was that it would be necessary to obtain expert advice from the mufassal, from the districts, in order to formulate a comprehensive sanitary scheme. This committee will be in a position to obtain such expert advice from the districts. Therefore, my Lord, the two objections upon which my Hon'ble friend (Nawab Syed Shams-ul-Huda) relied for the purpose of meeting the resolution of my Hon'ble friend, the Maharaja of Nashipur, ought to persuade him to support the resolution which has now been placed before the Council.

"My Lord, what does the Government lose by the acceptance of this resolution? The committee will be an advisory body, it will not have the right to dictate, it will not have the power to lay down principles which will be binding upon the Government; the Government may accept them

or not. It would be absolutely advisory in its nature and, I am sure, my Lord, that in a matter like sanitation the advice of non-official experts is of the utmost value and importance. We talk around this table, and we have, I think, talked enough about the principle of co-operation. Here, my Lord, is a splendid opportunity for the practical illustration of that principle. My Lord, may I not appeal to your Excellency for the practical acceptance of the principle of co-operation in a matter of such vital importance as the sanitation of this province? I do earnestly appeal to the Government to accept this resolution subject to such safeguards as the Government may think fit to impose."

The Hon'ble NAWAB SAIYID NAWAB ALI CHAUDHURI, KHAN BAHADUR said :—

"My Lord, the question of the ways and means of sanitary improvements has always occupied the serious attention of not only the Government but the people of the country whose appeals for better sanitation, among other things, have been exercising not a little the minds of all concerned. As time rolls on, we have reason to be hopeful for the many good measures that Government will bestow on us, and by far and away the most important of all these measures for our material and moral welfare are better equipments for sanitation. I think the motion made by the Hon'ble Member is a useful and salutary one and one that would meet the wishes of the people. The proposed committee composed, as it would be, of men who have a thorough knowledge of the needs and requirements of the country would most assuredly serve as an advisory body to the particular Department of Government that will control the work of sanitation. The representatives of the people and officials in touch with the actual needs of the country will be better able to advise and co-operate in the work. The representatives of the country on the committee in collaboration with their official colleagues will intelligently voice the wishes of the people, and thus the Department of Sanitation, assisted by a thoroughly representative body, will carry on the work to the satisfaction of all concerned, as funds will allow, attending to the needs most urgently required to be met. I heartily support the formation of a committee as proposed by the Hon'ble Member for the purpose of assisting Government in the application of all moneys allotted for the purpose of sanitation in the Presidency."

The Hon'ble RAI RADHA CHARAN PAL BAHADUR said :—

"My Lord, I have only this observation to make. As the Hon'ble Member has said, with reference to the Hon'ble Maharaja of Nashipur's motion, these two motions no doubt deserve the sympathy of the Members of Council, whether official or non-official. On the motion of my friend, Babu Surendra Nath Ray, although it commends itself to many of us here on this side of the House, it may be modified slightly, if I might throw out a suggestion. His resolution recommends that the Council should recommend to the Governor in Council that a committee be appointed consisting of official and non-official Members of the Council. My Lord, if a committee is appointed, I think that the Government ought to be left free to choose such members as not to restrict the selection of members to the Members of Council and, therefore, if my Hon'ble friend would omit the words "of Council,' I think the resolution would be more acceptable to all."

The Hon'ble MR. ANANDA CHANDRA RAY said :—

"My Lord, I have just one suggestion to make. I suggested to the Hon'ble Member to leave out the words 'of the Council' from his resolution. The Council consisting of official and non-official Members will just leave the hands of the Government free, and they will be able to bring in experts and also representatives from all districts or divisions, so that it will be a representative committee and will be able to give proper advice to the Government. With these words I would support the resolution, provided the words 'of the Council' be deleted."

The Hon'ble BABU SURENDRA NATH RAY said :—

"I accept the amendment."

The PRESIDENT :—

"The Hon'ble Member does not perhaps realise that it is for me to permit amendments at this stage and I think it rather too late for me to permit this amendment being moved now. If you will look at rule 18 of the Resolution Rules you will see the point."

The Hon'ble BABU SURENDRA NATH RAY said :—

"My Lord, I understand that my amendment is not in order, so I withdraw it."

The Hon'ble MAULVI A. K. FAZL-UL-HAQ said :—

"My Lord, I rise with some reluctance to say a few words on the resolution that is now before us, because I recognise the inadvisability of swelling the number of speeches on a particular subject ; but, in this instance, I feel I cannot offer a mere silent vote in consideration of the importance of the subject under discussion. Of late years public attention has been very pointedly drawn to the need of sanitary improvements, and we have to confess with feelings of gratitude that Government has been putting forth its best endeavours to combat the ravages of preventible diseases in all parts of the Presidency. My Lord, my friend the Hon'ble Babu Surendra Nath Ray, has moved a resolution for the appointment of a committee consisting of official and unofficial Members in order to advise Government to undertake measures of sanitary reform. My Hon'ble friend assured your Excellency's Government that this committee will be nothing further than a mere advisory body, an advisory committee, with powers to offer suggestions merely, but no further. If I am permitted, my Lord, to draw an illustration, it seems to me that the committee for which he is moving will perform functions somewhat similar to those performed by assessors at a Court of Sessions—men whose opinions are supposed to be of very great weight, but whose opinions the judge can safely ignore, provided he is disposed to differ from them. In this particular instance my friend has assured your Excellency's Government that this committee will in no way hamper the hands of Government, or interfere with their discretion in the disposal of their funds. I think, my Lord, that your Excellency's Government will feel no hesitation in accepting a resolution which to all intents and purposes seems so very innocent, and which, I submit, will possibly do some good. but which can never do any harm to anybody. But I think, my Lord, that I can put the case for this committee much higher than my Hon'ble friend has chosen to put it. That is to say, I think I can urge the acceptance of this resolution not merely on the grounds of expediency, but on the higher ground of principle. Of late years there has been a tendency—a very welcome tendency—on the part of the Government to try and associate the people in the councils of Government as far as it is practicable. We have not only heard the speeches to which my Hon'ble friend has referred. but we all acknowledge with gratitude that Government has done its best to translate its utterances into action, and has taken every conceivable opportunity of associating the people in the work of administration. I submit, my Lord, that the resolution which has been moved by my Hon'ble friend gives Government an excellent opportunity of associating the representatives of the people in matters which vitally affect the people in regard to sanitation. It is true that the officials are always full of information regarding matters relating to administration, but I think that I may fairly claim that we, who are of the people, who move amongst the people, have always at our command information which officials, from the very nature of things, cannot hope to obtain, and when we want to place this information at the disposal

of officials, without in any way putting any restrictions on the offer which we make, I submit that the least that your Excellency's Government can do is to accept the resolution which has been moved by my Hon'ble friend. With these few words, my Lord, I beg to support the resolution."

The Hon'ble BABU MAHENDRA NATH RAY said :—

"I beg to support this resolution, not because I believe that it is fruitful of great consequences in the near future, nor that the committee itself would be capable of offering very useful and expert advice to Government on matters regarding the financial allotments to sanitary measures, but because one may welcome it as the first instalment of a very useful reform. It is not suggested, I believe, by the Hon'ble Mover of this resolution that the Government is in need of any expert advice or opinion regarding the application of funds allotted to sanitary measures. There is a Sanitary Board, constituted under the Bengal Municipal Act, to which most important duties are assigned under the provisions of that Act. In regard to matters scientific, and in regard to matters which require expert opinion, the Sanitary Board is the only constituted authority to which the Government must refer for advice, and if I had been of opinion that the resolution moved by my Hon'ble friend would in any way conflict with the jurisdiction of the Sanitary Board I would have opposed his resolution. On the other hand, I understand my Hon'ble friend's resolution to amount to this, that, if a number of non-official Members of this Council were associated with officials for the purpose of giving advice as to financial allotments in regard to sanitary matters, it would be advice which no doubt the Government would welcome, and therefore in principle there is nothing objectionable in the resolution,—in principle it is a resolution which Government can have no hesitation in accepting. Advisory boards are more or less harmless, and may sometimes be useful.

"If there were any chance of a conflict or friction between the Sanitary Board on the one hand, and a committee such as my Hon'ble friend's resolution suggests, on the other hand, no doubt Government could not welcome it, because, after all, when one has to consider schemes for sanitary improvements in any part of the province, many of us would not be quite competent to give proper information in the matter, or to make suggestions regarding the utility or the propriety of the many details involved in all schemes of sanitary improvement. The control of Government in financial matters must be absolute. The rules contemplate such a thing as a Committee to advise Government in regard to the framing of the Budget ; that principle only finds a slight development in the suggestion involved in this resolution. There is the Finance Committee, which advises Government in regard to the framing of the Budget. The constitution of such a Committee is recognised by our rules. The Budget, however, as we all know, gives a very small number of major heads, and I believe only two or three heads under the head of sanitation. There, however, the functions of this Legislative Council as a body, in regard to giving the Government advice as to the allotment of money for sanitary matters, ceases.

"At the same time, when the allotments have to be distributed on different works—works in different parts of the Province—there is no reason why Government should not welcome any advice that the non-official Members of this Council, in consultation with some of the official Members, may render to Government. I had grave doubts at first whether such a resolution as this was really needed ; but it seems to me that the principle involved in this resolution is not only perfectly harmless but is only a development of the principle under which the Finance Committee have been constituted for the purpose of helping Government in regard to the framing of the Budget itself.

"I do not desire to take up the time of your Lordship's Council any longer, but I must repeat that if I had the slightest suspicion that this committee, as suggested by my learned friend in his motion, would in

any way conflict with the legitimate functions of the Sanitary Board, or of other expert advisers of Government, I would have been the last man to support it."

The Hon'ble DR. NILRATAN SARKAR said :—

" It appears to me that the proposal is extremely moderate, and may be accepted without any difficulty. Hitherto the Government has been acting upon the advice of the Sanitary Board, and that. of course, is a Board of experts more or less under such control as the Sanitary Department can exercise. But if the Government now gets an opportunity of having as their advisers another Board upon which they may have some representatives of the people, I think the Government should avail itself of that opportunity. My Lord, expert opinion sometimes requires check and control, and I think the other side—I mean the people's side—has hitherto remained unheard in sanitary matters, and it appears to me that it would be graceful for the Government to give us an opportunity of making ourselves heard on important sanitary questions, through the medium of such a Board as is proposed by my Hon'ble friend. My Lord, in other countries the Departmental authorities are all helped in some way or other, or replaced by responsible Boards. That, of course, would be the ideal state of things. The substitution of individual departmental authorities by Boards having powers of initiative would be the ideal, but that cannot be attained at the present stage, and, though this measure does not go far enough, yet I feel that I should support it so far as it goes. With these observations I beg to support the resolution."

The Hon'ble NAWAB SYED SHAMS-UL-HUDA said :—

" My Lord, it is always an ungracious task to refuse proffers of assistance when they come, and come with the best of intentions, and it is not because we do not appreciate the object with which this resolution is moved, that I find it difficult to accept it. There is some danger in constituting a committee which we may not always take the occasion to consult, and, as has been referred to by some of the speakers we have another Board—a Board of Experts—whose functions are also advisory ; and the constitution of two Boards, one a committee of officials and non-official members of this Council, and another a Board of Experts—the Sanitary Board—may lead to conflicts of opinion which may not be very desirable ; and I feel, my Lord, that if my Hon'ble friends who have spoken in support of this resolution considered carefully the practice which we follow, and which at present we have no idea of altering, they will find that we do not suffer for want of advice, be it expert advice or non-expert advice.

" The practice now is this :—We have got a certain sum of money and we had before this only the sanitary grants. We have now the whole of the Public Works cess made over to us for being allotted to local bodies so that we have got a good deal of money to be spent on sanitation. It is not too much for the requirements of the country, but from one point of view it is too much. We do not undertake the execution of works of sanitation in any way— we leave that to the local bodies—and what we do is to assist local bodies in carrying out such schemes as they approve of and want us partially to finance. Of late we have been giving a third of what the local bodies themselves could find. We hope in future to be more liberal with our contributions, but we wait always for schemes to come up to us—matured schemes—and we always want to know to what extent local bodies are able to contribute towards those schemes. The result of it is this that we do not find opportunities for spending all the money that we have, not because we do not know the requirements of the country, but because we do not find schemes, I mean, matured schemes, to support and to finance. As an illustration of this, I would point out to my Hon'ble friends that for the year 1913-14 we have a total sum of about Rs. 23.00,000 at our disposal for sanitary purposes. This Rs. 23,00,000 is over and above the sum of, I think, Rs. 25,00,000 which will be allotted to the Boards on account of the Public Works Cess.

Now, as regards this Rs. 23,00,000, what have we been able to do? We have granted to various local bodies Rs. 2.14,000 up to this time, and we have earmarked about Rs. 1,96,000; and, as I said, if my Hon'ble friends—and there are here those who represent Municipalities and District Boards—would influence the Boards, and stir them up to come up to Government with schemes, definite schemes, which will stand expert examination, they will find us quite ready to finance them. Therefore, as I said, my Lord, we do not suffer for want of advice, but we suffer for want of schemes, and my Hon'ble friends would find it much more effective to try their influence with the local bodies than to come up to Government with advice.

"Then there is the other question. We already have a Sanitary Board. As I have said, the constitution of two Boards which would both be advisory may lead to difficulties, and I think the best way of attaining the object, which my Hon'ble friends have in view, would be to reconstitute the Sanitary Board in such a way as to include in it a certain number of non-official Indians. That probably would be the more desirable mode of meeting the situation, and, without making any definite promise, I may say that if such a proposal is made to us we will give it every possible consideration.

"In other provinces, I am informed, the whole of the Sanitary grant is made over to the Sanitary Board, and the administration of the fund is entirely left to that Board. The Sanitary Board, as at present constituted, will probably have to be enlarged before any such large powers are given to it, and although I am not able to accept the resolution in the form in which it is moved, but, as I have told my friends, if they come up with a proposal for the reconstitution of the Sanitary Board, and for the introduction of a non-official element in that Board, the Government will be prepared to give it fair consideration. With these few remarks I express my regret that we are not able to accept this resolution, although, as I have said, the same end may be attained by a different method. I omitted to draw attention to the fact that schemes are often prepared by our Sanitary Engineer. We depute our Engineers to go and examine various schemes, and I can show you a number of files in which you will find that schemes have been submitted by the Sanitary Engineer to Government, and that Government have been quite willing to finance these schemes, but the difficulty has been that the Municipalities have not accepted them. So I am perfectly certain that while the committee suggested to be constituted would give us excellent advice, it is doubtful if, in the absence of schemes, that advice would be of any great value. On these grounds I find great difficulty in accepting the resolution."

The Hon'ble DR. DEBA PRASAD SARBADHIKARI said :—

"Whatever the fate of this resolution may be, and there can be no doubt that it will not be out of the usual routine, one cannot help being struck by the somewhat peculiar circumstances of the situation. My Hon'ble friend opposite has suggested that if we were to come up with a recommendation that the Sanitary Board should be reconstituted somewhat on the lines of the committee that has been proposed, he would be willing to consider the matter. If, my Lord, that is so, I do not comprehend why all this time should have elapsed, and why my Hon'ble friend should have waited for a recommendation by non-official members for reconstituting that Board, if he believed that such reconstitution would have helped the matter. My Lord, as I read that resolution, it seeks do no more than to call the attention of the Government to this somewhat peculiar and regrettable state of things. We are half the year through since the not very magnificent, though fair enough, grant of the Government of India for sanitary purposes was made. With our own Rs. 23,00,000 and the Rs. 25,00,000 the Government of India have given we cannot complain that we have a plethora of money. But we have enough to go on with, and although several months have elapsed, we are not ready with a scheme. My Hon'ble friend opposite, although he has spoken twice in the course of this day, has not been able to give us any definite information as to what the present state of affairs, with regard

to matters connected with the whole situation is. He has reported that his Department does not suffer for want of advice but requires schemes that will stand the test of experts. Why with all this wisdom, that is in no need of advice, expert-proof schemes are wanting to absorb the grant is beyond comprehension, though District Boards and Municipalities are loud in their demands. That discloses, my Lord, a state of things which certainly calls for comment, and calls for some intervention on the part of the Members of this Council; and that intervention has taken the shape of this resolution. If, as a result of moving this resolution, Government efforts are quickened, I think the object of moving the resolution will not have been wholly lost. Disappointment has been expressed, my Lord, in high quarters, high in status and in high latitude, I may say, that several months should have not helped us in bringing forth any scheme.

"My friend has drawn a distinction between schemes and advice which I am not able to follow. Unless there is a scheme there can be no advice, and unless there is advice, clearly there can be no scheme. We could not have quickened the District Boards and the Municipalities with their schemes, but my Hon'ble friend and his Department, and the other departments concerned could. They not having sufficiently moved, the non-official Members of your Excellency's Council are anxious to have an opportunity of helping and quickening them if possible. That is all that we are offering, and if our offer is not accepted, much stronger reasons than those that have been brought forth, would be needed in answer. We had Rs. 48,00,000 months ago, and we have not a single scheme to put forward to utilise even half or a quarter of the amount, even half a lakh. It looks almost like the case of the university examiner whose fancy picture is drawn by a supposed "Oxonion" in a recent newspaper letter who, finding that he had been promoted to examinership, rushes to the Librarian of the University and asks for text-books to be ready for his questions and does not know how to frame them. Government, having got this money, are casting about for schemes and trying to consider how to spend it, and at the end of the year they may have to reappropriate the budget allotment in any way open, whether suitable or unsuitable. That is not a position that this Council would like to see continue, and, nothing having been done during these months, Members come before your Excellency in the mildest possible manner and offer their services, and ask if they can be of any use. My Lord, I appreciate that all Members of this Council are not competent to offer advice, expert or otherwise, with regard to the momentous questions that will have to be considered, but some have local knowledge. We have machinery like the District Committees which are now working, the Flood Relief Fund. Admirable use may be made of them. We are having surveys made of things generally, including sanitary surveys, and it is possible that the Flood Relief measures and measures for the prevention of floods in the future, as well as sanitary measures, may have to go in hand. We have these agencies which are on the spot, and are now working. With the aid of some of them and non-officials upon whom Government choice may fall, some means may be devised for quickening the steps of the Government, so that this grant may be made use of. Otherwise the matter may be one for the attention of the Government of India if we do not know how to make use of funds which have been placed at our disposal.

The Hon'ble BABU SURENDRA NATH RAY said :—

"My Lord, my Hon'ble friend has spoken of the Sanitary Board, but that Board has been in existence for the last 25 or 30 years and we know what work has been done by that Board. Now that the Council has been reconstituted we want a new Board, consisting of official and non-official Members, and we want to have nothing to do with the old Sanitary Board. We want a new Board with the Sanitary Engineer as Secretary of the Board if necessary. My Hon'ble friend said that the District Boards and Municipalities have not taken full advantage of the moneys allotted for sanitation. Well, my own idea is that the non-official Members, on being

appointed to the proposed committee would know how matters really stand and would be in a position to help Government in pushing forward all necessary schemes. With these few words, my Lord, I beg to commend the resolution to the House.

A division was then taken, with the following result :—

Ayes 22.

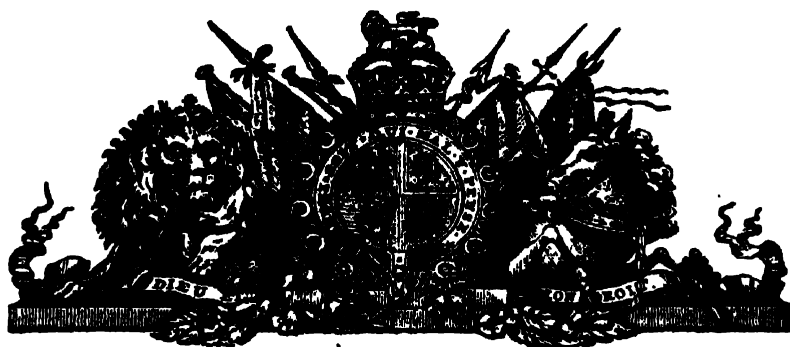
The Hon'ble Nawab Saiyed Nawab Ali Chaudhuri, Khan Bahadur.
" Mr. Sinha.
" Raja Shoshi Kanta Acharyya Chaudhuri Bahadur.
" Maharaja Jagadindra Nath Ray.
" Sir Bijay Chand Mahtab, K.C.S.I., K.C.I.E., I.O.M., Maharajadhiraja Bahadur of Burdwan.
" Mr. Chakravarti.
" Babu Surendra Nath Banerji.
" Mr. Apcar.
" Babu Manendra Nath Ray.
" Rai Radha Charan Pal Bhahadur.
" Babu Ananda Chandra Ray.
" Dr. Deba Prasad Sarbadhikari.
" Rai Nalinaksha Basu Bahadur.
" Babu Surendra Nath Ray.
" Babu Prasanna Kumar Ray.
" Maulvi Fazl-ul-Haq.
" Babu Upendra Lal Ray.
" Maulvi Musharraf Husain.
" Raja Hrishikesh Laha, C.I.E.
" Nilratan Sarkar.
" Maulvi Mazharul Anwar Chaudhuri.
" Mr. G. H. C. Ariff.

Noes 21.

His Excellency the President.
The Hon'ble Mr. Shorrock.
" Mr. Glen.
" Mr. Woods.
" Mr. Grice.
" Rai Hari Mohan Chandra Bahadur.
" Mr. Moberly.
" Mr. Lang.
" Mr. Finnimore.
" Mr. Beatson Bell, C.I.E.
" Mr. Goode.
" Mr. Hilary.
" Rai Priya Nath Mukherji Bahadur.
" Sir William Duke, K.C.I.E., C.S.I.
" Nawab Syed Shams-ul-Huda.
" Mr. Macpherson, C.I.E.
" Mr. Cumming, C.I.E.
" Mr. Donald.
" Mr. Green.
" Mr. Twidell.
" Mr. Hornell.

The following Members were absent :—

The Hon'ble Nawab Khwaja Salimullah Bahadur, G.C.I.E., K.C.S.I.
The Hon'ble Mr. Norman McLeod.
The Hon'ble Mr. Chaplin.
The Hon'ble Nawab Saiyed Hossam Haider Chaudhuri, Khan Bahadur.
The Hon'ble Mr. B. C. Mitra.
The Hon'ble Mr. Lyon, C.S.I.
The Hon'ble Mr. Samman.



The Hon'ble Maharaja Ranajit Sinha of Nashipur and the Hon'ble Raja Mahendra Ranjan Ray Chaudhuri abstained from voting.

The result of the division being Ayes 22, Noes 21, the resolution was accordingly carried.

The Council was then adjourned *sine die.*

A. W. WATSON,
Offg. Secy. to the Bengal, Legislative Council.

CALCUTTA ;
The 6th September. 1913.

APPENDIX.

NOTICES TO MARINERS.

THE following Notices are published for general information.

B. K. FINNIMORE,
Secy. to the Govt. of Bengal

CALCUTTA, *the 5th September 1913.*

JAPAN—GULF OF TOKYO.

Kannon zaki—Obstruction south-eastward of removed.

No. 432 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1078 of 1913), are republished :—

Former Notice.—No. 688 of 1913. (*This office No. 307 of 1913.*)
Position.—At a distance of 6$\frac{2}{10}$ cables, 116° (*S. 60° E. Mag.*), from Kannon zaki lighthouse.
Lat. 35° 15′ N., long. 139° 45′ E.
Description.—An obstruction reported to project a few feet above low water.
Note.—"*Obstruction (1913)*" has been erased from the charts.
Variation.—4° W.
Charts affected.—No. 3548, Yokohama to Uraga,
„ 2657, Gulf of Tokyo or Yedo.
„ 953, Omai saki to Tsurugi saki.
„ 996, Kii channel to Tokyo.
„ 3334, Tokyo to Sendai bay.
Publication.—Japan, Korea, &c., 1904, page 365.
Authority.—Tokyo Notice, No. 150 of 1913.

YELLOW SEA—WEST COAST OF KOREA.

Ping Yang inlet—Alteration in position of buoy.

No. 433 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1082 of 1913), are republished :—

Position.—At a distance of 4½ cables, 259° (*S. 85° W. Mag.*), from its former position, and 1$\frac{1}{10}$ miles, 64° (*N. 70° E. Mag.*), from Sister island light.
Lat. 38° 41¼′ N., long. 124° 59¾′ E.
Description.—A black conical buoy with a cylindrical topmark.
Variation.—6° W.
Charts affected.—No. 1656, Ping Yang inlet.
„ 1257, Approaches to Ping Yang inlet.
Publications.—Japan, Korea and adjacent seas, 1904, page 39 ; Revised Supplement, 1909.
China Sea Pilot, Vol. V., 1912. page 584.
Authority.—Tokyo Notice. No. 154 of 1913.

PERSIAN GULF.

Jezirat Tanb—Tide rips northward of.

No. 434 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1093 of 1913), are republished :—

Position.—Lat. 26° 18½′ N., long. 55° 18½′ E.
Description.—A heavy tide rip, possibly due to shoaler water than charted.
Charts affected.—No. 753, Entrance of the Persian Gulf.
„ 2837*a*, Persian Gulf, sheet 1.
Publication.—Persian Gulf Pilot. 1908, page 166.
Authority.—Berlin Notice No. 1767 of 1913.

TASMANIA—NORTH COAST.

Forth river approaches—Existence of rock.

No. 435 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1098 of 1913), are republished :—

Position.—Lat. 41° 06′ S., long. 146° 17′ E.
Depth.—2¼ fathoms.
Remarks.—"(*Position approximate*)" has been placed against the above rock.
Charts affected.—No. 1695 ¹, Bass strait, sheet 1.
„ 1079, Tasmania.
„ 2759*b*, Australia, southern portion.
Publication.—Australia Directory, Vol. I., 1907, page 613.
Authority.—Agent-General for Tasmania, July 18th, 1913.

EASTERN ARCHIPELAGO—PHILIPPINE ISLANDS.

Tanon strait—Refugio island—Light established.

No. 436 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1099 of 1913), are republished :—

Position.—On the northern end of Refugio island.
Lat. 10° 28′ 00″ N., long. 123° 26′ 30″ E., on chart No. 2578.
Abridged description.—Lt. Occ. *ev. 10 secs.*

Character.—An *occulting white* light *every 10 seconds*, thus :—

Light 7 secs. eclipse. 3 secs.

Remarks.—The other details are not given.

Charts affected.—No. 2578, Sulu or Mindoro sea, eastern part.
„ 943, Molucca passage to Manila.
„ 1263, China sea.

Publications.—List of Lights, Part VI., 1913, page 113.
Eastern Archipelago, Part I., 1911, page 377.

Authority.—U.S.A. Commerce Notice, No. 1157 of 1913.

JAPAN—INLAND SEA.

Hiroshima wan—Buoys established.

No. 437 (first publication.)—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1101 of 1913), are republished :—

Position (a).—Lat. 34° 02′ N., long. 132° 17′ E.

Description.—2 red buoys.

Position (b)—Lat. 34° 19¼′ N., long. 132° 23½′ E.

Description.—2 red buoys.

Remarks.—"2 *Red buoys hereabouts*" has been placed on the charts in the above positions.

Charts affected.—No. 3154, Ominase to Gogo shima (*a*).
„ 3169, Hiroshima wan.

Publication.—Japan, Korea and adjacent seas Pilot 1904, page 484.

Authority.—Tokyo Notice, No. 155 of 1913.

NEW ZEALAND, NORTH ISLAND—PORT NICHOLSON.

Karaka and Worser bays—Lights established.

No. 438 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1102 of 1913), are republished :—

(*a*) *Position.*—At the end of the wharf in Worser bay.
Lat. 41° 19′ 08″ S., long. 174° 49′ 51″ E. on chart No. 1423.

Abridged description.—Lt. F. *Red* (*Occasional*).

Character.—A *fixed red* light.

Elevation.—17 feet.

Visibility.—About 2 miles.

(*b*) *Position.*—At the end of the wharf in Karaka bay.
Lat. 41° 18′ 19″ S., long. 174° 49′ 58″ E. on chart No. 1423.

Abridged description.—Lt. F. *Gn.* (*Occasional*).

Character.—A *fixed green* light.

Elevation.—15 feet.

Visibility.—About 2 miles.

Remarks.—The above lights are not exhibited after 11 P.M., and are not lit on moonlight nights.

Chart affected.—No. 1423, Port Nicholson.

Publications.—List of Lights, Part VI., 1913, page 307.
New Zealand Pilot, 1908, page 142.

Authority.—Wellington Notice No. 63 of 1913.

CHINA SEA.

Alacrity bank—Expunged from chart.

No. 439 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1104 of 1913), are republished :—

Position.—Lat. 19° 28′ N., long. 112° 18′ E.
Description.—A bank extending in a north-easterly and south-westerly direction, showing soundings of 11 and 14 fathoms.
Remarks.—The above bank, having been searched for unsuccessfully by H.M. Surveying Vessel *Merlin* in 1908 and again by H.M.S. *Clio* in 1913, has been expunged from the charts.
Charts affected.—No. 2661*a*, China sea, northern portion, sheet 1.
„ 1263, China sea.
Publication.—China Sea Pilot. Vol. III., 1912, page 113.
Authority.—H.M.S. *Clio*, Hydrographic Note, 2 th June 1913.

NEW ZEALAND—NORTH COAST.

Auckland harbour—Amended limits of prohibited anchorage.

No. 440 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1109 of 1913), are republished :—

Former Notice.—No. 1708 of 1912. (*This office No. 29 of 1913.*)
Position.—Onepoto point, lat. 36° 49¼′ S., long. 174° 46½′ E.
Limits :
On the north.—(*a*) By a line drawn from the in-shore end of O'Neil's Wharf, Onepoto point, to Stokes point ▲.
(*b*) By the shore line between Stokes point ▲ and the outer end of Northcote wharf.
On the west.—By a line drawn from the head of Northcote wharf to the head of Ponsonby wharf. (As at present.)
On the south.—(*a*) By the shore line between the head of Ponsonby wharf and a point where line (*b*) of the southern limits meets the shore.
(*b*) By a line drawn from the shore line through the 2-foot rock off Point Erin Park in a direction 47° (*N. 31° E. Mag.*), for a distance of $6\frac{1}{10}$ cables.
(*c*) By a line drawn from thence in a direction 134° (*S. 62° E. Mag.*), for a distance of $5\frac{8}{10}$ cables. (As at present.)
(*d*) By a line drawn from thence in a direction 109° (*S. 87° E. Mag.*), for a distance of $3\frac{8}{10}$ cables. (As at present.)
On the east.—(*a*) By a line drawn from the eastern extremity of line (*d*) of the southern limit, in a direction 308° (*N. 68° W. Mag.*), for a distance of $3\frac{1}{10}$ cables. (As at present.)
(*b*) By a line drawn from thence in a direction 314° (*N. 62° W. Mag.*), for a distance of 6 cables.
(*c*) By a line drawn from thence to the in-shore end of O'Neil's wharf, Onepoto point.
Variation.—16° E.
Chart affected.—No. 1970, Auckland harbour and approaches.
Publication.—New Zealand Pilot. 1908, page 39.
Authority.—Wellington Notice, No. 43 of 1913.

CEYLON—SOUTH COAST.

Galle harbour—Navigation.

No. 441 (first publication).—The Master Attendant, Galle, has given Notice dated 9th August 1913 that the order prohibiting vessels from leaving the Port of Galle after dark has been withdrawn. Vessels will be allowed to leave the Port up to midnight weather permitting.

BAY OF BENGAL—BURMA.

Reduced to "Zero" of King's Point tide gauge.

Authority.—Deputy Conservator of the Port, Rangoon.

BAY OF BENGAL—BURMA COAST.

Rangoon River—Carrying of Gunpowder or other explosives.

No. 446 (first publication).—The Secretary to the Government of Burma in the Judicial Department has issued a Notification No. 111, dated the 5th July 1913, that—

(*i*) All vessels entering the port of Rangoon with gunpowder or other explosives for Government in excess of 25 lbs. shall cause the same to be discharged below the Hastings Shoal. The 25 lbs. of Government explosives shall be reckoned as over and above the amount of explosives, if any, carried by the vessel for signalling purposes.

The above orders do not apply to fuzes and tubes consigned to the Ordnance Department nor to safety cartridges, safety fuzes for blasting, railway fog-signals and percussion caps.

(ii) Vesuvian matches forming part of the equipment of the Sappers and Miners may be discharged at either the Sule Pagoda or the Brooking Street Wharf. The matches must be at once removed from the wharf on their being landed from the steamer. If, on any occasion, this be not practicable, they must be deposited temporarily in the match godown with which each of these wharves is provided, and must be removed therefrom as promptly as possible. Three days' notice must be given to the Port Commissioners that a consignment of such matches is about to arrive.

(iii) Persons contravening these orders will be liable to a fine which may extend to Rs. 1,000.

BAY OF BENGAL—CHITTAGONG COAST.

Karnaphuli river—Depth of water in the channel.

No. 447-I (first publication).—

Subject.—The following depth of water was found in the channel by soundings taken on the 1st September 1913:—

Description.—

		Ft.
Track No. I, Outer Bar—		
Disc on Diamond	... ...	13
Track No. II, Inner Bar—		
Disc on Diamond	... ...	10

Chart affected.—No. 84. Chittagong (Karnaphuli) river.

Publication.—Bay of Bengal Pilot, 1910, page 322.

Authority.—Port Officer, Chittagong, Notice, dated 1st September 1913.

BAY OF BENGAL—BURMA COAST.

Mergui Archipelago.

(1) Heavy breakers reported off Courts Island.

(2) Height of Spiteful rock.

No. 448 (first publication).—

Subject.—(1) The Master of the S.S. "Lunka" reports that on the 18th August 1913 after passing Bentinck island in the Mergui Archipelago and when off Courts island he sighted heavy breakers about a mile distant to the eastward of his vessel in the approximate position Lat. 11° 55′ N., Long. 97° 54¼′ E.

The breakers appear to indicate the existence of a reef or shoal almost awash, which is uncharted (there being 22 fathoms shewn in that vicinity) and is close to the track of vessels using the outer passage if making for Forrest straits.

(2) Spiteful rock at the entrance to the south passage to Victoria Point, on which there is a lighthouse is charted as being 80 feet high but it is in reality a heavily wooded island 235 feet in height.

Charts affected.—No. 216*a*, Northern part of Mergui Archipelago (1).

„ 216*b*, Southern part of Mergui Archipelago (2).

Publication.—Bay of Bengal Pilot, 1910, pages 537, 550.

The 26th August 1913.

CHINA, EAST COAST—LIAU RIVER.

(1) Alteration in position of Middle buoy.

(2) Buoy established.

No. 418 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1027 of 1913), are re-published :—

(1) Alteration in position of Middle buoy.

Position.—At a distance of half a cable, 130° (*S. 45° E. Mag.*; from its present position.
Lat. 40° 36′ 30″ N., long. 122° 04′ 58″ E.
Description.—Black conical buoy with a diamond topmark.

(2) Buoy established.

Position.—At a distance of 1 cable, 119° (*S. 56° E. Mag.*), from the position of the Fairway buoy, which has been withdrawn.
Lat. 40° 37′ 32″ N., long. 122° 07′ 05″ E.
Description.—"Inner buoy," a black conical buoy with ball topmark.
Note.—The above positions are taken from chart No. 2991.
Variation.—5° W.
Charts affected.—No. 2991, Entrance to Liau river.
,, 2894, Liau river to Tien chwang tai.
Publication.—China Sea Pilot, Vol. V., 1912, page 524.
Authority.—Shanghai Notice, No. 395 of 1913.

PERSIAN GULF.

Jashk—Information on light at Telegraph and Lloyds Signal station.

No. 419 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1042 of 1913), are re-published :—

Position.—Lat. 25° 38′ N., long. 57° 46′ E.
Details.—The occasional light on the southern tower of the telegraph buildings cannot be shewn when required, as is stated in the Persian Gulf Pilot, and List of Lights.
The reference should therefore be expunged.
Publications.—List of Lights, Part VI., No. 178.
Persian Gulf Pilot, 1908, page 142.
Authority.—India Office, 10th July 1913.

AUSTRALIA, EAST COAST—PORT JACKSON.

Kirribilli point—Existence of shoal south-westward of.

No. 420 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1055 of 1913), are re-published :—

Position.—At a distance of 1 cable, 228° (*S. 38° W. Mag.*), from Kirribilli point beacon.
Lat. 33° 51¼′ S., long. 151° 13′ E.
Depth.—5 fathoms.
Variation.—10° E.
Charts affected.—No. 1069, Port Jackson.
,, 1021, Port Jackson to Port Stephens.
Publications.—Australia Directory, Vol. I., 1907, page 810.
Australia Directory, Vol. II., 1907, page 65.
Authority.—Hydrographic Department.

SOUTH AUSTRALIA—SPENCER GULF.

Franklin harbour new channel.

No. 421 (second publication).—The President of the Marine Board, Port Adelaide, has given Notice (No. 15 of 1913) that the Channel, which has been dredged to the new jetty at Franklin Harbour, runs in the line of the Jetty 319¼° (N. 45° W. Mag.) for a distance of 1·3 miles, and has not less than 12 feet at L.W.S. over a full width of 100 feet. It is marked by three (3) black buoys, to be kept on the port hand entering; and one (1) red buoy and one (1) black and red chequered buoy on the starboard hand. The chequered buoy marks the point where the new channel deviates from the old, and is to be kept on the port hand entering when using the latter. The inner black buoy, which also marks the south-eastern extreme of the swinging basin, is so moored and fitted that it may be used as a haul-off buoy for vessels at the Jetty.

Approximate position of end of Jetty—Latitude, 33° 41¼′ S.; Longitude, 136° 56¼′ E.

This affects Admiralty Charts Nos. 785 and 2389b.

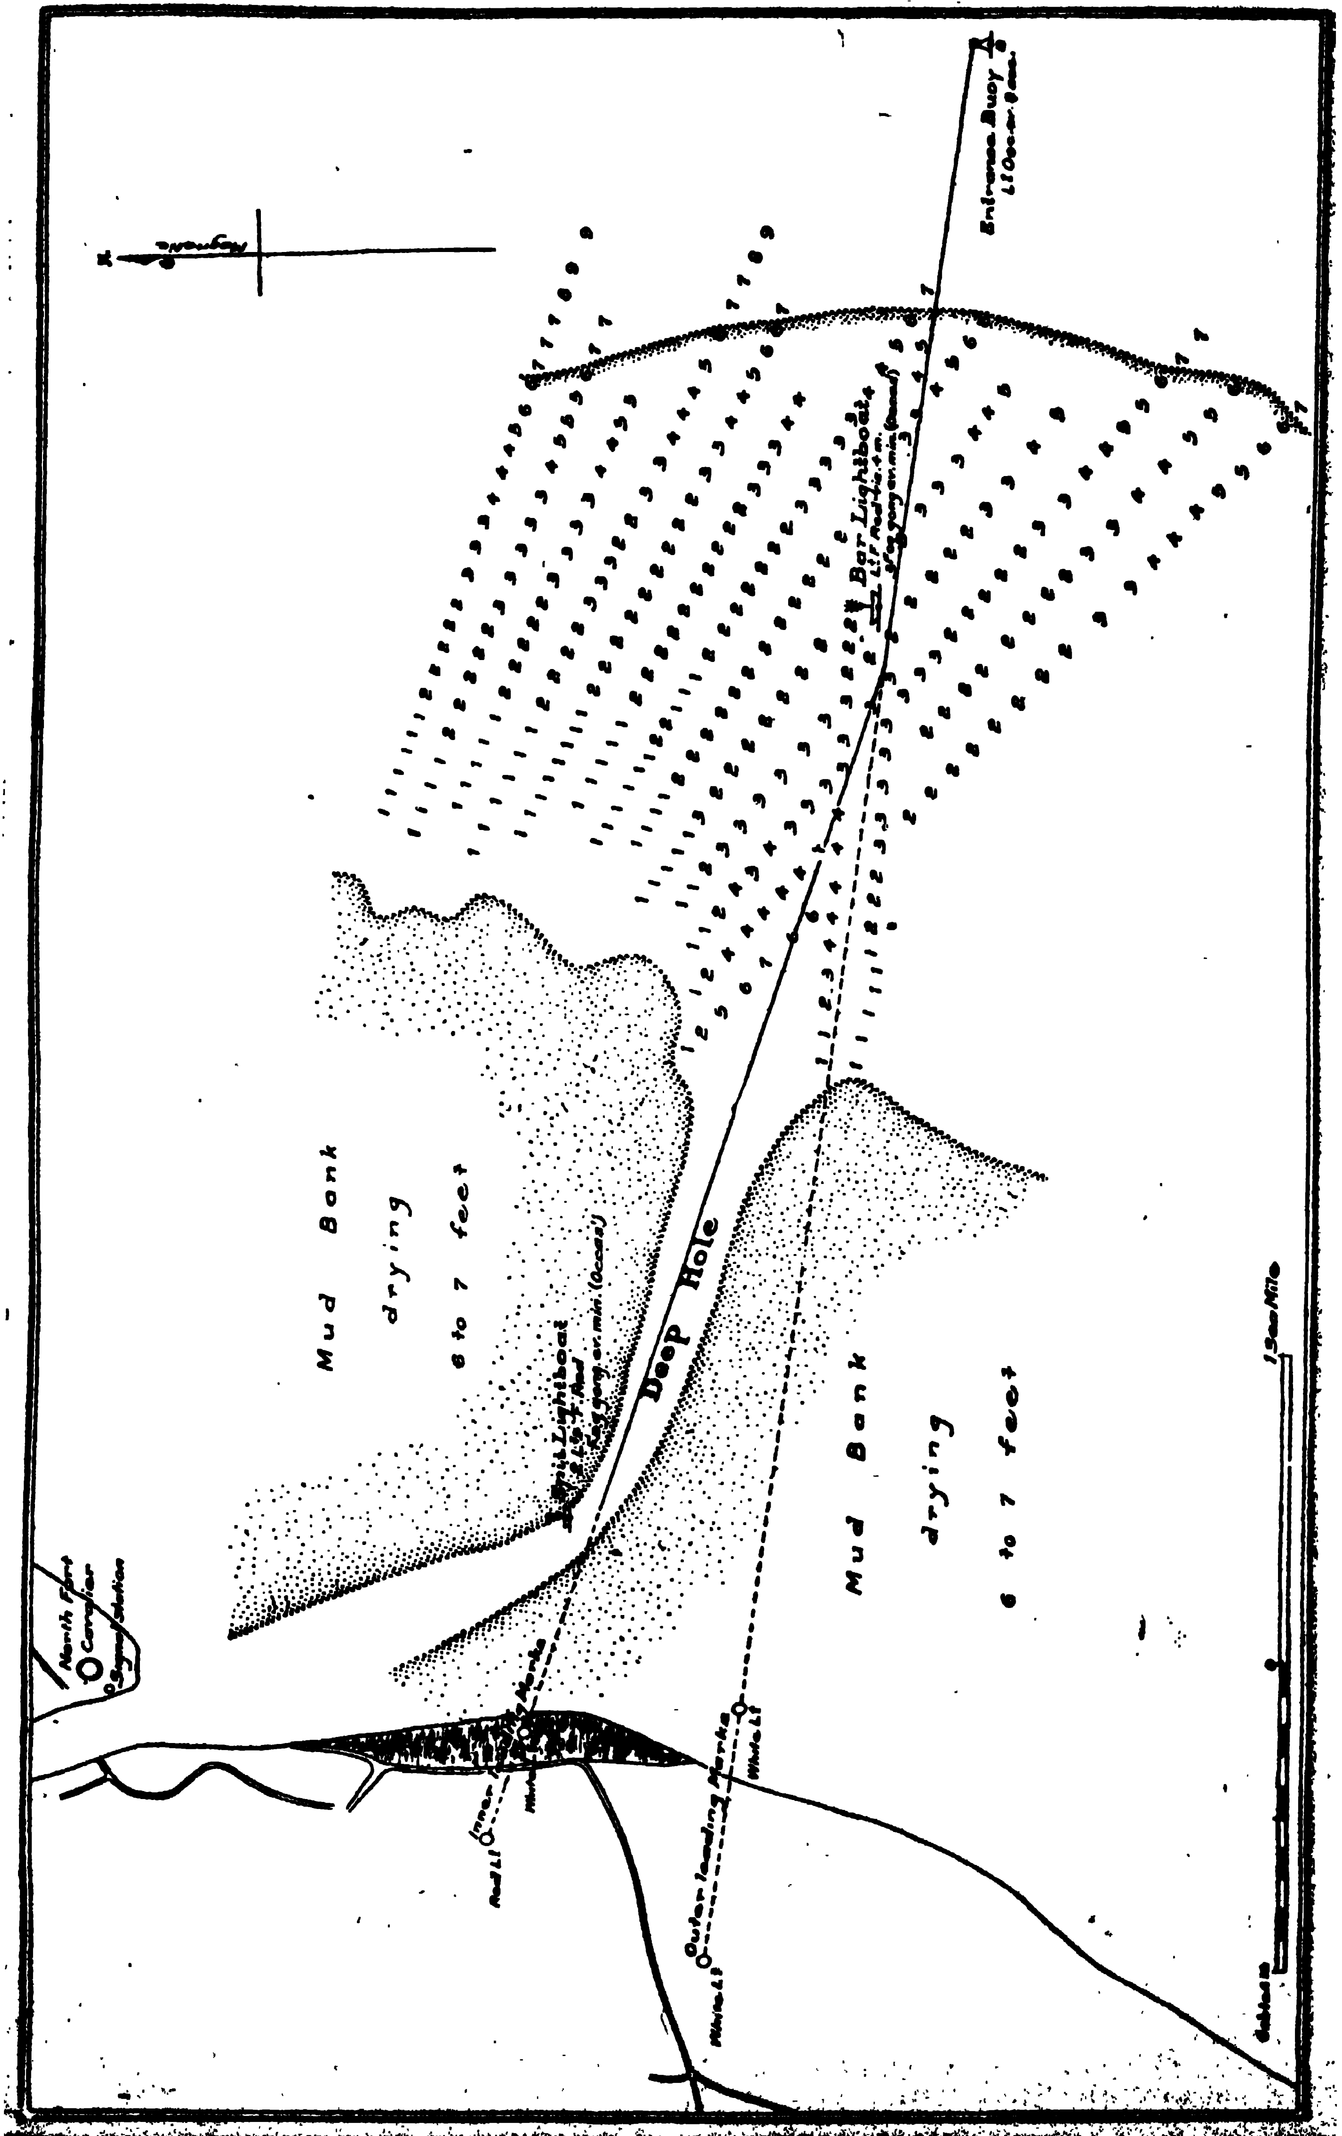
SOUTH AUSTRALIA—SPENCER GULF.

Moonta bay jetty light.

No. 422 (second publication).—The President of the Marine Board, Port Adelaide, has given Notice (No. 16 of 1913), that the light shown from the end of the Moonta Bay Jetty will be discontinued from the night of the 1st August 1913.

This affects Admiralty Chart No. 2389b.

CHINA SEA--TIENTSIN DISTRICT.



Gulf of Pechili, Taku bar—Alteration in the positions of the Taku bar inner leading marks.

No. 423 (second publication).—The Coast Inspector, Shanghai, has given Notice (No. 555 of 1913), that the Taku Bar Inner Leading Marks have been shifted.

The front mark, which is a pole painted *white* and surmounted by a *black* triangular shape, on which a Dioptric, Seventh Order, fixed *white* light is exhibited from sunset to sunrise, is situated 1·26 miles S. 10¼° W. of the Cavalier at North Fort. The rear mark, which is a pole painted *white* and surmounted by a *black* triangular shape, on which a Dioptric, Sixth Order, fixed *red* light is exhibited from sunset to sunrise, is situated 2,162 feet N. 72° 15′ W. from the front mark.

These marks in line lead through the channel between the Bar Light-boat and the Spit Light-boat.

All bearings given are magnetic.

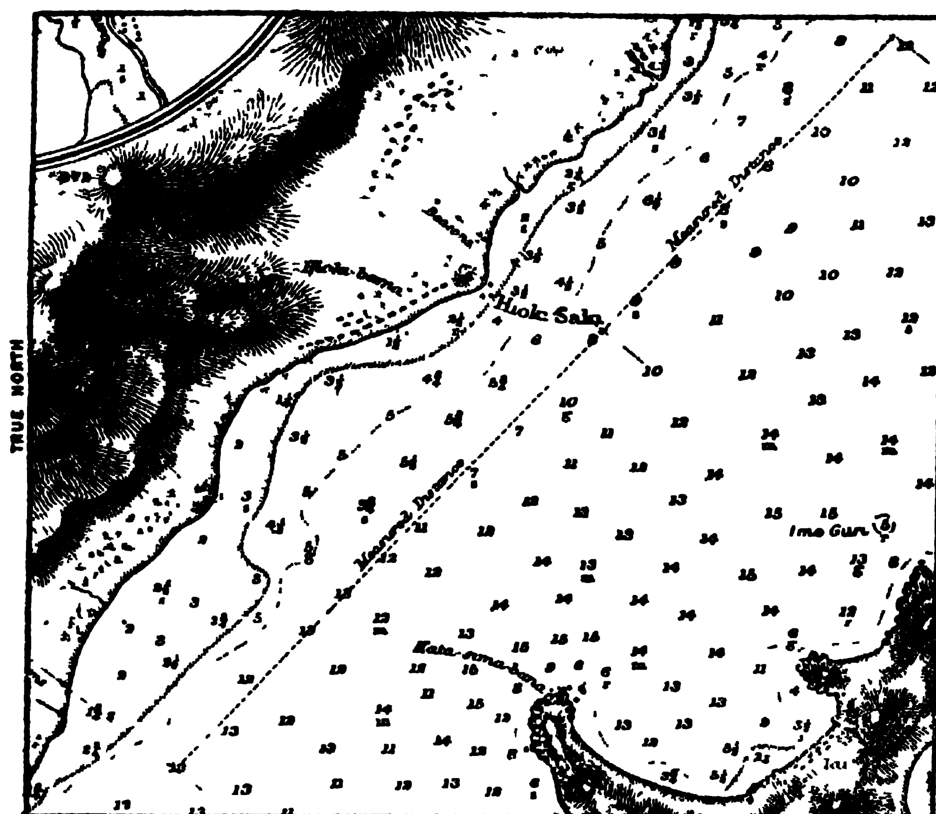
No. 408 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1005 of 1913), are republished :—



(1) Miyadsu harbour—Existence of shoals.

Position.—Ime Guri, lat. 35° 35¼′ N., long. 135° 14½′ E.
Details.—The positions and depths of the newly discovered shoals in Miyadsu harbour are shewn on the accompanying reproduction of a portion of chart No. 61.

(2) Kunda bay—Existence of shoal.

Position.—At a distance of 7$\frac{1}{10}$ cables, 53° (*N. 58° E. Mag.*), from Joshi Temple.
Lat. 35° 33¾′ N., long. 135° 14½′ E.
Depth.—5½ fathoms, rock.
Remarks.—The above rock has been named "Hoshi Guri."
Variation.—5° W.

Charts affected.—No. 61, Miyadsu harbour and Port Ine.
,, 2174, Amarube zaki to Ando zaki.
Publication.—Japan, Korea and adjacent seas, 1904, pages 645, 646, 647.
Authority.—Japanese, Government chart.

SUMATRA WEST COAST—BUNGA BAY.

(1) Amended position of reef.

(2) Existence of rock.

No. 409 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1013 of 1913), are republished:—

(1) Amended position of reef.

Position.—To the northward of its present position, at a distance of $5\frac{1}{10}$ cables, 176° (*S. 4° E. Mag.*), from the south-western extreme of Pulo Kassie.
Lat. 1° 3¼′ S., long. 100° 23′ E.

Description.—A dangerous shoal with two heads, extending for ¼ cable, 176° (*S. 4° E. Mag.*), from the position given above, which is that of the northern head.

(2) Existence of rock.

Position.—At a distance of $1\frac{4}{10}$ cables, 75° (*N. 75° E. Mag.*), from Pandan point.
Description.—A drying rock.
Variation.—Nil.
Charts affected.—No. 866, Plan of Bunga bay.
,, 709, Ujong Masang to Ujong Indrapura.
Publication.—China Sea Directory, Vol. I., 1906, page 339.
Authority.—Hague Notice, No. 1289 of 1913.

AUSTRALIA, SOUTH COAST—VICTORIA.

Cape Liptrap—Intended establishment of light.

No. 410 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1020 of 1913), are republished :—

Date of establishment.—On or about 1st September 1913.

Former Notice.—No. 764 of 1913. (*This Office No. 333 of 1913.*)

Position.—About 2 cables from the extremity of the cape.

Lat. 38° 54′ 30″ S., long. 145° 55′ 45″ E., on chart No. 1695*b*.

Abridged description.—(U) Lt. Gp. Fl. (*2*) *ev. 6 sec.*, 300 ft., *vis. 23 m.*

Character.—A group-flashing white light, shewing a *group of two flashes in quick succession every six seconds.*

Elevation.—300 feet.

Visibility.—23 miles.

Power.—5,000 candles.

Order.—Dioptric.

Structure.—A white skeleton structure, 18 feet from base to vane.

Remarks.—No further Notice will be given with reference to the above light.

Charts affected.—No. 1695*b*, Bass strait, sheet 2

, 3169, Port Phillip to Gabo island.

,, 2759*b*, Australia, southern portion.

,, 788, Melbourne to Cape Horn, western sheet.

Publications.—List of Lights, Part VI., 1913, page 259.

Citadel island—Intended establishment of light.

No. 411 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1021 of 1913), are republished :—

Date of establishment.—On or about 1st September 1913.

Former Notice.—No. 763 of 1913. (*This Office No. 332 of 1913.*)

Position.—On the summit of the island.

Lat. 39° 07′ 05″ S., long. 146° 14′ 22″ E., on chart No. 1703.

Abridged description.—(U) Lt. Fl. *ev. 3 sec.*, *380 ft.*, *vis. 15 m.*

Character.—A *flashing white light every three seconds.*

Elevation.—380 feet.

Visibility.—15 miles.

Power.—3,000 candles.

Order.—Dioptric.

Structure.—A red skeleton structure 18 feet from base to vane.

Remarks.—The above light will be unwatched. It will be obscured to the northward by the Glennie and Anser groups. No further Notice will be given.

Charts affected.—No. 1703, Wilson promontory, &c.
„ 1695*a*, Bass strait, sheet 1.
„ 3169, Port Phillip to Gabo island.

RESOLUTION ON THE REPORT ON THE POLICE ADMINISTRATION IN THE BENGAL PRESIDENCY FOR THE YEAR 1912.

POLITICAL DEPARTMENT.

POLICE.

CALCUTTA, THE 8TH SEPTEMBER 1913.

RESOLUTION—No. 7562P.

READ—

The Report on the Police Addministration in the Bengal Presidency for the year 1912.

Read also—

The reports on the administration of the Police Departments in Bengal and Eastern Bengal and Assam for the year 1911 and the Resolutions of Government on these reports.

1. Mr. L. F. Morshead was in charge of the Police Department in Bengal from the 1st January to the 31st March 1912 and Mr. Hughes-Buller

held the office of Inspector-General of Police, Eastern Bengal and Assam, for the same period. On the reconstitution of the Bengal Presidency, with effect from the 1st April 1912, Mr. Hughes-Buller was appointed Inspector-General of Police and continued in office till the end of the year.

2. *Civil Police.*—As a result of the territorial changes, a considerable amount of work had to be devoted to the reconstitution of the cadres of officers and men and the assimilation of the different practices and rules in force in the two parts of the Province. The Intelligence Branch was reconstituted and amalgamated with the Criminal Investigation Department at a considerable reduction of cost, and Intelligence officers were attached to certain districts under the control of Superintendents of Police. At the close of the year Government sanctioned the opening of a new school for the training of constables at Dacca, and of a similar school combined with the Police Training College at Sarda. The system of despatching "Special Police" telegrams was extended to the Western Bengal districts, and as an experimental measure the rural police were empowered to send "bearing" messages. The question of the more extensive use of the telegraph for the prevention and detection of crime is constantly under examination. Considerable progress was made towards the completion of the scheme sanctioned by the Secretary of State for the reorganization of the subordinate police force in the Eastern Bengal districts, and detailed proposals involving an increase of 466 subordinate officers and men were sanctioned by Government. Six new investigating centres were established; the town police of several places was reconstituted, and effect was given to the scheme for deputing police to watch criminals at railway and steamer stations. The station boats in the Faridpur and Dacca districts continued to be maintained, and the establishment of similar boats in other districts has since been sanctioned. These measures have led to a material decrease in river crime. Special attention was paid during the year to the improvement of the important branch of the supervising staff represented by the Circle Inspectors. A high standard of selection has been laid down for the promotion of Sub-Inspectors to be Inspectors. Insistence is laid on the responsibility of the Inspector for the control of crime within his circle; and during the year persistent and successful efforts were made by means of instructions conveyed at the time of inspection and by personal appeals to improve existing conditions. In the opinion of the Inspector-General the latent detective ability of the investigating staff requires to be developed and trained. The period spent at college is too limited to admit of a thorough training in detective work, and officers require to be instructed afterwards how best to apply the principles they have learnt. Accordingly the Inspector-General proposes to select a certain number of promising young officers who have displayed signs of detective ability for a further course of advanced training after they have gained some practical experience. The subject is under the consideration of the Inspector-General, who hopes to submit proposals to Government to give effect to the suggestion.

The condition of the rank and file of the police force as described in the Inspector-General's report is far from satisfactory. The number of vacancies in the rank of constables amounts to nearly 800. In every district the ordinary reserves are inadequate. Consequently leave has to be curtailed and men who are sick and unfit for duty cannot be replaced. Men of the armed reserve have been employed on escort and other miscellaneous duties, the performance of which interferes to a considerable degree with their efficiency. The general health of the force during the year was not good; admissions to hospital increased from 40·7 per cent. to 47·4. Discontent in the force is reflected in the increasing number of men who resigned or were discharged. Though the recruiting allowance of Rs. 6-8 is now given in all districts of the Presidency, the Inspector-General is still faced with the serious difficulty of securing recruits, especially local recruits of a suitable class. This unsatisfactory state of affairs has been the subject of great concern to the Governor in Council, and measures for its amelioration have been concerted. A scheme for the separation of the armed and unarmed branches of the force of the whole Presidency and for giving the former a

higher rate of pay has been carefully worked out and is now under the consideration of Government. Experience seems to have established that the percentage for reserve fixed by the Police Commission is too small to provide for all the purposes it has to cover and to admit of reasonable liberality in the grant of leave, and the Inspector-General is about to submit revised proposals.

The outstanding causes for the growing unpopularity of service in the police are inadequate pay and the difficulty in obtaining leave. The Inspector-General has formulated proposals for increasing the pay of the rank and file and for making the service more attractive by the grant of certain concessions. These are at present receiving the sympathetic consideration of Government. The most pressing of these reforms, however, is the necessity for increasing the pay of the constables ; and this matter has the immediate attention of the Governor in Council.

The progress made in the construction and repair of buildings was a satisfactory feature of the year's work. A large sum was sanctioned by Government for the purpose, and the total expenditure amounted to over nine lakhs of rupees. But a large proportion of the force is still housed in very unsuitable buildings ; and much remains to be done in the direction of the construction of more sanitary and permanent buildings and in providing married quarters for a proportion of head-constables and constables. It is hoped also to improve the health of the force by supplying cots and mosquito nets to all head-constables and constables.

3. *Military Police.*—The general efficiency of the battalion improved to a marked extent during the year and the health of the men was satisfactory. Considerable progress was made in providing better accommodation in the military police lines at Dacca, where three companies have moved into their new and commodious barracks. A scheme has been prepared for the reorganisation of the military police establishment of the Presidency. Captain Macpherson inspected all the headquarters treasuries in the province and submitted a valuable report containing proposals which are now under the consideration of the Inspector-General.

4. *River Police.*—The river police scheme, the importance of which was emphasized in the resolution on the report for last year, contemplates the establishment of four river police divisions with 27 police-stations. A beginning was made during the year with the Meghna division, and river police-stations were established at Narayanganj and six other places. This provides for the policing of the Meghna from Sunamganj in Sylhet to Narayanganj. Each of these places has been provided with a floating police-station and light boats for patrolling purposes and the whole division placed under the charge of an Inspector who has been provided with a launch. Only three launches were available during the year for patrol duty : launches could not be provided for the remaining four stations owing to delay in the receipt of the machinery from England. The launches already constructed have since been tested, suitable types have been selected, and the construction of the remaining launches will now be taken in hand. The Ganges division was opened recently ; but the completion of the remaining two divisions is delayed owing to the want of men. Indeed it is apparent from the Inspector-General's report that the difficulty in obtaining recruits for the river police is even greater than in the case of the civil police. The scale of pay is reported to be insufficient to attract local men of the boatmen class who would form the most suitable material, and repeated efforts to secure men of a similar type from the United Provinces have ended in failure. Fifty-seven constables were recruited during the year ; but since then nearly 100 of the 200 sanctioned constables have been obtained. Special efforts are being made once more to recruit the remaining men. The jurisdiction of the river police will not cover the interior waterways ; and hence during the last three years an experiment has been made of attaching station boats to certain thanas on the smaller rivers of the Dacca and Chittagong Divisions. The experiment has proved successful ; and it is contemplated ultimately to link up the river police patrols with the station boat patrols, and by this close

co-operation between the river police and the District police to control the waterways of Eastern Bengal. It is satisfactory to record that so far no river dacoities have been reported from the area covered by the patrols and that thefts have decreased.

5. *Charges against the Police.*—Including cases pending from 1911, 361 criminal charges were preferred against the police as against 247 in the preceding year. The 337 charges disposed of included 17 of torture, 66 of extortion and 24 of bribery. In the result, three constables were convicted of torture, two Sub-Inspectors and five constables of extortion, one head-constable and three constables of bribery and one Sub-Inspector, one head-constable and 12 constables of other offences, such as assault and wrongful confinement. Out of the 337 cases, 279 were unsubstantiated. The complainants were prosecuted under section 211 of the Indian Penal Code in 18 cases, and of the 10 cases disposed of, it is satisfactory to record that 7 ended in conviction. Forty civil suits were instituted against the police, of which 20 were dismissed, four were decided against the officers concerned, and the remainder were pending at the close of the year. In accordance with standing orders, all serious charges of ill-treatment or torture are reported to Government. The number of cases so reported was 62, of which 50 were complaints preferred before the criminal courts. Seven of these ended in acquittal, seven were compromised, 22 dismissed under section 203, Criminal Procedure Code, and 14 ended in conviction, in one of which the two constables concerned were acquitted on appeal. Even in the cases which were dismissed or compromised, departmental action was taken whenever there were any indications that the officers or men concerned were guilty of misdemeanour. The report of the Inspector-General shows that the importance of investigating thoroughly all charges against the force and of dealing strictly with proved offences is clearly recognized. The judicial results of the charges disposed of indicate, however, that the police have still to meet many reckless and unfounded charges.

6. *Rural Police.*—The experiment of appointing selected officers of the Subordinate Civil Service to take charge of certain areas to be known as circles to supervise panchayati and chaukidari work was continued on a more extended scale. Mr. J. N. Gupta, I.C.S., was placed on special duty to supervise the experiment and to advise Government on chaukidari matters, and circle officers were appointed in seven subdivisions of the Presidency and Burdwan Divisions, and in six subdivisions of the Eastern Bengal districts. Mr. E. G. Hart, Superintendent of Police, was also placed on special duty with instructions to co-operate with Mr. Gupta, and to examine specially the work of village chaukidari patrols. Mr. Hart's report is now under the consideration of the Inspector-General of Police. The results of the experience gained and the lines of the future developments of the village police were considered by a Committee in April last. The Committee agreed that the rates of pay at present paid to chaukidars and daffadars are inadequate and that they require to be increased. It was thought that a rate of pay of Rs. 6 to Rs. 12, differing in different parts of the Presidency, would attract suitable whole-time chaukidars. But without an amendment of the Bengal Chaukidari Act [Act VI (B. C.) of 1870] it is not legal to pay at a higher rate than Rs. 6 per chaukidar. As to daffadars, a rate of Rs. 12 to Rs. 15 would be sufficient to attract efficient and whole-time men; half of this would be paid by Government and half by the villagers. Local men should be appointed as daffadars, provided that they possess the necessary qualifications. The question of the duties that should be assigned to daffadars and chaukidars, and their powers were also considered, along with several other problems connected with the working of the chaukidari panchayati system. The whole question is now under examination; and the Governor in Council has under consideration specific proposals submitted by the Inspector-General of Police on the subject of appointing daffadars on increased pay in a selected subdivision.

The balances of the Chaukidari Reward Fund continue to be high in most districts. It should not be forgotten that the payment of liberal

rewards is a great incentive to activity and zeal, and the attention of all Superintendents of Police should be drawn to the advantages of rewarding freely and promptly all instances of meritorious work done by village chaukidars.

7. *Political Crime.*—The prevalence of political offences in some of the Eastern Bengal districts, notably in Dacca district, has still to be deplored, and another disquieting feature of the year was the dissemination of literature inciting the murder of Europeans and the overthrow of the British Government. Once more the murder of a zealous police officer has to be recorded. Head-constable Rati Lal Ray, of Dacca, was shot in September 1912 by three young men of the *bhadralok* class. This officer had given evidence in the Dacca Conspiracy case, and was at the time of his assassination engaged in watching the movements of some suspicious characters. This was followed two months later by the bomb outrage at Midnapore outside the house of Abdur Rahman, the informer in the Midnapore case. It is satisfactory to note that this was the only case reported during the year from the Western Bengal districts. Although dacoities committed by persons of the *bhadralok* class decreased by two, the amount stolen is returned at the large total of Rs. 61,037, almost twice as much as the booty of the preceding year. There is reason to believe that the amount is exaggerated; but even if allowance is made for this, the actual sum secured is probably not less than half a lakh of rupees. The helplessness of the victims and the apathy of the people render easy the execution of these crimes. It is true that in one case the villagers attacked the dacoits and wounded three of them, but in no other instance was any opposition offered. In the opinion of His Excellency in Council, attempts should be made to secure the active assistance of those living in rural areas by strengthening their hands and placing them in a position to be able to withstand the attacks of dacoits. With this object in view, Government are prepared to give licenses freely to rich merchants and others who have large interests in the mufassal on the condition that they employ pensioned up-country sepoys who are not only trained in the use of arms but are also likely to offer a brave front to dacoits.

An important development took place at Dacca on 27th November, when the police as the result of a search seized certain documents. These documents clearly indicate the existence in Eastern Bengal of an active and dangerous society imbued with advanced revolutionary ideas. The methods by which the conspirators hope to achieve their object include the assassination of police officers, the "removal" of any member of the society who may betray them, the murder of any person who assists Government, the procuring of arms, the commission of dacoities in order to obtain funds, and efforts to obtain recruits for their cause by tampering with the loyalty of the students in schools and colleges. The measures to be taken to meet this situation continue to engage the anxious consideration of His Excellency in Council.

8. *Ordinary Crime.*—The total number of true cases under the more serious heads showed a slight increase. There were fewer cases of rioting and dacoity, though rioting is still prevalent in the Dacca Division: the increase was principally marked under the heads of burglary and theft, notably in the districts of Howrah and Tippera. The most satisfactory feature of the year was the substantial reduction in the number of dacoities. More regular river patrolling led to a decrease in Bakarganj and Tippera, while Rajshahi, Mymensingh and Dinajpur also showed noticeable diminutions. The number of dacoities in the districts adjacent to Calcutta is still large; but, as pointed out by the Inspector-General, the problem of the prevention and detection of dacoities in the metropolitan area presents special difficulties owing to the proximity of Calcutta, the great facilities open to criminals for rapid travelling, and the presence of an enormous mill population, the criminal members of which cannot without great difficulty be subjected to effective surveillance. His Excellency in Council has read with interest the statistics of dacoities for the last ten years and the Inspector-General's observations on the subject. The figures for the year 1912 are the lowest

recorded since 1905, and indicate a check in the tendency of this crime to increase during the last few years. In the opinion of the Inspector-General that increase is mainly due to the attempts made to place gangs of dacoits on their trial on specific charge of dacoity under section 395, Indian Penal Code, instead of proceeding against them under section 400. The Inspector-General is convinced that the suppression of dacoity can only be achieved by encouraging rather than discouraging the use of approvers, and that this method is free from objection, provided that the proceedings are controlled by a superior officer of experience. The question will receive the careful consideration of His Excellency in Council on receipt of the note which the Inspector-General proposes to submit on the subject.

9. Lastly, the Governor in Council has pleasure in congratulating Mr. Hughes-Buller for his able administration of the Department during a year of difficulties which tested the industry, courage and devotion of the staff. His thanks are also due to those officers, who have been specially commended by the Inspector-General for good work. He desires at the same time to acknowledge the distinguished services of those officers, who were honoured by the grant of the King's Police Medal—Mr. R. H. Sneyd Hutchinson of the Intelligence Branch, Mr. S. W. Laden La, Officiating Deputy Superintendent of Police, now on special duty in England, and Head-constable Saiyid Hussain of Nadia. The work of the year has been recorded by Mr. C. W. Chichele-Plowden, the Officiating Inspector-General, in a full and interesting report.

ORDER.—Ordered that copies of the Resolution be forwarded to the Inspector-General of Police; the Commissioner of Police, Calcutta, and all Commissioners of Divisions, for information.

Ordered also that the Resolution be published in the *Calcutta Gazette*.

By order of the Governor in Council,

J. G. CUMMING,

Offg. Chief Secretary to the Government of Bengal.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 8th September 1913.

Summary.—During the week under report light to moderate rain fell all over the province. In some districts more rain is wanted for winter rice. Transplantation of winter rice and harvesting of autumn rice are almost over. Replantation of paddy seedlings in flooded tracts is still going on. The harvesting of jute is progressing briskly. The prospects of standing crops in West Bengal are bad, but those in East Bengal are fair. Condition of cattle in the areas affected by the floods is still reported to be bad on account of scarcity of fodder. Cattle-disease is reported from eight districts. Want of fodder is felt in six districts. Damage by insect-pests is reported from parts of Noakhali, Malda and Mymensingh. The price of rice has risen by about 0·9 per cent. as compared with that of the previous week. Relief is being distributed to the distressed in flooded areas.

6	BURDWAN ...	2·01	7½	8	Weeding of winter rice, cutting and steeping of jute are going on and replantation of paddy seedlings is in progress in flood-affected areas. Relief is being distributed. Stocks of food-grains, fodder and water are sufficient except in flood-affected area.
	Asansol ...	1·80	7	7½	
	Katwa ...	0·36	7	(n)	
	Kalna ...	2·05	6½	6	
7	BIRBHUM ...	1·20	8	8	Weather hot and cloudy. Fodder and water are sufficient. No cattle-disease. Prospects of autumn rice are good. Weeding of winter rice is going on.
	Rampurhat...	0·72	8	8	
8	BANKURA ...	2·48	8¾	8¾	Weather seasonable. The transplanting of paddy is over. Weeding has commenced. Sowing of *til* is going on. Standing crops are doing well. Fodder and water are sufficient. No cattle-disease.
	Vishnupur..	5·08	8½	8½	
9	MIDNAPORE	1·73	8½	8½	Weather sultry. Transplanting of winter rice is going on. Harvesting of jute and autumn rice is going on at Tamluk and Ghatal respectively. Fodder and water are sufficient except in Contai and Tamluk, where there is a dearth of fodder.
	Ghatal ...	5·67	8	8	
	Tamluk ...	6·31	6½	6½	
	Contai ...	3·19	7½	7½	
10	HOOGHLY ...	0·36	6	6	Weather seasonable. The recent heavy rain and floods have done considerable damage to jute and winter rice. Cutting of jute is going on. In the flooded areas paddy is being replanted. No cattle-disease. Fodder and water are sufficient. Condition of cattle is good except in the flooded areas.
	Serampore ...	0·82	6½	6½	
	Arambagh ...	1·47	8	(n)	
11	HOWRAH ...	2·27	6¾	6½	Weather seasonable. Harvesting and steeping of jute are going on in tracts not affected by the floods. Retransplantation of winter paddy seedlings is going on in some of the affected areas. Fodder insufficient in the flooded areas where cattle-disease is reported.
	Uluberia ...	4·10	6½	6½ to 7	

(n) Not reported.

Serial No.	Districts and subdivisions.	Rainfall	Price of common rice, in seers per rupee. This week.	Previous week	Character of the weather, condition of crops, etc.
1	2	3	4	5	6
		Inches.			
12	RAJSHAHI (RAMPUR-BOALIA).	1·50	6	6¼	Weather seasonable. Prospects of standing crops are fair. Harvesting of jute and *aus* paddy continues. Transplantation of winter rice is progressing. Stock of food-grains and fodder is sufficient.
	Naogaon ...	0·26	7	7	
	Nator ...	0 68	6	6	
13	DINAJPUR ...	0·87	7½	(*n*)	Weather seasonable. Transplantation of winter rice nearly finished. Steeping of jute and harvesting of *bhadoi* paddy are in progress. Prospects of winter rice very good, but not of jute and *bhadoi* paddy. Stock of rice and fodder is sufficient. Export continues, except at Thakurgaon. Cattle-disease is reported from Ghoraghat.
	Thakurgaon	3·60	8	(*n*)	
	Balurghat ...	1·30	7¼	(*n*)	
14	JALPAIGURI	7·04	7	(*n*)	Weather seasonable. Cutting and steeping of jute and harvesting of *bhadoi* paddy are in progress. Outturn of both is expected to be fair. Transplantation of winter rice is going on. More rain is wanted. No want of fodder, water and food-grains.
	Alipur ...	11·56	6½	(*n*)	
15	DARJEELING	1·60	6½	6½	More rain would be beneficial. Harvesting of maize, potato and jute continues, and that of *chota marua* commenced. Probable outturn of *chota marua* is about normal. Price of red potato is nearly double of last year owing to great demand for seed. Average price of maize is about 10 seers per rupee.
	Kurseong ...	3·91	7	7	
	Siliguri ...	1·91	6	6	
16	RANGPUR ...	0·31	6	6½	Weather seasonable. Prospects of standing crops good. Harvesting of *aus* paddy continues. Transplantation of winter rice and cutting, steeping and washing of jute are in progress. Price of rice is gradually rising. Fodder and water are sufficient. No cattle-disease. Import of rice on a small scale is reported from Nilphamari.
	Nilphamari	1·90	7	7	
	Kurigram ...	2·28	7	7	
	Gaibanda ...	2·01	6½	7	
17	BOGRA .	1·37	6¾	6¾	Weather cloudy and rainy. The rainfall is general. Transplantation of *aman* paddy is nearly finished and its prospects are fair. Harvesting of *aus* rice is finished. Cutting, steeping and washing of jute continue. Rain has done much good to the crops. Stocks of food-grains and fodder are running out. Prices of food-stuffs are rising.
18	PABNA ..	3 01	6⅞	7	Weather hot and occasionally rainy. More rain is wanted for the winter rice. Want of water is also being felt for steeping of jute. About 9 annas of the jute crop has been harvested. No cattle-disease is reported.
	Sirajganj ...	0·95	6⅝	(*n*)	

(*n*) Not reported.

This declaration is made, under the provisions of section 6, Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Collector of Midnapore.

H. F. SAMMAN,
Offg. Secy. to the Govt. of Bengal.

—

DECLARATION.

No. 2019T R.—The 9th September 1913.—Whereas it appears to the Governor in Council that land is required to be taken by Government at the public expense for a public purpose, viz., for the construction of the Siliguri-Kissengunj extension of the Darjeeling-Himalayan Railway, in the jotes of Hangsa, Haribhita, Abal, Baragharia, Bodibhita, Ronu, Goarsaram, Dhansara, Matigara Hât, Telenga, Halpakhari, Mathapari, Jitu and Bhago Bairagi, pargana Pathorghatta, zilla Darjeeling, it is hereby declared that for the above purpose lands altogether measuring more or less—

Darjeeling.

(*a*) 3·99 acres in Hangsa jote.
·66 acres in Haribhita jote.
2·09 acres in Abal jote.
·13 acres in Baragharia jote.
2·41 acres in Bodibhita.
·04 acres in Ronu jote.

or a total 9·62 acres in *the 1st mile.*

(*b*) 1·96 acres in Ronu jote.
·13 acres in Gaorsaram jote.
11·33 acres in Dhansara jote.
·58 acres in Matigara Hât.

or a total 14·30 acres in *the 2nd mile.*

(*c*) 2·86 acres in Matigara Hât.
5·79 acres in Telenga jote.
·02 acres in Halpakhari jote.
·08 acres in Mathapari jote.
1·75 acres in Jitu jote.

or a total 10·50 acres in *the 3rd mile.*

(*d*) 4·20 acres in Bhago Bairagi jote in *the 7th mile.*
(*e*) ·40 acres in Bhago Bairagi jote in *the 8th mile.*

or a grand total of about 39 acres and 3·20 poles, approximately 3¼ miles in length commencing from about the 3¾th mile of the existing Darjeeling-Himalayan Railway, passing through Matigara Hât, then running in a westerly direction up to the Balasan river, recommencing from a place near Dumrigori Inspection Bungalow and running in a westerly direction for about a mile along the existing road to Naxalbari Hât,

are required within the aforesaid jotes of Hangsa, Haribhita, Abal, Baragharia, Bodibhita, Ronu, Goarsaram, Dhansara, Matigara Hât, Telenga, Halpakhari. Mathapari, Jitu and Bhago Bairagi.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Deputy Commissioner of Darjeeling.

H. F. SAMMAN,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

No. 2128T.R.—The 11th September 1913.—Whereas it appears to the Governor in Council that land is required to be taken by Government at the public expense for a public purpose, viz., for the proposed Dalimgaon crossing station and diversion of level crossing between Kaliaganj and Radhikapur, in the village of Lohatara, pargana Bajitpur, zilla Dinajpur, it is hereby declared that for the above purpose a piece of land measuring, more or less, 80 bighas 10 cottahs and 12·03 chitaks of standard measurement, being 250 feet to the north and 340 feet to the south from the centre line of the railway in the eastern side and 250 feet to the north and 300 feet to the south from the centre line of the railway in the western side and 2,510 feet long (east to west) between miles Nos. 145 and 146 is required within the aforesaid village of Lohatara.

Dinajpur.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Collector of Dinajpur.

H. F. SAMMAN,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

No. 3233M.R.—The 12th September 1913.—Whereas it appears to the Governor in Council that land is required to be taken by Government at the public expense for a public purpose, viz., for the extension of the Basudebpur station yard in connection with Sara Santahar broad gauge construction in the village of Bipra Belgharia, pargana Digha, district Rajshahi, it is hereby declared that for the above purpose two plots of land of varying measurements in mile 28-29 of the above line measuring, more or less, 1·108 acres are required within the aforesaid village of Bipra Belgharia.

Rajshahi.

NOTICE.

Examination of Compounders at the Dacca Medical School.

IT is hereby notified for general information that the next half-yearly examination for compounders will be held on the 20th October 1913 and subsequent days.

The examination will be conducted in accordance with Bengal Government Notification Nos. 1410 and 1411 Medical, dated the 7th July 1913—

(*a*) The Examining Committee will consist of :—

PRESIDENT :

Lieut.-Col. A. R. S. Anderson, B.A., M.B., C.M.Z.S., I.M.S.,
Superintendent, Dacca Medical School.

MEMBERS :

Assistant Surgeon Hem Chandra Sarker.
Assistant Surgeon Guru Prasad Mittra.

(*b*) No person will be admitted to this examination unless he produce certificates as required by rules 9, 10, 11 and 12 of Government Notification No. 1410 Medical, dated the 7th July 1913.

(*c*) All male candidates must forward to the undersigned an examination fee of Rs. 5 at least one week before the commencement of examination; a fresh fee must be paid on each occasion that the candidate enters for the examination; but a candidate who, after payment of the fee, is unable, through illness, to attend the examination will be allowed, on producing a satisfactory medical certificate to that effect, to attend the next examination without payment of a fresh fee.

NOTE.—Women candidates are examined free of charge.

(*d*) The students of compounder class of the Medical School will be allowed to appear at an optional examination. The examination will be conducted by the Committee of Examiners notified above—in minor bandaging, preparation of lotions, dressings, sterilization of dressings and instruments and in all minor duties of Hospital work. No additional fee shall be charged. Every candidate who passes the optional examination shall be granted an additional certificate in the prescribed form that he is qualified for the duties of a Hospital dresser and for Hospital ward work generally.

J. LANG, *Offg. Commissioner*.

COMMR.'S OFFICE, PRESY. DIVN., CALCUTTA, *the 10th September 1913.*

NOTICE.

THE DISTRICT BOARD OF FARIDPUR AT A SPECIAL MEETING HELD ON THE 31ST MAY 1915 HAS ADOPTED THE FOLLOWING BYE-LAWS UNDER SECTIONS 139 AND 140 OF THE BENGAL LOCAL SELF-GOVERNMENT ACT OF 1885 (BENGAL ACT III OF 1885).

Definitions.

Definitions

1. In these bye-laws, unless there is anything repugnant in the subject or context,—

I of 1871

(1) the word "cattle" has the same meaning as in the Cattle-trespass Act, 1871;

(2) "reserved tank or well" means a tank or well which the District Board has set apart under section 90 of the Bengal Local Self-Government Act of 1885, by public notice, for the supply of water for drinking and for culinary purposes and includes any reservoir, or part of any river, *khal* or other channel, so set apart; and a notice-board on the edge of a reserved tank or well, containing the words "reserved tank" or "reserved well" or words to that effect, shall be deemed to be sufficient notice for the purpose of this definition; and

Bengal Act III of 1885

(3) the "slopes" of a reserved tank or well include all places from which water can flow directly into such tank or well; and

(4) "road" means a road vested in, or under the control and administration of, the District Board or a Local Board; and includes—

(*a*) a village road;

(*b*) the slope, berm, borrow-pits and side-drains of a road; and

(*c*) all land vested in, or under the control and administration of, the District or a Local Board and attached to a road.

Roads, Drains, Bridges, Canals and Embankments.

Encroachment or obstruction on a road

2. (1) No person shall encroach on any part of a road by cultivating crops thereon.

Explanation.—This prohibition does not apply to land attached to a road which are neither vested in nor under the control and admin stration of, the District Board or a Local Board, and where on private persons have hitherto enjoyed the right of cultivating crops, subject only to a right of user on the part of the District Board or a Local Board of making borrow-pits and side drains therein.

(2) No person shall, on any road, by means of any building, fence, pit, embankment or ditch, or any other obstruction, or by means of any cut, drain or water-course intended for the purpose of drainage or irrigation, or by exposing thereon any goods for sale or by placing thereon any substance or material,—

(*a*) without the permission of the Chairman or Vice-Chairman of the District Board or a Local Board or the District Engineer, make or cause any encroachment, or

(*b*) obstruct traffic, or

(*c*) cause any inconvenience to passengers, or

(*d*) hinder or impede the flow of water.

Sale, collecting or gathering of articles in vicinity of road

3. No person shall expose or place any article for sale in any bazar or market in the vicinity of any road, or collect or gather any articles in the vicinity of a road, so as to interfere with the traffic of the road.

Cutting of plants, trees or hedges, obstructing road or drain

4. Any person in possession of, or having control over, any plants, trees or hedges which obstruct, overhang or overshadow any road, or any public drain or sluice or any drain which is connected with a public drain, shall, if so required by notice in writing, signed by the Chairman or Vice-Chairman of the District Board or a Local Board, or by the District Engineer, cut down, prune or trim such plants, trees or hedges within the period, and in the manner, prescribed in such notice.

5. (1) No person shall destroy, or damage, or cause to be destroyed or damaged, any bridge, culvert or causeway built on or across any road.

Damage to bridges, culverts or causeways on road.

(2) No person shall erect any fence or other object on, or before or close to the opening of, any such bridge, culvert or causeway, for the purpose of fishing or for any other purpose, so as to impede the free flow of water thereunder, or so as to cause damage thereto.

(3) No person shall cast "nets" for fishing purpose from any parapet of any such bridge or culvert.

6. No person shall—

(a) destroy or damage, or cause to be destroyed or damaged, any fence or post erected on any road; or

Damage to fences, posts, soil, turf or grass on road.

(b) dig, scrape, uproot or remove any soil, turf or grass from any part of a road.

7. (1) No person shall cut a channel, or convey water by a channel, across a road, except with the permission of the Chairman or Vice-Chairman of the District Board or a Local Board, or the District Engineer, and in such manner as he may prescribe.

Channel across road

(2) Any person who has been permitted by the Chairman or Vice-Chairman of the District Board or a Local Board, or by the District Engineer to cut a channel across a road, shall, at the time prescribed by him, cover or refill the channel so as to restore the road to its former condition.

(3) Any person who has a prescriptive right to keep a channel open for carrying water across a road shall keep the channel in proper order, so as to prevent danger or inconvenience to the public.

8. No person shall obstruct any waterway adjoining a road, so as to injure or tend to injure the road or otherwise to render the road impassable.

Obstruction of waterway adjoining road

9. (1) No person shall make any excavation on any road, or any hole, pit, tank or well within fifteen feet of any road, without the permission of the Chairman or Vice-Chairman of the District Board or a Local Board or the District Engineer.

Excavation on or near road

(2) Every person by whom, or by whose direction, any hole, pit, tank or well has been excavated within fifteen feet of a road shall be bound to take such order therewith as will prevent damage to, or erosion of, the road.

10. The owner or occupier of any tank, well, or other excavation on or near the side of any road shall be bound to fence in or duly protect such excavation in such manner as may be directed by notice signed by the Chairman or Vice-Chairman of the District Board or a Local Board.

Protection of excavation on or near road

11. No person shall pass over, or drive any animal or vehicle over, any road, bridge, culvert or canal so as to injure the same, while it is under construction or repair or is affected by flood or is otherwise rendered unfit for traffic and is closed to traffic under the orders of the Chairman of the District Board or a Local Board or (in emergent cases pending application to such Chairman) of the District Engineer, if a passage is given to the traffic, through another part of the road or otherwise.

Use of roads, bridges, culverts or canals while closed to traffic

12. No person shall, without the permission of the Chairman or Vice-Chairman of the District Board or a Local Board or the District Engineer, allow the rainfall from the roof of any building owned or occupied by him to be discharged upon any road by means of a spout or other thing intended for the conveyance of water.

Discharge of rainfall from roof to road

13. No person shall allow the water of any privy, or any matter offensive or deleterious to health, to flow on any road.

Flow of filth on to road

14. Any person owning or possessing a tree or a house, wall or other erection which has fallen, or part of which has fallen, on to a road shall, if so required by notice in writing signed by the Chairman or Vice-Chairman of the District Board or a Local Board or by the District Engineer, remove such tree, house, wall, erection or part, within the period prescribed in such notice.

Removal of trees or erections falling on to road.

Curing hides on or near road.

15. No person shall cure hides on or near any road.

Slaughter of animals, cleaning of carcasses, etc., on or near road.

16. No person shall slaughter any animal, or clean any carcasses, or collect bones, on or near any road.

Placing or burning of bodies on road.

17. No person shall place or burn any corpse or the dead body of any animal on or near any road.

Steeping offensive matter in road-side drain, pit or excavation.

18. No person shall steep any jute, hemp, bamboos, hides or other offensive matter in any drain, borrow-pit or excavation at the side of any road.

Rule of the road.

19. (1) Any person driving a vehicle along a road and meeting another vehicle shall keep on the left or near side of the road, so as to allow sufficient room for the other vehicle to pass.

(2) No person driving a vehicle along a road and overtaking another vehicle shall attempt to pass the latter vehicle otherwise than on the right or off side of the road.

Freedom of roads.

20. No person shall prevent any other person from passing along a road, or shall otherwise interrupt the free use of a road.

Care of animals on road.

21. (1) No person in charge of, or having control over, any animal used for riding or draught shall allow such animal to stand or wander on any road without a rider or driver.

(2) No person in charge of, or having control over, any cattle shall allow such cattle to stray or lie on any road so as to cause inconvenience or danger to any person travelling on the road.

(3) No person shall tether any cattle on, or within reach of, a road, or stall cattle or allow cattle to graze on a road.

Elephants and camels on road to have bell.

22. Every person owning, riding, driving or in charge of any elephant or camel proceeding on a road must see that such elephant or camel is provided with a bell; and with a light also if such animal is proceeding on a road after nightfall.

Taking elephants over road, embankment, bridge or culvert.

23. No person driving or in charge of an elephant shall—

(*a*) cause material injury to a road, or to an embankment vested in the District Board or a Local Board, by taking the elephant over the same; or

(*b*) take the elephant over a bridge or culvert vested in the District Board or a Local Board unless the same be constructed of arched masonry.

Removal of elephants or camels from road to admit passage of horses.

24. Every driver of an elephant or camel shall, on being so required by the rider or driver of a horse, remove such elephant or camel with reasonable promptitude to a sufficient distance from the road, to allow such horse to pass safely along the road.

Care of vehicle on road.

25. (1) No person shall drive or have in his charge on any road more than one vehicle at a time.

(2) No person in charge of, or having control over, any vehicle shall allow it to stand unattended on any road.

(3) No person shall leave a vehicle standing on a road for any longer time than is necessary for loading or unloading it.

(4) No person shall drive upon a road any vehicle laden with bamboos, planks or other materials of a similar character which exceed twelve feet in length and project beyond the vehicle, unless the vehicle be accompanied also by another person.

(5) All owners and drivers of vehicles loaded with bricks or other materials shall be responsible for their being so secured that the contents thereof may not fall down on any road.

(6) If any vehicle breaks down on a road, the driver shall remove it to the edge of the road without delay and shall, within a reasonable time, remove from the road all materials (if any) which have fallen from the vehicle, and shall place the vehicle in such a position that it will not obstruct traffic.

(7) No person shall lead or drive any vehicle up or down the slopes of any road, except at crossing fixed by the District Board.

Carrying bamboos or *bullahs* on cart on road.

26. No person shall carry bamboos or *bullahs* on a cart on any road in such a manner as to scrape the road, or to cause injury or annoyance, or risk of injury, to travellers thereon.

Separate tracks for cart traffic and carriage traffic

27 Where separate tracks on roads have been set apart for carts and carriages, respectively, no cart shall be permitted to pass over the portion reserved for carriages.

Transport of heavy machinery over bridges

28. No person shall transport heavy machinery over a timber bridge so as to injure the bridge.

Lighting of vehicles on road

29. Every carriage drawn by a horse or horses, every waggon drawn by any other animals or propelled by motive power, and every motor-car shall carry two conspicuous lights, one on either side,

and every two-wheeled cart, and every bicycle, tricycle and multicycle shall carry one conspicuous light,

when travelling on a road between dusk and dawn, except on clear moonlight nights.

Nuisance on roads

30. No person shall commit a nuisance on any road.

Trees.

Damage to trees

31. No person shall destroy or damage or cause to be destroyed or damaged,—

(*a*) any tree planted by, or under the charge of, the District Board or any Local Board ; or

(*b*) any gabion or other defensive enclosure erected for the protection of any such tree.

Tapping, or taking fruit from, trees on road

32. No person shall tap any date or palm tree, or remove fruit from any tree planted by, or under the control of, the District Board or any Local Board, without a lease or written permission previously obtained from the Chairman of the District Board or Local Board.

Fires.

Lighting of fires

33. No person shall light a fire in any unenclosed place within ten yards of any wooden bridge vested in the District Board, or within fifty yards of any Inspection or Dâk Bungalow vested in the District Board or a Local Board.

Bathing or washing

34. No person shall—

(*a*) bathe or wash any portion of his own body or the body of any other person ; or

(*b*) wash clothes ; or

(*c*) wash any cattle or other animal ; or

(*d*) allow any of his ducks, geese or other birds to enter the water in any reserved tank or well, or upon any of the banks, slopes, or sides of any reserved tank or well.

Fouling of water

35. No person shall—

(*a*) commit any nuisance in, or on the banks or slopes or sides of, any reserved tank or well, or

(*b*) throw any filthy substance thereinto, or

(*c*) in any way pollute the water thereof, or

(*d*) allow the water of any sink, sewer, cess-pool or privy or any offensive matter belonging to him or being on his land, to flow thereinto.

Explanation.—Steeping jute or bamboos and sinking boat in a reserved tank and putting branches or twigs of trees into any such tank amount to an offence against this bye-law.

36. No person shall cut sods or grass or remove earth or grass from, or otherwise damage, the sides or slopes of any reserved tank without the express permission of the District Board or a Local Board.

Removal of earth or grass from sides or slopes

37. No person shall allow any trees, bamboos or other vegetation growing on land in his occupation to overhang any reserved tank or well so as to foul the water thereof, or shall fail to cut and remove the same after reasonable notice in that behalf from the District Board or Local Board.

Overhanging trees or vegetation

38. No person shall cultivate the banks, sides or slopes of a reserved tank or well except in such manner as may be approved by the District Board or a Local Board or a Union Committee.

Cultivation on banks, sides or slopes of reserved tank or well

39. No person shall erect any hut or house upon the banks, sides or slopes of a reserved tank or well without the permission of the District Board or a Local Board or a Union Committee.

Building on banks, sides or slopes of reserved tank or well

40. No person shall construct dams, fix stakes or place nets or apparatus across, or in any reserved tank or well, or in any part of a river, *khal* or other channel set apart under section 90 of the Bengal Local Self-Government Act of 1885 for the supply of water for drinking and culinary purposes.

Dams, stakes and fishing apparatus

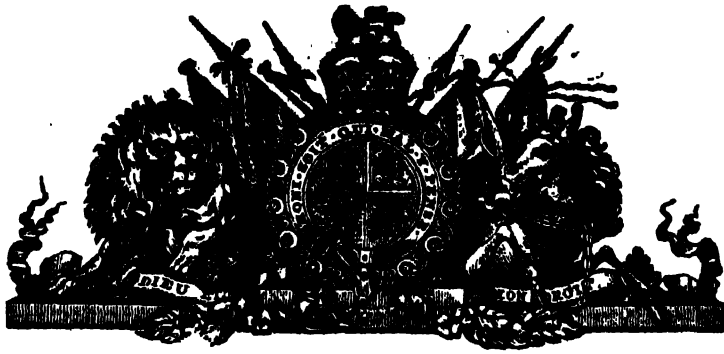
41. No person shall catch or attempt to catch fish in a reserved tank or well without the permission of the District Board or a Local Board or a Union Committee.

Fishing

Penalties.

42. (1) A breach of any of the bye-laws mentioned in column 1 of the following table shall be punished with fine, which may extend to the sum mentioned opposite thereto in column 2 of that table :—

1	2
Bye-law.	Maximum fine.
12, 22, 25 (6), 26, 27, 30 ...	Five rupees.
3, 5 (3), 11, 13, 25 (3), (4), (5) and (7), 40 ...	Ten „
14, 15, 16, 17, 18, 25 (1), 32, 36, 37, 38, 41 ...	Twenty „
10 and 33	Twenty-five rupees.
2, 4, 5 (1) and (2), 6, 7, 8, 9, 19, 20, 21, 23, 24, 25 (2), 28, 31, 34, 35, 39	Fifty rupees.
29	Motor-car, forty rupees; 2-wheeled cart, five rupees; other vehicles, twenty rupees.



(2) A continuing breach of bye-laws 2 (2), 4, 5 (2), 7 (2), 8, 9 or 10 shall be punished with a further fine, which may extend to five rupees for every day during which the breach is continued after the offender has been convicted of such breach.

Cancellation of former bye-laws.

43. The bye-laws framed by the District Board of Faridpur, which were confirmed by Government Notification, dated the 14th April 1888, Notification No. 4171L.S.-G., dated the 11th July 1898, and such other Notifications which confirmed the existing bye-laws of the Board are hereby cancelled.

Insert the following new rule after rule 104:-

"104A. For the payment of petty charges the Chairman may hold a permanent advance of not more than Rs. 20 which may be recouped out of the Union Fund as often as may be necessary in the manner prescribed in rules 65 and 66."

J. DONALD,
Offg. Secy. to the Govt. of Bengal.

CORPORATION OF CALCUTTA.

NOTICE.

BY virtue of the powers conferred thereon under section 73 (*c*) of the Calcutta Municipal Act, III (B. C.) of 1899, the Corporation of Calcutta propose to amend the Provident Fund Rules as shown below:—

Existing Rules.	*Proposed Rules.*
2 (*b*). "Salary" comprises only the fixed monthly salary received by each employee from the Corporation, and does not include any acting, officiating, personal or horse allowance, bonus, commission, or other remuneration, or profit whatever, uncertain in amount, or derived by any employee by any means outside his fixed ascertained salary.	2 (*b*). *Salary will comprise monthly substantive salary including acting or charge allowance if any, but no other allowance.*
3. Every Municipal officer and servant [other than persons excepted by section 73 (*c*) of Act III (B.C.) of 1899 and daily labourers] in receipt of not less than Rs. 15 per mensem in the service of the Corporation on 1st January 1902 and who is not contributing towards pension under the rules heretofore in force, and every person who shall join the service of the Corporation on or after that date, shall be subject to and governed by these Rules and Regulations, and every such officer or servant shall sign an agreement in the form annexed to these Rules and Regulations. Provided always that the General Committee may at any time admit any other officer or servant to the benefits of the Fund.	3. Every Municipal officer and servant [other than persons excepted by section 73 (*c*) of Act III (B.C.) of 1899 and daily labourers] in receipt of not less than Rs. 15 per mensem in the service of the Corporation on 1st January 1902, and who is not contributing towards pension under the rules heretofore in force, and every person who shall join the service of the Corporation on or after that date *in any grade higher than Rs.* 10—15, *or who may be admitted into a grade higher than Rs.* 10—15, shall be subject to and governed by these Rules and Regulations, and every such officer or servant shall sign an agreement in the form annexed to these Rules and Regulations. Provided always that the General Committee may, *if they think fit, in their absolute discretion* at any time admit any other officer or servant to the benefits of the Fund.
4. The General Committee shall appoint annually, in the month of April, two Trustees of the Fund, both of whom shall be Commissioners, and such two Commissioners together with the Chairman of the Corporation and an officer of the Corporation to be elected by the subscribers on or before the 15th day of April in each year. For the purpose of this section the officers of the Corporation qualified to be Trustees shall be the Vice-Chairman, Engineer, Health Officer, Secretary, Assessor and Collector. Provided always that the Trustees for the time being shall continue to hold office until their successors are appointed and that the General Committee and subscribers, respectively, shall have power to make *ad interim* appointments as to	4. *There shall be five Trustees of the Provident Fund, viz., the Chairman of the Corporation and the Solicitor, both ex-officio, two Commissioners to be appointed annually in the month of April by the General Committee of the Corporation and one officer of the Corporation to be elected by the subscribers to the Provident Fund on or before the 15th April, in each year.* For the purpose of this section the officers of the Corporation qualified to be Trustees shall be the Vice-Chairman, Engineer, Health Officer, Secretary, Assessor and Collector. Provided always that the Trustees for the time being shall continue to hold office until their successors are appointed and that the General Committee and *the* subscribers respectively shall

Existing Rules—contd.	*Proposed Rules*—contd.
whenever a vacancy or vacancies may occur among the Trustees.	have power to make *ad interim* appointments *in the case of any vacancy occurring among the Trustees appointed by the General Committee or elected by the subscribers as the case may be.* *Upon every such annual or ad interim appointment or election of Trust es, all property, investments, cash and other dues belonging to and representing the Provident Fund shall be deemed to vest in the Trustees to be so appointed and elected, subject to the powers and provisions contained in these rules, or any other rule which may hereafter come into force and operation.*
5. Subscriptions to the Fund shall be as follows :— (2) Voluntary : Any subscriber may contribute by monthly instalments such further sum as he may think proper, provided always that the total amount thus voluntarily contributed by him, in any one year, does not exceed 5 per cent. upon his salary for such year. Nothing in this rule shall prevent any officer or servant of the Corporation who is contributing towards pension under the rules heretofore in force, from making voluntary contributions to the Fund, provided such contribution does not exceed 5 per cent. upon his salary for such year.	5. Subscriptions to the Fund shall be as follows :— (2) Voluntary (*Class A*).—Any subscriber may contribute by *equal* monthly instalments such further sum as he may think proper; provided always that the total amount thus voluntarily contributed by him, in any one year, does not exceed 5 per cent. upon his salary for such year. * * * *
	(3) *Voluntary* (*Class B*).—*Any offic r or servant of the Corporation who is contributing towards pension may also make voluntary contribution by monthly instalments to the Provident Fund not exceeding 5 per cent. upon his salary for the year.*
8. Compulsory subscriptions shall be paid to the Managers by the Chairman by deduction from the pay of the officer or servant : voluntary subscriptions of any subscriber, including any officer or servant on the Pension Establishment who may elect to subscribe under the provisions of Rule 5 (2) shall be paid by such subscriber to the Managers, or at his option may be deducted from his pay-bill to be paid to the Managers.	8. *Voluntary subscriptions shall be paid direct to the Manager by the subscriber, or at the request of the subscriber be deducted by the Manager from the pay-bill of the subscriber. The Manager shall fourthwith credit each subscriber with the amounts of his subscriptions compulsory and voluntary, if any.*
9. For and in respect of each complete year ending with the 31st day of December, the Corporation shall, as soon after that date as may be practicable, contribute to the Fund a sum equal to the aggregate amount of the compulsory subscriptions for such year, and shall pay the same to the Managers. Provided always that it shall be lawful for the Corporation, in case of	9. For and in respect of each complete year ending with 31st day of *March* the Corporation shall, as soon after that date as may be practicable, contribute to the Fund a sum equal to the aggregate amount of the compulsory subscription for such year, and shall pay the same to the Managers. Provided always that it shall be lawful for the Corporation, in case of

Existing Rules—contd.

the death or termination of the service of an employee at any time before the 31st December in any calendar year, to contribute to the Fund a sum equal to the aggregate amount of the compulsory subscriptions paid by the said employee for the portion of that year.

10. The Managers shall, from time to time, pay into the Bank of Bengal at Calcutta, or any other Bank at Calcutta sanctioned by the General Committee, to the credit of an account to be opened in the names of the Trustees, all moneys received by the Managers after payment thereout of the expenses of management. All moneys to the credit of such account shall be dealt with only in accordance with these Rules and Regulations, and all or any portion of such moneys shall be withdrawn from such account only by cheques bearing the signatures of *two Trustees*, in addition to the signature of the Managers.

12. The Trustees shall, from time to time, upon the written requisition of the Managers, pay to them such sum or sums as may be required for the purposes of these Rules and Regulations, and shall, if necessary, raise the money required for the same by sale of the Securities held by the Trustees, or of a sufficient part thereof, or by loan on the security of the same.

13. On the 31st day of December in each year the Managers shall, after deducting the expenses of management, credit each subscriber with the equivalent of his compulsory subscription for the preceding year, as provided for under Rule 9, and thereafter having ascertained the amount available for division among the members arising from the interest accrued on Securities, any sums forfeited to the Fund under these Rules and Regulations, and all other moneys (if any) that should properly be brought into account, the Managers shall provisionally credit each subscriber, in proportion to the amount standing to his credit on each 31st December in respect of his total subscriptions, both voluntary and compulsory, with his share of the amount so ascertained.

Proposed Rules—contd,

the death or *cessation* of the service of a *subscriber* at any time before the 31st *March* in any *financial* year, to contribute to the Fund a sum equal to the aggregate amount of the compulsory subscriptions paid by *such subscriber* for the portion of that year.

10. The *Manager* shall, from time to time, pay into the Bank of Bengal at Calcutta, or any other Bank at Calcutta sanctioned by the General Committee, to the credit of an account to be *styled "the Calcutta Corporation Provident Fund Account"* all moneys received by the *Manager* after *retaining only sufficient to meet ordinary establishment expenses.* All moneys to the credit of such account shall be dealt with only in accordance with these Rules and Regulations, and all or any portion of such moneys shall be withdrawn from such account only by cheques bearing the signature of *two Trustees* in addition to the signature of the *Manager.*

12. The Trustees shall, from time to time, upon the written requisition of the *Manager*, pay to *him* such sum or sums as may be required for the purposes of these Rules and Regulations, and shall, if necessary, raise the money required for the same by *sale of or by raising a loan on the whole or a Sufficient portion of the Securities held by them as they may think fit.*

13. On the 31st day of *March* in each year the *Manager* shall, after deducting the expenses of management, credit each subscriber *contriing compulsory subscription* with the equivalent of his compulsory subscription for the preceding year, *out of the Corporation contribution under Rule 9*, and thereafter having ascertained the amount available for division among the members arising from the interest accrued on Securities, any sums forfeited to the Fund under these Rules and Regulations, and all other moneys (if any) that should properly be brought into account, the *Manager* shall provisionally credit each *such* subscriber in proportion to the amount standing to his credit in respect of his compulsory subscription, including the Corporation contribution on each *31st March.*

And in the case of each subscriber contributing voluntary subscription, the Manager shall provisionally credit each subscriber in proportion

Existing Rules—contd.

Provided that in the case of the death or termination of the service of any employee at any time before the 31st December in any calendar year, it shall be lawful for the General Committee, if they think fit, to authorise the Managers to pay the said employee or to his representatives, executors or administrators a sum equal to the aggregate amount of the compulsory subscription paid by him during the portion of the said year and adjust the accounts of the Fund accordingly.

14. On or as soon as may be after the 31st day of December of each year * * * * * * * * * * * in proportion to the amount at credit of each subscriber on the said 31st December.

15. A statement of account of each subscriber shall be made up to the 31st December of each year.

16. Except as is by these Rules and Regulations expressly provided no subscriber, or any person or persons on his behalf, in respect of his interest in the Fund, shall be entitled to claim any payment of money to him or them.

18. On the voluntary resignation or retirement of any subscriber from the service of the Corporation without the existence of any cause justifying his dismissal the Managers shall pay to him the aggregate amount subscribed by him to the Fund and the amount (if any) standing to his credit for interest. Provided that the Managers at the request or by the direction of the General Committee may pay to such subscriber the whole or such portion of the balance as they may in their discretion think fit.

Proposed Rules—contd.

to the amount standing to his credit on each 31st March in respect of his voluntary subscription with his share of the amount to be ascertained as aforesaid, exclusive of the amount of any forfeitures under the said Rules and Regulations.

Provided that in the case of the *cessation* of the service or death of any *subscriber* at any time before the 31st *March* in any *financial* year, it shall be lawful for the General Committee, if they think fit, to authorise the *Manager* to pay the said *subscriber* or to his representatives, executors or administrators, *as the case may be*, a sum equal to the aggregate amount of the compulsory subscription paid by him during the portion of the said year and adjust the accounts of the Fund accordingly.

14. On or as soon as may be after the 31st day of *March* of each year * * * * * * * * * * in proportion to the amount at credit of each subscriber on the said 31st *March*.

15. A statement of account of each subscriber shall be made up to the 31st *March* of each year.

16. Except as is by those Rules and Regulations expressly provided no subscriber, or any person or persons on his behalf, in respect of his interest in the Fund, shall be entitled to claim any payment of money to him or them.

16A. *The Manager shall pay the whole or part of the voluntary subcription of a subscriber within a fortnight from the date of receiving a written application from the subscriber in that behalf, provided always that no subscriber will be entitled to apply for such payment more than once in any one year unless his service in the Corporation ceases altogether in the same year.*

18. On the voluntary resignation or retirement of any subscriber from the service of the Corporation *or in case the services of any subscriber be dispensed with* * * * the *Manager* shall pay to him the aggregate amount subscribed by him to the Fund and the amount (if any) standing to his credit for interest. *And in the case of such resignation or retirement by any subscriber after a service of ten years the Manager shall pay to such subscriber a further sum equivalent to half the total amount of the Corporation contribution on account of the compulsory*

Existing Rules—contd

Proposed Rules—contd.

subscriptions of such subscriber during the period of his service. Provided nevertheless that the General Committee may in their absolute discretion direct the Manager to pay any subscriber retiring or resigning irrespective of the period of his service the whole or such portion of the balance to the credit of such subscriber on the 31st March previous to his resignation or retirement as they may think fit and the Manager shall forthwith pay such amount to such subscriber.

18A. *No subscriber shall, until he ceases to be in the service of the Corporation altogether, be entitled to the payment of the whole or any part of the Fund to his credit, save and except voluntary contribution which will be payable to him as provided in Rule 16A hereof. A subscriber whilst continuing in the service of the Corporation although under different agreements for specified periods without any actual break or interruption in the service or holding different posts for different periods shall not be entitled to withdraw the whole or any portion of the Fund to his credit for any such period, save and except voluntary contribution as aforesaid, by reason of the termination of any previous agreement or on ground of holding a new or different post until he altogether ceases to be in the service of the Corporation.*

Existing Rule 21:

21. The Corporation shall have a first and paramount charge upon the amount, from time to time, standing to the credit of each subscriber, and upon all other moneys of the Fund in or to which he may be interested or entitled for, and in respect of all losses, damages, costs, and expenses which the Corporation may at any time pay, sustain, or be put to, by reason of any act of embezzlement, or default *of* or by such subscriber. and the amount from time to time standing to the credit of each subscriber, and all such other moneys as aforesaid, shall be deemed and treated as a deposit made by him with the Corporation as security for his fidelity, and be dealt with accordingly, and in the event of any claim arising by the Corporation against any subscriber under this Rule, the same shall be paid, so far as the Funds in which such subscriber shall be interested shall extend, by the Fund to the Corporation on the written requisition of the General Committee, and such subscriber shall

Proposed Rule 21:

21. The Corporation shall have a first and paramount charge upon the amount, from time to time, standing to the credit of each subscriber, and upon all other moneys of the Fund in or to which he may be interested, or entitled for, and in respect of all losses, damages, costs and expenses which the Corporation may at any time pay, sustain, or be put to, by reason of any act of embezzlement, or default of or by such subscriber. and the amount from time to time standing to the credit of each subscriber, and all such other moneys as aforesaid, shall be deemed and treated as a deposit made by him with the Corporation as security for his fidelity, and be dealt with accordingly, and in the event of any claim arising by the Corporation against any subscriber under this Rule the same shall be paid *unless otherwise satisfied by the subscriber*, by the *Manager to the Corporation by and under the direction of the General Committee in that behalf out of the amount for the time being to the credit of such*

Existing Rules—concld.	*Proposed Rules*—concld.
absolutely forfeit all right and interest thereto and therein.	*subscriber or other the amount which may accrue to his credit thereafter, and such subscriber shall absolutely forfeit all rights and interest in the amount to be so paid as aforesaid.*
23. No subscriber shall be entitled to transfer or assign, whether by way of security or otherwise, howsoever his share or interest in the Fund, or any part thereof, and no such transfer or assignment shall be valid, and the Managers, Trustees or General Committee shall not recognize or be bound by notice to them, respectively, of any such transfer or assignment and all moneys standing in the books of the Fund to the credit of the subscriber so transferring his interest as aforesaid, shall forthwith be forfeited, as from the date of such transfer or assignment to the use of the Fund, and be dealt with accordingly, and further if any prohibitory order, or attachment, or process of a Civil Court be served upon the Managers, Trustees, General Committee or Corporation or any of them, or any person on their behalf, by which any moneys standing to the credit of any subscriber in the books of the Fund shall be attached, or be ordered to be paid into a Civil Court, or be ordered to be withheld from such subscriber, such moneys shall forthwith be forfeited to the use of the Fund, and be dealt with accordingly.	23. No subscriber shall be entitled to transfer or assign, whether by way of security or otherwise, howsoever his share or interest in the Fund, or any part thereof and no such transfer or assignment shall be valid, and the *Manager*, the Trustees or the General Committee respectively shall not recognise or be bound by the notice of any such transfer or assignment and all moneys standing in the books of the Fund to the credit of the subscriber so transferring his interest as aforesaid, shall forthwith be forfeited as from the date of such transfer or assignment, to the use of the Fund, and be dealt with accordingly. * *
Provided that the General Committee shall be at liberty, if they shall so think fit, at any time thereafter, to give such moneys or any part thereof for the benefit of such employee, or his wife, children, or relations, and the Managers shall deal with such moneys accordingly on the written requisition of the General Committee.	Provided that the General Committee shall be at liberty, if they shall so think fit, at any time thereafter to give such money or any part thereof for the benefit of such *subscriber* or his wife, children, or relations, and the *Manager* shall deal with such moneys *in accordance with the direction of the General Committee in that behalf.*
N.B.—(1) The above Rules shall not apply to those who are already contributing towards pension.	To be deleted.

Objections to the proposed modifications, if any, will be received by the undersigned up to 22nd October 1913, after which the draft rules will be further proceeded with.

A course of two academic years leading to the Sub-Overseer Examination of the Board.

Admission qualifications—

To the 1st-year class—The Matriculation Examination of the Calcutta University, Middle School Examination, or equivalent.

To the 2nd-year class—The Final Examination of B classes of zilla schools.

Admissions—

To 1st-year class—1st Monday in June.

To 2nd-year class—Immediately the result of the Final Examination of the B classes of zilla schools is announced.

Section II.—The Overseer Classes.

A choice of three special branches is offered :—

(1) Civil Engineering, preparing for the Board's certificate of Overseer (Civil Branch).

(2) Mechanical and Electrical Engineering, preparing for the Board's certificate of Overseer (Mechanical and Electrical Branch).

(3) Mining leading to the Government of India's Diploma in the Principles of Mining.

Admissions which are limited to 40 in each branch are made from among the successful candidates immediately the results of the Sub-Overseer Examination are announced.

Section III.—Practical Training.

[Lasting for a full year (of 313 working days).]

This practical training is carried out under the regulations of the Board for the Civil and Mechanical and Electrical Engineering Branches in the workshops or Electrical Department of the College, or under Government or other public bodies or firms approved for this purpose by the Board. On the satisfactory completion of this training the following certificates are awarded :—

Civil Branch	Sub-Engineer. Upper Subordinate.
Mechanical and Electrical Branch	Full course certificate.

III.—CLASSES IN TINCTORIAL CHEMISTRY AND DYEING.

A two-year courses in Tinctorial Chemistry and Dyeing leading to a College Diploma is offered.

Admissions.—1st Monday in November.

Qualification for regular students.—Intermediate examination of the Calcutta University in Engineering, Science or Arts (with Chemistry); the Final Examination of Government Weaving Institute.

For occasional students.—A sufficient general education with a practical knowledge of Dyeing.

IV.—WORKSHOPS.

Industrial classes in the following shops :—

Carpenters.	Turners.
Blacksmiths.	Pattern-making.
Fitters.	Foundry and Brass and Iron.

Admissions at any time of the year.

For further information apply to the Principal, Civil Engineering College, Sibpur.

B. HEATON, *Principal, Civil Engineering College.*

SIBPUR, *the 26th April 1912.*

DR. CHANDRA'S SCHOLARSHIP IN MATERIA MEDICA AND THERAPEUTICS.

THE above scholarship of the value of Rs. 361-8 will be awarded to the most successful candidate who will be selected at an examination to be held this year in November 1913.

The examination is open to—

(1) All senior students of the Medical College, Calcutta.

(2) Any *ex*-senior student of the Medical College who may at the time of the examination be studying at any Medical College in India or Europe.

(3) Any graduate or licentiate in Medicine of whatever standing and however employed who may have obtained either in Europe or in India a Medical diploma or degree entitling him to practise Medicine, provided that such graduate or licentiate at some time received a portion of his professional education in the Medical College, Calcutta.

Certificates to the effect that the candidate fulfils the above requirements, together with one of good moral character signed by a person of respectability, should be submitted to the Principal, Medical College, Calcutta, on or before the 10th October 1913.

Candidates are required to write a thesis on "An Enquiry into the Pharmacological Properties and Therapeutical Uses of Acolypha Indica (Bengali Mukta-Jhuri Natural Order Euphorbioceoe," and submit the same to the Professor of Materia Medica and Therapeutics, Medical College, Calcutta, by the 30th November 1913.

Personal attendance at the examination is not necessary.

Preference will be given to the candidate whose thesis bears evidence of original investigation of any worth in connection with the above plant.

The scholarship will be tenable for one year; but it may be tenable for two years in case of exceptional merit on the recommendation of the examiner.

CALCUTTA,
The 29th August 1913.

B. H. DEARE, LT.-COL., I.M.S.,
Offg. Principal. Medical College.

— —

NOTIFICATION.

ENGLISH TEACHERSHIP EXAMINATION, 1913.

THE examination will be partly written and partly oral and practical.

2. The written examination will be held at the Training School at Calcutta on the 1st December 1913 and the two following days. Three papers will be set, as shown below—

				Marks.
I.—Art of teaching,	1st December,	10 A.M. to	2 P.M.	... 100
II.—Discipline,	2nd ,,	10 ,,	2 ,,	... 100
III.—Organisation,	3rd ,,	10 ,,	2 ,,	... 100

3. The oral and practical examination will be in actual class teaching and in notes of lessons. The necessary arrangements for holding this examination will be made by Inspectors of Schools. One hundred marks will be assigned to this examination.

4. In the case of a candidate who is a teacher, the Inspector may, at his discretion, conduct the practical examination at the candidate's own school. This examination may be conducted any time in the month of December 1913.

5. Candidates obtaining 50 per cent. of the marks or upwards in each of the subjects, both written and practical, will be declared to have passed, and will be granted English Teachership Certificates, under the signature of the Director of Public Instruction.

6. Candidates for first-grade certificates must have passed the B. A. Examination. Candidates for second-grade certificates must have passed the F. A. Examination, and served as teachers for at least three years. Candidates for third-grade certificates must have passed the Entrance Examination, and served as teachers for at least three years.

A teacher who has held a certificate of a certain grade with credit for five years will also be permitted to compete for the next higher grade of certificate, if his capacity as a teacher and his knowledge of the subjects of examination are certified as satisfactory by the Inspector of Schools.

7. Candidates for the examination should apply, on or before the 30th October 1913, to the Head Master of the Training School at Calcutta, and should send a fee of Rs. 5 at the same time.

8. Candidates who have failed at a previous examination will be admitted to the examination, if they have worked as teachers for at least six months since their failure.

9. Further particulars regarding the examination will be supplied on application by Head Masters of Training Schools.

CALCUTTA, W. W. HORNELL,

The 10th September 1913. *Director of Public Instruction, Bengal.*

NOTIFICATION.

THE FIRST AND SECOND DEPARTMENTAL EXAMINATIONS, DECEMBER 1913.

(*In connection with the first-grade Vernacular Training Schools.*)

THE first and second Departmental Examinations of first-grade Training Schools in the Presidency and Burdwan Divisions of Bengal will be held on the 29th November, 1st, 2nd, 3rd, 4th, 5th and 6th days of December 1913.

2. The examination will be held at the first-grade Training Schools at Calcutta and Hooghly and at the Church Missionary Society's Training School, Krishnagar.

3. The following classes of candidates will be eligible for the first Departmental Examination :—

(*i*) Students of the second-year class of first-grade Training Schools.

(*ii*) Candidates other than students included in (*i*), who failed to satisfy the examiners at the first Departmental Examination of 1912.

(*iii*) *Bonâ-fide* teachers holding second grade Vernacular Mastership Certificates.

(*iv*) *Bonâ-fide* teachers who—

(1) have passed either (*a*) the Primary *in situ* examination, or (*b*) a public examination of the Middle Vernacular Standard, or (*c*) some higher examination, and

(2) have worked as teachers for at least two years since passing it, and

(3) have also passed, after serving for at least one year as a teacher, the final examination of a Guru-Training School (conducted on a Middle Vernacular basis)—

(*i*) in all the subjects prescribed for the final Guru-Training School examination,—if qualified as at (*a*),

(*ii*) only in the Theory and Practice of Teaching—if qualified as at (*b*) or (*c*).

(*v*) *Bonâ-fide* teachers who—

(1) as regular students of Guru-Training Schools have passed after the prescribed term of training the final examination of a Guru-Training School (on Middle Vernacular basis), and

(2) have worked as teachers for at least three years since passing it.

4. The following classes of candidates will be eligible for the second Departmental Examination:—

(i) Students of the third-year class of first-grade Training Schools.
(ii) *Bonâ-fide* teachers who have passed the first Departmental Examination and have worked as teachers for one year since passing it.
(iii) *Bonâ-fide* teachers holding second-grade certificates earned prior to 1902.

5. Teachers holding first-grade or second-grade Vernacular Mastership Certificates under the old system prior to 1902 may be examined in any or all of the following groups of subjects of the first or second Departmental Examination under the new system—

(i) Elementary Science.
(ii) Drawing and Practical Geometry.
(iii) The Art of Teaching.
(iv) Manual Work and Drill.
(v) English—"Direct Method of Teaching English."

6. Teachers who hold first-grade Vernacular Mastership Certificates under the old system prior to 1902 must take the examination which is prescribed in the aforesaid subjects for canditates for the second Departmental Examination; similarly teachers who hold second-grade certificates under the old course must take the examination which is prescribed in these subjects for candidates for the first Departmental Examination.

7. Candidates who are not students of a Government first-grade Training school are required by the 30th September 1913 to remit to the Head Master of the School at which they elect to be examined a written application for admission to the examination together with a fee of one rupee. Full information will be furnished by the Head Masters of those schools on application.

8. Complete lists of candidates for examination, accompanied with the applications of external candidates, must be transmitted by Head Masters of Training Schools to the undersigned by the 3rd October 1913. The fees received from candidates must be deposited in the local treasury, and the chalans sent to this office along with the lists of candidates.

9. The current session of Training Schools will end on the 31st December 1913, and the new session will begin on the 1st January 1914.

They are reported by the Instructor to have shown exemplary diligence, and to have made good progress.

W. H. EVERETT,
Offg. Superintendent of Industries and Inspector of Technical and Industrial Institutions, Bengal.

RULES FOR THE GUIDANCE OF PRIVATE CANDIDATES FOR THE MATRICULATION EXAMINATION OF 1914.

THE following rules for the guidance of private candidates for the Matriculation Examination are published for general information.

2. Private students are those who have not attended any recognised or unrecognised school for at least one year previous to the examination. The term "private students" includes *bonâ fide* school-masters.

3. Private students must appear at the Test Examination of one of the following institutions on the dates mentioned against it:—

	Name of School	Date of Test Examination
1.	Comilla Zilla School ...	11th, 12th, 13th and 15th December 1913.
2.	Noakhali Zilla School ...	Ditto.
3.	Chittagong Collegiate School	Ditto.
4.	Rangamati High English School.	Ditto.

Each private student will pay a fee of Rs. 2 to the head of the institution in which he appears for the Test Examination. The balance after the payment of expenses (stationery, etc.) will go to the examiners as remuneration. No private student will be admitted to the Test Examination unless he is accompanied for the purpose of identification by some person known to the Head Master of the institution at which he appears.

4. Application for permission to appear must be sent in time to reach this office not later than the 1st November 1913. The information to be given and the documents to be appended in original are the following:—

(*a*) The name of the school in which the candidate last studied;

(*b*) the Transfer Certificate in original granted to the candidate by the Head Master of the school in which he last read; or

(*c*) in the case of a candidate who previously appeared at the Matriculation Examination the Registrar's receipt in original for the fee paid.

(*d*) Age of the candidate. No candidate who has not completed the age of 16 years on the first day of the Matriculation Examination will be allowed to appear at it.

(*e*) In the case of school-masters a certificate of good conduct from the Secretary or proprietor of the school in which he is serving, or from the Deputy Inspector of the district concerned.

(*f*) A certificate from a respectable gentleman to the effect that the candidate has prosecuted a regular course of study and has been subject to proper discipline and that he has not read in any school since the last Matriculation Examination.

(*g*) A statement by the candidate giving the following facts:—

- (i) Residence.
- (ii) Father's name.
- (iii) Second language besides English.
- (iv) Vernacular language for composition.
- (v) Vernacular language from which translation is to be made into English in the first English paper.
- (vi) Which of the following subjects he has taken up:—
  - (i) Additional Mathematics.
  - (ii) Additional paper in the classical language.
  - (iii) History.
  - (iv) Geography.
  - (v) Elementary Mechanics.

N B—A student who failed to pass the annual examination for promotion to the first class at the end of the session 1912 and then left the school can, under no circumstances, be allowed to appear at the examination

5. The Inspector on being satisfied will countersign and return the application, which will then be the candidate's passport for admission to the Test Examination.

6. Every candidate must deposit his fee for the test examination with the Head Master of the institution in which he intends to appear, at least 15 days before the date of that examination.

7. The Head Masters of the institutions named above should direct private students who satisfy the test to appear before them in due time with their applications for admission to the Matriculation Examination and to sign them in their presence. They will then grant the necessary certificates and forward the application to the Inspector for countersignature, after which they will be sent by the Inspector direct to the candidates.

8. In no circumstances should the fee for the Matriculation Examination be sent to the Inspector's office. It should be sent to the Registrar by the candidates themselves together with the countersigned applications.

9. Private students must understand that the Test Examination of any school other than those named above will not be accepted by the Inspector.

10. The Matriculation Examination will be held on the 2nd March 1914 and the following days. The applications and fees must reach the office of the Registrar on or before the 17th January 1914.

CHITTAGONG, ASHANULLAH,

The 5th September 1913. *Offg. Inspector of Schools, Chittagong Divn.*

RULES FOR THE GUIDANCE OF PRIVATE CANDIDATES FOR THE INTERMEDIATE AND B.A. EXAMINATIONS, 1914.

Bonâ fide teachers of middle schools recognised by the University or of any other schools approved for the purpose by the Syndicate who have served as such for full period of three academical years preceding the examination will be admitted to the Intermediate and B.A. Examinations as non-collegiate students.

2. Applications for permission to appear at the abovementioned examinations in the printed form prescribed by the University must be submitted to the Inspector of Schools for signature on or before the 10th January 1914 with the following papers:—

1. Registrar's orders showing that the candidate's name has been registered as a University student.
2. Permission of the Senate allowing the candidate to appear at the examination.
3. F.A. certificates by candidates for B.A. Examination or Matriculation certificates by candidates for the Intermediate Examination and also the Registrar's receipt by candidates who had been admitted to a former examination.
4. Certificates of good character, length of service and diligent and regular study from Secretaries of the schools in which the candidates may be serving.

3. No candidate shall be admitted to the abovementioned examinations who has been enrolled as a regular student of a college during the twelve months previous to the date of the examination at which he applies for permission to appear.

4. The Intermediate and B.A. Examinations of 1914 will be held on the 16th March 1914 and following days. The applications and fees for admission must reach the office of the Registrar on or before the 31st January 1914.

CHITTAGONG, ASHANULLAH,

The 5th September 1913. *Offg. Inspector of Schools, Chittagong Divn.*

ORDERS BY THE HON'BLE THE VICE-CHANCELLOR AND SYNDICATE OF THE CALCUTTA UNIVERSITY.

The undermentioned candidates are declared to have passed the M. A. Examination held in June, 1913 :—

The results of the Examination in Physiology will be published later on.

P. BRÜHL,
Offg. Registrar.

SENATE HOUSE.
The 15th September 1913.

NOTIFICATION.

TEST EXAMINATION OF PRIVATE CANDIDATES FOR MATRICULATION EXAMINATION, 1914.

A TEST EXAMINATION of private students, who have not attended any school recognised or unrecognised for at least one year previous to the ensuing examination, will be held at the office of the Inspector of Schools, Presidency Division, 285, Bow Bazar Street, Calcutta, from Monday, the 1st December 1913. Such candidates only as reside in any of the districts of the Presidency Division, including Calcutta, will be admitted to the examination. The term "private student" includes school-masters.

2. Private candidates are students, who have not attended any school for at least one year previous to the Matriculation examination. They should produce proof that they have not attended any school for such period. They should also produce certificates of conduct and progress in studies from the authorities of the last school where they read, and also a certificate from other reliable authorities regarding conduct and progress in studies after leaving school. The transfer certificates granted to them by the authorities of the schools in which they studied last, or the Registrar's receipt for the fee paid in the case of those candidates who previously appeared at the Entrance or the Matriculation examination, must be submitted in original along with the application for permission to appear at the test examination. A statement of antecedents of the candidate should accompany his application. He should state whether he read in any unrecognised school, and if so, in what school and in what year. A student who failed to pass the annual examination for promotion to the first class at the end of session 1912-13 and then left the school will, under no circumstances, be allowed to appear at the Matriculation examination of 1914.

3. *Bonâ fide* teachers employed in any of the schools in the Presidency Division may be admitted to the examination; they must produce certificates of service and character from their employers or from the Deputy Inspector of Schools of the district concerned.

4. No one shall be admitted to the Matriculation examination unless he completes the age of sixteen years on the first day of the month in which the Matriculation examination is held.

5. Each candidate should submit to this office, not later than the 1st November 1913, his application for admission to the test examination, with the following particulars:—

(1) Age, (2) residence, (3) father's name, (4) whether he appeared at any previous Entrance or Matriculation examination, (5) second language besides English, (6) Vernacular language, and (7) which two of the following optional subjects he has taken up:—

(*a*) Additional Mathematics.

(*b*) Additional paper in the Classical language.

(*c*) History.

(*d*) Geography.

(*e*) Elementary Mechanics.

6. The admission-fee for the examination is Rs. 6 for each candidate, and is to be remitted with the application on or before the prescribed date, after which a fine of Rs. 2 is to be imposed for each week's delay. Under no circumstances the admission-fee will be refunded.

7. No private student will be admitted to the test examination unless he is satisfactorily identified.

8. Candidates who are sent up by this office must appear at the Calcutta Examination centre.

9. Those who reside at a distance from Calcutta may, with special permission, present themselves at the test examination held by the head master of the nearest zilla or Government high school within the Presidency Division on condition that they appear at the centre selected by the candidates from that institution. The head master of such school is hereby

authorized to sign the applications, which must afterwards be countersigned by the undersigned. The fees and fines paid by these candidates as per paragraph 6 above should be utilized in meeting the cost of the examination.

10. The Matriculation examination in 1914 will be held on the 2nd of March 1914 and following days.

11. Applications and fees for admission to the examination must reach the office of the Registrar on or before the 17th of January 1914.

12. *Programme of Examination—*

	Morning	After noon
Monday, 1st December ...	English Translation	English Text and Grammar.
Tuesday, 2nd December ...	Compulsory Mathematics.	Vernacular Language.
Wednesday, 3rd December	Compulsory Classical Language.	Additional Classical Language.
Thursday, 4th December...	History ...	Additional Mathematics.
Friday, 5th December ...	Geography ...	Mechanics.

INTERMEDIATE AND B.A. EXAMINATIONS IN 1914.

Deputy Inspectors, Sub-Inspectors, and *bonâ fide* teachers of English schools in the Presidency Division who have been employed as such for at least three years preceding the examination will be admitted to the above examinations on production of certificates of character and length of service (with dates) from their employers. Laboratory Assistants and Demonstrators and Librarians of affiliated colleges will be treated as teachers. ***Their applications must reach this office on or before the 4th December 1913.***

1. In accordance with section 9, Chapter XV, of the revised Regulations dealing with the registration of University students, all candidates, who intend to appear at any of the ensuing examinations of the University of Calcutta otherwise than as students of some affiliated institutions and who have applied for or have obtained the special permission of the Senate for the purpose, are required to apply to the Registrar of the Calcutta University for the registration of their names as University students. No person will be deemed a "University student" unless and until his name has been duly registered, and none but "University students" will be eligible for admission to any University examination other than the Matriculation. A registration fee of Rs. 2 must accompany every application.

2. Candidates for the B.A. examination must send their F.A. certificates, and candidates for the Intermediate examination their Entrance or Matriculation certificates, together with a letter in original, from the Senate of the Calcutta University, permitting them to appear at the examination.

3. Candidates should carefully read the printed form of application and supply all the information required by the University, including the Registrar's receipt in the case of those school-masters who were admitted to a previous examination of the same class.

4. The Intermediate and B.A. examinations in 1914 will be held on the 16th March 1914 and following days.

5. Applications with the countersignature of the undersigned and fees for admission to the above examinations must reach the ***office of the Registrar on or before the 31st January 1914*** and must be sent to that office by the candidates direct.

P. MUKERJI,

Inspector of Schools, Presidency Division.

Jessore, the 29th August 1913. JAGADISH CHANDRA SEN, Deputy Collector, *for* Collector.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate, situate in the district of Murshidabad, will be put up to sale locally at the estate in police-station Gokarna, subdivision Kandi, district Murshidabad, at 12 A.M. (noon) on the 22nd September 1913, corresponding to 6th Aswin 1320 B.S.

The purchasers will be subject to the following conditions of sale :—

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price which will be fixed by the Deputy Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire preprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, and after issue of advertisement, as in the case of original sale.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD

THE Indian Law Reports published under the authority of the Governor General in Council are printed in monthly Parts, which are issued as soon as possible after the first of each month at Calcutta, Madras, Bombay and Allahabad respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge Bengal Secretariat Book Depôt, Calcutta, or

the Superintendent, Government Press, Madras, or

the Superintendent, Government Central Press, Bombay, or

the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

PRICES

APPENDIX.

NOTICES TO MARINERS.

THE following Notices are published for general information.

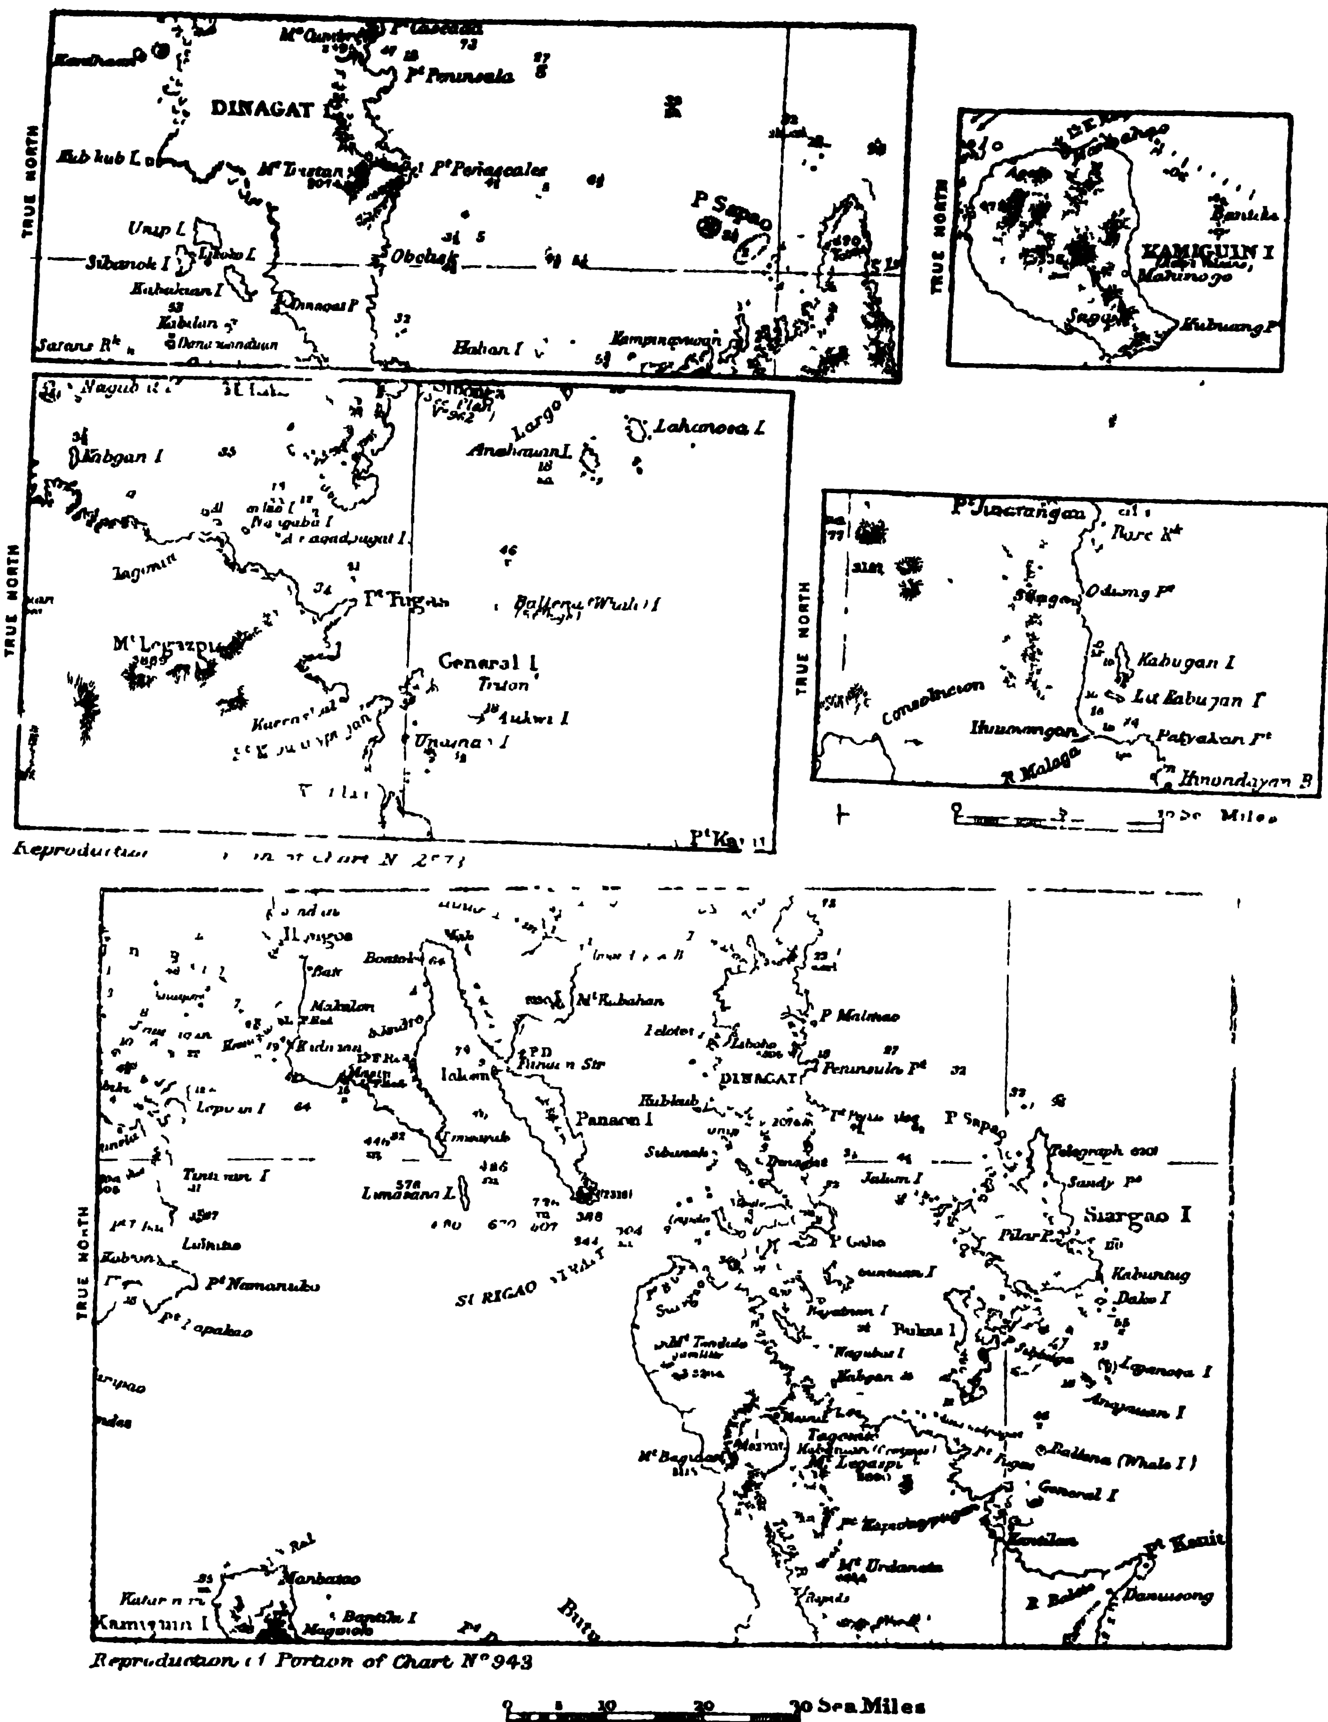
H. H. GREEN,
Offg. Secy. to the Govt. of Bengal

CALCUTTA, *the 12th September 1913.*

EASTERN ARCHIPELAGO—PHILIPPINE ISLANDS.

Mindoro sea—Existence of shoals.

No. 449 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1125 of 1913), are republished:—



Position.—Lat. 10° 00′ N., long. 126° 00′ E.

Details.—The recently discovered shoals in the vicinity of Dinagat, Siargao, and Bukas islands, are shown on the accompanying reproductions of portions of charts Nos. 2578 and 943.

Charts affected.—No. 2578, Sulu or Mindoro sea, eastern part.
„ 943, Molucca passage to Manila.
„ 1263, China sea.
„ 781, Pacific, north-west sheet.

Publication.—Eastern Archipelago, Part I, 1911, pages 636, 637.

Authority.—U.S.A. Government Chart.

Reproduction of Portion of Chart N° 943

0 5 10 20 30 Sea Miles

JAPAN—INLAND SEA.

Okikamuro shima—Wreck south-westward of.

No. 450 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1126 of 1913), are republished :—

> ***Position.***—Lat. 33° 50′ 26″ N., long. 132° 19′ 12″ E., on chart No. 3154.
>
> ***Description.***—The wreck of a sailing vessel with a mast projecting above water.
>
> ***Charts affected.***—No. 3154, Ominase to Gogo shima.
> „ 2875, Naikai (Seto uchi).
>
> ***Publication.***—Japan, Korea and adjacent sea, 1904, page 490.
>
> ***Authority.***—Tokyo Notice, No. 170 of 1913.

JAPAN—GULF OF OSAKA.

Kobe—Existence of wreck.

No. 451 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1127 of 1913), are republished:—

Position.—At a distance of 1$\frac{8}{10}$ miles, 197° (*S. 22° W. Mag.*), from Wada Misaki lighthouse.
Lat. 34° 37¾′ N., long. 135° 10¼′ E.
Description.—The sunken wreck of the lighter *Yawata Maru.*
Remarks.—"(*Position approximate*)" has been placed against the above wreck.
Variation.—5° W.
Charts affected.—No. 16, Kobe and Osaka.
" 1366, Izumi nada and Harima nada.
" 2875, Naikai (Seto uchi).
Publication.—Japan, Korea and adjacent sea, 1904, pages 422, 423.
Authority.—Tokyo Notice, No. 164 of 1913.

CHINA SEA—FORMOSA.

Tamsui harbour approach—Buoy removed.

No. 452 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1130 of 1913), are republished:—

Position.—At a distance of 19¾ cables, 260° (*S. 81° W. Mag.*), from the centre of Tamsui old fort
Lat. 25° 10½′ N., long. 121° 23¼′ E.
Description.—A red conical buoy surmounted by a triangle.
Variation.—1° W.
Charts affected.—No. 2376, Tamsui harbour, plan.
" 3658, Auran road to So o wan.
" 1761, Ockseu islands to Tung yung.
Publication.—China Sea Pilot, Vol. V., 1912, page 224.
Authority.—Tokyo Notice, No. 159 of 1913.

SOUTH-WEST PACIFIC—NEW IRELAND—KAWIENG HARBOUR.

(1) Alterations in buoyage and beaconage.

(2) Beacon established.

No. 453 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1145 of 1913), are republished:—

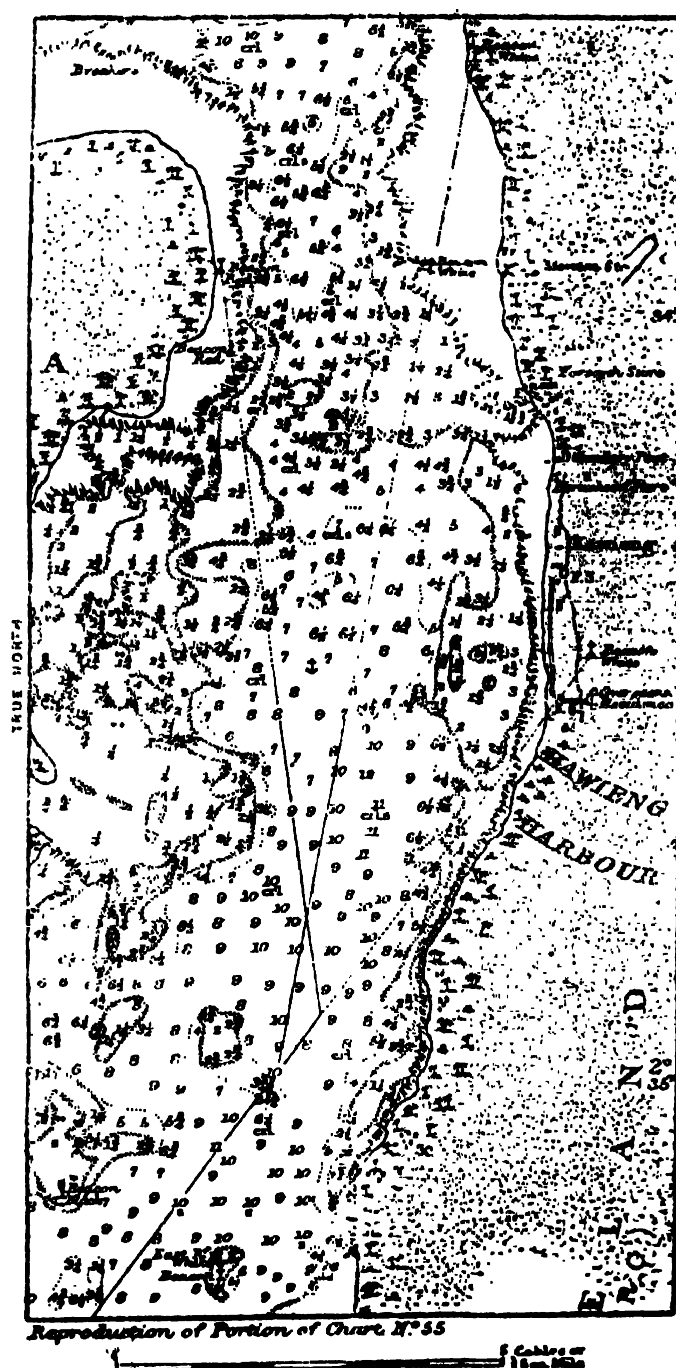
(1) Alterations in buoyage and beaconage.

Position.—Kawieng harbour, lat. 2° 34½′ S., long. 150° 17½′ E.

Details.—The alterations in the buoyage and beaconage of Kawieng harbour are shewn on the accompanying reproduction of a portion of chart No. 55.

(2) Beacon established.

Position.—Southward of Cape Siwusat, at a distance of 7 $\frac{6}{10}$ cables, 205° (*S. 19° W. Mag.*), from Nissel pass beacon.
Lat. 2° 36′ 46″ S., long. 150° 46′ 56″ E., on chart No. 55.



Description.—A white beacon.

Variation.—6° E.

Chart affected.—No. 55, Kawieng harbour, plan.

Publication.—Pacific Islands. Vol. I., 1908, pages 357, 358.

Authority.—Berlin Notice, No. 1151 of 1913.

Reproduction of Portion of Chart No 55

AFRICA, SOUTH COAST—SIMON'S BAY.

(1) Mooring-buoys removed.

(2) Mooring-buoy moved.

No. 454 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1152 of 1913), are republished:—

(1) Mooring-buoys removed.

Position (a).—Lat. 34° 11′ S., long. 18° 26′ E.

Description.—"Penelope," mooring-buoy No. 9.

Position (b).—Lat. 34° 11¼′ S., long. 18° 26′ E.

Description.—Mooring-buoy No. 8.

(2) Mooring-buoy moved.

Position.—At a distance of 370 yards, 77° *(S. 76° E. Mag.)*, from the head of Admiral's jetty, and 55 yards, 33° *(N. 60° E. Mag.)*, from its present position.
Description.—Mooring-buoy No. 5.
Variation.—27° W.
Chart affected.—No. 1849, Simon's bay.
Publications.—Africa Pilot, Part II., 1910, page 386.
Africa Pilot, Part III., 1905, page 83.
Authority.—Senior Naval Officer, Cape of Good Hope, 9th July 1913.

AFRICA—ITALIAN SOMALILAND.

Brawa—Light removed.

No. 455 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1159 of 1913), are republished:—

Position.—On the Residency.
Lat. 1° 6½' N., long. 44° 02½' E.
Description.—A fixed white light.
Chart affected.—No. 671, Brawa anchorage, plan.
Publications.—List of Lights, Part VI., 1913, No. 79*a*.
Africa Pilot, Part III., 1905, page 515.
Authority.—Genoa Notice, No. 183 (497) of 1913.

AUSTRALIA—NORTH COAST.

Clarence Strait—Henry Ellis reef—Non-existence of beacon.

No. 456 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1168 of 1913), are republished :—

Position—Lat. 12° 05½' S., long. 131° 00½' E.
Remarks.—The above beacon no longer exists and has been expunged from the charts.
Charts affected.—No. 1095, Clarence strait.
„ 613, Melville island with Dundas and Clarence straits.
„ 1014, Groote Eylandt to Cape Ford.
Publication.—Australia Directory, Vol. III., 1905, page 111; Revised Supplement, 1912.
Authority.—H. M. Surveying Ship "Fantome," Hydrographical Note, No. 4 of 1913.

AUSTRALIA—NEW SOUTH WALES.

Laggers point—Light discontinued.

No. 457 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1169 of 1913), are republished :—

Position.—Lat. 30° 53' S., long. 153° 05¼' E.
Description.—A fixed white light exhibited from a flagstaff.
Remarks.—A *fixed white* light has been installed on a rock on the western shore of Trial bay, in place of the above light. Full details of the new light will be given in a later Notice.

The 5th September 1913

JAPAN—GULF OF TOKYO.

Kannon zaki—Obstruction south-eastward of removed.

No. 432 (*second publication*).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1078 of 1913), are republished :—

Former Notice.—No. 688 of 1913. (*This office No. 307 of 1913.*)
Position.—At a distance of 6$\frac{4}{10}$ cables, 116° (*S. 60° E. Mag.*), from Kannon zaki lighthouse.
Lat. 35° 15′ N., long. 139° 45′ E.
Description.—An obstruction reported to project a few feet above low water.
Note.—“ *Obstruction (1913)*” has been erased from the charts.
Variation.—4° W.
Charts affected.—No. 3548, Yokohama to Uraga,
„ 2657, Gulf of Tokyo or Yedo.
„ 953, Omai saki to Tsurugi saki.
„ 996, Kii channel to Tokyo.
„ 3334, Tokyo to Sendai bay.
Publication.—Japan, Korea, &c., 1904, page 365.
Authority.—Tokyo Notice, No. 150 of 1913.

YELLOW SEA—WEST COAST OF KOREA.

Ping Yang inlet—Alteration in position of buoy.

No. 433 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1082 of 1913), are republished :—

Position.—At a distance of 4½ cables, 259° (*S. 85° W. Mag.*), from its former position, and 1$\frac{1}{10}$ miles, 64° (*N. 70° E. Mag.*), from Sister island light.
Lat. 38° 41¼′ N., long. 124° 59¾′ E.
Description.—A black conical buoy with a cylindrical topmark.
Variation.—6° W.
Charts affected.—No. 1656, Ping Yang inlet.
„ 1257, Approaches to Ping Yang inlet.
Publications.—Japan, Korea and adjacent seas, 1904, page 39 ; Revised Supplement, 1909.
China Sea Pilot, Vol. V., 1912. page 584.
Authority.—Tokyo Notice, No. 154 of 1913.

PERSIAN GULF.

Jezirat Tanb—Tide rips northward of.

No. 434 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1093 of 1913), are republished :—

Position.—Lat. 26° 18½′ N., long. 55° 18½′ E.
Description.—A heavy tide rip, possibly due to shoaler water than charted.
Charts affected.—No. 753, Entrance of the Persian Gulf.
„ 2837*a*, Persian Gulf, sheet 1.
Publication.—Persian Gulf Pilot, 1908, page 166.
Authority.—Berlin Notice No. 1767 of 1913.

TASMANIA—NORTH COAST.

Forth river approaches—Existence of rock.

No. 435 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1098 of 1913), are republished :—

Position.—Lat. 41° 06′ S., long. 146° 17′ E.
Depth.—2¼ fathoms.
Remarks.—"*(Position approximate)*" has been placed against the above rock.
Charts affected.—No. 1695*a*, Bass strait, sheet 1.
„ 1079, Tasmania.
„ 2759*b*, Australia, southern portion.
Publication.—Australia Directory, Vol. I., 1907, page 613.
Authority.—Agent-General for Tasmania, July 18th, 1913.

EASTERN ARCHIPELAGO—PHILIPPINE ISLANDS.

Tanon strait—Refugio island—Light established.

No. 436 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1099 of 1913), are republished :—

Position.—On the northern end of Refugio island.
Lat. 10° 28′ 00″ N., long. 123° 26′ 30″ E., on chart No. 2578.
Abridged description.—Lt. Occ. *ev. 10 secs.*

Character.—An *occulting white* light *every 10 seconds*, thus :—

Light 7 secs. eclipse. 3 secs.

Remarks.—The other details are not given.

Charts affected.—No. 2578, Sulu or Mindoro sea, eastern part.
„ 943, Molucca passage to Manila.
„ 1263, China sea.

Publications.—List of Lights, Part VI., 1913, page 113.
Eastern Archipelago, Part I., 1911, page 377.

Authority.—U.S.A. Commerce Notice, No. 1157 of 1913.

— —

JAPAN—INLAND SEA.

Hiroshima wan—Buoys established.

No. 437 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1101 of 1913), are republished :—

Position(a).—Lat. 34° 02′ N., long. 132° 17′ E.

Description.—2 red buoys.

Position(b)—Lat. 34° 19¼′ N., long. 132° 23¼′ E.

Description.—2 red buoys.

Remarks.—"2 *Red buoys hereabouts*", has been placed on the charts in the above positions.

Charts affected.—No. 3154, Ominase to Gogo shima (*a*).
„ 3469, Hiroshima wan.

Publication.—Japan, Korea and adjacent seas Pilot 1904, page 484.

Authority.—Tokyo Notice, No. 155 of 1913.

NEW ZEALAND, NORTH ISLAND—PORT NICHOLSON.

Karaka and Worser bays—Lights established.

No. 438 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1102 of 1913), are republished :—

(*a*) *Position.*—At the end of the wharf in Worser bay.
Lat. 41° 19′ 08″ S., long. 174° 49′ 1″ . on chart No. 1423.

Abridged description.—Lt. F *Red (Occasional* .

Character.—A *fixed red* light.

Elevation.—17 feet.

Visibility.—About 2 miles.

(*b*) *Position.*—At the end of the wharf in Karaka bay.
Lat. 41° 18′ 19″ S., long 174° 49′ 58″ E. on chart No. 1423

Abridged description.—Lt. F. *Gn.* (*Occasional*).

Character.—A *fixed green* light.

Elevation.—15 feet.

Visibility.—About 2 miles.

Remarks.—The above lights are not exhibited after 11 P.M., and are not lit on moonlight nights.

Chart affected.—No. 1423, Port Nicholson.

Publications.—List of Lights, Part VI., 1913, page 307.
New Zealand Pilot, 1908, page 142.

Authority.—Wellington Notice No. 63 of 1913.

CHINA SEA.

Alacrity bank—Expunged from chart.

No. 439 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1104 of 1913), are republished:—

Position.—Lat. 19° 28′ N., long. 112° 18′ E.
Description.—A bank extending in a north-easterly and south-westerly direction, showing soundings of 11 and 14 fathoms.
Remarks.—The above bank, having been searched for unsuccessfully by H.M. Surveying Vessel *Merlin* in 1908 and again by H.M.S. *Clio* in 1913, has been expunged from the charts.
Charts affected.—No. 2661*a*, China sea, northern portion, sheet 1.
„ 1263, China sea.
Publication.—China Sea Pilot. Vol. III., 1912, page 113.
Authority.—H.M.S *Clio*, Hydrographic Note, 20th June 1913.

NEW ZEALAND—NORTH COAST.

Auckland harbour—Amended limits of prohibited anchorage.

No. 440 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1109 of 1913), are republished:—

Former Notice.—No. 1708 of 1912. (*This office No. 29 of 1913.*)
Position.—Onepoto point, lat. 36° 49¼′ S., long. 174° 46¼′ E.
Limits:
On the north.—(*a*) By a line drawn from the in-shore end of O'Neil's Wharf, Onepoto point, to Stokes point ▲.
(*b*) By the shore line between Stokes point ▲ and the outer end of Northcote wharf.
On the west.—By a line drawn from the head of Northcote wharf to the head of Ponsonby wharf. (As at present.)
On the south.—(*a*) By the shore line between the head of Ponsonby wharf and a point where line (*b*) of the southern limits meets the shore.
(*b*) By a line drawn from the shore line through the 2-foot rock off Point Erin Park in a direction 47° (*N. 31° E. Mag.*), for a distance of 6$\frac{1}{10}$ cables.
(*c*) By a line drawn from thence in a direction 134° (*S. 62° E. Mag.*), for a distance of 5$\frac{8}{10}$ cables. (As at present.)
(*d*) By a line drawn from thence in a direction 109° (*S. 87° E. Mag.*), for a distance of 3$\frac{8}{10}$ cables. (As at present.)
On the east.—(*a*) By a line drawn from the eastern extremity of line (*d*) of the southern limit, in a direction 308° (*N. 68° W. Mag.*), for a distance of 3$\frac{1}{10}$ cables. (As at present.)
(*b*) By a line drawn from thence in a direction 314° (*N. 62° W. Mag.*), for a distance of 6 cables.
(*c*) By a line drawn from thence to the in-shore end of O'Neil's wharf, Onepoto point.
Variation.—16° E.
Chart affected.—No. 1970, Auckland harbour and approaches.
Publication.—New Zealand Pilot. 1908, page 39.
Authority.—Wellington Notice, No. 43 of 1913.

CEYLON—SOUTH COAST.

Galle harbour—Navigation.

Reduced to "Zero" of King's Point tide gauge.

Authority.—Deputy Conservator of the Port, Rangoon.

BAY OF BENGAL—BURMA COAST.

Rangoon River—Carrying of Gunpowder or other explosives..

No. 446 (second publication).—The Secretary to the Government of Burma in the Judicial Department has issued a Notification No. 111, dated the 5th July 1913, that—

(*i*) All vessels entering the port of Rangoon with gunpowder or other explosives for Government in excess of 25 lbs. shall cause the same to be discharged below the Hastings Shoal. The 25 lbs. of Government explosives shall be reckoned as over and above the amount of explosives, if any, carried by the vessel for signalling purposes.

The above orders do not apply to fuzes and tubes consigned to the Ordnance Department nor to safety cartridges, safety fuzes for blasting, railway fog-signals and percussion caps.

(ii) Vesuvian matches forming part of the equipment of the Sappers and Miners may be discharged at either the Sule Pagoda or the Brooking Street Wharf. The matches must be at once removed from the wharf on their being landed from the steamer. If, on any occasion, this be not practicable, they must be deposited temporarily in the match godown with which each of these wharves is provided, and must be removed therefrom as promptly as possible. Three days' notice must be given to the Port Commissioners that a consignment of such matches is about to arrive.

(iii) Persons contravening these orders will be liable to a fine which may extend to Rs. 1,000.

BAY OF BENGAL—CHITTAGONG COAST.

Karnaphuli river—Depth of water in the channel.

No. 447-I (second publication).—

Subject.—The following depth of water was found in the channel by soundings taken on the 1st September 1913:—

Description.—

	Ft.
Track No 1, Outer Bar—	
Disc on Diamond ..	13
Track No. II, Inner Bar—	
Disc on Diamond	10

Chart affected.—No. 84, Chittagong (Karnaphuli) river

Publication.—Bay of Bengal Pilot, 1910, page 322.

Authority.—Port Officer, Chittagong, Notice, dated 1st September 1913.

BAY OF BENGAL—BURMA COAST.

Mergui Archipelago.

(1) Heavy breakers reported off Courts Island.

(2) Height of Spiteful rock.

No. 448 (second publication).—

Subject.—(1) The Master of the S.S. "Lunka" reports that on the 18th August 1913 after passing Bentinck island in the Mergui Archipelago and when off Courts island he sighted heavy breakers about a mile distant to the eastward of his vessel in the approximate position Lat. 11° 55' N., Long. 97° 54¼' E.

The breakers appear to indicate the existence of a reef or shoal almost awash, which is uncharted (there being 22 fathoms shewn in that vicinity) and is close to the track of vessels using the outer passage if making for Forrest straits.

(2) Spiteful rock at the entrance to the south passage to Victoria Point, on which there is a lighthouse is charted as being 80 feet high but it is in reality a heavily wooded island 235 feet in height.

Charts affected.—No. 216a, Northern part of Mergui Archipelago (1).

" 216b, Southern part of Mergui Archipelago (2).

Publication.—Bay of Bengal Pilot, 1910, pages 537, 550.

The 26th August 1913.

CHINA, EAST COAST—LIAU RIVER.

(1) Alteration in position of Middle buoy.

(2) Buoy established.

No. 418 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1027 of 1913), are re-published :—

(1) Alteration in position of Middle buoy.

Position.—At a distance of half a cable, 130° (*S. 45° E. Mag.*, from its present position.
Lat. 40° 36′ 30″ N., long. 122° 04′ 58″ E.
Description.—Black conical buoy with a diamond topmark.

(2) Buoy established.

Position.—At a distance of 1 cable, 119° (*S. 56° E. Mag.*), from the position of the Fairway buoy, which has been withdrawn.
Lat. 40° 37′ 32″ N., long. 122° 07′ 05″ E.
Description.—"Inner buoy," a black conical buoy with ball topmark.
Note.—The above positions are taken from chart No. 2991.
Variation.—5° W.
Charts affected.—No. 2991, Entrance to Liau river.
" 2894, Liau river to Tien chwang tai.
Publication.—China Sea Pilot, Vol. V., 1912, page 524.
Authority.—Shanghai Notice, No. 395 of 1913.

PERSIAN GULF.

Jashk—Information on light at Telegraph and Lloyds Signal station.

No. 419 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1042 of 1913), are re-published :—

Position.—Lat. 25° 38′ N., long. 57° 46′ E.
Details.—The occasional light on the southern tower of the telegraph buildings cannot be shewn when required, as is stated in the Persian Gulf Pilot, and List of Lights.
The reference should therefore be expunged.
Publications.—List of Lights, Part VI., No. 178.

Authority.—Hydrographic Department.

SOUTH AUSTRALIA—SPENCER GULF.

Franklin harbour new channel.

No. 421 (third publication).—The President of the Marine Board, Port Adelaide, has given Notice (No. 15 of 1913) that the Channel, which has been dredged to the new jetty at Franklin Harbour, runs in the line of the Jetty 319½° (N. 45° W. Mag.) for a distance of 1·3 miles, and has not less than 12 feet at L.W.S. over a full width of 100 feet. It is marked by three (3) black buoys, to be kept on the port hand entering; and one (1) red buoy and one (1) black and red chequered buoy on the starboard hand. The chequered buoy marks the point where the new channel deviates from the old, and is to be kept on the port hand entering when using the latter. The inner black buoy, which also marks the south-eastern extreme of the swinging basin, is so moored and fitted that it may be used as a haul-off buoy for vessels at the Jetty.

Approximate position of end of Jetty—Latitude, 33° 41¼' S.; Longitude 136° 56¼' E.

This affects Admiralty Charts Nos. 785 and 2389b.

SOUTH AUSTRALIA—SPENCER GULF.

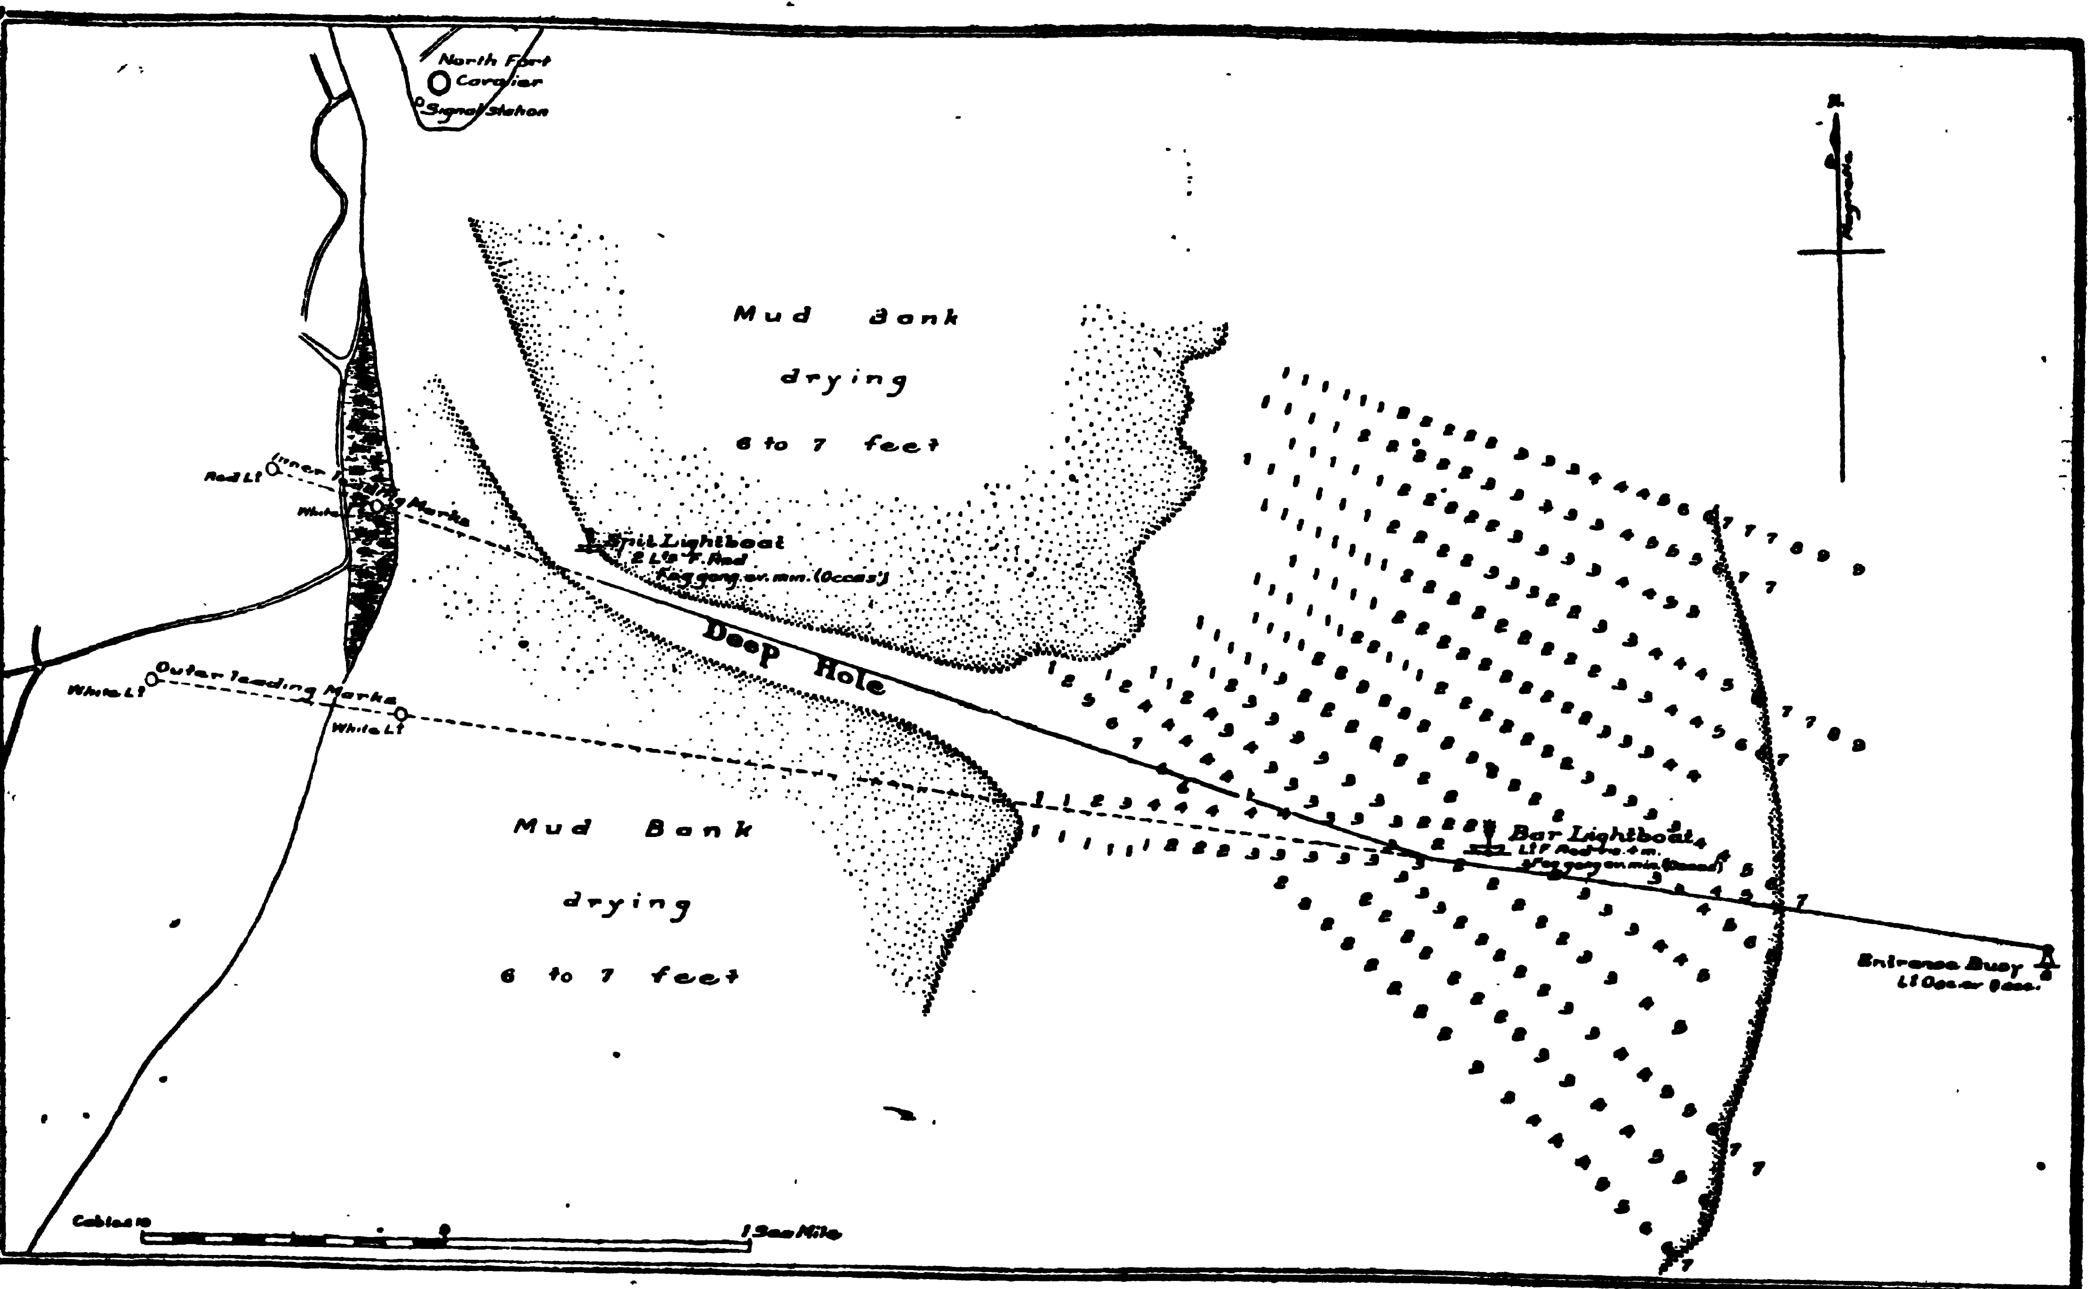
Moonta bay jetty light.

No. 422 (third publication).—The President of the Marine Board, Port Adelaide, has given Notice (No. 16 of 1913), that the light shown from the end of the Moonta Bay Jetty will be discontinued from the night of the 1st August 1913.

This affects Admiralty Chart No. 2389b.

CHINA SEA—TIENTSIN DISTRICT.

Gulf of Pechili, Taku bar—Alteration in the positions of the Taku bar inner leading marks.



No. 423 (third publication).—The Coast Inspector, Shanghai, has given Notice (No. 555 of 1913), that the Taku Bar Inner Leading Marks have been shifted.

The front mark, which is a pole painted *white* and surmounted by a *black* triangular shape, on which a Dioptric, Seventh Order, fixed *white* light is exhibited from sunset to sunrise, is situated 1·26 miles S. 10¼° W. of the Cavalier at North Fort. The rear mark, which is a pole painted *white* and surmounted by a *black* triangular shape, on which a Dioptric, Sixth Order, fixed *red* light is exhibited from sunset to sunrise, is situated 2,162 feet N. 72° 15' W. from the front mark.

These marks in line lead through the channel between the Bar Light-boat and the Spit Light-boat.

All bearings given are magnetic.

The accompanying plan shows the positions of the aids to navigation marking the Taku Bar.

CONTENTS

MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR AUGUST 1913.

I. *Character of the season.*—During the month under review general rain fell all over the province. The fall was above the normal in the Nadia, Murshidabad, Jessore, Burdwan, Birbhum, Howrah, Rajshahi, Rangpur, Bogra, Pabna, Mymensingh, Faridpur and Bakarganj. The usual rainfall statement is appended.

II. *Progress of agricultural operations.*—Transplantation of winter rice and harvesting of autumn rice was nearing completion, and harvesting of jute was in brisk progress.

III. *State of standing crops.*—The state of standing crops was bad in West Bengal, owing to excessive rain and floods, but fair in East Bengal.

IV. *Prospects and probable outturn of harvests.*—Prospects of jute and other *bhadoi* crops were on the whole fair in East Bengal; but as large tracts were washed away by floods in the districts of Burdwan, Hooghly, Howrah and Midnapore, the prospects of those crops in West Bengal were very poor. The sowing season not being yet quite over for transplanting winter paddy, attempts were made to replant parts of the flooded areas.

V. *Damage to crops.*—The crops suffered more or less from the effects of excessive rainfall nearly all over the province, but most serious damage was done to them by floods specially in the districts of the Burdwan Division. Reports of injury by insects to standing crops were received from parts of Nadia, Khulna, Faridpur, Bakarganj, Mymensingh, Noakhali and the Chittagong Hill Tracts.

VI. *Condition of agricultural stock.*—The condition of agricultural stock was fair except in the flood-affected parts. Cattle-disease was reported to be prevalent in Nadia, Murshidabad, Jessore, Khulna, Burdwan, Hooghly, Bankura, Dinajpur, Darjeeling, Malda, Mymensingh and Bakarganj.

VII. *Failure of pasturage and fodder.*—Want of fodder was felt in parts of Jessore, Midnapore, Howrah, Bogra, Dacca and Tippera, and also in the flooded areas.

VIII. *Price of food-grains.*—During the second fortnight of the month under review, the price of common rice rose in twelve districts, fell in five and remained stationary in the rest. It varied from 5 seers 4 chittacks per rupee in Darjeeling to 9 seers a rupee at Chittagong.

IX. *Condition of agricultural people.*—The condition of the agricultural population was fairly good excepting in the flooded tracts of the Burdwan Division.

D. N. MOOKERJI,
for *Director of Agriculture, Bengal.*

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 15th September 1913.

Summary.—During the week under report general rain fell all over the province. The recent rainfall has been beneficial to the winter rice crop. Transplanting of winter paddy and harvesting of autumn rice and jute are nearly finished. The prospects of standing crops have somewhat improved in West Bengal. Condition of cattle in the areas affected by the floods is still reported to be bad. Cattle-disease is reported from nine districts. Want of fodder is felt in six districts. The price of rice has remained almost stationary as compared with that of the previous week. Relief is being distributed to the distressed in flooded areas.

NOTIFICATION.

No. 3414P.D.—The 20th September 1913.—In exercise of the powers conferred by section 12, sub-section (1) of the Indian Press Act, 1910 (1 of 1910), the Governor in Council hereby declares all copies wherever found of the issue of the Urdu newspaper *Al Hilal* of the 13th August 1913, printed and published in Calcutta, to be forfeited to His Majesty on the grounds that it contains an article, entitled "Mashhed Akbar," in which it is suggested that the British Government will not respect the religion or blood of its subjects, and it appears to the Governor in Council that this article contains words which are likely to excite disaffection towards the Government established by law in British India.

J. G. CUMMING,
Offg. Chief Secy. to the Govt. of Bengal.

POLICE.

NOTIFICATIONS.

No. 3029P.D.—The 11th September 1913.—Whereas the Governor in Council has reason to believe that certain members of the tribe, known generally as Karwal Nats, wandering within the Presidency of Fort William in Bengal, are addicted to the systematic commission of non-bailable offences:

Now, therefore, the Governor in Council, in exercise of the power conferred by section 3 of the Criminal Tribes Act, 1911 (III of 1911), hereby declares the said tribe,—by whatever name it, or any member thereof, may for the time being call itself or themselves, or be called, in any locality in the said Presidency, whether by the name of Karwal Nats, or Karwals, or Kanjars, or Kajarhatiyas, or Baburahs, or Sansias, or Sanichirias, or Brojabasis, or Gulgulias, or Bhatus, or by any other tribal name, appellation or *alias*,—to be a criminal tribe for the purposes of the said Act.

No. 3030P.D.—The 11th September 1913.—In exercise of the power conferred by section 10 of the Criminal Tribes Act, 1911 (III of 1911), the Governor in Council hereby directs that every registered member of the tribe, generally known as the Karwal Nats, which has been declared by Notification No. 3029P.D., dated the 11th September 1913, to be a criminal tribe, shall, in the prescribed manner, report himself at fixed intervals.

No. 3113P.D.—The 13th September 1913.—The following draft of a sub-rule, which it is proposed to make and insert as sub-rule (*7*) to rule 27 of the Heavy Motor-car Rules, issued with Notification No. 1180J.D., dated the 22nd June 1908, is published, as required by section 3 (*1*) of the Bengal Motor-car and Cycle Act, 1903 (Bengal Act III of 1903), for the information of persons likely to be affected thereby.

2. The draft sub-rule will be taken into consideration on or after the 31st October 1913, and any objections or suggestions which may be received by the undersigned by that date, will be duly considered.

Draft sub-rule.

27. (*7*) The registration of a heavy motor-car shall continue in force for a period of not more than twelve months from the date thereof; and on the expiration of that period the car must be re-registered before it is again used on the street, half the usual registration fee being payable on such re-registration. Such re-registration shall continue in force for a period of not more than twelve months from the date thereof; but further re-registration may be effected annually on payment of the said half fee.

Rajshahi.

No. 3301P.D.—The 18th September 1913.—In exercise of the power conferred by sub-section (*3*) of section 1 of the Eastern Bengal and Assam Disorderly Houses Act, 1907 (Eastern Bengal and Assam Act II of 1907), read with section 3 of the Bengal, Bihar and Orissa and Assam Laws Act, 1912 (VII of 1912), the Governor in Council is pleased to extend the said Eastern Bengal and Assam Act II of 1907 to the local area comprised within the mauzas in the district of Rajshahi, the names and the Revenue Survey numbers of which are given in the following schedule, and bounded as shown in that schedule:—

SCHEDULE.

Names of mauzas with Revenue Survey numbers.	Boundaries.
(i) Such part of mauza Gosainpur (No. 13) as lies north of the Burrul river. (ii) Such part of mauza Askarpur (No. 14) as lies north of the Burrul river. NOTIFICATION.

No. 2506.—In accordance with rules 6 and 7 of the Rules for the grant of Certificates to Compounders, an examination will be held at the Sadar Hospital, Comilla, on the 20th October 1913, under the Presidency of the Civil Surgeon of the district, with the Assistant Surgeon or the Sub-Assistant Surgeon in charge of the Sadar Hospital, as the case may be, as member.

J. N. GUPTA, *Offg. Civil Surgeon, Tippera.*

The 16th September 1913.

NOTICE.

Examination of Compounders at the Dacca Medical School.

IT is hereby notified for general information that the next half-yearly examination for compounders will be held on the 20th October 1913 and subsequent days.

The examination will be conducted in accordance with Bengal Government Notification Nos. 1410 and 1411 Medical, dated the 7th July 1913—

(*a*) The Examining Committee will consist of :—

PRESIDENT :

Lieut.-Col. A. R. S. Anderson, B.A., M.B., C.M.Z.S., I.M.S.,
Superintendent, Dacca Medical School.

MEMBERS :

Assistant Surgeon Hem Chandra Sarker.
Assistant Surgeon Guru Prasad Mittra.

(*b*) No person will be admitted to this examination unless he produce certificates as required by rules 9, 10, 11 and 12 of Government Notification No. 1410 Medical, dated the 7th July 1913.

(*c*) All male candidates must forward to the undersigned an examination fee of Rs. 5 at least one week before the commencement of examination; a fresh fee must be paid on each occasion that the candidate enters for the examination; but a candidate who, after payment of the fee, is unable, through illness, to attend the examination will be allowed, on producing a satisfactory medical certificate to that effect, to attend the next examination without payment of a fresh fee.

NOTE —Women candidates are examined free of charge.

(*d*) The students of compounder class of the Medical School will be allowed to appear at an optional examination. The examination will be conducted by the Committee of Examiners notified above—in minor bandaging, preparation of lotions, dressings, sterilization of dressings and instruments and in all minor duties of Hospital work. No additional fee shall be charged. Every candidate who passes the optional examination shall be granted an additional certificate in the prescribed form that he is qualified for the duties of a Hospital dresser and for Hospital ward work generally.

A. R. S. ANDERSON, B.A., M.B., C.M.Z.S., LIEUT.-COL., I.M.S.,
Superintendent, Dacca Medical School.

NOTICE.

IT is hereby notified for general information that the next examination for admission of students to compounder class, Medical School, Dacca, will be held on the 30th October 1913, at 8 A.M.

A. R. S. ANDERSON, LIEUT.-COL., I.M.S.,
Superintendent, Medical School, Dacca.

CALCUTTA CUSTOM HOUSE, *the 22nd September 1913.*

NOTICE.

THE DISTRICT BOARD OF FARIDPUR AT A SPECIAL MEETING HELD ON THE 31ST MAY 1913 HAS ADOPTED THE FOLLOWING BYE-LAWS, UNDER SECTIONS 139 AND 140 OF THE BENGAL LOCAL SELF-GOVERNMENT ACT OF 1885 (BENGAL ACT III OF 1885)

Definitions.

Definitions

1. In these bye-laws, unless there is anything repugnant in the subject or context,—

I of 1871

(1) the word "cattle" has the same meaning as in the Cattle-trespass Act, 1871;

(2) "reserved tank or well" means a tank or well which the District Board has set apart under section 90 of the Bengal Local Self-Government Act of 1885, by public notice, for the supply of water for drinking and for culinary purposes and includes any reservoir, or part of any river, *khal* or other channel, so set apart; and a notice-board on the edge of a reserved tank or well, containing the words "reserved tank" or "reserved well" or words to that effect, shall be deemed to be sufficient notice for the purpose of this definition; and

Bengal Act III of 1885

(3) the "slopes" of a reserved tank or well include all places from which water can flow directly into such tank or well; and

(4) "road" means a road vested in, or under the control and administration of, the District Board or a Local Board; and includes—

(*a*) a village road;

(*b*) the slope, berm, borrow-pits and side-drains of a road; and

(*c*) all land vested in, or under the control and administration of, the District or a Local Board and attached to a road.

Roads, Drains, Bridges, Canals and Embankments.

Encroachment or obstruction on a road

2. (1) No person shall encroach on any part of a road by cultivating crops thereon.

Explanation.—This prohibition does not apply to land attached to a road which are neither vested in nor under the control and admin stration of, the District Board or a Local Board, and where on private persons have hitherto enjoyed the right of cultivating crops, subject only to a right of user on the part of the District Board or a Local Board of making borrow-pits and side drains therein.

(2) No person shall, on any road, by means of any building, fence, pit, embankment or ditch, or any other obstruction, or by means of any cut, drain or water-course intended for the purpose of drainage or irrigation, or by exposing thereon any goods for sale or by placing thereon any substance or material,—

(*a*) without the permission of the Chairman or Vice-Chairman of the District Board or a Local Board or the District Engineer, make or cause any encroachment, or

(*b*) obstruct traffic, or

(*c* cause any inconvenience to passengers, or

(*d*) hinder or impede the flow of water.

Sale, collecting or gathering of articles in vicinity of road

3. No person shall expose or place any article for sale in any bazar or market in the vicinity of any road, or collect or gather any articles in the vicinity of a road, so as to interfere with the traffic of the road.

Cutting of plants, trees or hedges, obstructing road or drain

4. Any person in possession of, or having control over, any plants, trees or hedges which obstruct, overhang or overshadow any road, or any public drain or sluice or any drain which is connected with a public drain, shall, if so required by notice in writing, signed by the Chairman or Vice-Chairman of the District Board or a Local Board, or by the District Engineer, cut down, prune or trim such plants, trees or hedges within the period, and in the manner, prescribed in such notice.

5. (1) No person shall destroy or damage, or cause to be destroyed or damaged, any bridge, culvert or causeway built on or across any road.

Damage to bridges, culverts or causeways on road

(2) No person shall erect any fence or other object on, or before or close to the opening of, any such bridge, culvert or causeway, for the purpose of fishing or for any other purpose, so as to impede the free flow of water thereunder, or so as to cause damage thereto.

(3) No person shall cast "nets" for fishing purpose from any parapet of any such bridge or culvert.

6. No person shall—

Damage to fences, posts, soil, turf or grass on road

(a) destroy or damage, or cause to be destroyed or damaged, any fence or post erected on any road; or

(b) dig, scrape, uproot or remove any soil, turf or grass from any part of a road.

7. (1) No person shall cut a channel, or convey water by a channel, across a road, except with the permission of the Chairman or Vice-Chairman of the District Board or a Local Board, or the District Engineer, and in such manner as he may prescribe.

Channel across road

(2) Any person who has been permitted by the Chairman or Vice-Chairman of the District Board or a Local Board, or by the District Engineer to cut a channel across a road, shall, at the time prescribed by him, cover or refill the channel so as to restore the road to its former condition.

(3) Any person who has a prescriptive right to keep a channel open for carrying water across a road shall keep the channel in proper order, so as to prevent danger or inconvenience to the public.

8. No person shall obstruct any waterway adjoining a road, so as to injure or tend to injure the road or otherwise to render the road impassable.

Obstruction of waterway adjoining road

9. (1) No person shall make any excavation on any road, or any hole, pit, tank or well within fifteen feet of any road, without the permission of the Chairman or Vice-Chairman of the District Board or a Local Board or the District Engineer.

Excavation on or near road

(2) Every person by whom, or by whose direction, any hole, pit, tank or well has been excavated within fifteen feet of a road shall be bound to take such order therewith as will prevent damage to, or erosion of, the road.

10. The owner or occupier of any tank, well, or other excavation on or near the side of any road shall be bound to fence in or duly protect such excavation in such manner as may be directed by notice signed by the Chairman or Vice-Chairman of the District Board or a Local Board.

Protection of excavation on or near road

11. No person shall pass over, or drive any animal or vehicle over, any road, bridge, culvert or canal so as to injure the same, while it is under construction or repair or is affected by flood or is otherwise rendered unfit for traffic and is closed to traffic under the orders of the Chairman of the District Board or a Local Board or (in emergent cases pending application to such Chairman) of the District Engineer, if a passage is given to the traffic, through another part of the road or otherwise.

Use of roads, bridges, culverts or canals while closed to traffic

12. No person shall, without the permission of the Chairman or Vice-Chairman of the District Board or a Local Board or the District Engineer, allow the rainfall from the roof of any building owned or occupied by him to be discharged upon any road by means of a spout or other thing intended for the conveyance of water.

Discharge of rainfall from roof to road

13. No person shall allow the water of any privy, or any matter offensive or deleterious to health, to flow on any road.

Flow of filth on to road

14. Any person owning or possessing a tree or a house, wall or other erection which has fallen, or part of which has fallen, on to a road shall, if so required by notice in writing signed by the Chairman or Vice-Chairman of the District Board or a Local Board or by the District Engineer, remove such tree, house, wall, erection or part, within the period prescribed in such notice.

Removal of trees or erections falling on to road

Curing hides on or near road

15. No person shall cure hides on or near any road.

Slaughter of animals, cleaning of carcasses, etc., on or near road

16. No person shall slaughter any animal, or clean any carcasses, or collect bones, on or near any road.

Placing or burning of bodies on road

17. No person shall place or burn any corpse or the dead body of any animal on or near any road.

Steeping offensive matter in road-side drain, pit or excavation

18. No person shall steep any jute, hemp, bamboos, hides or other offensive matter in any drain, borrow-pit or excavation at the side of any road.

Rule of the road

19. (1) Any person driving a vehicle along a road and meeting another vehicle shall keep on the left or near side of the road, so as to allow sufficient room for the other vehicle to pass.

(2) No person driving a vehicle along a road and overtaking another vehicle shall attempt to pass the latter vehicle otherwise than on the right or off side of the road.

Freedom of roads

20. No person shall prevent any other person from passing along a road, or shall otherwise interrupt the free use of a road.

Care of animals on road

21. (1) No person in charge of, or having control over, any animal used for riding or draught shall allow such animal to stand or wander on any road without a rider or driver.

(2) No person in charge of, or having control over, any cattle shall allow such cattle to stray or lie on any road so as to cause inconvenience or danger to any person travelling on the road.

(3) No person shall tether any cattle on, or within reach of, a road, or stall cattle or allow cattle to graze on a road.

Elephants and camels on road to have bell

22. Every person owning, riding, driving or in charge of any elephant or camel proceeding on a road must see that such elephant or camel is provided with a bell; and with a light also if such animal is proceeding on a road after nightfall.

Taking elephants over road embankment, bridge or culvert

23. No person driving or in charge of an elephant shall—

(a) cause material injury to a road, or to an embankment vested in the District Board or a Local Board, by taking the elephant over the same; or

(b) take the elephant over a bridge or culvert vested in the District Board or a Local Board unless the same be constructed of arched masonry.

Removal of elephants or camels from road to admit passage of horses

24. Every driver of an elephant or camel shall, on being so required by the rider or driver of a horse, remove such elephant or camel with reasonable promptitude to a sufficient distance from the road, to allow such horse to pass safely along the road.

Care of vehicle on road

25. (1) No person shall drive or have in his charge on any road more than one vehicle at a time.

(2) No person in charge of, or having control over, any vehicle shall allow it to stand unattended on any road.

(3) No person shall leave a vehicle standing on a road for any longer time than is necessary for loading or unloading it.

(4) No person shall drive upon a road any vehicle laden with bamboos, planks or other materials of a similar character which exceed twelve feet in length and project beyond the vehicle, unless the vehicle be accompanied also by another person.

(5) All owners and drivers of vehicles loaded with bricks or other materials shall be responsible for their being so secured that the contents thereof may not fall down on any road.

(6) If any vehicle breaks down on a road, the driver shall remove it to the edge of the road without delay and shall, within a reasonable time, remove from the road all materials (if any) which have fallen from the vehicle, and shall place the vehicle in such a position that it will not obstruct traffic.

(7) No person shall lead or drive any vehicle up or down the slopes of any road, except at crossing fixed by the District Board

Carrying bamboos or *bullahs* on cart on road

26. No person shall carry bamboos or *bullahs* on a cart on any road in such a manner as to scrape the road, or to cause injury or annoyance, or risk of injury, to travellers thereon.

Separate tracks for cart traffic and carriage traffic

27 Where separate tracks on roads have been set apart for carts and carriages, respectively, no cart shall be permitted to pass over the portion reserved for carriages.

Transport of heavy machinery over bridges

28. No person shall transport heavy machinery over a timber bridge so as to injure the bridge.

Lighting of vehicles on road

29. Every carriage drawn by a horse or horses, every waggon drawn by any other animals or propelled by motive power, and every motor-car shall carry two conspicuous lights, one on either side,

and every two-wheled cart, and every bicycle, tricycle and multicycle shall carry one conspicuous light,

when travelling on a road between dusk and dawn, except on clear moonlight nights.

Nuisance on roads

30. No person shall commit a nuisance on any road.

Trees.

Damage to trees

31. No person shall destroy or damage or cause to be destroyed or damaged,—

(*a*) any tree planted by, or under the charge of, the District Board or any Local Board ; or

(*b*) any gabion or other defensive enclosure erected for the protection of any such tree.

Tapping, or taking fruit from, trees on road

32. No person shall tap any date or palm tree, or remove fruit from any tree planted by, or under the control of, the District Board or any Local Board, without a lease or written permission previously obtained from the Chairman of the District Board or Local Board.

Fires.

Lighting of fires

33. No person shall light a fire in any unenclosed place within ten yards of any wooden bridge vested in the District Board, or within fifty yards of any Inspection or Dâk Bungalow vested in the District Board or a Local Board.

Bathing or washing

34. No person shall—

(*a*) bathe or wash any portion of his own body or the body of any other person ; or

(*b*) wash clothes ; or

(*c*) wash any cattle or other animal ; or

(*d*) allow any of his ducks, geese or other birds to enter the water in any reserved tank or well, or upon any of the banks, slopes, or sides of any reserved tank or well.

Fouling of water

35. No person shall—

(*a*) commit any nuisance in, or on the banks or slopes or sides of, any reserved tank or well, or

(*b*) throw any filthy substance thereinto, or

(*c*) in any way pollute the water thereof, or

(*d*) allow the water of any sink, sewer, cess-pool or privy or any offensive matter belonging to him or being on his land, to flow thereinto.

Explanation.—Steeping jute or bamboos and sinking Boat in a reserved tank and putting branches or twigs of trees into any such tank amount to an offence against this bye-law.

36. No person shall cut sods or grass or remove earth or grass from, or otherwise damage, the sides or slopes of any reserved tank without the express permission of the District Board or a Local Board.

Removal of earth or grass from sides or slopes

37. No person shall allow any trees, bamboos or other vegetation growing on land in his occupation to overhang any reserved tank or well so as to foul the water thereof, or shall fail to cut and remove the same after reasonable notice in that behalf from the District Board or Local Board.

Overhanging trees or vegetation

38. No person shall cultivate the banks, sides or slopes of a reserved tank or well except in such manner as may be approved by the District Board or a Local Board or a Union Committee.

Cultivation on banks, sides or slopes of reserved tank or well

39. No person shall erect any hut or house upon the banks, sides or slopes of a reserved tank or well without the permission of the District Board or a Local Board or a Union Committee.

Building on banks, sides or slopes of reserved tank or well

40. No person shall construct dams, fix stakes or place nets or apparatus across, or in any reserved tank or well, or in any part of a river, *khal* or other channel set apart under section 90 of the Bengal Local Self-Government Act of 1885 for the supply of water for drinking and culinary purposes.

Dams, stakes and fishing apparatus

41. No person shall catch or attempt to catch fish in a reserved tank or well without the permission of the District Board or a Local Board or a Union Committee.

Fishing

Penalties.

42. (1) A breach of any of the bye-laws mentioned in column 1 of the following table shall be punished with fine, which may extend to the sum mentioned opposite thereto in column 2 of that table :—

1	2
Bye-law.	Maximum fine.
12, 22, 25 (6), 26, 27, 30 ...	Five rupees.
3, 5 (3), 11, 13, 25 (3), (4), (5) and (7), 40 ...	Ten „
14, 15 16, 17, 18, 25 (1), 32, 36, 37, 38, 41 ...	Twenty „
10 and 33	Twenty-five rupees.
2, 4, 5 (1) and (2), 6, 7, 8, 9, 19, 20, 21, 23, 24, 25 (2), 28, 31, 34, 35, 39	Fifty rupees.
29	Motor-car, forty rupees; 2-wheeled cart, five rupees; other vehicles, twenty rupees.

(2) A continuing breach of bye-laws 2 (2), 4, 5 (2), 7 (2), 8, 9 or 10 shall be punished with a further fine which may extend to five rupees for every day during which the breach is continued after the offender has been convicted of such breach.

Cancellation of former bye-laws.

43. The bye-laws framed by the District Board of Faridpur, which were confirmed by Government Notification, dated the 14th April 1888, Notification No. 4171L.S.-G., dated the 11th July 1898, and such other Notifications which confirmed the existing bye-laws of the Board are hereby cancelled.

J. A. WOODHEAD, *Chairman, District Board, Faridpur.*

FARIDPUR DISTRICT BOARD'S OFFICE, *the 9th September 1913.*

The Calcutta Gazette

WEDNESDAY, SEPTEMBER 24, 1913.

PART IB.

Orders by the Governor of Bengal in Council.

MUNICIPAL AND LOCAL.

NOTIFICATIONS.

No 1846T.G.—The 16th September 1913.—The following draft of a notification, which the Governor in Council intends to issue under the Bengal Local Self-Government Act of 1885 (Bengal Act III of 1885), read with section 3 of the Bengal, Bihar and Orissa and Assam Laws Act, 1912 (VII of 1912), is published for the information of persons likely to be affected thereby.

II. The draft will be taken into consideration on the 3rd November 1913, and any objection or suggestion which may be received by the undersigned before that date will be duly considered.

Draft Notification.

In exercise of the power conferred by section 138, clauses (*i*), (*l*) and (*t*) of the Bengal Local Self-Government Act of 1885 (Bengal Act III of 1885), read with section 3 of the Bengal, Bihar and Orissa and Assam Laws Act, 1912 (VII of 1912), the Governor in Council is pleased to make the following amendments in the District Engineer's Account Rules published with notification, dated the 1st July 1888, at page 263 of Part IB of the *Calcutta Gazette* of the 4th *idem*, as amended for Eastern Bengal by Eastern Bengal and Assam Notification No. 459M., dated the 18th January 1910, and for Western Bengal by Bengal Government Notification No. 173L.S.-G., dated the 6th March 1908, namely:—

(*1*) ***For*** rule 2 in Part IXA of the said District Engineer's Account Rules for Western Bengal, ***substitute*** the following:—

2. (*1*) An imprest may be granted by the District Board to the District Engineer of such amount as the Board may from time to time fix, provided that it shall in no case exceed Rs. 1,000.

   (*2*) No portion of the District Engineer's cash imprest shall, on any account, be kept outside the safe.

(*2*) ***For*** rule 4 in Part IXA of the said District Engineer's Account Rules for Eastern Bengal, ***substitute*** the following:—

4. Disbursements by the District Engineer and his subordinates shall, as a rule, be confined to payments not exceeding Rs. 50 and Rs. 20, respectively. All cash payments by the District Engineer and his subordinates shall be met from the imprest.

(3) *Cancel* rules 3A and 4A in Part IXA of the said District Engineer's Account Rules for Eastern Bengal.

(4) *After* rule 4 in Part IXA of the said District Engineer's Account Rules both for Eastern Bengal and Western Bengal, *insert* the following:—

4A. (1) Each officer or subordinate with whom an imprest account is to be kept will, when the account is first opened, receive from the District Board or the District Engineer a round sum as standing advance or imprest which must at once be entered in an account in District Engineer's Form No. 1.

The disbursements from this advance shall be entered daily as they are made, clearly and in full detail; and from time to time as the imprest-holder finds it necessary, the account shall be closed and balanced.

(2) The right hand half page of the said form shall be cut off and sent to the authority from whom the imprest is held, and the counterfoil retained by the disburser. The said account must be supported by the necessary vouchers numbered and attached to it, so as to correspond with the order of the entries in column 2 " Voucher number of District Engineer's Form No. 1."

(3) The authority to whom the account is submitted, after carefully scrutinizing the account with the vouchers as regards the propriety of the payments, the clearness and accuracy of the entries and the sufficiency of the vouchers, shall reimburse the imprest-holder the exact sum expended, so as again to bring the imprest cash in hand up to the original amonnt.

(4) The District Engineer shall, when reimbursing his subordinates, incorporate their accounts, item by item, in his own account. He shall also note the amount remitted to his subordinate in red ink in the counterfoil of his own account.

4B. (1) The District Engineer and his subordinates who have to pay money out of the imprest shall write the amount of each sub-voucher in words and figures over their initials, and shall stamp each of them immediately " Paid in cash."

(2) Each entry in the imprest cash-book shall be checked with the sub-vouchers and initialled by the District Engineer or his subordinate, as the case may be, and he shall also sign a certificate in the imprest cash-book whenever the imprest is recouped, to the effect that the balance shown in the cash-book is correct and has been personally verified by him.

(3) The District Engineer or his subordinate shall also check the book balance of his own imprest with the actual balance in his possession, and shall see that the sub-vouchers are duly receipted by the payees.

4C. (1) The totals and balances of all imprest and sub-imprest accounts submitted for recoupment shall be written in words and figures, and all corrections in sub-vouchers and imprest accounts shall be attested by the drawing officer, without which the bill must not be passed.

(2) When signing his accounts for recoupment, the District Engineer shall compare each entry in the account with the sub-vouchers by stamping them "Cancelled," so that they cannot be used again, and shall total and initial the column "Amount of each payment" in the imprest cash-book and the column "Total" in the abstract of charges, the cross total of which should agree with the former.

(3) The following further certificate shall be added by the District Engineer in the imprest cash-book :—

"Received contents and certified that I have compared the entries in the imprest account with the sub-vouchers and have attached them in original to the recoupment bill."

(4) Every cheque in favour of the District Engineer shall be made payable to "order," and shall be compared by him with the imprest bill in payment of which it is issued at the time of endorsing the cheque for encashment.

The amount of each recoupment shall be separately remitted to the subordinate, and not with other dues, and shall be checked by the District Engineer once a month with money-order acknowledgment or separate receipt, which must be obtained at once, the entry in the imprest cash-book being intialled in token of check.

(5) The District Engineer's imprest cash account shall be closed on the 27th of every month, to admit of the transactions up to that date being included in the month's account of the District Board, provided the expenditure does not fall below Rs. 10, which is the minimum amount for which cheques are issued on the treasury.

4D. The imprest cash must not be kept in the hand of the Accountant or clerk who writes the imprest cash-book. When any employee acts as cashier in respect of the District Engineer's imprest, he shall deposit a security of not less than Rs. 100, which, in the case of a clerk who is already employed by the Board, will be recovered in ten monthly instalments from his pay. In the case of a new appointment, the security shall be deposited immediately on the clerk joining the appointment.

(5) *For* rule 5 in Part IXA of the said District Engineer's Account Rules both for Eastern Bengal and Western Bengal. *substitute* the following:—

5. (*1*) No miscellaneous receipts, such as the sale-proceeds of materials or produce, fines or refund, etc., must be realized by the District Engineer or his subordinate without granting a receipt in the following form. The form shall be printed and bound in books with counterfoils, each book containing 100 forms, and the forms in each book having printed serial numbers. The total amount received shall be written in words both on the receipt itself and on the counterfoil. The latter need only be initialled by the officer who signs the receipt:—

Miscellaneous receipt.	*Miscellaneous Receipt.*
No.____	No. , dated________

*Date*____	
Receiving Officer.	*Receiving Officer.*

(*2*) As soon as the amount is realized, it shall be entered in the Register in Form 1-A (reproduced below) and remitted to the treasury. Every such remittance shall be accompanied by a challan (Form No. 2) in triplicate, bearing the initials of the remitter. The original challan shall be returned by the Treasury Officer and the others shall be returned duly receipted to the District Engineer, who shall forward the duplicate to the District Board's office, retaining the triplicate in his office. If cheques are tendered in payment of miscellaneous receipts, they shall be endorsed "Pay by transfer to the credit of the District Fund."

(6) *For* rule 12 in Part IXA of the said District Engineer's Account Rules for Eastern Bengal, *substitute* the following :—

12. Road metal shall be accounted for in Form No. 9, which shall be kept up for each road separately, and shall be finally recorded in the District Engineer's office.

(7) *Cancel* Form No. 10 appended to the said District Engineer's Account Rules for Eastern Bengal; and *for* Form No. 9 appended to the said rules both for Eastern Bengal and Western Bengal, *substitute* the following Form :—

D. E. Form No. 9.

NOTES.

1. This return of the disposal, mile by mile, of metal collected for consolidation should be prepared monthly by the Subdivisional Officer and forwarded by him to the District Engineer's office, where it will be recorded.
2. For permanent record in the Subdivisional Office, these forms will be bound in a book, loose sheets being submitted to the District Engineer monthly.
3. The balance of metal in each mile should be shown monthly, whether there are any transactions on it during the month or not.
4. No yearly register or return of road metal will be required, and the only other record necessary will be the rate-book (Form No. 11).
5. Examiners will test-audit these returns during the course of their periodical inspections.
6. This form may, at the discretion of the District Board, be separately printed or lithographed for each road.

24-Parganas.

No. 1898T.G.—The 19th September 1913.—In exercise of the power conferred by clause 1 (*a*) of section 279 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), the Governor in Council is pleased to sanction the proposals of the Commissioners of the South Dum-Dum Municipality to levy a water-rate on the annual value of holdings within the Municipality which may vary with the distance of houses or lands from the nearest stand-pipe or other source of water-supply and to levy a higher rate on premises to which communication pipes are attached than in the case of other premises.

No. 1903T.G.—The 19th September 1913.—In exercise of the power conferred by section 351 of the Bengal Municipal Act, 1884 (Ben. Act III of 1884), the Governor in Council is pleased to confirm the following by-laws framed by the Commissioners of the Baruipur Municipality, in the district of the 24-Parganas:—

ADDITIONAL BY-LAWS FOR THE BARUIPUR MUNICIPALITY.

Prevention of obstructions, encroachments and nuisances on or near roads.

1. No person shall, without the general or special permission of the Commissioners, make any excavation on any road, or enclose any road or any part thereof.

Fine, Rs. 10; daily fine, Rs. 2.

2. No person shall drive any vehicle across a public drain in or near any road so as to cause damage to such drain.

Fine, Rs. 10.

3. No person shall—

(*a*) place any burning material in any Municipal dust-bin on or near a road, or

(*b*) burn in any such dust-bin any paper, leaves, grass, wood or other materials.

Fine Rs. 10.

4. No person shall build, or cause to be built, or shall keep, after prohibition by the Commissioners, any *tatti*, privy or urinal within ten feet of any road.

Fine, Rs. 10; daily fine, Rs. 2.

Disposal of sewage and offensive matter.

5. Every owner or occupier of any house, land or premises from which sewage or offensive matter is not removed by such owner or occupier, shall give free access to the servants of the Municipality for the removal thereof within such hours as may have been fixed by the Commissioners.

Fine, Rs. 10; on a second and subsequent conviction, Rs. 50.

Cremations and burials and the disposal of corpses.

6. Any person burning, or causing to be burnt, any corpse at any burning-ghat or burning-ground, shall cause the corpse and the clothes and other articles brought with it to be completely reduced to ashes.

Fine, Rs. 50.

Prevention of nuisances affecting the public health, safety or convenience.

7. Every owner or occupier of any land shall, within 48 hours after service of a notice in this behalf from the Commissioners—

(*a*) clear the land of dirt, dung, bones, ashes, sweepings, nightsoil and other filth, and all other noxious or offensive matter, and

(*b*) fence the land so as to prevent the commission thereon of nuisances affecting the public health, safety or convenience.

Fine, Rs. 10; daily fine, Rs. 2.

8. Every baker or confectioner who keeps for sale any bread, sweetmeats or other prepared articles of food, and every vendor or hawker of such articles shall keep the same in a glass-case or other covered receptacle, so as to exclude flies and dust therefrom.

Fine, Rs. 10; on a second or subsequent conviction, Rs. 50.

9. No person shall make any aerated water or ice for the purpose of sale without first boiling the water.

Fine, Rs. 50.

10. No person shall retain, purchase or sell clothing found on the dead body of a person who has died from small-pox, plague, cholera, or any other infectious disease.

Fine, Rs. 50.

Burdwan.

No. 1914T.G.—The 19th September 1913.—In exercise of the power conferred by section 27 of the Bengal Municipal Act 1884 (Bengal Act III of 1884), the Governor in Council is pleased to appoint Babu Jatindra Mohan Ray to be a Commissioner of the Katwa Municipality, in the district of Burdwan, *vice* Babu Ramapati Chatarji, resigned.

Mymensingh.

No. 1955T.G.—The 19th September 1913.—In exercise of the power conferred by clause (*a*) of section 59 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), the Governor in Council is pleased to approve the resolution passed by the Commissioners of the Jamalpur Municipality, in the district of Mymensingh, under sections 23 and 27 of that Act, electing Mr. M. Thorp, I.C.S., Subdivisional Officer of Jamalpur, to be Chairman of that Municipality, *vice* Mr. C. C. V. R. Sells, resigned.

Pabna.

No. 1957T.G.—The 19th September 1913.—In exercise of the power conferred by clause 2 of section 139 of the Bengal Local Self-Government Act, 1885 (Ben. Act III of 1885), the Governor in Council is pleased to confirm the following by-laws which have been framed by the District Board of Pabna under clause 1 of the said section:—

Definitions.

(1) "Reserved tank or well" means a tank or well which the District Board has set apart under section 90 of the Bengal Local Self-Government Act of 1885, by public notice, for the supply of water for drinking and for culinary purposes, and includes any reservoir or part of any river, khal or other channel, so set apart; and a notice-board on the edge of a reserved tank or well, containing the words "Reserved tank" or "Reserved well," or words to that effect, shall be deemed to be sufficient notice for the purpose of this definition; and

(2) the "slopes" of a reserved tank or well include all places from which water can flow directly into such tank or well.

By-laws.

(1) No person shall—

(*a*) bathe or wash any portion of his own body or the body of any other person, or

(*b*) wash clothes, or

(*c*) wash any cattle or other animal, or

(*d*) allow any of his ducks, geese or other birds to enter into the water,

in any reserved tank or well, or upon any of the banks, slopes or sides of any reserved tank or well.

(2) No person shall—

(a) commit any nuisance in or on the banks or slopes or sides of any reserved tank or well, or
(b) throw any filthy substance thereinto, or
(c) in any way pollute the water thereof, or
(d) allow the water of any sink, sewer, cess-pool or privy, or any offensive matter belonging to him or being on his land, to flow thereinto.

Explanation.—Steeping jute or bamboos in a reserved tank amounts to an offence against this by-law.

Penalties.

A breach of any of the by-laws mentioned above shall be punished with fine, which may extend to Rs. 50 (rupees fifty only).

No. 1359T.G.—The 20th September 1913.—In exercise of the powers conferred on him by section 351 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), the Governor in Council is pleased to confirm the following by-laws framed by the Commissioners of the Asansol Municipality, in the district of Burdwan :—

Burdwan.

BY-LAWS FOR THE ASANSOL MUNICIPALITY

DEFINITIONS

1. *Definitions.*—In these by-laws,—

(1) "carriage" includes also a motor-car ; and

(2) "cattle" means cattle as defined in section 3 of the Cattle-trespass Act, 1871 (I of 1871).

GENERAL EXCEPTION.

2. In areas in which section 34 of the Police Act, 1861 (V of 1861), is in force, no act which constitutes an offence under that section shall be punishable under by-law 23, 41 or 52

Police Act, 1861, section 34.

PENALTIES.

3. *Fines.*—The penalty for the infringement of any of these by-laws shall be—

(a) a fine not exceeding the sum stated at the foot of the by-law,

(b) in the case of a second or subsequent conviction for a similar offence, a fine not exceeding the sum (if any) stated in that behalf at the foot of the by-law, and

(c) in the case of a continuing offence, a further fine, not exceeding the sum (if any) stated at the foot of the by-law as the daily fine, which daily fine may be imposed for each day after written notice of the offence from the Commissioners.

REGULATION OF TRAFFIC ON ROADS.

4. *Youthful drivers.*—No owner of any carriage or cart shall allow it to be driven on any road by a driver under fourteen years of age.

Fine, Rs. 10.

5. *Driving more than one carriage or cart.*—No driver shall drive or have in his charge on any road more than one carriage or cart, except in the case of two carts, the hinder one of which is securely fastened to the preceding cart.

Fine, Rs. 10.

6. *Rule of the road.*—Any person driving a carriage or cart, or riding a bicycle, or driving or riding an animal, or carrying a palanquin, on any road, shall, when passing any vehicle coming from the opposite direction, keep to his left, and shall, when overtaking any vehicle, keep to his right

Fine, Rs. 10.

7. *Lights.*—No person shall drive any of the undermentioned vehicles or animals, or convey any palanquin, on any road, between half an hour

after sunset and half an hour before sunrise, unless lights are provided as follows:—

(*a*) every carriage must carry two conspicuous lights, one on each side;

(*b*) every cart must carry one conspicuous light;

(*c*) every elephant, camel or palanquin must be accompanied by one conspicuous light;

(*d*) every cycle must carry one conspicuous light in front:

Provided that this by-law shall not apply on nights of full moon or on the four nights before and after full moon, if and when the moon is clearly visible.

Fine, Rs. 50.

8. *Signals on motors and cycles.*—No person shall drive any motor-car, or ride any motor-cycle or any tricycle or bicycle, on any road, unless it has attached to it a bell, horn or other suitable signal in good order.

Fine, Rs. 50.

9. *Maximum load for carts.*—No cart shall, without the general or special permission of the Commissioners, carry on any road a load in excess of twenty maunds.

Fine, Rs. 10.

10. *Cart laden with girders, etc.*—No person shall drive upon a road any cart laden with iron girders, rails, beams, bullas, bamboos, planks or other materials of a similar character which exceed twelve feet in length, unless the cart be accompanied by another person, and be loaded in such a way that no portion of the said materials touches the ground.

Fine, Rs. 10.

11. *Cart laden with bricks, stones, etc.*—No person shall drive upon a road any cart laden with bricks, stones or other materials of a similar character, unless such materials be so secured that they cannot fall on to the road.

Fine, Rs. 10.

12. *Animal laden with bamboos or timber.*—No person shall convey on any road bamboos or timber placed on the back of any animal in such a way that any portion of such bamboos or timber touches the ground.

Fine, Rs. 10.

13. *Taking elephants or camels along a road.*—No person shall, without the general or special permission of the Commissioners, take any elephant or camel along any road.

Fine, Rs. 50.

14. *Taking an elephant over a bridge.*—No person shall allow any elephant in his charge to go over any bridge on any road, unless the bridge be constructed of arched masonry.

Fine, Rs. 10.

15. *Loaded pack-animals.*—No person shall drive upon a road, at the same time, more than two loaded pack-animals.

Fine, Rs. 10.

16. *Foals.*—No person riding or driving a mare on any road shall allow a foal to accompany the mare unless it is secured.

Fine, Rs. 10.

17. *Driving bullock-cart in centre of road.*—No person shall drive a bullock-cart on the centre of any road on which cart-tracks are provided.

Fine, Rs. 10.

18. *Sitting or sleeping.*—No person shall sit or sleep on any road so as to obstruct traffic.

Fine, Rs 10.

19. *Road closed to cart traffic.*—No person shall, without the permission of the Commissioners, take or drive any cart over a road or part of a road which is declared by the Commissioners to be permanently closed to cart traffic:

Provided that no road shall be so closed unless there are other roads available for traffic.

Fine, Rs. 10.

REGULATION OF TRAFFIC ON FOOTPATHS.

20. *Driving or riding on foothpath.*—No person shall wilfully drive or ride any cart, carriage, bicycle, horse or cattle on any foot-path set apart for the use of foot-passengers.

Fine, Rs. 10.

PREVENTION OF OBSTRUCTIONS, ENCROACHMENTS AND NUISANCES ON OR NEAR ROADS.

21. *Abandoning or letting loose cattle.*—No person shall abandon, or let loose or negligently allow to get loose, any cattle, on or to any road.

Fine, Rs. 10.

22. *Children playing or wandering.*—No parent or guardian of any child below the age of seven years shall allow such child to play or wander about on any road so as to obstruct traffic.

Fine, Rs. 10.

23. *Depositing article.*—No person shall, without the general or special permission of the Commissioners, deposit any articles or things on any road, except for a temporary purpose, or use any road as a place for keeping any carriage, cart or cattle, or for washing any article, or for any other private purpose:

Provided that, during the months of April, May and June, between the hours of 10 P.M. and 5 A.M. *khatias* may be laid on the side of a road in such a manner as not to cause obstruction or danger to persons using the road.

Fine, Rs. 10.

24. *Planting trees.*—No person shall plant a tree on any road without the general or special permission of the Commissioners.

Fine, Rs. 10.

25. *Excavations and enclosures.*—No person shall, without the general or special permission of the Commissioners, make any excavation on any road, or enclose any road or any part thereof.

Fine, Rs. 10; daily fine, Rs. 2.

26. *Removing turf or cutting grass.*—No person shall, without the general or special permission of the Commissioners, remove turf or cut grass from any road or the slopes thereof.

Fine, Rs. 10.

27. *Discharge of water.*—No person shall affix or cause to be affixed to any building owned or occupied by him, any gutter, spout or other thing intended for the conveyance and discharge of water, or shall leave in any

such building any opening for the discharge of water, in such a way that the water discharged therefrom is thrown or falls upon a road or into any drain in or near a road, except through a downpipe or other suitable contrivance reaching to the level of the road or drain.

Fine, Rs. 10; daily fine, Rs. 2.

28. *Breaking in horses.*—No person shall break in horses on any road not set apart for that purpose.

Fine, Rs. 10; on a second or subsequent conviction, Rs. 50.

29. *Flying kites.*—No person shall fly a kite on any road or in such a way that it may fall on any road.

Fine, Rs. 10.

30. *Playing games.*—No person shall play any game on any road.

Fine, Rs. 10.

31. *Throwing stones or missiles.*—No person shall throw or discharge any stone or missile on or near any road.

Fine, Rs. 10.

32. *Driving across a drain.*—No person shall drive any vehicle across a public drain in or near any road so as to cause damage to such drain.

Fine, Rs. 10.

33. *Barbed wire.*—No owner or occupier of land abutting on any road shall fence such land with barbed wire.

Fine, Rs. 10; daily fine, Rs. 2.

34. *Dust-bins.*—No person shall—

(*a*) place any burning material in any municipal dust-bin on or near a road, or

(*b*) burn in any such dust-bin any paper, leaves, grass, wood or other material.

Fine, Rs. 10.

35. *Conveying sewage or offensive matter.*—No person shall convey sewage or offensive matter by any road otherwise than—

(*a*) in a closely-covered receptacle, of such description and pattern as are prescribed from time to time by the Commissioners at a meeting, and

(*b*) between such hours as are so prescribed.

Fine, Rs. 10.

36. *Privies and urinals.*—No person shall build or cause to be built, or shall keep, after prohibition by the Commissioners, any *tatti*, privy or urinal within ten feet of any road.

Fine, Rs. 10; daily fine Rs. 2.

37. *Killing cattle or poultry or cleaning carcasses.*—No person shall, on or within sight of any road, kill, or clean the carcass of any poultry.

Fine, Rs. 10.

38. *Closed roads.*—No person shall take or drive any carriage or cart over a road or part of a road which is closed under section 201 of the Bengal Municipal Act, 1884, or displace any barrier or fence erected under that section.

Fine, Rs. 10.

LETTING OFF OF FIRE-ARMS, FIRE-WORKS, FIRE-BALLOONS OR BOMBS.

39. *Letting off re-iarms, etc.*—No person shall let off any fire-arms fire-works, fire-balloons or bombs on or within one hundred yards of any road, except with the general or special permission of the Commissioners.

Fine, Rs. 10.

REGULATION OF THE USE OF, AND PREVENTION OF NUISANCES IN REGARD TO, PUBLIC WATER-SUPPLY, BATHING AND WASHING PLACES, STREAMS, CHANNELS, TANKS AND WELLS.

40. *Setting up obstruction.*—No person shall, without the general or special permission of the Commissioners, set up any obstruction in any *nala* or water-course which is a source of public water-supply.

Explanation.—The spreading of fishing-nets and the placing of fishing-traps in any such *nala* or water-course are included in the word "obstruction," as used in this by-law.

Fine, Rs. 10; daily fine, Rs. 2.

41. *Easing oneself.*—No person shall ease himself at the side of or into any river, stream, channel, tank or well which is used by the public.

Fine, Rs. 10.

42. *Cleanliness of banks and access for conservancy.*—Every owner or occupier of any part of the bank of any *nala* or water-course which is a source of public water-supply shall—

(*a*) keep such bank free from filth, dense vegetation and other obstruction, and

(*b*) at all times allow the Commissioners, or any of their servants duly authorized in this behalf, to have access to such *nala* or water-course for any purpose of public conservancy.

Fine, Rs. 10.

43. *Weeds.*—A person cleansing a channel or tank shall not leave any weeds taken therefrom on the slopes or banks of the channel or tank, but shall remove the same altogether within three days.

Fine, Rs. 10; daily fine, Rs. 2.

44. *Masonry platforms and drains for wells.*—The owner of every well which is a source of public water-supply shall construct a masonry platform and drains to prevent the surface water falling into the well or stagnating in its vicinity.

Fine, Rs. 10; daily fine, Rs. 2.

45. *Bathing or washing near well or stand-pipe.*—No person shall bathe, or shall wash clothes, utensils or any other article, within a distance of ten feet from the lowest platform of any public well or of any filtered waterstand-pipe which is used by the public.

Fine, Rs. 10.

46. *Use of stand-pipes and fountains.*—Except with the general or special permission of the Commissioners and under such conditions as they may from time to time prescribe, no person shall use any stand-pipe or fountain, belonging to the Commissioners, for any purpose other than drawing water—

(*a*) for drinking on the spot, or
(*b*) for carrying away for domestic purposes.

Fine, Rs. 10.

47. *Steeping jute, hemp, etc.*—No person shall, without the general or special permission of the Commissioners, steep in any tank or ditch any jute,

hemp or other vegetable matter which is likely to render the water offensive or noxious to the neighbourhood.

Fine, Rs. 10; on a second or subsequent conviction, Rs. 50.

48. *Washing infected articles.*—No person shall wash or cause to be washed in any tank or water-course or any other receptable for water used by the public for drinking or bathing purposes any clothes, bedding or other articles which have been used by a person suffering from any infectious or contagious disease.

Fine, Rs. 50.

49. *Bathing by infected persons.*—No person suffering from any infectious or contagious disease shall bathe in any public bathing place.

Fine, Rs. 10.

50. *Bathing places reserved for females.*—No male person above twelve years of age shall stand on or near, or athe or wash in, any bathing-place which has been reserved by the Commissioners at a meeting for the use of females only.

Fine, Rs. 10.

51. *Cattle troughs.*—No person shall use for any other purpose any drinking trough which is intended for watering cattle.

Fine, Rs. 10.

DISPOSAL OF SEWAGE AND OFFENSIVE MATTER.

52. *Depositing night-soil.*—No person shall deposit night-soil in any place not approved by the Commissioners for the purpose.

Fine, Rs. 10; on a second or subsequent conviction, Rs. 50.

53. *Manure.*—No owner or occupier of any garden or agricultural land shall, without the general or special permission of the Commissioners, cause or allow any human excrement to be used for manuring in such garden or land.

Fine, Rs. 50.

54. *Access to Municipal servants.*—Every owner or occupier of any house, land or premises, from which sewage or offensive matter is not removed by such owner or occupier, shall give free access to the servants of the Municipality for the removal thereof within such hours as may have been fixed by the Commissioners.

Fine, Rs. 10; on a second or subsequent conviction, Rs. 50.

55. *Removal of offensive matter from markets.*—Every owner, occupier or farmer of any market shall remove or cause to be removed therefrom, once in every twenty-four hours, any offensive matter which may have accumulated therein during that period.

Fine, Rs. 10; on a second or subsequent conviction, Rs. 50.

DISPOSAL OF CARCASSES.

56. *Disposal of carcasses.*—Every owner or occupier within whose premises any animal dies shall, within six hours after its death, or, if the death occurs at night, then within six hours after sunrise, either remove the carcass, at his own expense, to such place as may be set apart by the Commissioners for the disposal of such carcasses, or report the death to the Conservancy Overseer of the Ward within which such premises are situated.

Fine, Rs. 10.

LATRINES.

57. *Latrines reserved for females.*—No male person above twelve years of age, except the Municipal Inspecting officers for purposes of inspection at such times as the Commissioners may fix in this behalf, shall enter any public latrine intended for the use of females.

Fine, Rs. 10.

DRAINS.

58. *Obstruction to drains.*—No person shall deposit, or cause to be deposited, in or on the side of any public drain, any substance or thing which will cause obstruction to such drain.

Fine, Rs. 10.

59. *Constructing stalls, platforms, etc., over a drain.*—No person shall construct or place over, or by the side of, any public drain, any stall, bridge, platform, building or structure of any kind, except with the general or special permission of the Commissioners and in such manner as they may direct.

Fine, Rs. 10; daily fine, Rs. 2.

CREMATIONS AND BURIALS AND THE DISPOSAL OF CORPSES.

60. *Covering of corpse.*—No person shall convey a corpse or part of a corpse along any road, unless it be decently covered and totally concealed from view.

Fine, Rs. 10.

61. *Depositing corpse on or near road.*—No person, while conveying a corpse, shall, except for the purpose of ordinary relief or for a religious purpose, deposit it on or near any road.

Fine, Rs. 10.

62. *Burial or burning obligatory.*—No person shall, without the general or special permission of the Commissioners, dispose of any corpse otherwise than by burying or burning it.

Fine, Rs. 10.

63. *Lines for graves.*—When lines for graves in any burial-place have been marked out by the Commissioners, no person shall build or dig, or cause to be built or dug, any grave in such burial-place except in such a line.

Fine, Rs. 50.

64. *Depth of coffin or corpse in masonry graves.*—No person shall, in any burial-ground, bury, or cause to be buried, any corpse in a grave constructed of masonry, unless the top of the coffin, or (if no coffin is used) the corpse, is placed at least six feet below the surface.

Fine, Rs. 50.

65. *Depth of non-masonry graves.*—No person shall, in any burial-ground, bury, or cause to be buried, any corpse in a grave not constructed of masonry, unless the grave is at least six feet deep.

Fine, Rs. 50.

66. *Distance between graves.*—No person shall build or dig, or cause to be built or dug, any grave in a burial-ground at a distance of less than three feet from any other existing grave.

Fine, Rs. 50.

67. *Opening graves.*—No grave once used shall be open for the burial of another corpse without the general or special permission of the Commissioners.

Fine, Rs. 50.

68. *Complete cremation.*—Any person burning, or causing to be burnt, any corpse at any burning ground or burning-ghat shall cause the corpse and the clothes and other articles brought with it to be completely reduced to ashes.

Fine, Rs. 50.

69. *Speedy cremation*—Any person who conveys, or causes to be conveyed, any corpse to any burning-ground or burning-ghat shall burn the same or cause it to be burnt within six hours after its arrival at such ground or ghat.

Fine, Rs. 50.

PREVENTION OF NUISANCES AFFECTING THE PUBLIC HEALTH, SAFETY OR CONVENIENCE.

70. *Clearing and fencing land.*—Every owner or occupier of any land shall, within forty-eight hours after service of a notice in this behalf from the Commissioners,—

(*a*) clear the land of dirt, dung, bones, ashes. sweepings, night-soil and other filth, and all other noxious or offensive matter, and

(*b*) fence the land so as to prevent the commission thereon of nuisances affecting the public health, safety or convenience.

Fine, Rs. 10; daily fine, Rs. 2.

√71. *Sanitation of public places of charity or worship.*—No proprietor, owner, manager, trustee, or motawalli or person entrusted with the daily supervision, or in charge of any public place of charity or worship shall keep such place, or any building or premises used in connection therewith, in an insanitary condition.

Fine, Rs. 10; on a second or subsequent conviction, Rs. 50.

72. *Cleanliness of shops, markets, and slaughter-houses.*—Every owner or occupier of a meat, poultry, fish or vegetable shop, or a market, bazar or slaughter-house, shall keep the same in a cleanly condition.

Fine, Rs. 10; on a second or subsequent conviction, Rs. 50.

73. *Sale of fish in market.*—No person shall sell fish or expose fish for sale in any part of the Municipal market except on the paved floor specially set apart for the purpose.

Fine, Rs. 10.

74. *Sale of prepared articles of food.*—Every baker or confectioner who keeps for sale any bread, sweetmeats or other prepared articles of food and every vendor or hawker of such articles shall keep the same in a glass case or other covered receptable, so as to exclude flies and dust therefrom.

Fine, Rs. 10; on a second or subsequent conviction, Rs. 50.

75. *Easing oneself in market.*—When a urinal or latrine has been provided for any market, no person shall satisfy a call of nature at any place within the market, except at the urinal or latrine so provided.

Fine, Rs. 10.

76. *Aerated water and ice.*—No person shall make any aerated water or ice for the purpose of sale without first boiling the water.

Fine, Rs. 50.

77. *Infected clothing.*—No person shall retain, purchase or sell clothing found on the dead body of a person who has died from small-pox, plague, cholera, or any other infectious disease.

Fine, Rs. 50.

78. *Disinfection of carriages.*—Every owner or driver of a carriage which has conveyed a person suffering from small-pox, plague, cholera or any other infectious disease, or a corpse, shall, before using the carriage again, disinfect it with such disinfectants as the Commissioners may from time to time prescribe.

Fine, Rs. 50.

79. *Picketing animals, collecting carts or forming encampments.*—No person shall, without the general or special permission of the Commissioners, picket animals, collect carts or form any encampment on any public ground not set apart for the purpose.

Fine, Rs. 10; on a second or subsequent conviction, Rs. 50.

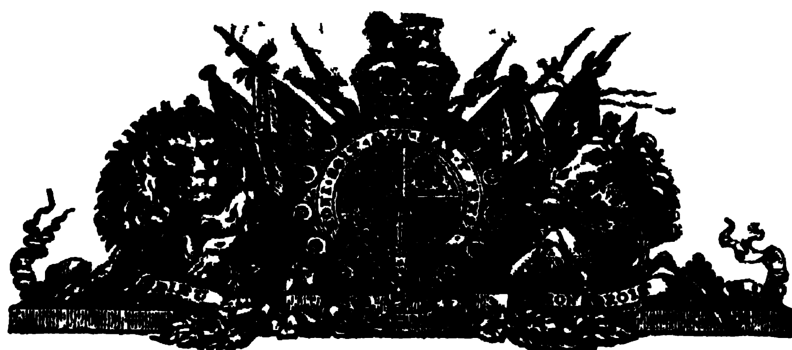
80. *Diseased or worn-out cattle.*—No person shall abandon or let loose, or allow to get loose, any diseased or worn-out cattle.

Fine, Rs. 10.

81. *Nocturnal noises.*—No person shall, except with the general or special permission of the Commissioners, beat a drum or tom-tom or blow any high sounding instrument after 10 P.M. or before 6 A.M.

Fine, Rs. 10.

BY-LAW GIVING EFFECT TO THE OBJECTS OF SECTION 103 OF THE BENGAL MUNICIPAL ACT, 1884.



82. *Report of disfigurement, etc., of tickets.*—When a ticket, showing the number of the holding on the register and the circle within which the holding is situated, has been affixed to a holding by the Municipal authorities, and the same is disfigured, obliterated or removed, the owner or occupier of the holding shall, within two weeks from the time at which he becomes aware of the fact, report the matter to the Vice-Chairman.

Fine, Rs. 10.

CANCELLATION OF FORMER BY-LAWS.

83. *Cancellation of former by-laws.*—The By-laws which were confirmed by Government Order No. 4785M., dated the 17th November 1897, and subsequently modified by Government Order No. 1482M., dated the 4th September 1908, are hereby cancelled.

PART IC.

Educational Notices.

CIVIL ENGINEERING COLLEGE, SIBPUR.

THE following courses of instruction are provided at this College :—

I.—THE ENGINEER DEPARTMENT.

(Affiliated to the Calcutta University)

A four-year course leading to the Bachelor of Engineering Degree in Civil Engineering.

Admission qualification—The Intermediate Examination of the Calcutta University in Science or Arts (with Mathematics and Physics or Chemistry), or equivalent. In addition candidates for admission are required to pass a special examination in Drawing.

Applications for admission by regular students on or before February 1st.

Applications for admission by special students on or before July 1st.

Session commences on the 1st Monday in November.

II.—THE APPRENTICE DEPARTMENT.

(Affiliated to the Joint Technical Examination Board)

Section I.—The Sub-Overseer Classes.

A course of two academic years leading to the Sub-Overseer Examination of the Board.

Admission qualifications—

To the 1st-year class—The Matriculation Examination of the Calcutta University, Middle School Examination, or equivalent.

To the 2nd-year class—The Final Examination of B classes of zilla schools.

Admissions—

To 1st-year class—1st Monday in June.

To 2nd-year class—Immediately the result of the Final Examination of the B classes of zilla schools is announced.

Section II.—The Overseer Classes.

A choice of three special branches is offered :—

(1) Civil Engineering, preparing for the Board's certificate of Overseer (Civil Branch).

(2) Mechanical and Electrical Engineering, preparing for the Board's certificate of Overseer (Mechanical and Electrical Branch).

(3) Mining leading to the Government of India's Diploma in the Principles of Mining.

Admissions which are limited to 40 in each branch are made from among the successful candidates immediately the results of the Sub-Overseer Examination are announced.

Section III.—Practical Training.

[Lasting for a full year (of 313 working days).]

This practical training is carried out under the regulations of the Board for the Civil and Mechanical and Electrical Engineering Branches in the workshops or Electrical Department of the College, or under Government or other public bodies or firms approved for this purpose by the Board. On the satisfactory completion of this training the following certificates are awarded :—

Civil Branch	Sub-Engineer. Upper Subordinate.
Mechanical and Electrical Branch	Full course certificate.

III.—CLASSES IN TINCTORIAL CHEMISTRY AND DYEING.

A two-year courses in Tinctorial Chemistry and Dyeing leading to a College Diploma is offered.

Admissions.—1st Monday in November.

Qualification for regular students.—Intermediate examination of the Calcutta University in Engineering, Science or Arts (with Chemistry); the Final Examination of Government Weaving Institute.

For occasional students.—A sufficient general education with a practical knowledge of Dyeing.

IV.—WORKSHOPS.

Industrial classes in the following shops :—

Carpenters.	Turners.
Blacksmiths.	Pattern-making.
Fitters.	Foundry and Brass and Iron.

Admissions at any time of the year.

For further information apply to the Principal, Civil Engineering College, Sibpur.

B. HEATON, *Principal, Civil Engineering College.*

SIBPUR, *the 26th April 1912.*

DR. CHANDRA'S SCHOLARSHIP IN MATERIA MEDICA AND THERAPEUTICS.

THE above scholarship of the value of Rs. 361-8 will be awarded to the most successful candidate who will be selected at an examination to be held this year in November 1913.

The examination is open to—

(1) All senior students of the Medical College, Calcutta.

(2) Any *ex*-senior student of the Medical College who may at the time of the examination be studying at any Medical College in India or Europe.

(3) Any graduate or licentiate in Medicine of whatever standing and however employed who may have obtained either in Europe or in India a Medical diploma or degree entitling him to practise Medicine, provided that such graduate or licentiate at some time received a portion of his professional education in the Medical College, Calcutta.

Certificates to the effect that the candidate fulfils the above requirements, together with one of good moral character signed by a person of respectability, should be submitted to the Principal, Medical College, Calcutta, on or before the 10th October 1913.

Candidates are required to write a thesis on "An Enquiry into the Pharmacological Properties and Therapeutical Uses of Acolypha Indica (Bengali Mukta-Jhuri Natural Order Euphorbioceoe," and submit the same to the Professor of Materia Medica and Therapeutics, Medical College, Calcutta, by the 30th November 1913.

Personal attendance at the examination is not necessary.

Preference will be given to the candidate whose thesis bears evidence of original investigation of any worth in connection with the above plant.

The scholarship will be tenable for one year; but it may be tenable for two years in case of exceptional merit on the recommendation of the examiner.

CALCUTTA,
The 29th August 1913.

B. H. DEARE, LT.-COL., I.M.S.,
Offg. Principal, Medical College.

NOTIFICATION.

ENGLISH TEACHERSHIP EXAMINATION, 1913.

THE examination will be partly written and partly oral and practical.

2. The written examination will be held at the Training School at Calcutta on the 1st December 1913 and the two following days. Three papers will be set, as shown below—

					Marks.
I.—Art of teaching,	1st December,	10 A.M.	to 2 P.M.	...	100
II.—Discipline,	2nd „	10 „	2 „	...	100
III.—Organisation,	3rd „	10 „	2 „	...	100

3. The oral and practical examination will be in actual class teaching and in notes of lessons. The necessary arrangements for holding this examination will be made by Inspectors of Schools. One hundred marks will be assigned to this examination.

4. In the case of a candidate who is a teacher, the Inspector may, at his discretion, conduct the practical examination at the candidate's own school. This examination may be conducted any time in the month of December 1913.

5. Candidates obtaining 50 per cent. of the marks or upwards in each of the subjects, both written and practical, will be declared to have passed, and will be granted English Teachership Certificates, under the signature of the Director of Public Instruction.

6. Candidates for first-grade certificates must have passed the B. A. Examination. Candidates for second-grade certificates must have passed the F. A. Examination, and served as teachers for at least three years. Candidates for third-grade certificates must have passed the Entrance Examination, and served as teachers for at least three years.

A teacher who has held a certificate of a certain grade with credit for five years will also be permitted to compete for the next higher grade of certificate, if his capacity as a teacher and his knowledge of the subjects of examination are certified as satisfactory by the Inspector of Schools.

7. Candidates for the examination should apply, on or before the 30th October 1913, to the Head Master of the Training School at Calcutta, and should send a fee of Rs. 5 at the same time.

8. Candidates who have failed at a previous examination will be admitted to the examination, if they have worked as teachers for at least six months since their failure.

9. Further particulars regarding the examination will be supplied on application by Head Masters of Training Schools.

CALCUTTA,
The 10th September 1913.

W. W. HORNELL,
Director of Public Instruction, Bengal.

NOTIFICATION.

THE FIRST AND SECOND DEPARTMENTAL EXAMINATIONS, DECEMBER 1913.

(In connection with the first-grade Vernacular Training Schools.)

THE first and second Departmental Examinations of first-grade Training Schools in the Presidency and Burdwan Divisions of Bengal will be held on the 29th November, 1st, 2nd, 3rd, 4th, 5th and 6th days of December 1913.

2. The examination will be held at the first-grade Training Schools at Calcutta and Hooghly and at the Church Missionary Society's Training School, Krishnagar.

3. The following classes of candidates will be eligible for the first Departmental Examination:—

(*i*) Students of the second-year class of first-grade Training Schools.

(*ii*) Candidates other than students included in (*i*), who failed to satisfy the examiners at the first Departmental Examination of 1912.

(*iii*) *Bonâ-fide* teachers holding second-grade Vernacular Mastership Certificates.

(*iv*) *Bonâ-fide* teachers who—

(1) have passed either (*a*) the Primary *in situ* examination, or (*b*) a public examination of the Middle Vernacular Standard, or (*c*) some higher examination, and

(2) have worked as teachers for at least two years since passing it, and

(3) have also passed, after serving for at least one year as a teacher, the final examination of a Guru-Training School (conducted on a Middle Vernacular basis)—

(*i*) in all the subjects prescribed for the final Guru-Training School examination,—if qualified as at (*a*),

(*ii*) only in the Theory and Practice of Teaching—if qualified as at (*b*) or (*c*).

(*v*) *Bonâ-fide* teachers who—

(1) as regular students of Guru-Training Schools have passed after the prescribed term of training the final examination of a Guru-Training School (on Middle Vernacular basis), and

(2) have worked as teachers for at least three years since passing it.

4. The following classes of candidates will be eligible for the second Departmental Examination :—

(*i*) Students of the third-year class of first-grade Training Schools.

(*ii*) ***Boná-fide*** teachers who have passed the first Departmental Examination and have worked as teachers for one year since passing it.

(*iii*) ***Boná-fide*** teachers holding second-grade certificates earned prior to 1902.

5. Teachers holding first-grade or second-grade Vernacular Mastership Certificates under the old system prior to 1902 may be examined in any or all of the following groups of subjects of the first or second Departmental Examination under the new system—

(*i*) Elementary Science.
(*ii*) Drawing and Practical Geometry.
(*iii*) The Art of Teaching.
(*iv*) Manual Work and Drill.
(*v*) English—"Direct Method of Teaching English."

6. Teachers who hold first-grade Vernacular Mastership Certificates under the old system prior to 1902 must take the examination which is prescribed in the aforesaid subjects for canditates for the second Departmental Examination; similarly teachers who hold second-grade certificates under the old course must take the examination which is prescribed in these subjects for candidates for the first Departmental Examination.

7. Candidates who are not students of a Government first-grade Training School are required by the 30th September 1913 to remit to the Head Master of the School at which they elect to be examined a written application for admission to the examination together with a fee of one rupee. Full information will be furnished by the Head Masters of those schools on application.

8. Complete lists of candidates for examination, accompanied with the applications of external candidates, must be transmitted by Head Masters of Training Schools to the undersigned by the 3rd October 1913. The fees received from candidates must be deposited in the local treasury, and the chalans sent to this office along with the lists of candidates.

9. The current session of Training Schools will end on the 31st December 1913, and the new session will begin on the 1st January 1914.

W. W. HORNELL,
Director of Public Instruction, Bengal.

CALCUTTA,
The 10th September 1913.

NOTIFICATION.

No. 1578M.—It is hereby notified for general information that on the result of the ensuing Matriculation Examination being known, the ten third grade junior scholarships allotted to the Rajshahi Division will be distributed as follows :—

Rajshahi	... 2	Rangpur	... 1
Dinajpur	... 1	Bogra	.. 1
Jalpaiguri } Darjeeling }	... 2	Pabna	... 2
		Malda	... 1

Besides the above, one special third grade scholarship is open to competition among the students of all High English schools in the district of Rangpur.

A. P. SEN, for *Commissioner.*

COMMR.'S OFFICE, RAJSHAHI DIVN., JALPAIGURI, *the 15th September 1913.*

NOTIFICATION.

The 19th September 1913.

14. Mr. A. F. Williams (from 24th May to 6th June).	St. Andrew's Colonial Homes, Kalimpong.
15. Bro. P. Howlen ...	St. Michael's School, Kurji.
16. Bro. L. Acton ...	Ditto ditto.

They are reported by the Instructor to have shown exemplary diligence, and to have made good progress.

W. H. EVERETT,
Offg. Superintendent of Industries and Inspector of Technical and Industrial Institutions, Bengal.

RULES FOR THE GUIDANCE OF PRIVATE CANDIDATES FOR THE MATRICULATION EXAMINATION OF 1914.

THE following rules for the guidance of private candidates for the Matriculation Examination are published for general information.

2. Private students are those who have not attended any recognised or unrecognised school for at least one year previous to the examination. The term "private students" includes *bonâ fide* school-masters.

3. Private students must appear at the Test Examination of one of the following institutions on the dates mentioned against it:—

Name of School.		Date of Test Examination.
1. Comilla Zilla School	...	11th, 12th, 13th and 15th December 1913.
2. Noakhali Zilla School	...	Ditto.
3. Chittagong Collegiate School		Ditto.
4. Rangamati High English School.		Ditto.

Each private student will pay a fee of Rs. 2 to the head of the institution in which he appears for the Test Examination. The balance after the payment of expenses (stationery, etc.) will go to the examiners as remuneration. No private student will be admitted to the Test Examination unless he is accompanied for the purpose of identification by some person known to the Head Master of the institution at which he appears.

4. Application for permission to appear must be sent in time to reach this office not later than the 1st November 1913. The information to be given and the documents to be appended in original are the following:—

(*a*) The name of the school in which the candidate last studied;

(*b*) the Transfer Certificate in original granted to the candidate by the Head Master of the school in which he last read; or

(*c*) in the case of a candidate who previously appeared at the Matriculation Examination the Registrar's receipt in original for the fee paid.

(*d*) Age of the candidate. No candidate who has not completed the age of 16 years on the first day of the Matriculation Examination will be allowed to appear at it.

(*e*) In the case of school-masters a certificate of good conduct from the Secretary or proprietor of the school in which he is serving, or from the Deputy Inspector of the district concerned.

(*f*) A certificate from a respectable gentleman to the effect that the candidate has prosecuted a regular course of study and has been subject to proper discipline and that he has not read in any school since the last Matriculation Examination.

(*g*) A statement by the candidate giving the following facts:—

- (i) Residence.
- (ii) Father's name.
- (iii) Second language besides English.
- (iv) Vernacular language for composition.
- (v) Vernacular language from which translation is to be made into English in the first English paper.
- (vi) Which of the following subjects he has taken up:—
  - (i) Additional Mathematics.
  - (ii) Additional paper in the classical language.
  - (iii) History.
  - (iv) Geography.
  - (v) Elementary Mechanics.

N.B.—A student who failed to pass the annual examination for promotion to the first class at the end of the session 1912 and then left the school can, under no circumstances, be allowed to appear at the examination.

5. The Inspector on being satisfied will countersign and return the application, which will then be the candidate's passport for admission to the Test Examination.

6. Every candidate must deposit his fee for the test examination with the Head Master of the institution in which he intends to appear, at least 15 days before the date of that examination.

7. The Head Masters of the institutions named above should direct private students who satisfy the test to appear before them in due time with their applications for admission to the Matriculation Examination and to sign them in their presence. They will then grant the necessary certificates and forward the application to the Inspector for countersignature, after which they will be sent by the Inspector direct to the candidates.

8. In no circumstances should the fee for the Matriculation Examination be sent to the Inspector's office. It should be sent to the Registrar by the candidates themselves together with the countersigned applications.

9. Private students must understand that the Test Examination of any school other than those named above will not be accepted by the Inspector.

10. The Matriculation Examination will be held on the 2nd March 1914 and the following days. The applications and fees must reach the office of the Registrar on or before the 17th January 1914.

CHITTAGONG, ASHANULLAH,

The 5th September 1913. *Offg. Inspector of Schools, Chittagong Divn.*

RULES FOR THE GUIDANCE OF PRIVATE CANDIDATES FOR THE INTERMEDIATE AND B.A. EXAMINATIONS, 1914.

Boná fide teachers of middle schools recognised by the University or of any other schools approved for the purpose by the Syndicate who have served as such for full period of three academical years preceding the examination will be admitted to the Intermediate and B.A. Examinations as non-collegiate students.

2. Applications for permission to appear at the abovementioned examinations in the printed form prescribed by the University must be submitted to the Inspector of Schools for signature on or before the 10th January 1914 with the following papers:—

1. Registrar's orders showing that the candidate's name has been registered as a University student.
2. Permission of the Senate allowing the candidate to appear at the examination.
3. F.A. certificates by candidates for B.A. Examination or Matriculation certificates by candidates for the Intermediate Examination and also the Registrar's receipt by candidates who had been admitted to a former examination.
4. Certificates of good character, length of service and diligent and regular study from Secretaries of the schools in which the candidates may be serving.

3. No candidate shall be admitted to the abovementioned examinations who has been enrolled as a regular student of a college during the twelve months previous to the date of the examination at which he applies for permission to appear.

4. The Intermediate and B.A. Examinations of 1914 will be held on the 16th March 1914 and following days. The applications and fees for admission must reach the office of the Registrar on or before the 31st January 1914.

CHITTAGONG, ASHANULLAH,

The 5th September 1913. *Offg. Inspector of Schools, Chittagong Divn.*

(2027—1)

Notice to Tenderers.

(See A. R. I., Vol. III, paras. 135 and 136.)

I.—Fresh Sealed Tenders for the supply of the undermentioned suppliesfrom 1st October 1913 to 31st March 1914 will be received by the Superintendent up to 4 P.M. on the 30th September 1913.

II.—Forms of "Tenders" and "Schedules" (I. A. F. Z2120, Z121 and Z122) of the stores for the supply of which tenders are invited, are obtainable on payment at the rate of Re. 1 per set on application in writing, and samples of the articles to be supplied can be inspected at the Depôt Godown. Remount Depôt, 25 Garden Reach, any day (Sundays and holidays excepted) between the hours of 0 A.M. and 2 P.M.

III.—Tenders will only be received in accordance with the conditions on these printed forms, which must be submitted in English and should specify in words as well as in figures the rate at which each description of article named in them will be delivered. Fractional parts of pies in rates will not be accepted. Tenders must be duly signed and completed in accordance with the instructions they contain.

IV.—Tenders should be accompanied by a deposit in the form of a $\frac{\text{Presidency Bank}}{\text{Treasury}}$ Receipt or Government Promissory notes, Provincial or Municipal debentures or Port Trust bonds, as earnest money, at the rate of 2 per cent. on the total value of the stores tendered for, subject to a minimum of Rs. 25, which deposit will be returned on acceptance or rejection of the tender. In the case of Promissory Notes being furnished they must remain in the name of the depositor.

V.—No security or deposit which the tenderer may have furnished in connection with a previous contract or on any other account can be accepted as earnest money.

VI.—The approval or rejection of tenders rests with the Quartermaster-General in India, who reserves to himself the right of rejecting any tender, or any items in a tender, without cause assigned. The lowest tender will not of necessity be accepted.

VII.—Tenders will be opened at this office at 12 A.M. on Wednesday, the 1st October 1913. Tenderers are invited to attend.

VIII.—Parties tendering are particularly requested to give their addresses in full.

IX.—Any further information required can be obtained on application to this office between the hours of 10 A.M. and 4 P.M. (Sundays and holidays excepted).

X.—Tenders must be sent under a strong cover securely fastened, sealed with a distinctive device and conspicuously marked "Tender for the supply of grain and fodder," and addressed to the Superintendent, Calcutta Remount Depôt, Babugarh (U.P.), and not to any officer by name.

XI.—Tenders which do not comply with the above conditions will be rejected.

C. DEMPSTER, MAJOR,
for Superintendent, Remount Depôt, Calcutta.

Calcutta, the 3rd September 1913.

Notice.

APPLICATIONS are invited for the post of Surveyor and Estimator in the establishment of the District Engineer, Rangamati, employed on Provincial works under the control of the Superintendent, Chittagong Hill Tracts Public Works Department.

Salary Rs. 30 to Rs. 40 according to experience and qualifications. Applicants must possess the following qualifications :—

(a) He must have passed satisfactorily through the whole course of instruction laid down for Lower Subordinates employed in the Public Works Department.

(b) He must have at least five years' experience in Provincial or Local works.

It is, however, open to the Superintendent, Chittagong Hill Tracts, Public Works Department, to appoint a person not having the above qualifications, should such person be considered otherwise to be fully qualified to exercise the powers and perform the functions of Surveyor and Estimator.

Preference will be given to candidates of active habits with experience in the preparation of drawings and details, estimate, quantities, specifications and in the setting out and supervision of new buildings and opening out of hill roads.

The successful candidate will be subject to the leave and other service rules applicable to the establishment and will be required to contribute to the Provident Fund.

Applications in candidates' own handwriting stating age, nationality, place of residence, full details of qualifications and experience and present salaries accompanied by copies of testimonials and references and certificates of physical fitness which will not be returned to be sent in sealed envelopes and superscribed "Application for appointment of Surveyor and Estimator" to the Superintendent, Chittagong Hill Tracts, Public Works Department, at Rangamati to reach him on or before the 30th September 1913. Applications must not be addressed to the Superintendent by name.

The subordinates selected as suitable for the post may be required to interview the District Engineer at Rangamati with credentials before the appointment is made. No allowance will be paid for any journey performed in connection with the interview.

The nominated candidate will be appointed substantive *pro tempore* and will be employed as such until confirmed.

The appointment would be subject to termination by one month's notice on either side.

OWEN MAWSON,
Superintendent, Chittagong Hill Tracts.

Rangamati, the 28th August 1913.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor-General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge Bengal Secretariat Book Depôt, Calcutta, or

the Superintendent, Government Press, Madras, or

the Superintendent, Government Central Press, Bombay, or

the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

PRICES.

THE terms of subscription and the terms on which current issue and back numbers are sold are as follows:—

SULPHATE OF QUININE, SULPHATE OF CINCHONIDINE AND CINCHONA FEBRIFUGE

Manufactured at the Bengal Government Cinchona Plantation.

THESE articles are guaranteed to be free from wilful admixture with other Cinchona alkaloids. Quinine can be purchased by Government officers, District and Local Boards. It can also be purchased by Missionaries for *bonâ fide* public purposes. Otherwise it is not sold to private persons or firms. Sulphate of Cinchonidine is for sale to Government officers and to dealers. Cinchona Febrifuge can be purchased both in powder and 3½-grain tablet forms by Government officers and the general public. It is also sold by the Principal Druggists in Calcutta. These drugs are for sale for cash only. On no account drugs are sent per V. P. Post. These drugs may be obtained from the Superintendent, Juvenile Jail, Alipore.

The rates for these drugs from 15th November 1912 are as follows:—

Sulphate of Quinine.

	Rs.
For quantities of not less than 6 lbs. in one delivery	11 per lb
For any quantity less than 6 lbs. in one delivery	13 per lb.

Sulphate of Cinchonidine.

	Rs.
For quantities of not less than 6 lbs. in one delivery	10 per lb.
For any quantity less than 6 lbs. in one delivery	12 per lb.

Cinchona Febrifuge.

	Rs.
For quantities of not less than 6 lbs. in one delivery	5 per lb.
For any quantity less than 6 lbs. in one delivery	6 per lb.

Quinine is sold in 1-oz., ¼-lb., ½-lb., 1-lb. and 4-lb. tins.

Cinchonidine is sold in ¼-lb., ½-lb. and 1-lb. tins.

Cinchona Febrifuge is sold in ¼-lb., ½-lb and 1 lb. tins.

Transit charges are in addition to the above prices in every case.

CONTENTS.

A Bill to modify and add to the provisions of the Copyright Act, 1911.

WHEREAS it is expedient to modify and add to the provisions of the Copyright Act, 1911, in its application to British India; It is hereby enacted as follows:—

1 & 2, Geo. 5, c. 46.

CHAPTER I.

PRELIMINARY.

Short title and extent.

1. (*1*) This Act may be called the Indian Copyright Act, 191 .

(*2*) It extends to the whole of British India including British Baluchistan and the Sonthal Parganas.

Definitions.

2. In this Act unless there is anything repugnant in the subject or context,—

(1) "the Copyright Act" means the Act of Parliament entitled the Copyright Act, 1911: and

1 & 2, Geo. 5, c. 46.

(2) words and expressions defined in the Copyright Act have the same meanings as in that Act.

CHAPTER II.

CONSTRUCTION AND MODIFICATION OF THE COPYRIGHT ACT.

Application of Copyright Act to British India with adaptations.

3. In the application to British India of the Copyright Act (a copy of which Act, except such of the provisions thereof as are expressly restricted to the United Kingdom, is set out in the First Schedule), the following modifications shall be made, namely :—

(1) the powers of the Board of Trade under section 3 shall, in the case of works first published in British India, be exercised by the Governor General in Council;

(2) the reference in section 4 to the Judicial Committee of the Privy Council shall, in the case of works first published in British India, be construed as a reference to the Governor General in Council;

Cf. s. 2, Act XX of 1847.

(3) the powers of the Board of Trade under section 19 shall, as regards records, perforated rolls and other contrivances, the original plate of which was made in British India, be exercised by the Governor General in Council; and the confirmation of Parliament shall not be necessary to the exercise of any of these powers;

(4) the references in section 19, sub-section (*4*), and in section 24, sub-section (*1*), proviso (*a*), sub-clause (*ii*), to arbitration shall be read as references to arbitration in accordance with the law for the time being in force in that part of British India in which the dispute occurs;

(5) as regards works, the authors whereof were at the time of the making of the works resident in British India, and as regards works first published in British India, the reference in section 22 to the Patents and Designs Act, 1907, shall be construed as a reference to the Indian Patents and Designs Act, 1911, and the reference in the said section to section 86 of the Patents and Designs Act, 1907, shall be construed as a reference to section 77 of the Indian Patents and Designs Act, 1911;

7 Edw. VII, Cap. 29.

11 of 1911.

(6) as regards works first published in British India, the reference in section 24, sub-section (*1*), proviso (*a*), to the London Gazette and two London newspapers shall be construed as a reference to the Gazette of India and two newspapers published in British India; and the reference in proviso (*b*) of the same sub-section of the same section, to the 26th day of July 1910, shall. as regards works, the authors whereof were at the time of the making of the works resident in British India, and as regards works first published in British India, be construed as a reference to the 30th day of October, 1912.

Modification of copyright as regards translation of works first published in British India.

4. In the case of works first published in British India, copyright shall, as regards translation rights, be subject to this limitation that it shall only include the sole right to produce, reproduce, perform or publish a translation of the work for a period of five years from the date of the first publication of the work:

Provided that if, after the expiry of the said period, any person produces, reproduces, performs or publishes a translation of the work, the copyright in such work shall be deemed to be infringed unless such person has given written notice to the author thereof of his intention, and unless a period of two years has elapsed from the giving of such notice.

Musical works made by resident of, or first published in, British India.

5. In the application of the Copyright Act to musical works the authors whereof were at the time of the making of the works resident in British India, or to musical works first published in British India, the term "musical work" shall, save as otherwise expressly provided by the Copyright Act, mean "any combination of melody and harmony, or either of them, which has been reduced to writing".

Importation of copies.

6. (*1*) Copies made out of British India of any work in which copyright subsists which if made in British India would infringe copyright, and as to which the owner of the copyright gives notice in writing by himself or his agent to the Chief Customs officer, as defined in the Sea Customs Act, 1878, that he is desirous that such copies should not be imported into British India, shall not be so imported; and shall, subject to the provisions of this section, be deemed to be prohibited imports within the meaning of section 18 of the Sea Customs Act, 1878.

VIII of 1878.

(*2*) Before detaining any such copies, or taking any further proceedings with a view to the confiscation thereof, such Chief Customs officer, or any other officer appointed by the Local Government in this behalf, may require the regulations under this section, whether as to information, security, conditions or other matters, to be complied with, and may satisfy himself, in accordance with these regulations, that the copies are such as are prohibited by this section to be imported.

(3) The Governor General in Council may, by notification in the Gazette of India, make regulations, either general or special, respecting the detention and confiscation of copies, the importation of which is prohibited by this section, and the conditions, if any, to be fulfilled before such detention and confiscation; and may, by such regulations, determine the information, notices and security to be given, and the evidence requisite for any of the purposes of this section, and the mode of verification of such evidence.

(4) Such regulations may apply to copies of all works, the importation of copies of which is prohibited by this section, or different regulations may be made respecting different classes of such works.

(5) The regulations may provide for the informant re-imbursing the Secretary of State for India in Council all expenses and damages incurred in respect of any detention made on his information, and of any proceedings consequent on such detention; and may provide that notices given under the Copyright Act to the Commissioners of Customs and Excise of the United Kingdom, and communicated by that authority to any authority in British India, shall be deemed to have been given by the owner to the said Chief Customs officer.

(6) This section shall have effect as the necessary modification of section 14 of the Copyright Act.

CHAPTER III.

SUMMARY REMEDIES.

Offences in respect of infringing copies.

Cf. 11 (1), Copyright Act, 1911.

7. If any person knowingly—

(a) makes for sale or hire any infringing copy of a work in which copyright subsists; or

(b) sells or lets for hire, or by way of trade exposes or offers for sale or hire, any infringing copy of any such work; or

(c) distributes infringing copies of any such work, either for the purposes of trade or to such an extent as to affect prejudicially the owner of the copyright; or

(d) by way of trade exhibits in public any infringing copy of any such work; or

(e) imports for sale or hire into British India any infringing copy of any such work;

he shall be punishable with fine which may extend to twenty rupees for every copy dealt with in contravention of this section, but not exceeding five hundred rupees in respect of the same transaction.

Possession of plates for purpose of making infringing copies.

Cf. 11 (2), Copyright Act, 1911.

8. If any person knowingly makes, or has in his possession, any plate for the purpose of making infringing copies of any work in which copyright subsists, or knowingly and for his private profit causes any such work to be performed in public without the consent of the owner of the copyright, he shall be punishable with fine which may extend to five hundred rupees.

Punishment on second conviction.

Cf. 11 (1) and (2), Copyright Act, 1911.

9. If any person, after having been previously convicted of an offence punishable under section 7 or section 8 is subsequently convicted of an offence punishable under either of these sections, he shall be punishable with simple imprisonment which may extend to one month, or with fine which may extend to one thousand rupees, or with both.

Power of Court to dispose of infringing copies or plates for purposes of making infringing copies.

Cf. 11 (3), Copyright Act, 1911.

10. The Court before which any such proceedings are taken may, whether the alleged offender is convicted or not, order that all copies of the work or all plates in the possession of the alleged offender, which appear to it to be infringing copies, or plates for the purpose of making infringing copies, be destroyed or delivered up to the owner of the copyright, or otherwise dealt with as the Court may think fit.

Cognisance of offences.

11. No Court inferior to that of a Presidency Magistrate or a Magistrate of the first class shall try any offence against this Act.

Saving in case of infringement by construction of building.

12. The provisions of this Chapter shall not apply to any case to which section 9 of the Copyright Act regarding the restrictions on remedies in the case of a work of architecture applies.

CHAPTER IV.

MISCELLANEOUS.

Courts having civil jurisdiction regarding infringement of copyright.

Cf. s. 7, Act XX of 1847.

13. Every suit or other civil proceeding regarding infringement of copyright shall be instituted in the High Court.

Effect of non-registration under Act XX of 1847.

14. No suit or other civil proceeding instituted after the 30th of October, 1912, regarding infringement of copyright in any book, the author whereof was at the time of making the book resident in British India, or of any book first published in British India, shall be dismissed by reason only that the registration of such book had not been effected in accordance with the provisions of the Indian Copyright Act, 1847.

*XX of 1847.

Repeals.

15. The enactments mentioned in the Second Schedule are hereby repealed to the extent specified in the fourth column thereof.

THE FIRST SCHEDULE.

PORTIONS OF THE COPYRIGHT ACT APPLICABLE TO BRITISH INDIA.

32. Provisions as to Orders in Council.
33. Saving of university copyright.
34. Saving of compensation to certain libraries.
35. Interpretation.
36. Repeal.
37. Short title and commencement.

SCHEDULES.

Chapter 46.

AN ACT TO AMEND AND CONSOLIDATE THE LAW RELATING TO COPYRIGHT.

[16TH DECEMBER 1911.]

Be it enacted by the King's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons in this present Parliament assembled, and by the authority of the same, as follows :—

PART I.

IMPERIAL COPYRIGHT.

Rights.

Copyright.

1. (*1*) Subject to the provisions of this Act, copyright shall subsist throughout the parts of His Majesty's dominions to which this Act extends for the term herein-after mentioned in every original literary dramatic musical and artistic work, if—

(*a*) in the case of a published work, the work was first published within such parts of His Majesty's dominions as aforesaid ; and

(*b*) in the case of an unpublished work, the author was at the date of the making of the work a British subject or resident within such parts of His Majesty's dominions as aforesaid ;

but in no other works, except so far as the protection conferred by this Act is extended by Orders in Council thereunder relating to self-governing dominions to which this Act does not extend and to foreign countries.

(2) For the purposes of this Act, "copyright" means the sole right to produce or reproduce the work or any substantial part thereof in any material form whatsoever, to perform, or in the case of a lecture to deliver, the work or any substantial part thereof in public ; if the work is unpublished, to publish the work or any substantial part thereof ; and shall include the sole right—

(*a*) to produce, reproduce, perform, or publish any translation of the work ;

(*b*) in the case of a dramatic work, to convert it into a novel or other non dramatic work ;

(*c*) in the case of a novel or other non-dramatic work, or of an artistic work, to convert it into a dramatic work, by way of performance in public or otherwise ;

(*d*) in the case of a literary, dramatic, or musical work, to make any record, perforated roll, cinematograph film, or other contrivance by means of which the work may be mechanically performed or delivered,

and to authorise any such acts as aforesaid.

(3) For the purposes of this Act, publication, in relation to any work, means the issue of copies of the work to the public, and does not include the performance in public of a dramatic or musical work, the delivery in public of a lecture, the exhibition in public of an artistic work, or the construction of an architectural work of art, but, for the purposes of this provision, the issue of photographs and engravings of works of sculpture and architectural works of art shall not be deemed to be publication of such works.

Infringement of copyright.

2. (*1*) Copyright in a work shall be deemed to be infringed by any person who, without the consent of the owner of the copyright, does anything the sole right to do which is by this Act conferred on the owner of the copyright : Provided that the following acts shall not constitute an infringement of copyright :—

(i) Any fair dealing with any work for the purposes of private study, research, criticism, review, or newspaper summary :

(ii) Where the author of an artistic work is not the owner of the copyright therein, the use by the author of any mould, cast, sketch, plan, model, or study made by him for the purpose of the work, provided that he does not thereby repeat or imitate the main design of that work:

(iii) The making or publishing of paintings, drawings, engravings, or photographs of a work of sculpture or artistic craftsmanship, if permanently situate in a public place or building, or the making or publishing of paintings, drawings, engravings or photographs (which are not in the nature of architectural drawings or plans) of any architectural work of art:

(iv) The publication in a collection, mainly composed of non-copyright matter, *bonâ fide* intended for the use of schools, and so described in the title and in any advertisements issued by the publisher, of short passages from published literary works not themselves published for the use of schools in which copyright subsists: Provided that not more than two of such passages from works by the same author are published by the same publisher within five years, and that the source from which such passages are taken is acknowledged.

(v) The publication in a newspaper of a report of a lecture delivered in public, unless the report is prohibited by conspicuous written or printed notice affixed before and maintained during the lecture at or about the main entrance of the building in which the lecture is given, and, except whilst the building is being used for public worship, in a position near the lecturer; but nothing in this paragraph shall affect the provisions in paragraph (i) as to newspaper summaries:

(vi) The reading or recitation in public by one person of any reasonable extract from any published work.

(*2*) Copyright in a work shall also be deemed to be infringed by any person who—

(*a*) sells or lets for hire, or by way of trade exposes or offers for sale or hire; or

(*b*) distributes either for the purposes of trade or to such an extent as to affect prejudicially the owner of the copyright; or

(*c*) by way of trade exhibits in public; or

(*d*) imports for sale or hire into any part of His Majesty's dominions to which this Act extends,

any work which to his knowledge infringes copyright or would infringe copyright if it had been made within the part of His Majesty's dominions in or into which the sale or hiring, exposure, offering for sale or hire, distribution, exhibition, or importation took place.

(*3*) Copyright in a work shall also be deemed to be infringed by any person who for his private profit permits a theatre or other place of entertainment to be used for the performance in public of the work without the consent of the owner of the copyright, unless he was not aware, and had no reasonable ground for suspecting, that the performance would be an infringement of copyright.

Term of copyright.

3. The term for which copyright shall subsist shall, except as otherwise expressly provided by this Act, be the life of the author and a period of fifty years after his death:

Provided that at any time after the expiration of twenty-five years, or in the case of a work in which copyright subsists at the passing of this Act thirty years, from the death of the author of a published work, copyright in the work shall not be deemed to be infringed by the reproduction of the work for sale if the person reproducing the work proves that he has given the prescribed notice in writing of his intention to reproduce the work, and that he has paid in the prescribed manner to or for the benefit of, the owner of the copyright royalties in respect of all copies of the work sold by him calculated at the rate of ten per cent on the price at which he publishes the work; and, for the purposes of this proviso, the Board of Trade may make regulations prescribing the mode in which notices are to be given, and the particulars to be given in such notices, and the mode, time, and frequency of the payment of royalties, including (if they think fit) regulations requiring payment in advance or otherwise securing the payment of royalties.

Compulsory licenses

4. If at any time after the death of the author of a literary, dramatic, or musical work which has been published or performed in public a complaint is made to the Judicial Committee of the Privy Council that the owner of the copyright in the work has refused to republish or to allow the republication of the work or has refused to allow the performance in public of the work, and that by reason of such refusal the work is withheld from the public, the owner of the copyright may be ordered to grant a license to reproduce the work or perform the work in public, as the case may be, on such terms and subject to such conditions as the Judicial Committee may think fit.

Ownership of copyright, etc

5. (*1*) Subject to the provisions of this Act, the author of a work shall be the first owner of the copyright therein:

Provided that—

(*a*) where, in the case of an engraving, photograph, or portrait, the plate or other original was ordered by some other person and was made for valuable consideration in pursuance of that order, then, in the absence of any agreement to the contrary, the person by whom such plate or other original was ordered shall be the first owner of the copyright; and

(b) where the author was in the employment of some other person under a contract of service or apprenticeship and the work was made in the course of his employment by that person, the person by whom the author was employed shall, in the absence of any agreement to the contrary, be the first owner of the copyright, but where the work is an article or other contribution to a newspaper, magazine, or similar periodical, there shall, in the absence of any agreement to the contrary, be deemed to be reserved to the author a right to restrain the publication of the work, otherwise than as part of a newspaper, magazine, or similar periodical.

(2) The owner of the copyright in any work may assign the right, either wholly or partially, and either generally or subject to limitations to the United Kingdom or any self-governing dominion or other part of His Majesty's dominions to which this Act extends, and either for the whole term of the copyright or for any part thereof, and may grant any interest in the right by license, but no such assignment or grant shall be valid unless it is in writing signed by the owner of the right in respect of which the assignment or grant is made, or by his duly authorised agent:

Provided that, where the author of a work is the first owner of the copyright therein, no assignment of the copyright, and no grant of any interest therein, made by him (otherwise than by will) after the passing of this Act, shall be operative to vest in the assignee or grantee any rights with respect to the copyright in the work beyond the expiration of twenty-five years from the death of the author, and the reversionary interest in the copyright expectant on the termination of that period shall, on the death of the author, notwithstanding any agreement to the contrary, devolve on his legal personal representatives as part of his estate, and any agreement entered into by him as to the disposition of such reversionary interest shall be null and void, but nothing in this proviso shall be construed as applying to the assignment of the copyright in a collective work or a license to publish a work or part of a work as part of a collective work.

(3) Where, under any partial assignment of copyright, the assignee becomes entitled to any right comprised in copyright, the assignee, as respects the right so assigned, and the assignor as respects the rights not assigned, shall be treated for the purposes of this Act as the owner of the copyright, and the provisions of this Act shall have effect accordingly.

Civil Remedies.

Civil remedies for infringement of copyright.

6. (1) Where copyright in any work has been infringed, the owner of the copyright shall, except as otherwise provided by this Act, be entitled to all such remedies by way of injunction or interdict, damages, accounts, and otherwise, as are or may be conferred by law for the infringement of a right.

(2) The costs of all parties in any proceedings in respect of the infringement of copyright shall be in the absolute discretion of the Court.

(3) In any action for infringement of copyright in any work, the work shall be presumed to be a work in which copyright subsists and the plaintiff shall be presumed to be the owner of the copyright, unless the defendant puts in issue the existence of the copyright, or, as the case may be, the title of the plaintiff, and where any such question is in issue, then—

(a) if a name purporting to be that of the author of the work is printed or otherwise indicated thereon in the usual manner, the person whose name is so printed or indicated shall, unless the contrary is proved, be presumed to be the author of the work;

(b) if no name is so printed or indicated, or if the name so printed or indicated is not the author's true name or the name by which he is commonly known, and a name purporting to be that of the publisher or proprietor of the work is printed or otherwise indicated thereon in the usual manner, the person whose name is so printed or indicated shall, unless the contrary is proved, be presumed to be the owner of the copyright in the work for the purposes of proceedings in respect of the infringement of copyright therein.

Rights of owner against persons possessing or dealing with infringing copies, etc.

7. All infringing copies of any work in which copyright subsists, or of any substantial part thereof, and all plates used or intended to be used for the production of such infringing copies, shall be deemed to be the property of the owner of the copyright, who accordingly may take proceedings for the recovery of the possession thereof or in respect of the conversion thereof.

Exemption of innocent infringer from liability to pay damages, etc.

8. Where proceedings are taken in respect of the infringement of the copyright in any work and the defendant in his defence alleges that he was not aware of the existence of the copyright in the work, the plaintiff shall not be entitled to any remedy other than an injunction or interdict in respect of the infringement if the defendant proves that at the date of the infringement he was not aware and had not reasonable ground for suspecting that copyright subsisted in the work.

Restriction on remedies in the case of architecture.

9. (1) Where the construction of a building or other structure which infringes or which, if completed, would infringe the copyright in some other work has been commenced, the owner of the copyright shall not be entitled to obtain an injunction or interdict to restrain the construction of such building or structure or to order its demolition.

(2) Such of the other provisions of this Act as provide that an infringing copy of a work shall be deemed to be the property of the owner of the copyright, or as impose summary penalties, shall not apply in any case to which this section applies.

Limitation of actions.

10. An action in respect of infringement of copyright shall not be commenced after the expiration of three years next after the infringement.

* * * * * *
* * * * * *
* * * * * *

Importation of Copies.

Importation of copies.

14. (*1*) Copies made out of the United Kingdom of any work in which copyright subsists which if made in the United Kingdom would infringe copyright, and as to which the owner of the copyright gives notice in writing by himself or his agent to the Commissioners of Customs and Excise, that he is desirous that such copies should not be imported into the United Kingdom, shall not be so imported, and shall, subject to the provisions of this section, be deemed to be included in the table of prohibitions and restrictions contained in section forty-two of the Customs Consolidation Act, 1876, and that section shall apply accordingly.

39 & 40 Vict., c. 36.

(*2*) Before detaining any such copies or taking any further proceedings with a view to the forfeiture thereof under the law relating to the Customs, the Commissioners of Customs and Excise may require the regulations under this section, whether as to information, conditions, or other matters, to be complied with, and may satisfy themselves in accordance with those regulations that the copies are such as are prohibited by this section to be imported.

(*3*) The Commissioners of Customs and Excise may make regulations, either general or special, respecting the detention and forfeiture of copies the importation of which is prohibited by this section, and the conditions, if any, to be fulfilled before such detention and forfeiture. and may, by such regulations, determine the information, notices, and security to be given, and the evidence requisite for any of the purposes of this section, and the mode of verification of such evidence.

(*4*) The regulations may apply to copies of all works the importation of copies of which is prohibited by this section, or different regulations may be made respecting different classes of such works.

(*5*) The regulations may provide for the informant reimbursing the Commissioners of Customs and Excise all expenses and damages incurred in respect of any detention made on his information, and of any proceedings consequent on such detention; and may provide for notices under any enactment repealed by this Act being treated as notices given under this section.

(*6*) The foregoing provisions of this section shall have effect as if they were part of the Customs Consolidation Act, 1876: Provided that, notwithstanding anything in that Act, the Isle of Man shall not be treated as part of the United Kingdom for the purposes of this section.

(*7*) This section shall, with the necessary modifications, apply to the importation into a British possession to which this Act extends of copies of works made out of that possession.

Delivery of Books to Libraries.

Delivery of copies to British Museum and other libraries.

15. (*1*) The publisher of every book published in the United Kingdom shall, within one month after the publication, deliver, at his own expense, a copy of the book to the trustees of the British Museum, who shall give a written receipt for it.

(*2*) He shall also, if written demand is made before the expiration of twelve months after publication, deliver within one month after receipt of that written demand or, if the demand was made before publication, within one month after publication, to some depôt in London named in the demand a copy of the book for, or in accordance with the directions of, the authority having the control of each of the following libraries, namely: the Bodleian Library, Oxford, the University Library, Cambridge, the Library of the Faculty of Advocates at Edinburgh, and the Library of Trinity College, Dublin, and subject to the provisions of this section the National Library of Wales. In the case of an encyclopædia, newspaper, review, magazine, or work published in a series of numbers or parts, the written demand may include all numbers or parts of the work which may be subsequently published.

(*3*) The copy delivered to the trustees of the British Museum shall be a copy of the whole book with all maps and illustrations belonging thereto, finished and coloured in the same manner as the best copies of the book are published, and shall be bound, sewed, or stitched together, and on the best paper on which the book is printed.

(*4*) The copy delivered for the other authorities mentioned in this section shall be on the paper on which the largest number of copies of the book is printed for sale, and shall be in the like condition as the books prepared for sale.

(*5*) The books of which copies are to be delivered to the National Library of Wales shall not include books of such classes as may be specified in regulations to be made by the Board of Trade.

(*6*) If a publisher fails to comply with this section, he shall be liable on summary conviction to a fine not exceeding five pounds and the value of the book, and the fine shall be paid to the trustees or authority to whom the book ought to have been delivered.

(*7*) For the purposes of this section. the expression "book" includes every part or division of a book, pamphlet, sheet of letter-press, sheet of music, map, plan, chart or table separately published, but shall not include any second or subsequent edition of a book unless such edition contains additions or alterations either in the letter-press or in the maps, prints, or other engravings belonging thereto.

Special Provisions as to certain Works.

Works of joint authors.

16. (*1*) In the case of a work of joint authorship, copyright shall subsist during the life of the author who first dies and for a term of fifty years after his death. or during the life of the author who dies last, whichever period is the longer, and references in this Act to the period after the expiration of any specified number of years from the death of the author shall be construed as references to the period after the expiration of the like number of years from the death of the author who dies first or after the death of the author who dies last, whichever period may be the shorter, and in the provisions of this Act with respect to the grant

compulsory licenses a reference to the date of the death of the author who dies last shall be substituted for the reference to the date of the death of the author.

(2) Where, in the case of a work of joint authorship some one or more of the joint authors do not satisfy the conditions conferring copyright laid down by this Act, the work shall be treated for the purposes of this Act as if the other author or authors had been the sole author or authors thereof:

Provided that the term of the copyright shall be the same as it would have been if all the authors had satisfied such conditions as aforesaid.

(3) For the purposes of this Act, "a work of joint authorship" means a work produced by the collaboration of two or more authors in which the contribution of one author is not distinct from the contribution of the other author or authors.

(4) Where a married woman and her husband are joint authors of a work the interest of such married woman therein shall be her separate property.

Posthumous works.

17. (1) In the case of a literary, dramatic or musical work, or an engraving, in which copyright subsists at the date of the death of the author or, in the case of a work of joint authorship, at or immediately before the date of the death of the author who dies last, but which has not been published, nor, in the case of a dramatic or musical work, been performed in public, nor, in the case of a lecture, been delivered in public, before that date, copyright shall subsist till publication, or performance or delivery in public, whichever may first happen, and for a term of fifty years thereafter, and the proviso to section three of this Act shall, in the case of such a work, apply as if the author had died at the date of such publication or performance or delivery in public as aforesaid.

(2) The ownership of an author's manuscript after his death, where such ownership has been acquired under a testamentary disposition made by the author and the manuscript is of a work which has not been published nor performed in public nor delivered in public, shall be *primâ facie* proof of the copyright being with the owner of the manuscript.

Provisions as to Government publications.

18. Without prejudice to any rights or privileges of the Crown, where any work has, whether before or after the commencement of this Act, been prepared or published by or under the direction or control of His Majesty or any Government department, the copyright in the work shall, subject to any agreement with the author, belong to His Majesty, and in such case shall continue for a period of fifty years from the date of the first publication of the work.

Provisions as to mechanical instruments.

19. (1) Copyright shall subsist in records, perforated rolls, and other contrivances by means of which sounds may be mechanically reproduced, in like manner as if such contrivances were musical works, but the term of copyright shall be fifty years from the making of the original plate from which the contrivance was directly or indirectly derived, and the person who was the owner of such original plate at the time when such plate was made shall be deemed to be the author of the work, and, where such owner is a body corporate, the body corporate shall be deemed for the purposes of this Act to reside within the parts of His Majesty's dominions to which this Act extends if it has established a place of business within such parts.

(2) It shall not be deemed to be an infringement of copyright in any musical work for any person to make within the parts of His Majesty's dominions to which this Act extends, records, perforated rolls, or other contrivances by means of which the work may be mechanically performed, if such person proves—

(a) that such contrivances have previously been made by, or with the consent or acquiescence of, the owner of the copyright in the work; and

(b) that he has given the prescribed notice of his intention to make the contrivances, and has paid in the prescribed manner to, or for the benefit of, the owner of the copyright in the work royalties in respect of all such contrivances sold by him, calculated at the rate hereinafter mentioned:

Provided that—

(i) nothing in this provision shall authorise any alterations in, or omissions from, the work reproduced, unless contrivances reproducing the work subject to similar alterations and omissions have been previously made by, or with the consent or acquiescence of, the owner of the copyright, or unless such alterations or omissions are reasonably necessary for the adaptation of the work to the contrivances in question; and

(ii) for the purposes of this provision, a musical work shall be deemed to include any words so closely associated therewith as to form part of the same work, but shall not be deemed to include a contrivance by means of which sounds may be mechanically reproduced.

(3) The rate at which such royalties as aforesaid are to be calculated shall—

(a) in the case of contrivances sold within two years after the commencement of this Act by the person making the same, be two and one-half per cent; and

(b) in the case of contrivances sold as aforesaid after the expiration of that period, five per cent

on the ordinary retail selling price of the contrivance calculated in the prescribed manner, so however that the royalty payable in respect of a contrivance shall, in no case, be less than a half-penny for each separate musical work in which copyright subsists reproduced thereon, and, where the royalty

calculated as aforesaid includes a fraction of a farthing, such fraction shall be reckoned as a farthing:

Provided that, if, at any time after the expiration of seven years from the commencement of this Act, it appears to the Board of Trade that such rate as aforesaid is no longer equitable, the Board of Trade may, after holding a public inquiry, make an order either decreasing or increasing that rate to such extent as under the circumstances may seem just, but any order so made shall be provisional only and shall not have any effect unless and until confirmed by Parliament; but, where an order revising the rate has been so made and confirmed, no further revision shall be made before the expiration of fourteen years from the date of the last revision.

(4) If any such contrivance is made reproducing two or more different works in which copyright subsists and the owners of the copyright therein are different persons, the sums payable by way of royalties under this section shall be apportioned amongst the several owners of the copyright in such proportions as, failing agreement, may be determined by arbitration.

(5) When any such contrivances by means of which a musical work may be mechanically performed have been made, then, for the purposes of this section, the owner of the copyright in the work shall, in relation to any person who makes the prescribed inquiries, be deemed to have given his consent to the making of such contrivances if he fails to reply to such inquiries within the prescribed time.

(6) For the purposes of this section, the Board of Trade may make regulations prescribing anything which under this section is to be prescribed, and prescribing the mode in which notices are to be given and the particulars to be given in such notices, and the mode, time, and frequency of the payment of royalties, and any such regulations may, if the Board think fit, include regulations requiring payment in advance or otherwise securing the payment of royalties.

(7) In the case of musical works published before the commencement of this Act, the foregoing provisions shall have effect, subject to the following modifications and additions:

(a) The conditions as to the previous making by, or with the consent or acquiescence of, the owner of the copyright in the work, and the restrictions as to alterations in or omissions from the work shall not apply;

(b) The rate of two and one-half per cent, shall be substituted for the rate of five per cent as the rate at which royalties are to be calculated, but no royalties shall be payable in respect of contrivances sold before the first day of July, nineteen hundred and thirteen, if contrivances reproducing the same work had been lawfully made, or placed on sale, within the parts of His Majesty's dominions to which this Act extends before the first day of July, nineteen hundred and ten:

(c) Notwithstanding any assignment made before the passing of this Act of the copyright in a musical work, any rights conferred by this Act in respect of the making, or authorising the making, of contrivances by means of which the work may be mechanically performed shall belong to the author or his legal personal representatives and not to the assignees, and the royalties aforesaid shall be payable to, and for the benefit of, the author of the work or his legal personal representatives:

(d) The saving contained in this Act of the rights and interests arising from, or in connexion with action taken before the commencement of this Act shall not be construed as authorising any person who has made contrivances by means of which the work may be mechanically performed to sell any such contrivances, whether made before or after the passing of this Act, except on the terms and subject to the conditions laid down in this section:

(e) Where the work is a work on which copyright is conferred by an Order in Council relating to a foreign country, the copyright so conferred shall not, except to such extent as may be provided by the Order, include any rights with respect to the making of records, perforated rolls, or other contrivances by means of which the work may be mechanically performed.

(8) Notwithstanding anything in this Act where a record, perforated roll, or other contrivance by means of which sounds may be mechanically reproduced has been made before the commencement of this Act, copyright shall, as from the commencement of this Act, subsist therein in like manner and for the like term as if this Act had been in force at the date of the making of the original plate from which the contrivance was directly or indirectly derived:

Provided that—

(i) the person who, at the commencement of this Act is the owner of such original plate shall be the first owner of such copyright; and

(ii) nothing in this provision shall be construed as conferring copyright in any such contrivance if the making thereof would have infringed copyright in some other such contrivance, if this provision had been in force at the time of the making of the first-mentioned contrivance.

Provision as to political speeches.

20. Notwithstanding anything in this Act, it shall not be an infringement of copyright in an address of a political nature delivered at a public meeting to publish a report thereof in a newspaper.

Provisions as to photographs.

21. The term for which copyright shall subsist in photographs shall be fifty years from the making of the original negative from which the photograph was directly or indirectly derived, and the

person who was owner of such negative at the time when such negative was made shall be deemed to be the author of the work, and, where such owner is a body corporate, the body corporate shall be deemed for the purposes of this Act to reside within the parts of His Majesty's dominions to which this extends if it has established a place of business within such parts.

Provisions as to designs registrable under 7 Edw. 7, c. 29.

22. (*1*) This Act shall not apply to designs capable of being registered under the Patents and Designs Act, 1907, except designs which, though capable of being so registered, are not used or intend to be used as models or patterns to be multiplied by any industrial process.

(*2*) General rules under section eighty-six of the Patents and Designs Act, 1907, may be made for determining the conditions under which a design shall be deemed to be used for such purposes as aforesaid.

Works of foreign authors first published in parts of His Majesty's dominions to which Act extends.

23. If it appears to His Majesty that a foreign country does not give, or has not undertaken to give, adequate protection to the works of British authors, it shall be lawful for His Majesty by Order in Council to direct that such of the provisions of this Act as confer copyright on works first published within the parts of His Majesty's dominions to which this Act extends, shall not apply to works published after the date specified in the Order, the authors whereof are subjects or citizens of such foreign country, and are not resident in His Majesty's dominions, and thereupon those provisions shall not apply to such works.

Existing works.

24. (*1*) Where any person is immediately before the commencement of this Act entitled to any such right in any work as is specified in the first column of the First Schedule to this Act, or to any interest in such a right, he shall, as from that date, be entitled to the substituted right set forth in the second column of that schedule, or to the same interest in such a substituted right, and to no other right or interest, and such substituted right shall subsist for the term for which it would have subsisted if this Act had been in force at the date when the work was made and the work had been one entitled to copyright thereunder:

Provided that—

(*a*) if the author of any work in which any such right as is specified in the first column of the First Schedule to this Act subsists at the commencement of this Act has, before that date, assigned the right or granted any interest therein for the whole term of the right, then at the date when, but for the passing of this Act, the right would have expired the substituted right conferred by this section shall, in the absence of express agreement, pass to the author of the work, and any interest therein created before the commencement of this Act and then subsisting shall determine; but the person who immediately before the date at which the right would so have expired was the owner of the right or interest shall be entitled at his option either—

(*i*) on giving such notice as hereinafter mentioned, to an assignment of the right or the grant of a similar interest therein for the remainder of the term of the right for such consideration as, failing agreement, may be determined by arbitration; or

(*ii*) without any such assignment or grant, to continue to reproduce or perform the work in like manner as theretofore subject to the payment, if demanded by the author within three years after the date at which the right would have so expired, of such royalties to the author as, failing agreement, may be determined by arbitration, or, where the work is incorporated in a collective work and the owner of the right or interest is the proprietor of that collective work, without any such payment?

The notice above referred to must be given not more than one year nor less than six months before the date at which the right would have so expired, and must be sent by registered post to the author, or, if he cannot with reasonable diligence be found, advertised in the London Gazette and in two London newspapers ?

(*b*) where any person has, before the twenty-sixth day of July nineteen hundred and ten, taken any action whereby he has incurred any expenditure or liability in connexion with the reproduction or performance of any work in a manner which at the time was lawful, or for the purpose of or with a view to the reproduction or performance of a work at a time when such reproduction or performance would, but for the passing of this Act, have been lawful, nothing in this section shall diminish or prejudice any rights or interest arising from or in connexion with such action which are subsisting and valuable at the said date, unless the person who by virtue of this section becomes entitled to restrain such reproduction or performance agrees to pay such compensation as, failing agreement, may be determined by arbitration.

(*2*) For the purposes of this section, the expression "author" includes the legal personal representatives of a deceased author.

(*3*) Subject to the provisions of section nineteen, sub-sections (*7*) and (*8*) and of section thirty-three of this Act, copyright shall not subsist in any work made before the commencement of this Act, otherwise than under, and in accordance with, the provisions of this section.

Application to British Possessions.

25. (*1*) This Act, except such of the provisions thereof as are expressly restricted to the United Kingdom, shall extend throughout His Majesty's dominions: Provided that it shall not extend to a self-governing dominion, unless declared by the Legislature of that dominion to be in force therein either without any modifications or additions, or with such modifications and additions relating exclusively to procedure and remedies, or necessary to adapt this Act to the circumstances of the dominion, as may be enacted by such Legislature.

Application of Act to British dominions.

(*2*) If the Secretary of State certifies by notice published in the London Gazette that any self-governing dominion has passed legislation under which works, the authors whereof were at the date of the making of the works British subjects resident elsewhere than in the dominion or (not being British subjects) were resident in the parts of His Majesty's dominions to which this Act extends, enjoy within the dominion rights substantially identical with those conferred by this Act, then, whilst such legislation continues in force, the dominion shall, for the purposes of the rights conferred by this Act, be treated as if it were a dominion to which this Act extends; and it shall be lawful for the Secretary of State to give such a certificate as aforesaid, notwithstanding that the remedies for enforcing the rights, or the restrictions on the importation of copies of works, manufactured in a foreign country, under the law of the dominion, differ from those under this Act.

26. (*1*) The Legislature of any self-governing dominion may, at any time, repeal all or any of the enactments relating to copyright passed by Parliament (including this Act) so far as they are operative within that dominion: Provided that no such repeal shall prejudicially affect any legal rights existing at the time of the repeal, and that, on this Act or any part thereof being so repealed by the Legislature of a self-governing dominion, that dominion shall cease to be a dominion to which this Act extends.

Legislative powers of self-governing dominions

(*2*) In any self-governing dominion to which this Act does not extend the enactments repealed by this Act shall, so far as they are operative in that dominion, continue in force until repealed by the Legislature of that dominion.

(*3*) Where His Majesty in Council is satisfied that the law of a self-governing dominion to which this Act does not extend provides adequate protection within the dominion for the works (whether published or unpublished) of authors who at the time of the making of the work were British subjects resident elsewhere than in that dominion, His Majesty in Council may, for the purpose of giving reciprocal protection, direct that this Act except such parts (if any) thereof as may be specified in the Order, and subject to any conditions contained therein, shall, within the parts of His Majesty's dominions to which this Act extends, apply to works the authors whereof were, at the time of the making of the work, resident within the first-mentioned dominion, and to works first published in that dominion; but, save as provided by such an Order, works the authors whereof were resident in a dominion to which this Act does not extend shall not, whether they are British subjects or not, be entitled to any protection under this Act except such protection as is by this Act conferred on works first published within the parts of His Majesty's dominions to which this Act extends:

Provided that no such Order shall confer any rights within a self-governing dominion, but the Governor in Council of any self-governing dominion to which this Act extends, may, by Order, confer within that dominion the like rights as His Majesty in Council is, under the foregoing provisions of this sub-section, authorised to confer within other parts of His Majesty's dominions.

For the purposes of this sub-section, the expression "a dominion to which this Act extends" includes a dominion which is for the purposes of this Act to be treated as if it were a dominion to which this Act extends.

27. The Legislature of any British possession to which this Act extends may modify or add to any of the provisions of this Act in its application to the possession, but, except so far as such modifications and additions relate to procedure and remedies, they shall apply only to works the authors whereof were, at the time of the making of the work, resident in the possession, and to works first published in the possession.

Power of Legislatures of British possessions to pass supplemental legislation.

28. His Majesty may, by Order in Council, extend this Act to any territories under his protection and to Cyprus, and, on the making of any such Order, this Act shall, subject to the provisions of the Order, have effect as if the territories to which it applies or Cyprus were part of His Majesty's dominions to which this Act extends.

Application to protectorates.

PART II.

INTERNATIONAL COPYRIGHT.

29. (*1*) His Majesty may, by Order in Council, direct that this Act (except such parts, if any, thereof as may be specified in the Order) shall apply—

Power to extend Act to foreign works

(*a*) to works first published in a foreign country to which the Order relates, in like manner as if they were first published within the parts of His Majesty's dominions to which this Act extends;

(*b*) to literary, dramatic, musical, and artistic works, or any class thereof, the authors whereof were at the time of the making of the work subjects or citizens of a foreign country to which the Order relates, in like manner as if the authors were British subjects;

(c) in respect of residence in a foreign country to which the Order relates, in like manner as if such residence were residence in the parts of His Majesty's dominions to which this Act extends;

and thereupon, subject to the provisions of this Part of this Act and of the Order, this Act shall apply accordingly:

Provided that—

(i) before making an Order in Council under this section in respect of any foreign country (other than a country with which His Majesty has entered into a convention relating to copyright), His Majesty shall be satisfied that that foreign country has made, or has undertaken to make, such provisions, if any, as it appears to His Majesty expedient to require for the protection of works entitled to copyright under the provisions of Part I of this Act;

(ii) the Order in Council may provide that the term of copyright within such parts of His Majesty's dominions as aforesaid shall not exceed that conferred by the law of the country to which the Order relates;

(iii) the provisions of this Act as to the delivery of copies of books shall not apply to works first published in such country, except so far as is provided by the Order;

(iv) the Order in Council may provide that the enjoyment of the rights conferred by this Act shall be subject to the accomplishment of such conditions and formalities (if any) as may be prescribed by the Order;

(v) in applying the provision of this Act as to ownership of copyright, the Order in Council may make such modifications as appear necessary having regard to the law of the foreign country;

(vi) in applying the provisions of this Act as to existing works, the Order in Council may make such modifications as appear necessary, and may provide that nothing in those provisions as so applied shall be construed as reviving any right of preventing the production or importation of any translation in any case where the right has ceased by virtue of section five of the International Copyright Act, 1886.

49 & 50 Vict., c. 33.

(2) An Order in Council under this section may extend to all the several countries named or described therein.

30. (1) An Order in Council under this Part of this Act shall apply to all His Majesty's dominions to which this Act extends except self-governing dominions and any other possession specified in the Order with respect to which it appears to His Majesty expedient that the Order should not apply.

Application of Part II to British possessions.

(2) The Governor in Council of any self-governing dominion to which this Act extends may, as respects that dominion, make the like Orders as under this Part of this Act His Majesty in Council is authorised to make with respect to His Majesty's dominions other than self-governing dominions, and the provisions of this Part of this Act shall, with the necessary modifications, apply accordingly.

(3) Where it appears to His Majesty expedient to except from the provisions of any Order any part of his dominions not being a self-governing dominion, it shall be lawful for His Majesty by the same or any other Order in Council to declare that such Order and this Part of this Act shall not, and the same shall not, apply to such part, except so far as is necessary for preventing any prejudice to any rights acquired previously to the date of such Order.

PART III.

SUPPLEMENTAL PROVISIONS.

31. No person shall be entitled to copyright or any similar right in any literary, dramatic, musical, or artistic work, whether published or unpublished, otherwise than under and in accordance with the provisions of this Act, or of any other statutory enactment for the time being in force, but nothing in this section shall be construed as abrogating any right or jurisdiction to restrain a breach of trust or confidence.

Abrogation of common law rights.

32. (1) His Majesty in Council may make Orders for altering, revoking, or varying any Order in Council made under this Act, or under any enactments repealed by this Act, but any Order made under this section shall not affect prejudicially any rights or interests acquired or accrued at the date when the Order comes into operation, and shall provide for the protection of such rights and interests.

Provisions as to Orders in Council.

(2) Every Order in Council made under this Act shall be published in the *London Gazette* and shall be laid before both Houses of Parliament as soon as may be after it is made, and shall have effect as if enacted in this Act.

33. Nothing in this Act shall deprive any of the universities and colleges mentioned in the Copyright Act, 1775, of any copyright they already possess under that Act, but the remedies and penalties for infringement of any such copyright shall be under this Act and not under that Act.

Saving of university copyright.

15 Geo. 3, c. 53.

34. There shall continue to be charged on, and paid out of, the Consolidated Fund of the United Kingdom such annual compensation as was immediately before the commencement of this Act payable in pursuance of any Act as compensation to a library for the loss of the right to receive gratuitous copies of books:

Saving of compensation to certain libraries.

Provided that this compensation shall not be paid to a library in any year, unless the Treasury are satisfied that the compensation for the previous

year has been applied in the purchase of books for the use of and to be preserved in the library.

35. (*1*) In this Act, unless the context otherwise requires,—

Interpretation.

"Literary work" includes maps, charts, plans, tables, and compilations;

"Dramatic work" includes any piece for recitation, choreographic work or entertainment in dumb show, the scenic arrangement or acting form of which is fixed in writing or otherwise, and any cinematograph production where the arrangement or acting form or the combination of incidents represented give the work an original character;

"Artistic work" includes works of painting, drawing, sculpture and artistic craftsmanship, and architectural works of art and engravings and photographs;

"Work of sculpture" includes casts and models;

"Architectural work of art" means any building or structure having an artistic character or design, in respect of such character or design, or any model for such building or structure, provided that the protection afforded by this Act shall be confined to the artistic character and design, and shall not extend to processes or methods of construction;

"Engravings" include etchings, lithographs, wood-cuts, prints, and other similar works, not being photographs;

"Photograph" includes photo-lithograph and any work produced by any process analogous to photography;

"Cinematograph" includes any work produced by any process analogous to cinematography;

"Collective work" means—

(*a*) an encyclopædia, dictionary, year book, or similar work;

(*b*) a newspaper, review, magazine, or similar periodical; and

(*c*) any work written in distinct parts by different authors, or in which works or parts of works of different authors are incorporated;

"Infringing," when applied to a copy of a work in which copyright subsists, means any copy, including any colourable imitation, made, or imported in contravention of the provisions of this Act;

"Performance" means any acoustic representation of a work and any visual representation of any dramatic action in a work, including such a representation made by means of any mechanical instrument;

"Delivery," in relation to a lecture, includes delivery by means of any mechanical instrument;

"Plate" includes any stereotype or other plate, stone, block, mould, matrix, transfer, or negative used or intended to be used for printing or reproducing copies of any work, and any matrix or other appliance by which records, perforated rolls or other contrivances for the acoustic representation of the work are or are intended to be made;

"Lecture" includes address, speech, and sermon;

"Self-governing dominion" means the Dominion of Canada, the Commonwealth of Australia, the Dominion of New Zealand, the Union of South Africa, and Newfoundland.

(*2*) For the purposes of this Act (other than those relating to infringements of copyright), a work shall not be deemed to be published or performed in public, and a lecture shall not be deemed to be delivered in public, if published, performed in public, or delivered in public, without the consent or acquiescence of the author, his executors, administrators or assigns.

(*3*) For the purposes of this Act, a work shall be deemed to be first published within the parts of His Majesty's dominions to which this Act extends, notwithstanding that it has been published simultaneously in some other place, unless the publication in such parts of His Majesty's dominions is colourable only and is not intended to satisfy the reasonable requirements of the public, and a work shall be deemed to be published simultaneously in two places if the time between the publication in one such place and the publication in the other place does not exceed fourteen days, or such longer period as may, for the time being, be fixed by Order in Council.

(*4*) Where, in the case of an unpublished work the making of a work has extended over a considerable period, the conditions of this Act conferring copyright shall be deemed to have been complied with, if the author was, during any substantial part of that period, a British subject or a resident within the parts of His Majesty's dominions to which this Act extends.

(*5*) For the purposes of the provisions of this Act as to residence, an author of a work shall be deemed to be a resident in the parts of His Majesty's dominions to which this Act extends if he is domiciled within any such part.

36. Subject to the provisions of this Act, the enactments mentioned in the Second Schedule to this Act are hereby repealed to the extent specified in the third column of that schedule:

Repeal.

Provided that this repeal shall not take effect in any part of His Majesty's dominions until this Act comes into operation in that part.

37. (*1*) This Act may be cited as the Copyright Act, 1911.

Short title and commencement.

(*2*) This Act shall come into operation—

(*a*) in the United Kingdom, on the first day of July nineteen hundred and twelve or such earlier date as may be fixed by Order in Council;

(*b*) in a self-governing dominion to which this Act extends, at such date as may be fixed by the Legislature of that dominion;

(*c*) in the Channel Islands, at such date as may be fixed by the States of those islands respectively;

(*d*) in any other British possession to which this Act extends, on the proclamation thereof within the possession by the Governor.

SCHEDULES.

Section 24.

FIRST SCHEDULE.

EXISTING RIGHTS.

Existing Right.	Substituted Right.
(*a*) *In the case of Works other than Dramatic and Musical Works.*	
Copyright	Copyright as defined by this Act.*
(*b*) *In the case of Musical and Dramatic Works*	
Both copyright and performing right.	Copyright as defined by this Act.*
Copyright, but not performing right.	Copyright as defined by this Act, except the sole right to perform the work or any substantial part thereof in public.
Performing right, but not copyright	The sole right to perform the work in public, but none of the other rights comprised in copyright as defined by this Act.

* In the case of an essay, article, or portion forming part of and first published in a review, magazine, or other periodical or work of a like nature, the right shall be subject to any right of publishing the essay, article, or portion in a separate form to which the author is entitled at the commencement of this Act, or would, if this Act had not been passed, have become entitled under section eighteen of the Copyright Act, 1842.

For the purposes of this Schedule the following expressions, where used in the first column thereof, have the following meanings:—

"Copyright," in the case of a work which according to the law in force immediately before the commencement of this Act has not been published before that date and statutory copyright wherein depends on publication, includes the right at common law (if any) to restrain publication or other dealing with the work;

"Performing right," in the case of a work which has not been performed in public before the commencement of this Act, includes the right at common law (if any) to restrain the performance thereof in public.

SECOND SCHEDULE.

ENACTMENTS REPEALED

Session and Chapter.	Short Title.	Extent of Repeal.
8 Geo. 2, c. 13	The Engraving Copyright Act, 1734 ...	The whole Act.
7 Geo. 3, c. 38	The Engraving Copyright Act, 1767 ...	Ditto.
15 Geo. 3, c. 53	The Copyright Act, 1775 ...	Ditto.
17 Geo. 3, c. 57	The Prints Copyright Act, 1777 ...	Ditto.
54 Geo. 3, c. 56	The Sculpture Copyright Act, 1814 ...	Ditto.
3 & 4 Will. 4, c. 15.	The Dramatic Copyright Act, 1833 ...	Ditto.
5 & 6 Will. 4, c. 65.	The Lectures Copyright Act, 1835 ...	Ditto.
6 & 7 Will. 4, c. 59.	The Prints and Engravings Copyright (Ireland) Act, 1836.	Ditto.
6 & 7 Will. 4, c. 110.	The Copyright Act, 1836 ...	Ditto.
5 & 6 Vict., c. 45	The Copyright Act, 1842 ...	Ditto.
7 & 8 Vict., c. 12	The International Copyright Act, 1844	Ditto.
10 & 11 Vict., c. 95.	The Colonial Copyright Act, 1847 ..	Ditto.
15 & 16 Vict., c. 12.	The International Copyright Act, 1852	Ditto.
25 & 26 Vict., c. 68.	The Fine Arts Copyright Act, 1862 ...	Sections one to six. In section eight the words "and pursuant to any Act for "the protection "of copyright engravings," and "and in any such "Act as aforesaid." Sections nine to twelve.
38 & 39 Vict., c. 12.	The International Copyright Act, 1875	The whole Act.
39 & 40 Vict., c. 36.	The Customs Consolidation Act, 1876	Section forty-two, from "Books wherein" to "such copyright will expire," Sections forty-four, forty-five, and one hundred and fifty-two.
45 & 46 Vict., c. 40.	The Copyright (Musical Compositions) Act, 1882.	The whole Act.
49 & 50 Vict., c. 33.	The International Copyright Act, 1886	Ditto.
51 & 52 Vict., c. 17.	The Copyright (Musical Compositions) Act, 1888.	Ditto.
52 & 53 Vict., c. 42.	The Revenue Act, 1889 ...	Section one, from "Books first published" to "as provided in that section."
6 Edw. 7, c. 36.	The Musical Copyright Act, 1906 ...	In section three the words "and "which has been "registered in ac"cordance with "the provisions of "the Copyright "Act, 1842, or of "the International "Copyright Act, "1844, which re"gistration may "be effected not"withstanding "anything in the "International "Copyright Act, "1886."

THE SECOND SCHEDULE.

REPEAL OF ENACTMENTS.

(See section 15.)

Year.	No.	Short Title.	Extent of Repeal.
1847	XX	The Indian Copyright Act, 1847	So much as has not already been repealed.
1867	XXV	The Press and Registration of Books Act, 1867.	In section 18 the following words, namely:—" Every registration under this section shall, upon the payment of the sum of two rupees to the office keeping the said Catalogue, be deemed to be an entry in the Book of Registry kept under Act No XX of 1847 (for the encouragement of learning in the territories subject to the government of the East India Company, by the defining and providing for the enforcement of the right called copyright therein); and the provisions contained in that Act as to the said Book of Registry shall apply *mutatis mutandis* to the said Catalogue."
1878	VIII	The Sea Customs Act, 1878	Clause (a) of section 18.

STATEMENT OF OBJECTS AND REASONS.

THE question of the amendment of the Indian Copyright Act (XX of 1847) has been considered on several occasions since 1864 on the ground that the Act was incomplete and did not provide, among other matters, for the protection of copyright in Photographs, translations, newspaper, telegrams, etc Legislation, however, has been postponed in view of the possibility of an amendment of the English Acts on the subject of copyright.

In 1908 a Conference and Convention, to which Great Britain was a party, was held in Berlin with the object of bringing the domestic laws of all countries concerned into harmony with one another so as to obtain international uniformity of treatment and the ratification of that Convention involved certain changes in the English law. Its provisions were examined by a strong departmental committee appointed by the Board of Trade which came to the unanimous conclusion that the Berlin Convention should be accepted by Great Britain with as few reservations as possible.

An Imperial Copyright Conference was subsequently convened in 1910 containing representations of the self-governing dominions and of the India Office, Colonial Office, etc. It endorsed the recommendation of the Board of Trade Committee and recommended that an Act dealing with the essentials of Imperial Copyright Law should be passed by the Imperial Parliament and that this Act should be expressed to extend to all British possessions subject to the rights of self-governing dominions and possessions to modify or add to its provisions by legislation in certain cases affecting only procedure and remedies.

A Draft Bill was approved by the Conference and eventually passed into law as the Copyright Act, 1911 (1 and 2 Geo. 5, Ch. 46), which came into operation in the United Kingdom on 1st July 1912.

The important changes in the Act are—

(*i*) The abolition of the formality of registration of copyright.

(*ii*) The extension of the term of copyright from 42 years to one of life and 50 years subject to certain conditions.

(*iii*) The extension of the scope of copyright.

(*iv*) The substitution of one Act for several on the subject of copyright.

The Government of India considered that the early introduction of the Act into India was desirable both for Imperial and International as well as domestic reasons and consulted Local Governments in regard to the modifications and additions referred to in section 27 of the Act that might be necessary to suit the special conditions of India. In view, however, of difficulties that were experienced in England through the non-proclamation in India of the Act of 1911 and having regard to the serious hardship and loss which might thereby be inflicted on English Authors, the Act was brought into force in India by proclamation in the Gazette of India on the 31st October 1912 under section 37 (2) (d) of the Act, the question of modifications or additions being postponed for subsequent consideration on receipt of the views of Local Governments. These are in substantial agreement with those of the Government of India who propose by virtue of the powers conferred by section 27 of the Act of 1911 to pass the Draft Bill which embodies the modifications and additions to the Act which are considered desirable, together with certain formal and necessary alterations due to the difference between English and Indian administration and procedure.

It will be observed that the changes proposed are as few as possible in view of the desirability of securing that uniformity throughout the Empire which was advocated by the Imperial Copyright Conference of 1910.

Clause 3.—This contains purely formal modifications necessary for the application of the Act of 1911 to British India.

Clause 4.—Under sections 1-3 of the Act of 1911 the term for which copyright subsists in translations is the life of the author and a period of fifty years after his death.

The special linguistic conditions of India render desirable a substantial relaxation of the above provision. The languages spoken in India are so numerous and differ so widely that the conditions which prevail cannot be compared with those in most European countries and vernacular translations from English and from one vernacular to another are not only common but serve the useful purpose of disseminating knowledge. It is proposed, therefore, that translations of works first published in British India should be permitted after the expiry of five years from the date of first publication, provided that two years' notice of the intention to publish a translation has been given to the author.

This proposal is considered to be a sufficient safeguard of and a reasonable compromise between rights of the author and those of the public.

Clause 5.—The provisions of section 19 of the Act of 1911 are new, and in view of the peculiar conditions of Indian music objections have been urged against the application of this section *in toto* to Indian works. It is pointed out that it is impossible in most cases to identify the original composer or author and that the majority of Indian melodies have not been written in staff notation except through the medium of the phonograph and are subject to infinite variety of notation and tune. If, under these circumstances, section 19 is adopted with its retro-active principal there may be fictitious claims of ownership in musical works and much confusion and undesirable litigation. To make it clear that in order to fall within the definition of "musical work" music must have been graphically represented it is proposed to adopt *mutatis mutandis* the definition of the term "musical work," contained in the English Musical Copyright Act, 1902, *viz.*, "musical work means any combination of melody and harmony or either of them printed, reduced to writing"

Clause 6.—Section 18 (*a*) of the Sea Customs Act, 1878, prohibits importation in the case of books alone, the copyright whereof subsists in India. In view of the extension of the Act of 1911, to works other than books and the difference in procedure it is proposed to repeal this section and enact the appropriate provisions as the necessary modifications referred to in section 14 (7) of the Act of 1911.

Clauses 7-12.—The provisions of section 11 of the Act of 1911 have been in the main adopted. Imprisonment, however, will in all cases be simple, and offences will be triable by a Magistrate of the first class only. It is proposed to convert the amount of English fines on the basis of £ 1 = Rs. 10 in accordance with the usual practice and to insert a clause exempting the case of infringement by the construction of a building from the operation of summary remedies, thus giving effect to the similar exemption provided by section 9 of the English Act.

Clause 13.—On account of the technicalities of the subject of copyright, and of the greater finality that such a tribunal will afford, it has been considered advisable to give jurisdiction to High Courts only in all suits or civil proceedings regarding infringement of copyright.

Clause 14.—This clause which is self-explanatory has been added in view of a recent decision in Evans *vs.* Morris reported in the Law Journal of 29th March 1913.

HARCOURT BUTLER.

The 30th July, 1913.

W. H. VINCENT,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 9th September, 1913:

No. 8 OF 1913.

A Bill to amend the Provincial Small Cause Courts Act, 1887.

WHEREAS it is expedient to amend the Provincial Small Cause Courts Act, 1887; It is hereby enacted as follows:— IX of 1887.

Short title. 1. This Act may be called the Provincial Small Cause Courts (Amendment) Act, 19 .

Amendment of Article 35, Schedule II, Act IX of 1887. 2. In Article 35 of Schedule II of the Provincial Small Cause Courts Act, 1887 (hereinafter called the said Act), the following amendments shall be made, namely:— IX of 1887.

(1) After item (*i*), the following item shall be inserted:—

"(*ii*) for any offence specified in Chapter XVII of the Indian Penal Code." XLV of 1860.

(2) To item (*j*) the following words shall be added: "or for trespass or damage committed in the illegal or improper execution of any other legal process or search."

Insertion of new Article 43-A, in Schedule II, Act IX of 1887. 3. After Article 43 of the same Schedule of the said Act, the following Article shall be inserted, namely:—

"(43-A) a suit to recover property obtained by the commission of any offence specified in Chapter XVII of the Indian Penal Code." XLV of 1860.

STATEMENT OF OBJECTS AND REASONS.

Under the existing law, certain suits which practically involve a criminal charge against the defendants are cognizable by Provincial Small Cause Courts, if their value is within the pecuniary jurisdictions of such tribunals. At the same time they are triable by a summary procedure which allows no right of appeal upon the facts and requires no full record of the evidence. This position is unsatisfactory, in that it deprives the defendant of the possibility of clearing his character by an appeal from an adverse decree. Additions are therefore proposed to Schedule II of Act IX of 1887, which provide for the exclusion from the cognizance of Provincial Small Cause Courts of all suits for compensation for any offence under Chapter XVII of the Indian Penal Code or for the recovery of any property taken in the commission of such offence.

2. It is further proposed to modify item (*j*) of Article 35 in Schedule II of Act IX of 1887 so as to include trespass or damage committed in the illegal or improper execution of any other legal process or search. Such cases are analogous to those already specified in items (*b*), (*c*) and (*k*) of the same Article.

The 16th June, 1913. R. H. CRADDOCK.

W. H. VINCENT,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 9th September, 1913:

No. 9 OF 1913.

A Bill to prevent the introduction into British India of any insect, fungus or other pest, which is or may be destructive to crops.

WHEREAS it is expedient to make provision for preventing the introduction into British India of any insect, fungus or other pest, which is or may be destructive to crops; It is hereby enacted as follows:—

Short title.

1. This Act may be called The Destructive Insects and Pests Act, 1913.

Definitions.

2. In this Act, unless there is anything repugnant in the subject or context,—

(*a*) "crops" includes all agricultural or horticultural crops, and trees or bushes;

(*b*) "import" means the bringing or taking by sea or land; and

(*c*) "infection" means infection by any insect, fungus or other pest injurious to a crop.

Power of Governor General in Council to regulate or prohibit the import of articles likely to infect.

3. (*1*) The Governor General in Council may, by notification in the Gazette of India, prohibit or regulate, subject to such restrictions and conditions as he may impose, the import into British India, or any part thereof, or any specified place therein, of any article or class of articles likely to cause infection to any crop.

(*2*) A notification under this section may specify any article or class of articles, either generally or in any particular manner, whether with reference to the country of origin, or the route by which imported or otherwise.

Operation of notification under section 3.

4. A notification under section 3 shall operate as if it had been issued under section 19 of the Sea Customs Act, 1878, and the officers of Customs at every port shall have the same powers in respect of any article with regard to the importation of which such a notification has been issued as they have for the time being in respect of any article the importation of which is regulated, restricted or prohibited by the law relating to Sea Customs and the law for the time being in force relating to Sea Customs or any such article shall apply accordingly.

Act VIII of 1878.

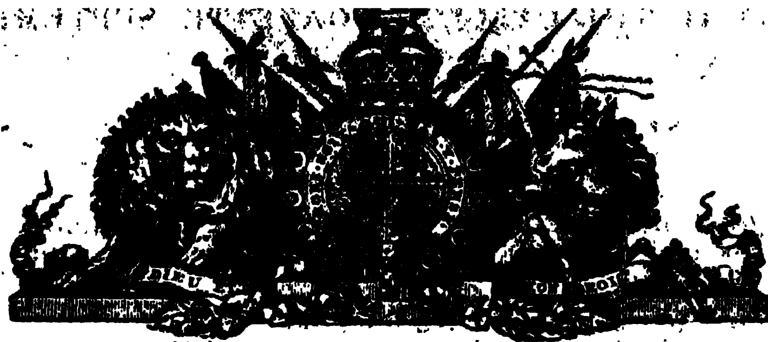
Power of Local Government to make rules.

5. (*1*) The Local Government may, subject to the control of the Governor General in Council, make rules for the detention, inspection, disinfection or destruction of any article in respect of which a notification has been issued under section 3 or of any article which may have been in contact or proximity thereto, and for regulating the powers and duties of the officers whom it may appoint in this behalf.

(*2*) In making any rule under this section the Local Government may direct that a breach thereof shall be punishable with fine, which may extend to one thousand rupees.

Protection to persons acting under Act.

6. No suit, prosecution or other legal proceeding shall lie against any person for anything in good faith done or intended to be done under this Act.



STATEMENT OF OBJECTS AND REASONS.

THIS Bill is the outcome of representations made by the Bombay Chamber of Commerce in 1906, and it has been prepared after consultation with experts and with a considerable number of bodies and persons interested in gardening and agriculture. It gives power to Government to control the importation into British India of articles likely to cause infection to crops, and is based partly on the corresponding English Acts of 1877 and 1907, and partly on the provisions of the Indian Livestock Inspection Act of 1898.

2. Action under the Bill would be taken in respect of certain crops only and would assume various forms according to the crop or the class of infection concerned. In some cases, for instance, importation would be prohibited except at certain ports, and then after fumigation. In others, importation would have to be accompanied by certificates of freedom from disease; while in others, importation would be allowed under a license from the Agricultural Department.

The 17th July, 1913. E. D. MACLAGAN.

W. H. VINCENT,
Secretary to the Government of India.

The Calcutta Gazette

WEDNESDAY, SEPTEMBER 24, 1913.

APPENDIX.

NOTICES TO MARINERS.

THE following Notices are published for general information.

H. H. GREEN,
Offg. Secy. to the Govt. of Bengal.

CALCUTTA, *the 16th September 1913.*

CHINA SEA—SUMATRA.

(1) Tanjong Datu—Alteration in position.

(2) Tanjong Bakau—Alteration in position.

No. 460 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1179 of 1913), are republished :—

(1) Tanjông Datu—Alteration in position.

Position.—At a distance of 7 cables, 90° (*N. 89° E. Mag.*), from its present position.
Lat. 0° 00′ 15″ S., long. 103° 48′ 55″ E.
Description.—A *fixed white* light as described in the List of Lights.

(2) Tanjong Bakau—Alteration in position.

Position.—At a distance of 10$\frac{2}{10}$ miles, 313° (*N. 48° W. Mag.*), from its present position.
Lat. 0° 13′ 40″ S., long. 103° 38′ 55″ E.
Description.—A *fixed red* light as described in the List of Lights.
Remarks.—The above positions are taken from chart No. 1789.
Variation.—1° E.
Charts affected.—No. 1789. Channels between Sumatra, Linga and Singkep.
„ 2757, Banka strait to Singapore.
„ 941*a*, Eastern Archipelago, western portion, sheet I.
„ 2660*a*, China sea, southern portion, sheet I.
Publications.—List of Lights, Part VI, 1913, Nos. 417*a*, 417*b*.
China Sea Directory, Vol. I, 1906, page 639; Revised Supplement, 1913.
Authority.—Hague Hydrographer, 28th July 1913.

SUMATRA, NORTH-EAST COAST.

Magnetic disturbances reported.

No. 461 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1196 of 1913), are republished :—

Position.—(*a*) Lat. 5° 01′ N., long. 98° 05′ E.
(*b*) Lat. 3° 40′ N., long. 99° 43½′ E.

Remarks.—"*Magnetic disturbance reported (1913)*" has been placed on the charts in the above positions.

Charts affected.—No. 794, Pulo Berhala to Cape Rachado (*b*).
„ 1853, Diamond point to Pulo Berhala (*a*).
„ 1355, Malacca strait (*a*) and (*b*).
„ 2760, Acheh head to Chingkuk bay.

Publication.—China Sea Directory, Vol. I, 1906, pages 86, 108.

Authority.—H.M.S. *Royal Arthur*, Navigating Officer's remark book.

CEYLON, WEST COAST.

Colombo—Alteration in light.

No. 462 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1197 of 1913), are republished :—

Former Notices.—Nos. 1569 of 1912 and 816 of 1913. (*This office Nos. 608 of 1912 and 356 of 1913.*)

Position.—On the head of the New Arm of the South-west Breakwater.
Lat. 6° 57¼′ N., long. 79° 50¾′ E.

Details.—The temporary *fixed red* light described in Notice No. 816 of 1913 (*This office No. 356 of 1913*) has been permanently established.

Abridged description.—Lt. F. *Red, 56 ft., vis. 13 m.*

Alteration.—From an occulting to a *fixed red* light.

Elevation.—56 feet.

Visibility.—13 miles.

Structure.—A concrete tower, 61 feet in height.

Remarks.—The above light has now been placed on the charts, which were only temporarily affected by Notice No. 816 of 1913. (*This office No. 356 of 1913.*)

Charts affected.—No. 914, Colombo harbour.
„ 3686, Approaches to Colombo harbour.
„ 3700, Colombo to Galle.
„ 813, Ceylon, south part, south of 7° 20′ N.

Authority.—Tokyo Notice, No. 159 of 1913.

SOUTH-WEST PACIFIC—NEW IRELAND—KAWIENG HARBOUR.

(1) Alterations in buoyage and beaconage.

(2) Beacon established.

No. 453 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1145 of 1913), are republished :—

(1) Alterations in buoyage and beaconage.

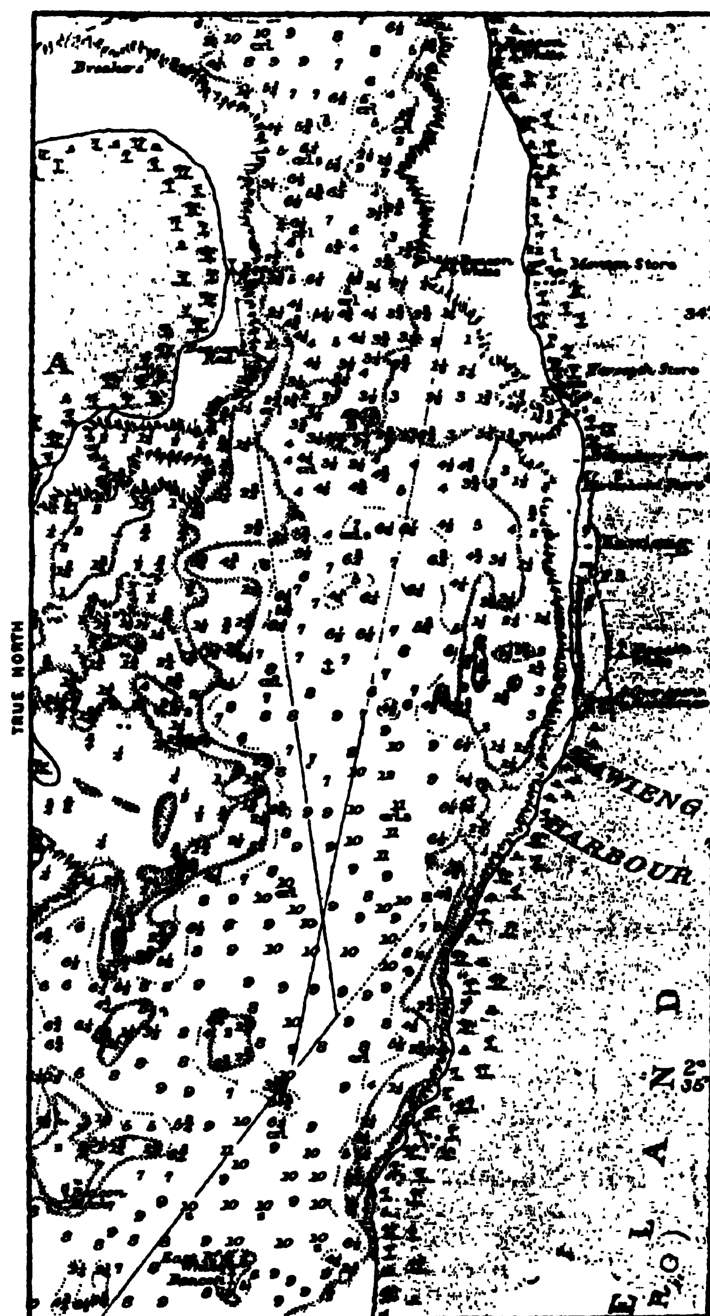
Position.—Kawieng harbour, lat. 2° 34¼' S., long. 150° 47¼' E.

Details.—The alterations in the buoyage and beaconage of Kawieng harbour are shewn on the accompanying reproduction of a portion of chart No. 55.

(2) Beacon established.

Position.—Southward of Cape Siwusat, at a distance of. $7\frac{6}{10}$ cables, 205° (*S. 19° W. Mag.*), from Nissel pass beacon.

Lat. 2° 36′ 46″ S., long. 150° 46′ 56″ E., on chart No. 55.



Description.—A white beacon.

Variation.—6° E.

Chart affected.—No. 55, Kawieng harbour, plan.

Publication.—Pacific Islands. Vol. I., 1908, pages 357, 358.

Authority.—Berlin Notice, No. 1151 of 1913.

Reproduction of Portion of Chart N° 56

Cables or Sea Mile

AFRICA. SOUTH COAST—SIMON'S BAY.

(1) Mooring-buoys removed.

(2) Mooring-buoy moved.

No. 454 (second publication).—The following particulars etc., relative to the above, issued by the British Admiralty (No. 1152 of 1913), are republished :—

(1) Mooring-buoys removed.

Position (a).—Lat. 34° 11′ S., long. 18° 26′ E.

Description.—" Penelope," mooring-buoy No. 9.

Position (b).—Lat. 34° 11¼′ S., long. 18° 26′ E.

Description.—Mooring-buoy No. 8.

(2) Mooring-buoy moved.

Position.—At a distance of 370 yards, 77° (*S. 76° E. Mag.*), from the head of Admiral's jetty, and 55 yards, 33° (*N. 60° E. Mag.*), from its present position.

Description.—Mooring-buoy No. 5.

Variation.—27° W.

Chart affected.—No. 1849, Simon's bay.

Publications.—Africa Pilot, Part II., 1910, page 386.

Authority.—Deputy Conservator of the Port, Rangoon.

BAY OF BENGAL—BURMA COAST.

Rangoon River—Carrying of Gunpowder or other explosives.

No. 446 (third publication).—The Secretary to the Government of Burma in the Judicial Department has issued a Notification No. 111, dated the 5th July 1913, that—

(*i*) All vessels entering the port of Rangoon with gunpowder or other explosives for Government in excess of 25 lbs. shall cause the same to be discharged below the Hastings Shoal. The 25 lbs. of Government explosives shall be reckoned as over and above the amount of explosives, if any, carried by the vessel for signalling purposes.

The above orders do not apply to fuzes and tubes consigned to the Ordnance Department nor to safety cartridges, safety fuzes for blasting, railway fog-signals and percussion caps.

(*ii*) Vesuvian matches forming part of the equipment of the Sappers and Miners may be discharged at either the Sule Pagoda or the Brooking Street Wharf. The matches must be at once removed from the wharf on their being landed from the steamer. If, on any occasion, this be not practicable, they must be deposited temporarily in the match godown with which each of these wharves is provided, and must be removed therefrom as promptly as possible. Three days' notice must be given to the Port Commissioners that a consignment of such matches is about to arrive.

(*iii*) Persons contravening these orders will be liable to a fine which may extend to Rs. 1,000.

BAY OF BENGAL—CHITTAGONG COAST.

Karnaphuli river—Depth of water in the channel.

No. 447-I (third publication).—

Subject.—The following depth of water was found in the channel by soundings taken on the 1st September 1913:—

Description.—

	Ft.
Track No. I, Outer Bar—	
Disc on Diamond	13
Track No. II, Inner Bar—	
Disc on Diamond	10

Chart affected.—No. 84, Chittagong (Karnaphuli) river.

Publication.—Bay of Bengal Pilot, 1910, page 322.

Authority.—Port Officer, Chittagong, Notice, dated 1st September 1913.

BAY OF BENGAL—BURMA COAST.

Mergui Archipelago.

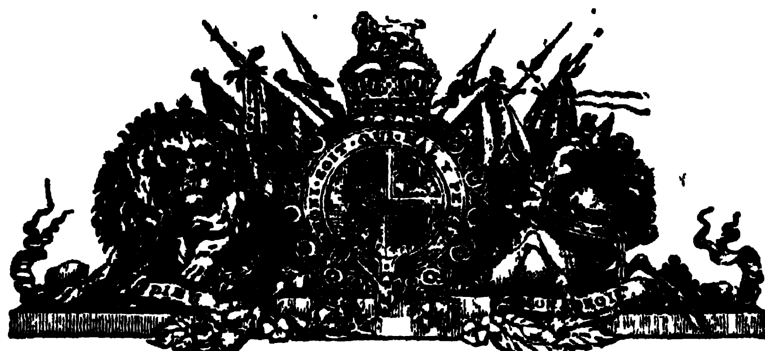
(*1*) *Heavy breakers reported off Courts Island.*

(*2*) *Height of Spiteful rock.*

No. 448 (third publication).—

Subject.—(1) The Master of the S.S. "Lanka" reports that on the 18th August 1913 after passing Bentinck island in the Mergui Archipelago and when off Courts island he sighted heavy breakers about a mile distant to the eastward of his vessel in the approximate position Lat. 11° 55′ N., Long. 97° 54¼′ E.

The breakers appear to indicate the existence of a reef or shoal almost awash, which is uncharted (there being 22 fathoms shewn in that vicinity) and is close to the track of vessels using the outer passage if making for Forrest straits.



(2) Spiteful rock at the entrance to the south passage to Victoria Point, on which there is a lighthouse is charted as being 8 feet high but it is in reality a heavily wooded island 235 feet in height.

Charts affected.—No. 216*a*, Northern part of Mergui Archipelago (1).
,, 216*b*, Southern part of Mergui Archipelago (2).

Publication.—Bay of Bengal Pilot, 1910, pages 537, 550.

LIBERALITY OF PRIVATE INDIVIDUALS IN THE DISTRICT OF BURDWAN.

No. 1858 F.G., dated Darjeeling, the 16th September 1913.

From—W. S. MILNE, ESQ., I.C.S., Offg. Secretary to the Govt. of Bengal, General Department,

To—The Commissioner of the Burdwan Division.

WITH reference to your letter No 357J.G., dated the 26th June 1913, to the address of the Municipal Department of this Government, reporting the undermentioned generous gifts for works of public utility executed by private individuals in the district of Burdwan during the year 1912-13, I am directed to request that you will be so good as to convey to the donors the thanks of Government for their liberality and public spirit :—

(1) *By the Hon'ble Maharaja Manindra Chandra Nandi of Kasimbazar.*—Construction of a boarding-house for the school at Ethora in thana Asansol, Asansol subdivision, at a cost of Rs. 19,561.

(2) *By Babu Prankrishna Chatterjee of Ikra.*—Construction of a school building with two hostels at Ikra, police-station Raniganj, at a cost of Rs. 16,000.

(3) *By Babu Punchanun Nandi Chaudhury and Kumar Krishna Nandi Chaudhury of Baidyapur*—Construction of a high English school building at Baidyapur, police-station Kalna, at a cost of Rs. 20,000.

DEPARTMENT OF AGRICULTURE, BENGAL.

FINAL FORECAST OF THE JUTE CROP FOR 1913.

On an average of five years ending 1911-12 the area under jute to which the Bengal jute forecast relates has represented 88·9 per cent. of the total area under jute in British India.

Character of the season.—In the preliminary forecast a short review was given of weather conditions up till the end of June. It was pointed out that the general defect of rain in the month of April interfered with sowings, especially in Western Bengal, while the great excess of the rainfall in the month of June did considerable damage to the crop. The worst effect of this excessive rainfall at that time was that it obstructed the work of weeding the fields where the crop had been sown, and delayed sowings where the crop had not been sown. The consequence was that a considerable amount of damage was done to the crop, although it was not of equal extent throughout the province. The area worst affected was that in the Presidency and Burdwan Divisions. The chief reason of this was that the plants in that area were still in an immature state when attacked by the excessive rain and were in consequence less able to resist the adverse conditions. It was therefore stated that even at that time the *deshi* crop had been considerably damaged.

The failure of the *deshi* crop.—Subsequent events have more than confirmed the opinion which was then expressed. In all the *deshi* districts a considerable amount of waterlogging has been the accompaniment of the excessive rainfall. The rainfall in July and August did not vary very greatly from the normal; but the excessive rainfall of June had the effect of causing waterlogging over a very considerable area, apart from the damage caused by river floods, and the crop was never given time to recover. It was therefore found necessary, in order to arrive at a reasonable estimate of outturn in the *deshi* districts, to eliminate the area on which the crop had either been entirely destroyed or irreparably damaged. The percentage of outturn has been calculated on the area from which a crop can be reasonably expected. For the purpose of making this estimate, a number of temporary men were employed, who worked under the supervision of District Officers. It is possible that the tendency of these temporary men and of the panchayats from whom they got most of their information may have been to overestimate the amount of damage done. To make an absolutely reliable estimate in such a case is a task of enormous difficulty. It can, however, be said that the estimates made are the result of local enquiries and are not mere guesses. They are supported by District Officers.

The crop of Eastern and Northern Bengal.—As regards Eastern and Northern Bengal, although the amount of damage done in those parts by excessive rain has not been anything like that in Western Bengal, the crop is generally inferior to that of last year and the percentages on the normal have in most cases been lowered accordingly. The low lands have naturally suffered most.

The question of the normal outturn of jute per acre.—In the preliminary forecast it was indicated that careful investigation was being made into the question of the average outturn of jute per acre, and it was there stated that it was believed that the average hitherto accepted, viz., three bales, would be found to be too low. The method employed was to make a very large number of crop-cutting experiments in what were regarded as typical fields and to test the results by as extensive enquiries as possible from raiyats as to the yields actually obtained by them in fields which had already been harvested. As a result of the enquiry it was found advisable to adopt different normals for tracts which are more or less homogeneous. Eastern Bengal, Northern Bengal and Western Bengal are fairly homogeneous tracts and should have different normals assigned to them. As a result of the enquiry it has been decided to adopt 3·7 bales for Eastern Bengal, 3·5 bales for Northern Bengal, and 3·2 bales for Western Bengal. These figures should not, however, be regarded as final and are subject to the test of future experience.

Revision of last year's district figures for outturn.—In the preliminary forecast the new system for the calculation of the area under jute was explained and the district acreage figures for last year were revised accordingly. In this forecast the outturn in bales for each district has also been similarly revised on the basis of the new system of average outturn, and the old percentages have been altered where it has been thought necessary. It is, therefore, now possible to make comparisons of outturn district by district. It will be noted that last year's consolidated outturn figure for the three Provinces works out on the new system to 9,842,778 bales, and this total figure is very approximately correct.

Acreage.—The acreage figures given in the preliminary forecast have been checked for the last two months, and the changes which now appear are the result of this check. The great reduction made in the Pabna figure by the Collector of that district is simply due to the fact that the figure furnished in the preliminary forecast was an estimate made by the Collector himself as to the amount which it was necessary to add in his opinion to the figure furnished by the panchayats. Subsequent enquiries have, however, shown that the amount of increase then made by the Collector was much too high, and the figures have been revised accordingly. In Rajshahi and Dinajpur the figures have, on the other hand, been increased as a result of the enquiries which have been made. The changes made in some of the other districts are of small importance. In the case of the districts of the Burdwan and Presidency Divisions, percentages have been calculated on the area from which a crop can be reasonably expected; but the total acreage figure has been retained for the purpose of comparison with last year.

The final figures for acreage in the three provinces for this year and last year are now returned as follows :—

	1912.	1913.	
Bengal ...	2,576,503	2,755,166	+ 178,663
Bihar and Orissa ...	298,344	318,358	+ 20,014
Assam ...	95,647	96,090	+ 443
Total ...	2,970,494	3,169,614	+ 199,120

The acreage in Bengal has therefore increased by 6·9 per cent., that of Bihar and Orissa by 6·7 per cent., and that of Assam by 0·47 per cent. The Director of Agriculture, Assam, has been good enough to introduce the panchayati system into the districts of Sylhet and Goalpara.

Outturn.—The final totals of outturn for the three provinces work out as follows :—

	Bales.		
	1912.	1913.	
Bengal ...	8,823,084	7,920,577	− 902,507
Bihar and Orissa ...	792,897	602,862	− 190,035
Assam ...	226,797	228,336	+ 1,539
Total ...	9,842,778	8,751,775	− 1,091,003

Working on the comparative figures which have now been prepared, there is a gain in Eastern Bengal of 348,402 bales, a loss in Northern Bengal of 59,139 bales, and a loss in Western Bengal of 1,191,770 bales. Bihar and Orissa reports a loss of 190,035 bales and Assam a gain of 1,539 bales.

J. R. BLACKWOOD,

Director of Agriculture, Bengal.

CALCUTTA,

The 20th September 1913.

APPENDIX I.

Final Forecast of the Jute Crop of Bengal. 1913.

DISTRICT.	Estimated area under jute—		Area from which a crop can be expected this year.	Estimated outturn as a percentage of the normal yield per unit of area		Estimated total yield—		Date by which harvesting generally commenced, and whether that date was early, normal, or late.	Remarks by District Officers.
	Last year.	This year.		Last year.	This year.	Last year.	This year		
1	2	3	4	5	6	7	8	9	10
	Acres.	Acres.	Acres.			Bales.	Bales.		
24-Parganas ...	89,200	82,434	18,890	110	57	313,984	34,455	Beginning of August. Normal.	The decrease in the area and outturn is due to excessive rainfall and floods. Great damage was done to the crop growing on low lands.
Nadia ...	91,000	92,200	52,300	95	70	276,640	117,152	Ditto ...	The weather conditions were unfavourable throughout and considerable damage was done by floods, excessive rain and insect-pests. The condition of the crop on the area likely to be harvested is also not good. Hence the decrease in the estimated outturn.
Murshidabad ...	40,000	39,700	38,700	95	75	121,600	92,880	Latter part of August and beginning of September. Normal, but late in Kandi.	The decrease in the area sown is due to heavy rainfall at the sowing season which hindered cultivation. Floods and excessive rainfall afterwards washed away about 1,000 acres. Excessive rainfall has stunted the growth of the crop. Floods and insect-pests have also damaged the crop to some extent. Hence the decrease in the outturn.
Jessore ...	125,000	117,640	34,417	110	40	440,000	44,054	August. Normal.	The decrease in area is due to heavy rain in May The heavy downpour in May and June had submerged jute lands and considerably damaged the crop.
Khulna ...	38,100	34,000	7,796	105	45	128,016	11,226	Beginning of September. Normal.	The decrease in area is due to want of rain in the beginning and excessive rainfall subsequently. Unusually heavy rain from June to August has retarded the weeding and growth of the crop. The crop on the low lands was almost entirely destroyed by excessive rain and floods.

District.	Estimated area under jute—		Area from which a crop can be expected this year.	Estimated outturn as a percentage of the normal yield per unit of area—		Estimated total yield—		Date by which harvesting generally commenced, and whether that date was early, normal, or late.	Remarks by District Officers.
	Last year.	This year.		Last year.	This year.	Last year.	This year.		
1	2	3	4	5	6	7	8	9	10
	Acres.	Acres.	Acres.			Bales.	Bales.		
Burdwan ...	12,500	12,289	3,558	105	60	42,000	6,832	Last week of August in Kalna and Katwa. Not yet begun in Sadar. Normal in Kalna and Katwa, and late in Sadar.	The decrease in area is due to heavy rainfall and floods. The character of weather from June to August was not favourable to the growth of the crop. Owing to the heavy rainfall throughout the growth was retarded. The crop was destroyed totally in most part of the Sadar subdivision and in some parts of Kalna subdivision by floods. The outturn is much below the normal owing to excessive rainfall and floods.
Midnapore ...	11,000	12,957	3,330	80	40	28,160	4,262	Not yet begun	Heavy rain in July and August caused serious floods in the district and entirely destroyed the crop on large areas. The outturn of the remaining crop is likely to prove very poor.
Hooghly ...	38,123	40,637	18,795	110	60	134,193	36,086	Middle of August.	Heavy rain and floods in Serampur and Arambagh subdivisions and Dhaniakhali thana in Sadar subdivision reduced the acreage and greatly damaged the crop. The excessive rainfall in the early part of the season prevented the weeding operations altogether. The jute grown on *char* lands was ruined by the rain and floods.
Howrah ...	18,000	20,100	3,608	110	80	63,360	9,236	Normal ...	The weather was favourable at the commencement of the season, but it proved unfavourable afterwards on account of the heavy rainfall in June and July. A vast tract of land was completely flooded, and the crops standing thereon totally destroyed.
[illegible]jshahi ...	113,982	126,646	...	90	80	359,043·3	354,608·8	Middle of July. Normal.	The acreage figures of the preliminary forecast have been revised. The outturn is worse than last year owing to excessive rainfall, especially during the weeding season.

DISTRICT.	Estimated area under jute—		Area from which a crop can be expected this year.	Estimated outturn as a percentage of the normal yield per unit of area—		Estimated total yield—		Date by which harvesting generally commenced, and whether that date was early, normal, or late.	Remarks by District Officers.
	Last year.	This year.		Last year.	This year.	Last year.	This year.		
1	2	3	4	5	6	7	8	9	10
	Acres.	Acres.	Acres.			Bales.	Bales.		
Dinajpur ...	95,000	90,000	...	90	86	299,250	270,900	Middle of August. Late.	The acreage figures of the preliminary forecast have been revised. The rain was scanty at sowing time and excessive afterwards.
Jalpaiguri ...	50,000	57,900	...	95	92	166,250	186,438	Beginning of August. A little late.	Area revised, and percentage of last year corrected.
Darjeeling ...	2,600	2,340	...	95	92	8,645	7,534·8	Ditto ...	The percentage of last year has been corrected.
Rangpur ...	265,000	275,000	...	95	92	881,125	885,500	Middle of July. Normal.	Lower percentage outturn is due to excessive rainfall, especially in June.
Bogra ...	85,000	90,000	...	91	91	270,725	286,650	End of July. Normal.	The crop is much the same as that of last year.
Pabna ...	160,000	160,000	...	105	96	588,000	537,600	Beginning of July. Normal.	The acreage figures have been revised as a result of check. The outturn of the crop is poorer than that of last year.
Malda ...	38,000	38,000	...	100	90	133,000	119,700	Middle of July. Normal.	Outturn poorer than last year owing to excessive rain.
Dacca ...	230,000	270,000	...	95	90	808,450	899,100	July. Normal	Increase in area this year is due to high prices and favourable weather conditions during the time of sowing. Effect of the weather on the growth of the crop was neither specially beneficial nor altogether harmful. A good deal of land was newly sown with rather inferior quality of jute, which tended to reduce the average outturn. Heavy rains and sudden rise of rivers were harmful to the immature crop in lower lands. The quantity of jute in the higher lands has been taken to counterbalance the damage done in the lower.
Mymensingh	500,000	558,602	...	95	90	1,757,500	1,860,145	Middle of July. Normal.	Increase in area this year is due to high prices of jute and revision of figures. The weeding operations were hampered owing to incessant rain. Sudden rise of rivers also damaged the immature crop to some extent.

District.	Estimated area under jute—		Area from which a crop can be expected this year.	Estimated out-turn as a percentage of the normal yield per unit of area—		Estimated total yield—		Date by which, harvesting generally commenced, and whether that date was early, normal, or late.	Remarks by District Officer.
	Last year.	This year.		Last year.	This year.	Last year.	This year.		
1	2	3	4	5	6	7	8	9	10
	Acres.	Acres.	Acres.			Bales.	Bales.		
Faridpur ...	217,700	219,200	...	95	85	765,215	689,384	Middle of July. Normal.	The season was characterised by very heavy and badly distributed rainfall. There was unusually heavy rainfall in the early part of June which affected the late-sown crop. The jute on lands in the *bil* tracts was also adversely affected by an early rise in the water levels.
Bakarganj ...	37,000	50,000	...	95	88	130,055	162,800	Middle of July. Normal.	Increase in area under cultivation this year is due to the rise in the price of jute last year. Weather conditions were unfavourable to the growth of the crop and hence there has been a fall in the out-turn of the crop.
Chittagong ...	200	200	...	95	85	703	629	Nil ...	The increase is due to extended cultivation.
Tippera ...	234,483	277,925	...	95	100	824,208	1,028,322	June. Normal	The season since June has been favourable. The crop in low lands was injured by early floods.
Noakhali ...	45,000	48,435	...	95	85	158,175	152,328	End of July. Normal.	Effect of weather from June to August was on the whole favourable. Slight injury in certain low lands was done by flood and the crop suffered from heavy rain in June.

NOTE.—The figures given above are the averages for all the rain-registering stations in each district.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 22nd September 1913.

Summary.—During the week under review a certain amount of rainfall is reported from all the districts in the province. The recent rainfall has proved beneficial to the standing crops. Transplanting of winter rice and harvesting of autumn rice and jute are nearing completion. The prospects of standing crops have somewhat improved in West Bengal and those in East Bengal are fairly good. Condition of cattle in the areas affected by the floods is still reported to be bad. Cattle-disease is reported from eight districts. Want of fodder is felt in six districts. The price of rice has slightly risen as compared with that of the previous week.

Serial No.	Districts and subdivisions.	Rainfall.	Price of common rice, in seers, per rupee.		Character of the weather, condition of crops, etc.
			This week.	Previous week.	
1	2	3	4	5	6
		Inches.			
1	24-PARGANAS	1·48	6½	6½	Weather seasonable. The transplantation of winter paddy and harvesting and steeping of jute nearly finished. Jute and *aus* paddy have been much damaged. Fodder and water sufficient. Condition of cattle is good.
	Diamond Harbour.	2·66	7¾	7¾	
	Barrackpore	1·00	6	6	
	Barasat ...	1·93	6⅝	5 15/16	
	Basirhat ...	4·29	7	7	
2	NADIA ...	2·10	8	8	Weather seasonable. Harvesting of *aus* paddy and jute continues. Prospects of standing crops are not favourable. Stocks of food-grains, fodder and water are sufficient. Cattle-disease is reported from thanas Santipur and Chakdah.
	Kushtia ...	2·77	6¾	6¾	
	Meherpur ...	3·99	7½	7½	
	Chuadanga ...	3·26	7	7	
	Ranaghat ...	3·46	7	7	
3	MURSHIDABAD	1·91	8	8	Weather seasonable. Condition of jute is not good. Prospects of standing crops are fair. Cattle-disease is reported from Suti (police-station) and Khargram (police-station) in Kandi. Fodder and water are sufficient.
	Lalbagh ...	2·92	7	7	
	Jangipur ...	3·74	8	8	
	Kandi ...	5·27	8½	8½	
4	JESSORE ...	5·39	7	8	Weather seasonable. Rain has done good to the crops. Harvesting of *aus* paddy is nearly finished. Jute is being steeped. Rice is being imported in Narail. Want of fodder is felt in places. No cattle-disease.
	Jhenidah ...	3·39	7	6½	
	Magura ...	2·74	7½	7¼	
	Narail ...	1·34	7¼	7¼	
	Bangaon ...	5·15	7⅞	7¼	
5	KHULNA ...	0·64	7 / 8½	7 / 8½*	Weather seasonable. Harvesting of jute and *aus* paddy and transplantation of winter rice are in progress. Fodder and drinking water are sufficient. Rinderpest is reported from thana Paikgatcha.
	Satkhira ...	1·41	6½	6½	
	Bagerhat ...	3·05	6½	6½	

NOTE.—For subdivisional stations, figures of rainfall and prices relate to the week ending on the previous Saturday. The prices reported from Noakhali are those prevailing on the previous Saturday. From all other head-quarters stations, figures for prices and rainfall relate to the week ending on Monday.

* Rangoon rice.

			This week.	Previous week.	
1	2	3	4	5	6
		Inches.			
6	BURDWAN ...	2·93	8	8	Weather hot. Weeding of winter rice, cutting and steeping of jute are going on. Cutting of *aus* paddy has begun in places. Probable outturn of winter rice is expected to be between 8 to 10 annas. Prospects of jute and sugarcane are bad. Stocks of food-grains and fodder are sufficient except in flood-affected area. Cattle-disease is reported from Raniganj, Asansol and Barakar.
	Asansol ...	3·08	7	7	
	Katwa ...	3·23	7	7	
	Kalna ...	4·38	6½	6½	
7	BIRBHUM ...	2·42	8	8	Weather hot. Fodder and water are sufficient. No cattle-disease. Prospects of winter rice are good. Weeding of winter rice is going on.
	Rampurhat...	2·69	8	8	
8	BANKURA ...	2·02	9	8	Weather hot. Harvesting of *aus* paddy has begun. Standing crops are progressing well. Fodder and water are sufficient. No cattle-disease.
	Vishnupur...	1·83	8½	8½	
9	MIDNAPORE	1·52	8¼	8¼	Weather hot. Transplanting of winter rice continues. Harvesting of jute and autumn rice is going on at Tamluk, Ghatal and Gopiballavpur thana. Fodder and water are sufficient except in Contai and Tamluk, where there is a dearth of fodder. No cattle-disease.
	Ghatal ...	1·16	8	8	
	Tamluk ...	1·06	6½	6½	
	Contai ...	2·04	7½	7½	
10	HOOGHLY ...	5·46	7	7	Weather seasonable. The recent heavy rain and floods have done considerable damage to jute and winter rice. Harvesting of jute is going on. No cattle-disease. Fodder and water are sufficient. Condition of cattle is good except in the flooded areas.
	Serampore ...	2·15	6	6½	
	Arambagh ...	1·86	8	8	
11	HOWRAH ...	1·12	7	7	Weather seasonable on the whole, but cloudy and rainy in some places. Harvesting of jute is going on in many places. Fodder insufficient in the flooded areas.
	Ulubaria ...	0·78	6½	6½	

(*n*) Not reported.

		Inches.			
12	RAJSHAHI (RAMPUR-BOALIA).	2·42	6	6	Weather seasonable and favourable to agricultural operations. Harvesting of jute and *aus* paddy continues. Stock of food-grains and fodder is sufficient. No large import or export is going on. Condition of cattle is good. Prices are still rising.
	Naogaon ...	5·45	6½	6¾	
	Nator ...	6·34	6	6	
13	DINAJPUR ...	4·24	6½	6¾	Weather seasonable. Transplantation of winter rice is almost finished. Steeping and washing of jute and harvesting of *bhadoi* paddy are in progress. Prospects of winter rice very good, but not of jute and *bh·dloi* paddy. Stock of rice and fodder is sufficient. Prices are increasing. Export continues. Cattle-disease is reported from Ghoraghat.
	Thakurgaon	0·90	6½	7	
	Balurghat ...	(*n*)	(*n*)	7¼	
14	JALPAIGURI	5·78	7	7	Weather seasonable. Cutting, steeping and washing of jute are going on and the outturn is fair. Harvesting of *bhadoi* paddy and transplantation of winter rice are almost finished. No want of fodder, water and food-grains.
	Alipur ...	7·80	6	6½	
15	DARJEELING	6·70	6½	6½	Weather rainy. More sun would be beneficial to crops. Average price of maize is about 8½ seers per rupee at Sadar and 20 seers at Kalimpong.
	Kurseong ...	4·31	7	7	
	Siliguri ...	3·20	6	6	
16	RANGPUR ...	2·79	6	6	Weather cloudy. Prospects of standing crops good. Transplantation of winter rice and steeping and washing of jute have facilitated by the recent rain Price of rice is stationary. Fodder and water are sufficient. No cattle-disease.
	Nilphamari	3·77	7	6½	
	Kurigram ...	3·95	6	6	
	Gaibanda ...	5·84	6½	6½	
17	BOGRA ...	5·06	6½	6¼	Weather cloudy and hot. The rainfall is general. Transplantation of winter rice is just finished and its prospects are favourable. Harvesting of *aus* rice is nearly finished. Steeping and washing of jute continue. Stocks of food-grains and fodder are running out. Prices of food-stuffs are rising. Rangoon rice is being imported.
18	PABNA ...	1·85	6¼	6⅞	Weather hot and occasionally rainy. The rain during this week and the last improved the condition of winter ؞ice and facilitated the steeping of jute. The condition of sugarcane crop is good. Cattle-disease is not reported. About 12 annas of the jute crop has been harvested. The outturn is about normal.
	Sirajganj ...	0·86	6⅝	6⅝	

(*n*) Not reported.

Serial No.	Districts and subdivisions.	Rainfall.	Price of common rice, in seers, per rupee. This week.	Price of common rice, in seers, per rupee. Previous week.	Character of the weather, condition of crops, etc.
1	2	3	4	5	6
		Inches.			
19	MALDA ...	2·14	7½	8	Weather seasonable. Prospects of winter rice are good. Harvesting of *bhadoi* paddy is completed and that of jute is going on. *Kalai* is being sown. Fodder and water are sufficient. Cattle-disease is reported from Habibpur thana. The price of rice is rising.
20	COOCH BEHAR	10·1	6½	6⅜	Weather cloudy and rainy. Harvesting of *bitri* paddy is completed. Transplantation of winter rice seedlings is still going on. Cutting, steeping and washing of jute are in progress. Condition of standing crops is fair. Fodder and water are sufficient.
21	DACCA ...	1·87	6½	6¼	Weather seasonable. Prospects of standing crops are not good. Harvesting of jute is almost finished. No cattle-disease is reported. Fodder and water are available.
	Manikganj ...	1·87	6½	6½	
	Narayanganj	3·00	7¼	7¼	
	Munshiganj*	(*n*)	(*n*)	6½	
22	MYMENSINGH	3·09	6	6½	Weather seasonable with occasional rain. Prospects of crops are fair. Harvesting of jute has finished in some places and is nearing completion in others. Price of rice is rising in Sadar and Tangail subdivisions. No cattle-disease.
	Jamalpur ...	5·38	6¾	6¾	
	Tangail ...	2·64	6	6½	
	Netrakona ...	6·63	6	6	
	Kishorganj	3·00	6⅜	6 5/16	
23	FARIDPUR ...	0·48	6 6¾‡	5½ 6¼‡	Weather seasonable, but more rain would be beneficial to standing crops. The low level of water may adversely affect the *amon* paddy. Harvesting of jute still continues. State of sugarcane is reported to be flourishing. Prospects of winter paddy are fair.
	Goalundo ...	0·54	6½ 7¼‡	6½ 7⅛‡	
	Madaripur ...	1·70	6¼ 8⅛§	6¼ 8§	
	Gopalganj†	1·06	6½ 8½§	6½	
24	BAKARGANJ (BARISAL).	3·12	6 7‡	6 7‡	Weather seasonable and its effects on crops are favourable. Fodder and water are sufficient. No cattle-disease except in one thana.
	Pirozpur ...	3·02	6½	6¼	
	Patuakhali ...	4·69	6 7½‡	6 7½‡	
	Dakshin Shabazpur (Bhola).	2·01	6 7½‡	6¼ 7‡	

* Munshiganj being very near to Dacca and Narayanganj, its rainfall statistics are not quoted. To give information regarding the Northern part of the district, rainfall figures for Kapasia thana are reported here.

† Rainfall at Haridaspur, which is very near to Gopalganj, is shown here.

‡ New *aus* rice.

§ Rangoon rice.

(*n*) Not reported.

Serial No.	Districts and subdivisions.	Rainfall.	Price of common rice, in seers per rupee. This week.	Previous week.	Character of the weather, condition of crops, etc.
1	2	3	4	5	6
		Inches.			
25	CHITTAGONG	10·57	8¼	8⅛	Weather rainy. Transplantation of *aman* paddy and harvesting of *aus* paddy are over. Outturn of *aus* paddy is fair and prospects of winter paddy are good. Prospects of jute good. Fodder and water are sufficient. Cattle-disease is reported from police-station Chakaria in Cox's Bazar.
	Cox's Bazar	2·34	9	9	
26	TIPPERA (COMILLA).	6·58	6	6	Weather seasonable. Transplantation of *aman* paddy is nearly finished. Recent rain will prove favourable to agricultural operations. Damage done to paddy plants by insects is reported from some places in Brahmanbaria. Prospects of standing crops are fair. Stocks of food-grains are insufficient in almost all places. No cattle-disease. Want of fodder is felt at Nasirnagar.
	Brahmanbaria.	1·33	6¼	6¾	
	Chandpur ...	0·99	6½	6½	
27	NOAKHALI ...	2·49	7 8*	7 8*	Weather seasonable. Harvesting of jute and transplanting of *aman* paddy are nearly completed. Recent rain is favourable to standing crops. Prospects of winter rice are good. Cattle-disease is reported from one thana.
	Feni ...	3·86	7½* 8†	7½*	
28	CHITTAGONG HILL TRACTS.	5·42	8	8	Weather hot with occasional rain. Prospects of crops are fair. No cattle-disease is reported.

* *Aus* rice.
† Rangoon rice.

THE following table compares the rainfall in the Division during the month of August with the normal fall, the actual being given as a percentage of the normal. The table also shows the actual falls for each of the previous months of the year expressed in the same way, and the last column of the table shows the total rainfall of the past eight months of the year 1913:—

Meteorological Division.	January.	February.	March.	April.	May.	June.	July.	August.	Actual rainfall of first eight months of 1913 as expressed a percentage of the normal fall for the period.
South-West Bengal	22	438	115	40	140	209	101	98	141

SUMMARY FOR THE MONTH OF AUGUST 1913.

Meteorological Division.	Of month.			Rainy days.			Since 16th May 1913.	
	Average.	Normal average.	Variation.	Average number in month.	Normal average number in month.	Variation.	Average.	Normal average.
South-West Bengal (Presidency and Burdwan Divisions).	12·03	11·74	+0·29	15·24	15·53	—0·29	51·73	37·53

CALCUTTA,
The 22nd September 1913.

J. R. BLACKWOOD,
Director of Agriculture, Bengal.

To previous years.

9th August	1910	... ...	69·86	Highest water-level.
31st July	1911	... ...	68·16	Ditto.
31st August	1912	... ...	67·16	Ditto.
3rd February	1910	... ...	52·16	Lowest water-level.
25th March	1911	... ...	51·26	Ditto.
12th "	1912	... ...	51·06	Ditto.

N.B.—The gauge-readings commenced from 18th December 1910 at low tide.

ILLEGIBLE,
for *Executive Engineer, Dacca Divn.*

DACCA, *the 16th September 1913.*

Statement of weekly gauge-readings on the river Ganges at Rampur Boalia for the week ending the 20th September 1913.

Date.	Hour.	Height of surface above or below zero *minus* for those below zero.	Height of surface above mean sea-level.	Height of surface above mean sea-level on the same date last year.	REMARKS.
14th Sept. 1913	8 A.M.	Gauge figures marked are as reduced mean sea-level.	58·10	63·55"	The top platform of the masonry gauge has a referring bench-mark with reduced level 67·00 above mean sea-level. It is 40 feet west of Barakuti Cemetery gate.
